IDWR INFORMATION & THE INTERNET

You can search for IDWR records on the Internet at www.idwr.idaho.gov

See main menus in the upper left corner. Click on any of these main menus for a more specific homepage with more information. Most IDWR records are organized by township, range and section. Township, range and section information is usually available from county offices. For best results, try a broad search first and narrow the search as needed to avoid overlooking the information you seek.

Water Right &/or Adjudication Information: click main menu on-line data for that homepage, then click water right & adjudication search. For type of query, select all water & water rights then click the where tab and enter township, range, section (and maybe 1/4 or 1/2 of section). Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use within identical search parameters, not that either are within the parameters).

Well Log Information: on-line data, then well construction search. Enter the township, range and section. Results will list information about 1/4 location in a section. Many well logs have been scanned and are available on the Internet.

Forms, Rules and Statutes: click that main menu item to find this homepage.

If you cannot find any information or have trouble interpreting the information, contact the IDWR staff person on duty each day. This person is called the "office day" person and is available to provide general assistance. Call the office day person at 208-334-2196 between the hours of 9 and 5 Monday through Friday.

Your cooperation in using the Internet is appreciated. Your help in asking for the "office day" person for general help instead of a particular IDWR staff member helps us improve our efficiency and provide better, more cost effective service to the public. Thank you.
