HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

NONE						

2. Measurements:

- NONE POSSIBLE DUE TO COMPLEX VARIETY OF UNMEASURABLE SPRINKLERS.
- ≈ 15 SO'
- Irrigated area estimated at approx. 236,700 ft^2 (from diagram provided by Manager; diagram attached to topo map). Total development size ≈ 10 ac.
 $236,700 / 43,560 = 5.4$ acres, record as 5 acres.

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method: NONE

5 ac. $\times .03$ cfs/ac = .15 cfs but limit irrigation to .14 cfs as on permit. Thus is .029 cfs.

2. Alternate Method for Checking Purposes:

HP req. where HP = 5, eff = .8
 psi = 80, ≈ 50

$$Q = \frac{(8.8)(.8)(5)}{(2.31 \times 80) + 50} = \frac{35.2}{234.8} = .1499 = .15 \text{ cfs}$$

F. PUMP EFFICIENCY DATA (Optional) - N/A, no flow measurement

Discharge Pressure: _____ psi $\times 2.31 =$ _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3) ; Flow rate: _____ cfs (4)

Panel Input HP: (6) $\times 1.34 =$ _____ (7) Efficiency: (5)/(7) $\times 100 =$ _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (5)(4.5) = 22.5$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (.14)(214)(1.9835) = 59.4$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 22.5$$

2. Volume Calculations for Other Uses:

Recreation - a consumptive except for evaporation
 NON-

- Average lagoon depth is 2'

- Approx. lagoon surface area is 83326

$$\text{Volume} = 2 \times 83326 = 3.8 \text{ AF}$$

on (continued)

8" cased well with a submersible 5 hp. pump provides water through buried 3" mains to irrigate nice lawn around condominium site. Water is also diverted to a series of interconnected lagoons for recreation storage in landscaping. A 15 hp. recirculating pump between the well and lagoon uses stored water to keep lagoons full and healthy. Ditch water from the Rust Lateral (Meridian Irrig. Dist.) enters the lagoon via a buried 3" line. While groundwater is added to surface water for recreation storage, surface water does not mix with groundwater for irrigation. A variety of unmeasurable sprinklers is employed in irrigation.

US AND OVERLAP REVIEW ANALYSIS

See narrative that justifies Rec'd ~~uses~~ shown below.

NOTE: H₂O capacity of .15 cfs. This is a reasonable estimate favor the water users (assuming high efficiency). It seems reasonable to limit the total diversion rate to that allowed for irrigation and supported by the theoretical flow.

Overlap - Possible plan conflict.

PD: Three other wells, no conflict

PU: All concern other uses or other acres ~~except~~ 63-2128. This is an old license for .80 cfs on 40 acres in SWNW 5.7 using unvaried stream with diversions at NE corner and SE corner of SWNW 5.7. Most recent topo does not show unvaried stream there. Database does not show a change in this old WR. Without additional investigation, I would assume this is an abandoned WR or is somehow involved with the irrigation district.
