**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, **the seller should be able to provide you with the water right or adjudication claim number(s).** Please enter the number(s) at **Item 1.** Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3.**
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4.** Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at **Item 6**. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. If an "and" connector is used at **Item 4**, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

Re: Notice of Claim to a Water Right No. 63- 15557

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
