According to 2002 Ada County Tax lot information,
Approximately 6.5 acres of property, most of
which appear to be irrigated, are also owned by the
Witts (but do not have a water right). These are
located above the 3 acres recommended in this right, but
extend northward into the NE SW.

CONVERSATION MEMO

RE: Snake River Basin Adjudication Water Right No. 63-10123

March 30, 2004

Since 1) none of the maps or diagrams in the file accurately depict the location of the well and 2) there is a domestic claim with the same legal description (#63-21442) , I called the Franz Witte Nursery (#853-0808) for more information.

Regarding the location of the point of diversion, Franz Witte, Jr. stated that there are two wells associated with the nursery. According to Mr. Witte, the well that is used for irrigation is located approximately 200 feet north of the SW corner of the property line and 30 to 40 feet west of the property line. He also mentioned that it is approximately 15 feet deep.

Regarding domestic claim #63-21442, Mr. Witte said that there is a separate well used for domestic purposes. According to Mr. Witte, the second well is located in the SE corner of the property and is used in their office buildings.

In addition, I asked Mr. Witte if any surface water supplements the irrigation of the claimed 3 acres and the additional 6.5 acres of land that are located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14 (which also belong to the nursery). Mr. Witte stated that he uses water from the Boise Valley Irrigation Co.

Dear Mr. Witte:

In the final review of your application, it was noticed that you had put your dates of use from February 1st to Nov. 15th.

Normally, the irrigation season begins no earlier than March 15th. Therefore, the Department requires that no earlier date be placed on the application without justification. I am changing the date of use to March 15 to Nov. 15th. If you have any objection or questions, do not hesitate to contact me.

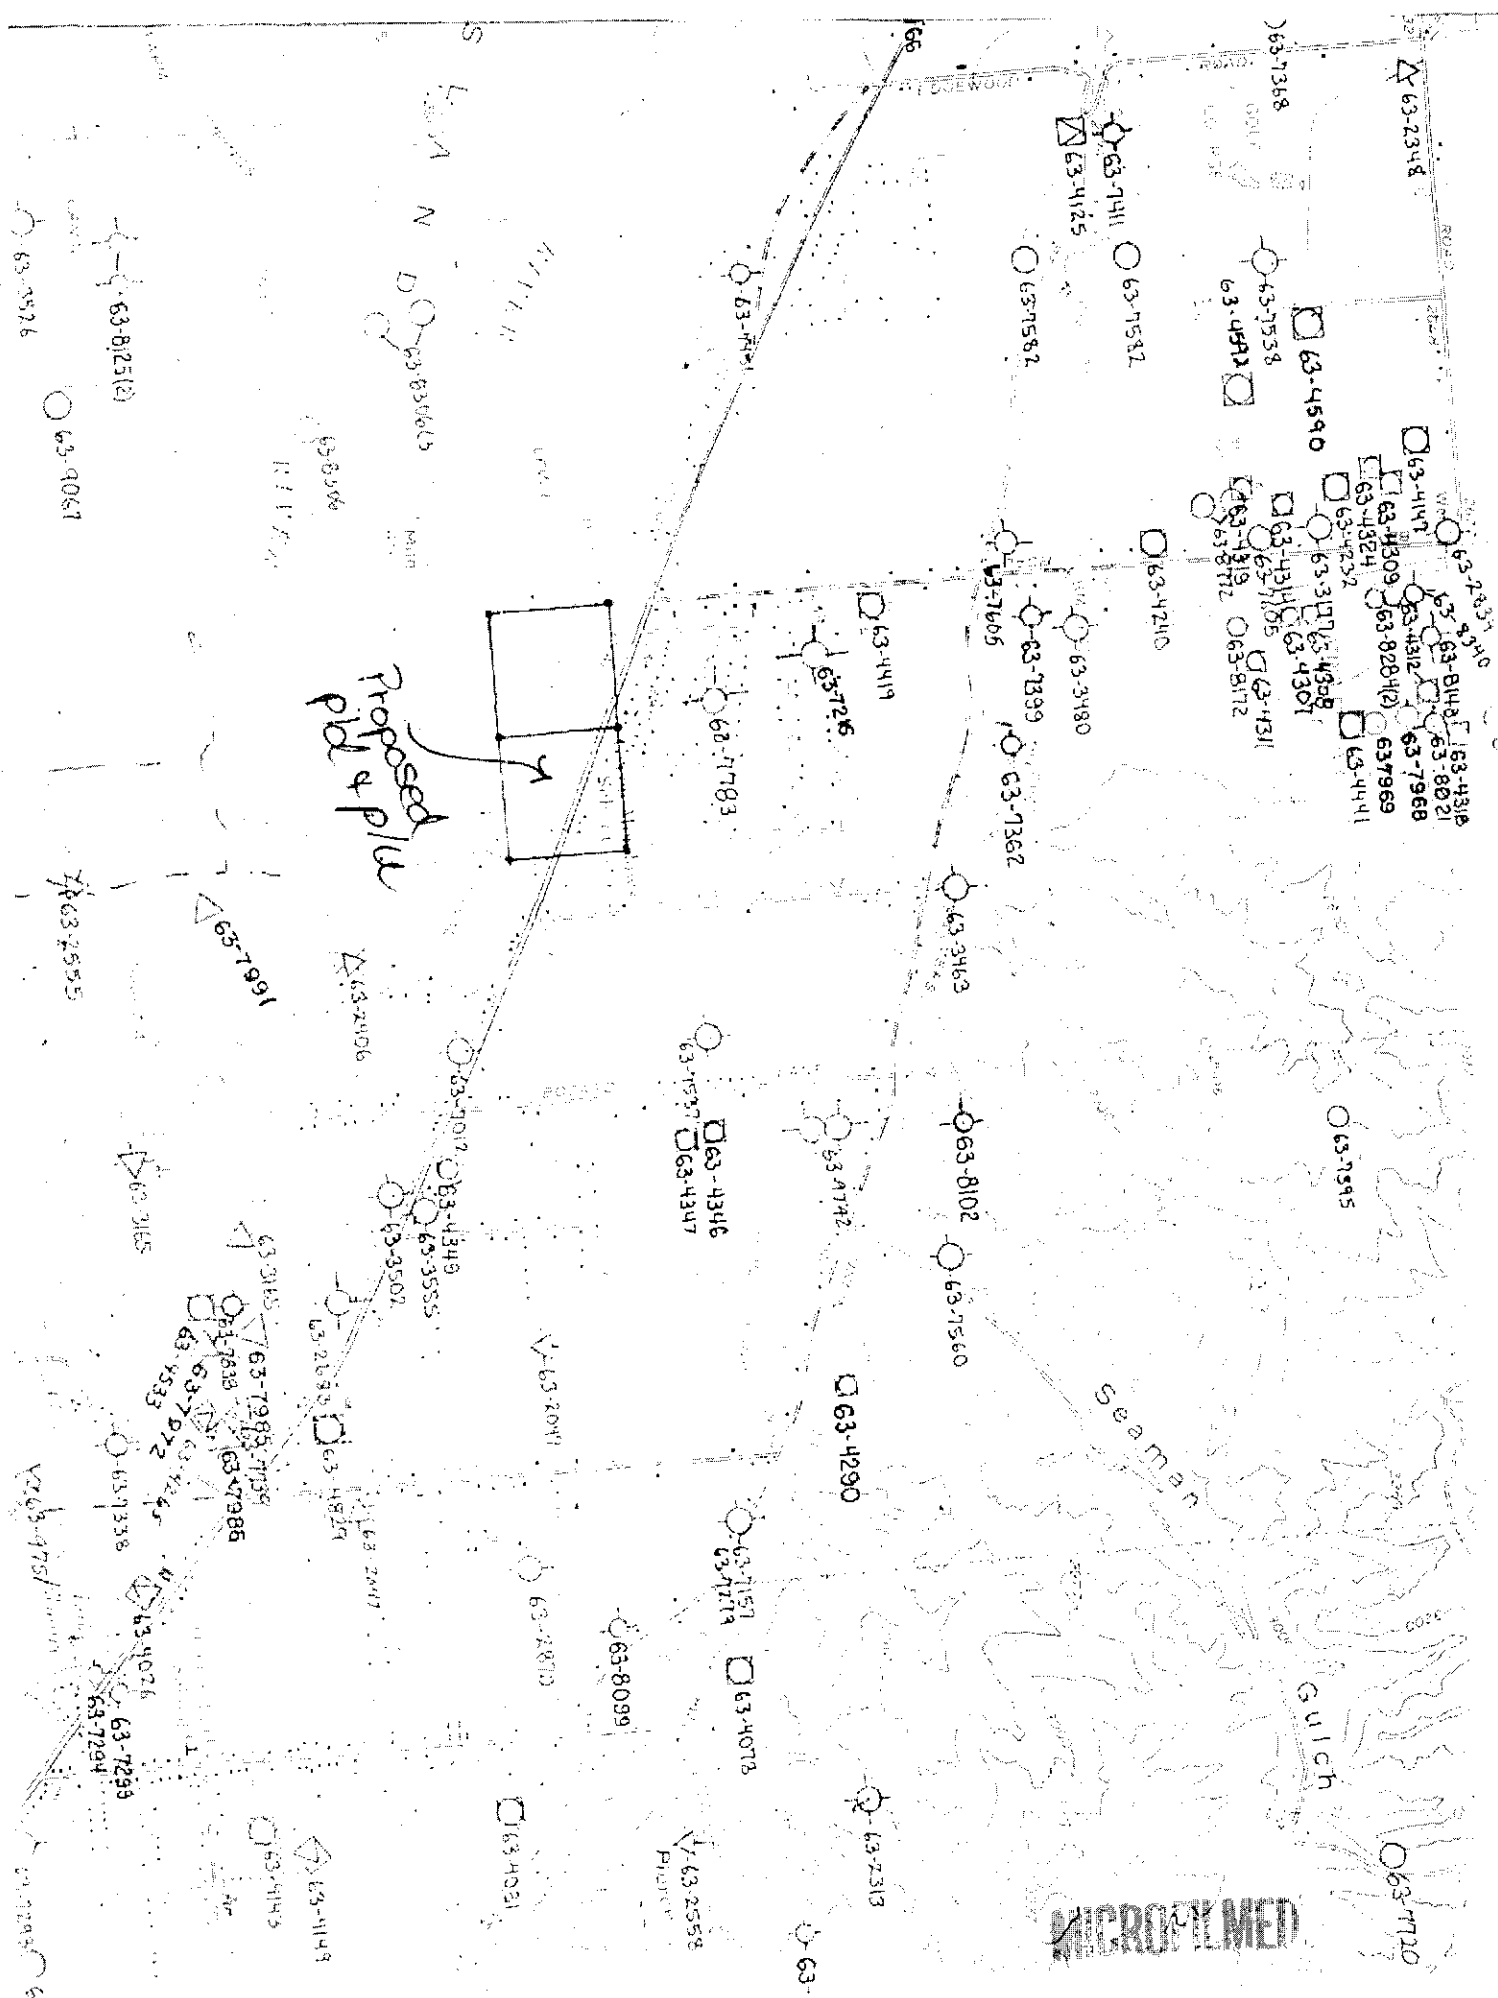

Sincerely,

Jan Grover,
Senior Water Resource Agent
