MEMORANDUM

February 27, 1996

TO: FILE A63-08376D

FROM: KAY WALKER *KW*

RE: CORRECTION OF REMARKS ON CLAIM

While processing the change of ownership for the other 5 acres that Willowbrook sold (Claim A63-08376C) after processing of transfer 4718, I found that I had inadvertently left in the remark that said "Place of use is located within Lots 7, 8, 9 and 10, Block 1, Calderon Estates Subdivision." This remark should have been changed to show only the Oakley's property which is Lots 9 & 10, Block 1, Calderon Estates Subdivision.

Upon realizing that I had made this error, I corrected Claim A63-08376D today.

DEC 28 1995

Original to be mailed to Idaho Department of Water Resources
Copies to Former Owner and New Owner

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
3. After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.
4. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

TRANSFER NO. 4718
WATER RIGHT NO. 63-08376B

CONDITIONS OF APPROVAL AND REMARKS

- TOA 6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
7. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
8. The total instantaneous diversion of water from all points of diversion under Transfer No. 4718 shall not exceed 0.13 cfs, nor total combined annual volume of 45.0 af.
9. Two points of diversion are located within NESE, S07, T02N, R02E.
10. Place of use is located within Lots 7, 8, 9 and 10, Block 1, Calderon Estates Subdivision.

Dated this 15th day of December, 1995.

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

November 1, 2005

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a printout showing our preliminary recommendation for reporting your claim(s) to the SRBA District Court later in 2005.

Please review the preliminary recommendation carefully. If there is any information on the printout that you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with review are enclosed. For water rights with an irrigation water use, a map produced from Geographic Information System (GIS) computerized images of the place of use for your water right is also enclosed.

If you have questions concerning your recommendation, please contact the Department's Western Regional Office at (208) 334-2190. If needed, an appointment with a water resource agent can be made. Please bring any and all information you have which could help IDWR understand your claim(s) and recommend the claim(s) accurately, which is my directive to the staff.

This preliminary recommendation process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary and appreciated by IDWR to provide accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

SRBA CHAMBERS
P.O. BOX 2707
TWIN FALLS, IDAHO 83303-2707

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous services provided by IDWR.

Sincerely yours,

John M. Melanson
Presiding Judge
Snake River Basin Adjudication

INSTRUCTIONS FOR COMPLETING THE NOTICE OF ERROR REPLY FORM

- Please review the preliminary recommendation carefully. Your name, water right number and address have been pre-printed on this reply for your convenience. Check to be sure that the pre-printed information on this form is accurate. This is an important opportunity to review the Idaho Department of Water Resources (IDWR) conclusions regarding your water rights, resolve errors, and have questions answered before the report is finalized for the Snake River Basin Adjudication (SRBA) Court.
- If you no longer own the property represented in the water right, please forward this mailing to the new owner or contact IDWR-Western Region Office, Adjudication Section, (208) 334-2190.
- If your address has changed correct the information on the Notice of Error form, sign it and return to IDWR. Or you may write a letter, signed by the claimant of record, describe the address change, and list the water rights involved.
- If there is any portion of the preliminary recommendation which is inaccurate or with which you disagree, please complete item number 1, 2 and 3 on the reply, sign where indicated, and return the reply in the envelope provided to the Western Region Office. This reply must be mailed before **November 18, 2005**. If IDWR has questions about the information included in your reply, a staff member will be in contact with you to set up an appointment. If you have questions you may also call our office listed below to speak to or make an appointment with a water resource agent.
- If you do **not** provide a reply, IDWR will submit the information contained in the enclosed preliminary recommendation as a Director's Report to the District Court. At that stage, making changes will require you to file court papers and attend court hearings.
- If you have questions or do not understand this process, please feel free to call the the IDWR Western Regional Office, located at 2735 Airport Way, Boise, Idaho, telephone number: **208-334-2190**.

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and rediversion. Points of injection and rediversion are indicated where water is diverted from one source, injected into another source, and then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

2. The following **REQUIRED** information must be submitted with this form:

A. The appropriate **FILING FEE**. See instructions for fee amounts.

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

5. Date you acquired the property _____

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

DESCRIPTION OF YOUR PORTION OF WATER RIGHT (If the right(s) will not be split, skip this area and proceed to item 7)

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s).** Please enter the number(s) at **Item 1**. Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3**.
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at **Item 6**. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. If an "and" connector is used at Item 4, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

RE: Notice of Claim to Water Right No. A63-08376D

W. Christian and/or Judith Oakley
4120 Edgemont
Boise, ID 83706

Dear Claimants:

Enclosed is a copy of the above referenced claim which reflects the change in ownership of the lands and appurtenant water right covered under the original filing and Transfer No. 4718.

The Department will contact you in the future concerning any requirements that may be needed in order to process this claim for final court decree.

If you have any questions in regard to this matter, please feel free to contact this office.

Sincerely,

KAY WALKER

RE: Claims to Water Rights

Willowbrook Development Inc.
ATTN: Richard Phillips
210 Murray St.
Boise, ID 83714

Dear Mr. Phillips:

Enclosed is a response to your request for search for water rights on the properties you have purchased under the warranty deeds you submitted on September 25, 1995.

In a review of the warranty deeds, I found that we do not have a deed that covers the land in the E $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 28, Twp. 5N, Rge. 1W. This land has been claimed under No. A63-07131 in the SRBA (Snake River Basin Adjudication), and we cannot change the ownership of this property to Willowbrook Development unless you can provide proof of ownership. If you do not own this 20 acres we will have to split Claim A63-07131 into A63-07131A (Hills-Dale) and A63-07131B (Willowbrook) to show the different owners. I have included a copy of the Hillsdale plat that you submitted with the lands identified in your warranty deed, under Parcels I and II, marked for your information. Please let me know how to proceed in regard to this matter.

I have also platted the lands identified in your deeds from Martin and Montierth, et al., and conducted a search of any water rights that may be appurtenant to the properties. I have enclosed Notice of Change of Water Right Ownership forms which will allow us to update the ownership of the properties on the claims submitted in the SRBA. I had to request copies of the deeds on the property you purchased from Martins, back to 1977, to make sure that we had enough information to document our files to complete the ownership change. (Claim A63-08415 was filed by Montierth, et al, but a portion of this land was sold to you by the Martins.)

I also have a question in regard to a domestic well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 25, Twp. 5N, Rge. 2W. This claim is currently in the names of Vanderwey and Norwest Agricultural Credit, Inc. Should this claim also be in the name of Willowbrook? I platted out the metes & bounds description on our computer but cannot tell if you purchased this well and home.

MICROFILMED
OCT 08 1996

I am sorry it has taken me so long to research the properties and reply to you. Hopefully I have found all the rights involved and the enclosed ownership change forms will complete the name changes required. I have included profile reports of each of the rights that are appurtenant to the lands in question.

If you have any questions in regard to any of these claims, please do not hesitate to contact our office.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the typed name.

Conditions of Approval:

1. 028 After specific notification by the department, the right holder shall annually report the amount of water diverted to the department.
2. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
3. R32 This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands above.
4. T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
5. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

IDAHO DEPARTMENT OF WATER RESOURCES

Water Right Report 63-8376B

7. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

Remarks:

1. General The total instantaneous diversion of water from all points of diversion under Transfer No. 4718 shall not exceed 0.13 cfs, nor total combined annual volume of 45.0 af.
Two points of diversion are located within NESE, S07, T02N, R02E. Place of use is located within Lots 7, 8, 9 and 10, Block 1, Calderon Estates Subdivision.

Comments:

1. SCURTIS 12/12/1995 TRANSFER NO. 4718

Comment: Transfer No. 4718 was filed to change the point of diversion and place of use under a portion of Right No. 63-08376, splitting the right into parts A and B.

Total number of acres irrigated: 525

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

MEMORANDUM

TO: Permit No. 63-8376

FROM: Jan Shurte

DATE: September 4, 1987

After my letter of 7/29/86 and various phone calls with Mr. Dixon, it was decided, by Mr. Dixon, that he would take the measurements made by Ric Morris, Lee Sisco, and Cheryl Chapman made in 1979, and 1981. The reason for this was that he feels his pumps may be producing less water now due to the time factor. The exam fee was waived since this exam had been conducted on 7/14/1981.

We have new aerial photos taken in 1982 from the ASCS which shows very little change since the aerial photos that Ric Morris had. Therefore, the acreage that is recommended should be adequate.

The total rights, after the license is issued, will show 874 acres and 11.46 cfs. From all the data collected, it appears the wells did pump a total of 14.05 cfs. Therefore, Water Right No. 63-3079, which was issued for 2 old wells, now abandoned, for some of the same lands, should be transferred to change the points of diversion to the four wells now being used. This would bring the total licensed water to 12.28 cfs. It would probably be easier to inform Mr. Dixon of this possibility at the time of licensing. He would still have 1.77 cfs to cover and could file an application for permit for that amount. However, if a remeasurement were to be conducted on his new application at the time of licensing, and if the wells are now producing less, Mr. Dixon may have a problem. So, the transfer to change the points of diversion for Water Right No. 63-3079 may be all that is needed to assure that Mr. Dixon's rights are covered.

The exam was re-written to help in the licensing procedure, since I had great difficulty in understanding this exam. The place of use appears to be why the exam was not sent to the state office for licensing. Rather than being unsure how many acres were being irrigated, I feel the examiner was unsure as to how to list the acreages in lieu of the other right(63-7131). Therefore, in view of the new aerial photo and Mr. Dixon's willingness to accept the measurements, I feel this is now an adequate exam.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

THE ACRES RECOMMENDED FOR LICENSING ARE A COMBINATION OF NEW LANDS UNDER THIS RIGHT AND SAME LANDS ALREADY LICENSED UNDER 63-7131. THE REASON BOTH WERE INCLUDED IS TO ALLOW THE FULL 7.0 CFS UNDER THIS LICENSE ON AS MANY ACRES AS POSSIBLE. THE TOTAL FOR BOTH RIGHTS WILL BE 11.46 FOR A TOTAL OF 814 ACRES. THE SYSTEM IS ONE SYSTEM FOR BOTH PERMITS, SO THE TOTAL COULD BE THE CAPACITY OR 14.05 CFS. TO HAVE AS MANY ACRES AS THIS PERMIT ALLOWS (525) WOULD GIVE A MORE EVEN DISTRIBUTION OF THE WATER. SEE MEMO FOR FURTHER RECOMMENDATIONS CONCERNING 63-3079.

NOTE: NO IRRIGATION IN SEC. 19, T. 5N, R. 1W.

I. RECOMMENDATIONS

1. Recommended Amounts

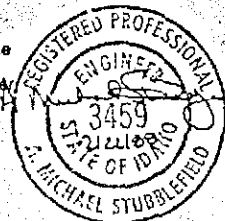

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRRIGATION	4/1	10/30	7.0 CFS	2362.5 AFA
Totals:			7.0 CFS	2362.5 AFA

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other
