According to Lee Schultsmeier,
Well A is associated with
A03-16555; Well B is
associated with 63-16554;
and Well C is associated
with 63-16553.

According to Mr. Schultsmeier,
Well B is the only
functional well today.

(in office review)

FIELD EXAMINER: Kimberly Brown

Additional comments -

12/9/04

According to Mr. ^{Lee} Schultsmeier, who dropped the packet filled with Blanche Schultsmeier's affidavit, this well has not been functional since 1987's after the Challis earthquake hit. He said it was used for irrigation and stockwater purposes until the earthquake destroyed it and has not been used since that time (see Affidavit)

- Kimberly Brown

(Mr. Lee Schultsmeier stated this during our brief conversation when he brought the Affidavit to the office).

Mr. Schultsmeier also stated that the other wells associated with 63-15553 and 63-16554 have not been producing well since Bonbury Golf Course & all the subdivisions went in.

IDWR INFORMATION & THE INTERNET

You can search for IDWR records on the Internet at www.idwr.idaho.gov

See main menu in the upper left corner. Click on any of these main menus for a more specific homepage with more information. Most IDWR records are organized by township, range and section. Township, range and section information is usually available from county offices. For best results, try a broad search first and narrow the search as needed to avoid overlooking the information you seek.

Water Right &/or Adjudication Information: click main menu on-line data for that homepage, then click water right & adjudication search. For type of query, select all water rights then click the where tab and enter township, range, section (and maybe 1/4 or 1/4 of section). Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use within identical search parameters, not that either are within the parameters).

Well Log Information: on-line data, then well construction search. Enter the township, range and section. Results will list information about 1/4 1/4 location in a section. Many well logs have been scanned and are available on the Internet.

Forms, Rates and Statutes: click that main menu item to find this homepage.

If you cannot find any information or have trouble interpreting the information, contact the IDWR staff person on duty each day. This person is called the "office day" person and is available to provide general assistance. Call the office day person at 208-334-2198 between the hours of 8 and 5 Monday through Friday.

Your cooperation in using the Internet is appreciated. Your help in asking for the "office day" person for general help instead of a particular IDWR staff member helps us improve our efficiency and provide better, more cost effective service to the public. Thank you.

7.12.05

Mrs. Carlene Canfield
will file the Change
in W.R. Ownership
form she received in
the Notice of Error
packet for #63-213
for #63-16555 to
change ownership
from the Schultsmeiers
to the Canfields.

deposes and says:

(See Attached Map)

Well A, was an artesian that stopped flowing after the Challis earthquake and soon after was not functional for the flood irrigation of approximately 3 acres below the hill. I believe the earthquake was in 1987, and well drilled early 1962.

Well B, was drilled around the spring of 1977 for 1 domestic home and stockwater and functioned as a backup well for well C in the early 80's. After that it served 2 domestic homes and stockwater until 1984, then served only 1 domestic home and stockwater.

Well C, was a hand dug well around 1910 and was the primary well for one domestic home and stockwater. This well became non-functional around the early 80's, soon after the development wells for the Brainbary Subdivision east of Locust Grove road.

RE: Snake River Basin Adjudication (SRBA) Claim No. A63-16555
Evidence of Priority and Change In Water Right Ownership

Dear Mrs. Canfield,

Thank you for calling me this afternoon. I sincerely hope that Mrs. Schultsmeier is able to fill out the enclosed Affidavit by stating her personal knowledge of the use of the well for irrigation of 3 acres beginning in 1962. If she is able to do so, the signed Affidavit would fulfill the requirement for evidence of priority.

In addition, since the map Mrs. Schultsmeier attached to the *Notice of Claim* is difficult to interpret, when you speak with Mrs. Schultsmeier concerning the evidence of the priority date for 63-16555, please also:

- 1.) show her the three *Water Right Reports* for 63-16553 (1 domestic household and stockwater use), -16554 (another domestic household and stockwater use), and -16555 (irrigation of 3 acres and stock) [enclosed] and
- 2.) then show her the "blank" aerial photo in order that she indicate where the 2 domestic houses are located, where the well(s) are located, and where the 3 acres of irrigation are located. (Please draw this information on the aerial and return it to me along with the other documents.)

If you are the current owner of the parcels that Mrs. Schultsmeier indicates pertain to the 3 water rights enclosed, it is necessary that you fill out the enclosed *Change In Water Right Ownership* form for any that apply.

Please feel free to contact me at 334-2190 if you have any questions.

Respectfully submitted,

Kimberly L. Brown

also sent: - cc of Infrared FX & photos
- cc of Notice of Claim(w/ maps)
- Ev. of Priority pamphlet
- blank Affidavit
- cc of 63-16553, -16554, -16555 Adj Reports
- Change in Ownership form
- 4 aerial photos

An aerial photograph of a landscape, likely a rural area. A road or path runs diagonally from the bottom left towards the center. The surrounding area appears to be fields or open land. The word 'SENE' is printed in large, white, sans-serif capital letters in the upper left quadrant. The word 'NESE' is printed in large, white, sans-serif capital letters in the lower left quadrant. A white rectangular box with black text is positioned in the upper left, overlapping the 'SENE' text and the landscape. The overall image has a high-contrast, grainy appearance, typical of a photocopy or a low-quality scan.

SENE

Based on Mrs. Schultsmeier's map
(attached to the enclosed Notice
of Claim). it appears that she indi-
cated these parcels of land for 63-
16553, -16554, & -16555.

DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter the number(s) at **Item 1**. Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. **Do not** obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at **Item 3**.
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at **Item 6**. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. If an "and" connector is used at Item 4, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right No. A63-16555

September 11, 2003

Janice Lawson, attorney for Mark and Carlene Canfield, called and left a message on my voice mail.

I called #388-4988 and spoke with Ms. Lawson. She said that the Canfield's bought this property just a few years ago. After I explained the concept and need for evidence of priority, Ms. Lawson said that she believes that Mrs. Schultsmeier, who signed the original claim in 1989, is still alive. Ms. Lawson stated that she would try to contact Mrs. Schultsmeier. I also pointed out that the Canfields need to fill out a Change in Ownership form and stated that the form could be found on the IDWR website. Ms. Lawson said that she would go to the website in order to fill out the Change in Ownership form. Per Ms. Lawson's request, I extended the evidence of priority due date for another two weeks.

March 11, 2004

Ms. Lawson requested more time to provide evidence, therefore, I extended the due date another two weeks.

May 17, 2004

I called Ms. Lawson at #388-4988. Since Ms. Lawson was not in the office, I left a message with her secretary regarding the need to submit evidence of priority as soon as possible. I also added to the message the need for a Change in Ownership.

October 15, 2004

Due to the disallowal letter I sent to Ms. Lawson (and the Canfields) on September 21, 2004; Mrs. Canfield called speak with me. Mrs. Canfield said that her and her husband bought this farm 4 years ago from the Schultsmeiers. According to Mrs. Canfield, there are approximately 40 acres in total involved with the farm. When I told Mrs. Canfield that I have had several conversations with Ms. Lawson regarding this claim and the need for evidence of priority, she was amazed that her attorney let this matter slide and was grateful that I included her in my last disallowal letter; otherwise she would not have known about Ms. Lawson "dropping the ball." I sent a large packet of information and various requests (see file) to Mrs. Canfield and gave her more time to provide evidence of priority.

RE: Snake River Basin Adjudication (SRBA) Claim No. A63-16555

Dear Ms. Lawson,

As you are aware, the Department of Water Resources, Western Region, is in the process of reviewing adjudication water right claims in your area. Although it is our goal to favorably recommend historic water rights, I have no choice but to recommend this claim as disallowed to the Snake River Basin Adjudication court.

Your adjudication claim is being recommended for disallowal because:

_____ 1.) No beneficial use was found.

_____ 2.) Ownership was not confirmed.

 X 3.) Other – After two letters requesting evidence of priority (last due date: March 12, 2004) and several subsequent telephone conversations extending the due dates, we have not received any documentation to substantiate the claimed priority date.

Respectfully Submitted,

Kimberly Brown
Senior Water Resource Agent

Re: SRBA Claim A63-16555

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

NICHOLAS B. SPENCER
Deputy Attorney General
Idaho Department of Water Resources

Re: Snake River Basin Claim No. A63-16555

Dear Ms. Brown:

As I have mentioned in my voice mails to you, I am the attorney for Mark and Carlene Canfield, whose entity is the successor in interest to property formerly owned by Blanche and Lee Schultsmeier. I have enclosed a copy of your letter of August 4, 2003 that was received from the Schultsmeier's attorney last week for your reference.

Since I have not yet had a return call from you and the deadline for submission of information is today, September 4, 2003, I am writing this letter to preserve additional time to respond to your request, once your schedule permits time for us to discuss the application process to date and so that I may clarify exactly what it is you need for your files.

As indicated in my telephone messages to you, we did not receive notice of the request for information until last week from the Schultsmeier's attorney. This has left us with very little time to investigate this matter and provide you with the information requested.

My clients acquisition of the property brought with it very little information, if any, regarding the priority dates of water rights for the property. We are, however, very interested in maintaining the priority date claimed by the Schultsmeiers in what must have been an earlier application.

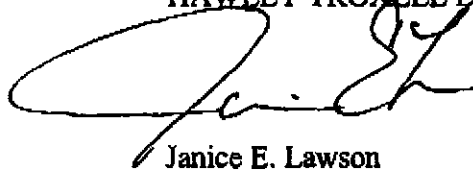

I am moving forward on the basis that we will have an extension of time to provide you with information after we have had the opportunity to discuss this matter. Toward that end, I would greatly appreciate a call, at your convenience.

Kimberly L. Brown
September 4, 2003
Page 2

Thank you very much for your attention to this matter. If my assumption that this matter will be continued is not correct. Please advise immediately.

Sincerely,

HAWLEY TROXELL ENNIS & HAWLEY LLP

Snake River Basin Claim No(s): A63-16555

Dear Claimant,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 4, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above. In addition, please contact me at the Western Region office as soon as possible to set up a field exam.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office
