Re: Notice of Claim to a Water Right No. 63-16655 & 63-16658

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

Liberty Gagnon

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

PRIORITY DATE

- ☐ No change - Complete evidence submitted or not necessary
- ☒ Incomplete - Claimant should be asked when water was first used and submit proof of date.
- ☒ Priority date is acceptable/within mandatory filing dates?

Priority date, per claimant, is: 6/1/1925

(If priority date, based on your exam, seems questionable, explain below.)

The current owners are unable to submit any evidence, therefore, I looked on the Ada County Assessor's Land Records site and am using the land Records as evidence. The new priority date is 3/1/1960. (enclosed)

☒ Changes shown below:

Ada County Land Records show that Parcel No: 30515233650 has 1.76 acres and Parcel No: 3051523365 has 2.2 AC (enclosed). Subtracting trailers, buildings, etc. in ArcView, I calculate 1 AC of irrigation in SWNW and 1.5 acres in the SE NW. Therefore, the total acres equal 2.5; not 4.0 AC as claimed.

* After numerous attempts to obtain evidence of priority, I disallowed the claim after receiving no contact or correspondence from the many different addresses I sent letters to. It was only after I disallowed the claim and sent a letter stating this fact that I received a message from the claimant.

After waiting over two months for evidence of priority and receiving several phone calls from the claimant that they could not obtain evidence of priority, I went to the Ada County Assessor's Land Records site and found 1960 evidence. I then recommended the claim with a new priority date.

INTERNET SEARCH OF IDWR INFORMATION: Change In Owner-
WELL LOGS, WATER RIGHTS, SNAKE RIVER BASIN ADJUDICATION ETC. Ship
submittal).

You can search for IDWR records on the Internet at www.idwr.state.id.us

Look for "Top Picks" on the home page.

For Water Right &/or Adjudication information, click "Adjudication & Water Rights Search (text based)" for best results. The best starting point in your search is to use the "Where" tab under that site and enter the township, range, section (and maybe $\frac{1}{4}$ or $\frac{1}{4}$ of the section) for the property in question. Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use are within identical search parameters, not that either are within the parameters). It is better to do a broader search first instead of a narrow search. A narrow search would include a street address or person's name, for example, and might miss the information you are seeking.

For Well Log information, click "Well Construction Info Search." Again, use a broader search at first such as township, range and section. Results will list information about the $\frac{1}{4}$ $\frac{1}{4}$ location in a section. You can narrow your search after seeing the initial results. Many well logs have been scanned and are available on the Internet.

Forms, Rules and Statutes can be found under "Top Picks."

Whatever you are searching for, try a broad search first and narrow the search as needed. If you cannot find any information or have trouble interpreting the information, contact the IDWR staff person on duty each day. This person is called the "office day" person and is available to provide general assistance. Call the office day person at 208-334-2190 between the hours of 8 and 5 Monday through Friday.

Your cooperation in using the Internet is appreciated. Your help in asking for the "office day" person for general help instead of a particular IDWR staff member helps us improve our efficiency and provide better, more cost effective service to the public. Thank you.

Thanks, Kimberly

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-16655 & -16658
Evidence of Priority**

October 25, 2004

When I returned to the office after the Adjudication Conference, I found a note on my desk that John Warner (cell #866-3213, FAX #286-0792, #286-0790) called regarding Eagle Trailer Park. I called Mr. Warner and found out that he had just become the new manager of the trailer park on the 19th. Subsequently, that's when he ran across all of the evidence of priority letters that I had sent to: 523 Rumble Lane. Apparently the old manager, Rob Haddock, received the documents and chose not to do anything with them. Mr. Warner said that Mr. Haddock told him that he called me several times and I never returned his calls, which is untrue. I never received any calls or messages from Mr. Haddock. I told Mr. Warner that I have already disallowed the 2 claims (63-16658), but that I can undo the disallowal if I receive evidence of priority.

After speaking with Mr. Warner, Mr. Haddock called and I faxed him an evidence of priority pamphlet, a Change In Ownership form, a blank Affidavit form, a Commercial Use Volume questionnaire, and a request to submit a map or plat showing the POU and the location of the POD. They have until November 8th (2 weeks) to submit evidence of priority.

November 29, 2004

Rob Haddock, from Eagle Park, called regarding evidence of priority and his inability to find anything. According to Mr. Haddock, the man who does the water testing for the trailer park can only go back to 1995. Wayne Roundy has passed away, and his son, Wayne Junior, does not want to fill out an affidavit.

Since evidence was due on November 8th, I looked on the Ada County Assessor's Land Records site and found information on each parcel. I told Mr. Haddock that, based on this information that I found, I would place the information in the file and up the priority date to 1960. He was not pleased with the 1960 priority date, but that was the best I could do given all of the circumstances.

To Whom It May Concern,

The Idaho Department of Water Resources is currently in the process of reviewing SRBA claims in your area. You have two claims for commercial and irrigation purposes in Eagle Park from ground water sources dating back to 1925 and 1962.

Our department has attempted to contact the previous owners, Merle and Wayne Roundy, numerous times to request evidence of your priority dates; but have not been successful in this endeavor.

In order to ensure that a recommendation is made to the SRBA court, I would encourage you to contact me at #334-2190 by September 29, 2004. Otherwise, I have no choice but to recommend these two claims as disallowed to the SRBA court.

Sincerely,

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-16655 & -16658

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by October 7, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. Therefore, either Mr. Bryce Scholer or I will be contacting you within the next few weeks to schedule a field exam.

Respectfully Submitted,

Notice of Claim A63-16655 & -16658

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

EVIDENCE OF PRIORITY DATE FOR CLAIMS FILED IN THE SRBA

IF YOU HAVE RECEIVED A LETTER FROM THE DEPARTMENT OF WATER RESOURCES INFORMING YOU THAT YOU MAY HAVE TO SUBMIT PROOF OF BENEFICIAL USE THE INFORMATION BELOW WILL ASSIST YOU IN FINDING THE NECESSARY DOCUMENTATION.

WHAT IS A PRIORITY DATE?

The Priority date is one of the elements of the water right which you were required to state on your notice of claim. The priority date is the basis upon which water is distributed in times of shortage. When there is not enough water to satisfy all existing water rights, then water is distributed first to those with the oldest priority date.

WHAT IS A BENEFICIAL USE WATER RIGHT?

A beneficial use water right is one that is based on actual use of the water, and is not documented by a permit or license issued by IDWR, or a decree issued by a court. A beneficial use water right is established by putting the water to beneficial use, such as for domestic and stockwatering, irrigation, hydropower, commercial or industrial

use, or aquaculture, among others.

Generally, the priority date of a beneficial use right is the date the water was first put to beneficial use. This date is NOT NECESSARILY WHEN YOU ACQUIRED THE PROPERTY, or WHEN YOU FIRST MADE BENEFICIAL USE. A previous owner could have established beneficial use, which you continued.

There is a special category of beneficial use rights called "posted notice" rights, to which special rules apply. Prior to 1903, Idaho had a "posted notice" statute, which provided for posting of a notice including specified information at the point of diversion, recording of the notice at the county recorder's office, and actual diversion and beneficial use within a reasonable time after posting, among other things. If the statutory requirements were met, then the priority date was the date of posting the notice. These "posted notice" water rights are considered a type of beneficial use water right because they are not confirmed by a permit, license, or decree.

FOR WHICH CLAIMS IS EVIDENCE OF PRIORITY DATE REQUIRED?

Each claim filed in the SRBA is the claimant's affidavit (statement) of the elements of the water right being claimed. Some claimants in the SRBA will be required to submit additional evidence of the priority date of the water right IF:

1. *the claim is based on beneficial use*
AND

2. *the claim is NOT a small domestic and stockwater claim.*

NOTE: Additional proof of priority for beneficial use claims for small D&S uses will not be required unless specifically requested by IDWR.

The claim is a beneficial use claim if it is not based on a permit or license issued by IDWR or a decree issued by the court.

Small domestic and stockwater uses are very specifically defined by statute, and proof is required for a beneficial use claim if the use claimed does not meet that definition. If your claim was accepted with a \$25.00 fee, then your claim was probably a small domestic and stockwater claim.

WHAT KIND OF EVIDENCE IS REQUIRED?

SOME evidence of the YEAR of the priority claimed is sufficient. Conclusive evidence is not required. Evidence of the month and day is not required, but should be included if available.

Documentation of the priority date claimed can take almost any form. Generally, the document will be sufficient if it tends to show that water was used:

1. *For the purpose claimed,*
2. *In the year claimed as the priority date,*
AND
3. *On the land claimed as the place of use or by the owner of that land.*

It is possible for a water right to have been established on one parcel of land and then transferred for use on another parcel of land. In such cases, the evidence should tend to show that water was used on the original place of use or by the owner of the original place of use to meet the third part of the requirement.

SOME EXAMPLES OF DOCUMENTS WHICH MAY BE EVIDENCE OF THE PRIORITY DATE

Note: Proof of ownership of land by a title or warranty deed usually does not, by itself, constitute proof of a priority date since the priority is based on use of water.

Here are a few examples and there may be others, but the proof must meet the general requirements highlighted above.

1. *Affidavits - a ~~revised~~ statement of someone with personal knowledge of when beneficial use was first made, such as a neighbor or a previous owner of the property. Personal knowledge means someone who observed the use, not someone who was told of the use by someone else.*

2. *For irrigation claims - crop reports, income tax documents showing income from sale of crops, or property tax documents showing property was taxed as irrigated agriculture.*

3. *For ground water rights - the report*

of the well driller who drilled the well, if a report was filed with IDWR.

4. *Pump test records.*
5. *Sales receipts for equipment or materials used in the water system.*
6. *Records of the person or business who sold, installed, or constructed the diversion works.*
7. *Electric bills for electric powered diversion equipment.*
8. *Homestead documents for irrigation claims, patent documentation for mining claims or other documentation indicating use of water during the acquisition of government land.* These may be of record at the county recorder's office for the county in which the land is located. These should also be of record with the National Archives, although there are often delays in obtaining copies. The address and phone number of the National Archives are:
8th and Pennsylvania Ave., N.W.
Washington, D.C., 20408
202-523-3006
9. *Aerial photography.* Information on available aerial photography can be obtained from the U.S. Geological Survey at the following address and phone number:

U.S. Geological Survey
EROS Data Center
User Services Section
Sioux Falls, South Dakota 57198
605-594-6151

WHAT IF I AM UNABLE TO OBTAIN ANY OF THE SOURCES LISTED ABOVE?

IF YOU CANNOT furnish some proof such as the examples listed above, you may submit your own testimony, in the form of an affidavit (a letter signed by the you and notarized), which explains the basis for the year of priority claimed. The letter should include a statement of the claimant's personal knowledge of the water use, but may also include information the claimant obtained from others.

DOCUMENTS WHICH ARE NOT SUFFICIENT EVIDENCE OF THE PRIORITY DATE CLAIMED

1. **STATUTORY CLAIMS** filed pursuant to Idaho Code 42-243. In the late 1970's, legislation was enacted that required persons with beneficial use rights to register them with IDWR. These "claims" were declarations of the water right owners, and were not investigated or verified. Notices of claims in the SRBA are different, because they will be investigated and verified, resulting in a decree that confirms the water right and properly describes it.

The statutory claim may be evidence of a water right claimed in the SRBA if the times and quantities of use claimed in the SRBA are substantially the same as they were on the statutory claim. EVEN THEN, the statutory claim is evidence of

such use ONLY as the date the statutory claim was filed - NOT as of the priority date claimed either in the statutory claim or the notice of claim filed in the SRBA.

2. **POSTED NOTICES.** The posted notice may be evidence of a priority date as of the date the notice was posted, but ONLY IF some evidence is submitted showing completion of the appropriation within a reasonable time after posting of the notice.

WHAT WILL HAPPEN IF EVIDENCE OF THE PRIORITY DATE IS NOT SUBMITTED?

IDWR will not recommend the claim to be decreed by the court if no evidence of the priority date is submitted. If proof is submitted but it supports a year of priority later than the year claimed, then a later year will be recommended.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-16655 & -16658

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by October 7, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. Therefore, either Mr. Bryce Scholer or I will be contacting you within the next few weeks to schedule a field exam.

RE: Snake River Basin Adjudication (SRBA) Water Right Nos. A63-16655 & A63-16658

Dear Mr. Merle Roundy or Mr. Wayne Roundy,

The Idaho Department of Water Resources is currently in the process of reviewing SRBA claims in your area. You have two claims for commercial and irrigation use in Eagle Park from ground water sources dating back to 1925 and 1962.

Our department has contacted you twice requesting evidence of your priority dates and, currently, there is no evidence in your files supporting the water was used on the claimed places of use beginning in 1925 and 1962.

In order to ensure that a recommendation is made to the SRBA court, I would encourage you to contact me at #334-2190 by August 26, 2004. Otherwise, I have no choice but to recommend these claims as disallowed to the SRBA court.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
