RE: PENDING NOTICE OF VIOLATION for unnecessary flow and waste of water from artesian wells.

Dear Well Owner:

Pursuant to a field investigation conducted on January 24, 2005, the Idaho Department of Water Resources (department) concludes that you are the owner of free-flowing wells located in the SW1/4 of the SW1/4 of Section 32, Township 4N Range 1W, Ada county, Idaho. More generally these wells are located north and east of the intersection of Star Rd. and Ustick Rd.

The subject wells have been allowed to free flow and go to waste into a nearby drain ditch during the non-irrigation season. Our records indicate that there is no authorized use from these wells except between April 1 and November 1 of each year. Failure to properly control the wells and allowing unnecessary flow is a violation of Section 42-1601, and Section 42-1602, Idaho Code. These wells have been allowed to flow and go to waste since the end of the irrigation season, a period exceeding 90 days. Flow estimates and measurements made by department staff indicate that waste from these wells may exceed 800 gallons per minute.

Pursuant to Section 42-1605, Idaho code and in accordance with the provisions of Section 42-1701b, Idaho Code, the department can initiate an administrative enforcement action by issuing a Notice of Violation (NOV) for violation of these statutes. Additionally, the Director may petition the district court for injunctive relief in order to prevent damage pending the outcome of any administrative proceeding. The department may seek civil penalties up to \$10,000 per violation.

The department requires immediate action by the well owner to curtail any and all illegal diversion and waste from these wells. The department will conduct a field investigation on February 15, 2005 to verify that the wells have been shut off. If the department finds that the unnecessary flow has not been curtailed, a formal Notice of Violation will be issued. Any questions you have concerning this matter should be addressed to Rob Whitney or John Westra of this office.

Respectfully,

JOHN WESTRA,
Western Region Manager

Re: SRBA Claim 63-10029 and related claim nos. 63-31303 and 63-31304.

Dear Lori:

The original claim no. 63-10029 was filed in the SRBA with an expansion of the licensed place of use. As a result of changes in land ownership for portions of the claimed places of use, 63-10029 was split into 63-31303 and 63-31304.

The enclosed corrected claim signed by the original claimant, Robert and Marilyn Friday, re-consolidates the place of use so it is consistent with the licensed place of use. Please accept the enclosed corrected claim for filing and correct your records to remove reference to claim nos. 63-31303 and 63-31304 which were created on the basis of the incorrect original filing of the claim no. 63-10029.

Should you need any additional information to correct your records please contact me.

Sincerely,

Vic Conrad

An 8" cased well drilled 460 FT supplied water to a mint distillery system. The well is an artesian flowing well but does not supply the water needed. A 15 HP submersible pump increases discharge of the well to approximately 300 gpm. Water is pumped into an 800 gallon holding tank and is then diverted to the mint stills via a 15 HP booster pump which supplies approximately 150 PSI pressure to the system. Overflow of the tank is dumped into the irrigation ditch.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-10029, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 19 86.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: A flow measurement port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 3rd day of January, 1985.
