E. NARRATIVE/REMARKS/COMMENTS

ON 2/18/04 I CONTACTED MRS SWAIN AND MADE ARRANGEMENTS TO MAKE A FIELD EXAM FOR THIS WELL. SEE EXPLAINED THE LOCATION USE AND IRRIGATION SYSTEM ON THE PHONE. I TRAVELED TO THE PLACE ON USTICK RD JUST WEST OF MAPLE GROVE. THE PROPERTY IS APPROXIMATELY 300' SQUARE AND CONTAINS ABOUT 2 AC. ON THE PROPERTY THEY HAVE CREATED A SMALL SUB-DIVISION WITH SIX DUPLEX TOWNHOUSES. ALSO THE ORIGINAL HOME IS STILL THERE, WHICH HAS BEEN REMODELED AND CONTAINS 4 SMALL APARTMENTS. THEY ALSO HAVE A SWIMMING POOL. THE ROAD INTO THIS COMPLEX IS NAMED "PATRICIA DR". THE WELL IS LOCATED NEAR THE SE CORNER OF THE PROPERTY AND IS APPROX. 30' OFF OF USTICK RD. THERE IS A SMALL "PUMP HOUSE + WELL P.T." THE PUMP IS A 1 1/2 HP SUBMERSIBLE WITH A LARGE PRESSURE TANK. ACCORDING TO MRS SWAIN, THE ONLY USE FOR THE WATER PUMPED IS IRRIGATION OF THE LAWNS AROUND ALL THE BUILDINGS. THE IRRIGATION SYSTEM IS A TYPICAL UNDERGROUND SPRINKLER WITH SEVERAL ZONES. I OBTAINED THE PUMP MOTOR INFORMATION AND CALCULATED A THEORETICAL FLOW RATE.

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right No. A63-15381
Evidence of Priority**

September 29, 2003

According to 2002 Ada County Tax Lot information, the current owner is:
Cory & Lori Lynn Swain, 6231 W. Long Branch Lane, Boise 83703

October 1, 2003

I returned Geraldine Hyatt's call. The Hyatts lived on this property from the early 1960s and sold it in 1997. Mrs. Hyatt said that she had a folder that had documents pertaining to water rights from the previous owner and she believes that she either gave these documents to the title company or left them in the house. When I asked if she would be willing to fill out an affidavit for evidence of priority, Mrs. Hyatt could contact her and request a statement regarding the priority date.

February 17, 2004

I called #229-1010 (home) and spoke with Cory Swain regarding evidence of priority. He said that he bought the property 5 years ago. I told him that Geraldine Hyatt said that she would be glad to fill out an affidavit concerning the claimed priority date. I gave Mr. Swain Mrs. Swain's number and he said that he will give her a call. I also told Mr. Swain that we need him to fill out a Change In Ownership form. I gave him the IDWR website address and he said that he would go to the website and fill out the required form.

May 18, 2004

I called #229-1010 and spoke to Lori Swain briefly. She said that I should call Cory's business (#472-9220). I called this number and left a message on the machine for Mr. Swain, saying that we need evidence of priority and reminded him that Geraldine Hyatt would fill out an affidavit for him.

May 19, 2004

Cory Swain returned my call. He said that he spoke with Mrs. Hyatt and she is having difficulty coming up with an explanation for the claimed 1929 priority date. I faxed (#884-5611) Mr. Swain a copy of the Notice of Claim and a blank affidavit form.

RE: Snake River Basin Adjudication (SRBA) Claim No. A63-15381

Dear Mr. and Mrs. Swain:

As you are aware, the Department of Water Resources, Western Region, is in the process of reviewing adjudication water right claims in your area. Although it is our goal to favorably recommend historic water rights, I have no choice but to recommend this claim as disallowed to the Snake River Basin Adjudication court.

Your adjudication claim is being recommended for disallowal because:

____ 1.) No beneficial use was found.

X 2.) Ownership was not confirmed.

X 3.) Other – After two letters requesting evidence of priority (last due date: March 12, 2004) and several telephone conversations, we have not received any documentation to substantiate the claimed priority date.

Respectfully submitted,

4, 5, and

You can search for IDWR records on the Internet at www.idwr.state.id.us

Look for "Top Picks" on the home page.

For Water Right &/or Adjudication information, click "Adjudication & Water Rights Search (text based)" for best results. The best starting point in your search is to use the "Where" tab under that site and enter the township, range, section (and maybe $\frac{1}{4}$ or $\frac{1}{4}$ of the section) for the property in question. Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use are within identical search parameters, not that either are within the parameters). It is better to do a broader search first instead of a narrow search. A narrow search would include a street address or person's name, for example, and might miss the information you are seeking.

For Well Log information, click "Well Construction Info Search." Again, use a broader search at first such as township, range and section. Results will list information about the $\frac{1}{4}$ $\frac{1}{4}$ location in a section. You can narrow your search after seeing the initial results. Many well logs have been scanned and are available on the Internet.

Forms, Rules and Statutes can be found under "Top Picks."

Whatever you are searching for, try a broad search first and narrow the search as needed. If you cannot find any information or have trouble interpreting the information, contact the IDWR staff person on duty each day. This person is called the "office day" person and is available to provide general assistance. Call the office day person at 208-334-2190 between the hours of 8 and 5 Monday through Friday.

Your cooperation in using the Internet is appreciated. Your help in asking for the "office day" person for general help instead of a particular IDWR staff member helps us improve our efficiency and provide better, more cost effective service to the public. Thank you.

Re: SRBA Claim A63-15381

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-15381

Dear Claimant(s),

In the past, Geraldine and Lawrence Hyatt submitted the above referenced claim during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim for your reference only, it is not necessary to return this print-out or re-file it. The Hyatts, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by October 27, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-15381

Dear Claimant,

9-29-03 present this letter to address above

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 1, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above. In addition, please contact me at the Western Region office as soon as possible to set up a field exam.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office
