NARRATIVE/REMARKS/COMMENTS

The DRY CREEK DIVERSION appears not to be used at this time, the delivery ditch is not real present at the structure location. (See pic. #1) However there is a corrugated steel culvert approximately 4' x 2.5' crossing Seaman's Gulch Road. (See pic. #2) The well in 36-SN-1E had no power at this time. The main pump lifts the water to the surface then to a 40 HP EASTER pump to a 8" mainline. There are 2- Artesian well for gravity irrigation only. See pics. 9 & 15. Also 2 Artesian wells with pumps (See pic. #12 & 21) The Artesian well in 35-SN-1W with a pump has 2- EDWRTAGS, 1 appears to be an older one. (See pic. #21)

The well beside the Newer Well house is used for stock water only According to Doug Patterson whom I met at the end of Field Exam. That is Renting the property. & seems to be very knowledgeable of the operations. The other Dry Creek Diversion in the SWNE Sec. #35 Appears to be at a lower elevation than this property & may be in property West of Hwy 55. (See pics 25-27) The Spring Creek Diversion Appears to water some of the property East & West of Spring Creek on the South Side of Brookside Lane. (See pics 28-35) The Hot water well has a tag # 0003149. And is located Not far from the well that is only for stock water (See pics 36 & 37)

AFTER EXAM THE FILE SHOULD CONTAIN:

- ☐ Completed claim checklist
- ☐ Photographs of POD's and POU
- ☐ GPS readings
- ☐ Completed map and or GIS layout showing POD's and POU

VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{8.5 \times 4.5 = 382.5}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{1.70 \times 260 = 442 \times 1.9835 = 876.707}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{382.5}$$

MEMORANDUM TO SUBCONTRACTOR

TO: KEN HENLEY
FROM: VICKY L MUSIC, WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: DRY CREEK CLAIMS - FIELD EXAM OF JULIUS JEKER CLAIM ^{NOs.} ~~KNOWS~~
63-17454 AND 63-17455 [GROUNDWATER]
DATE: 8/17/2005
CC: CLAIM FILES

X KEN - I think that this property has been sold. Contact consultant Scott King, SPF Water Engineering, (208) 383-4140 ext. 209 to find out whom to call to access the site.

63-17454 - there are several wells used to irrigate the site so you won't be able to verify acres irrigated from Dry Creek diversion.

1 - please GPS the Dry Creek points of diversion - there is only one claimed but if you see more, gathers info. Get field measurements of ditch, pump info, delivery system description and calculate flows.

2 - locate PODs, other features, on map.

63-17455 - this is an old hot water well that was claimed for irrigation. There is a discrepancy between the claimed POD and the well found by Intrepid. Per the well info in our database, the well with the tag 170883 is really located in the NWNE S 35, not the SWNE S35 as claimed. Please verify whether there is a well near the house where the well was claimed. See map for locations and notes.

1 - gather well/pump information and calculate flow capacity

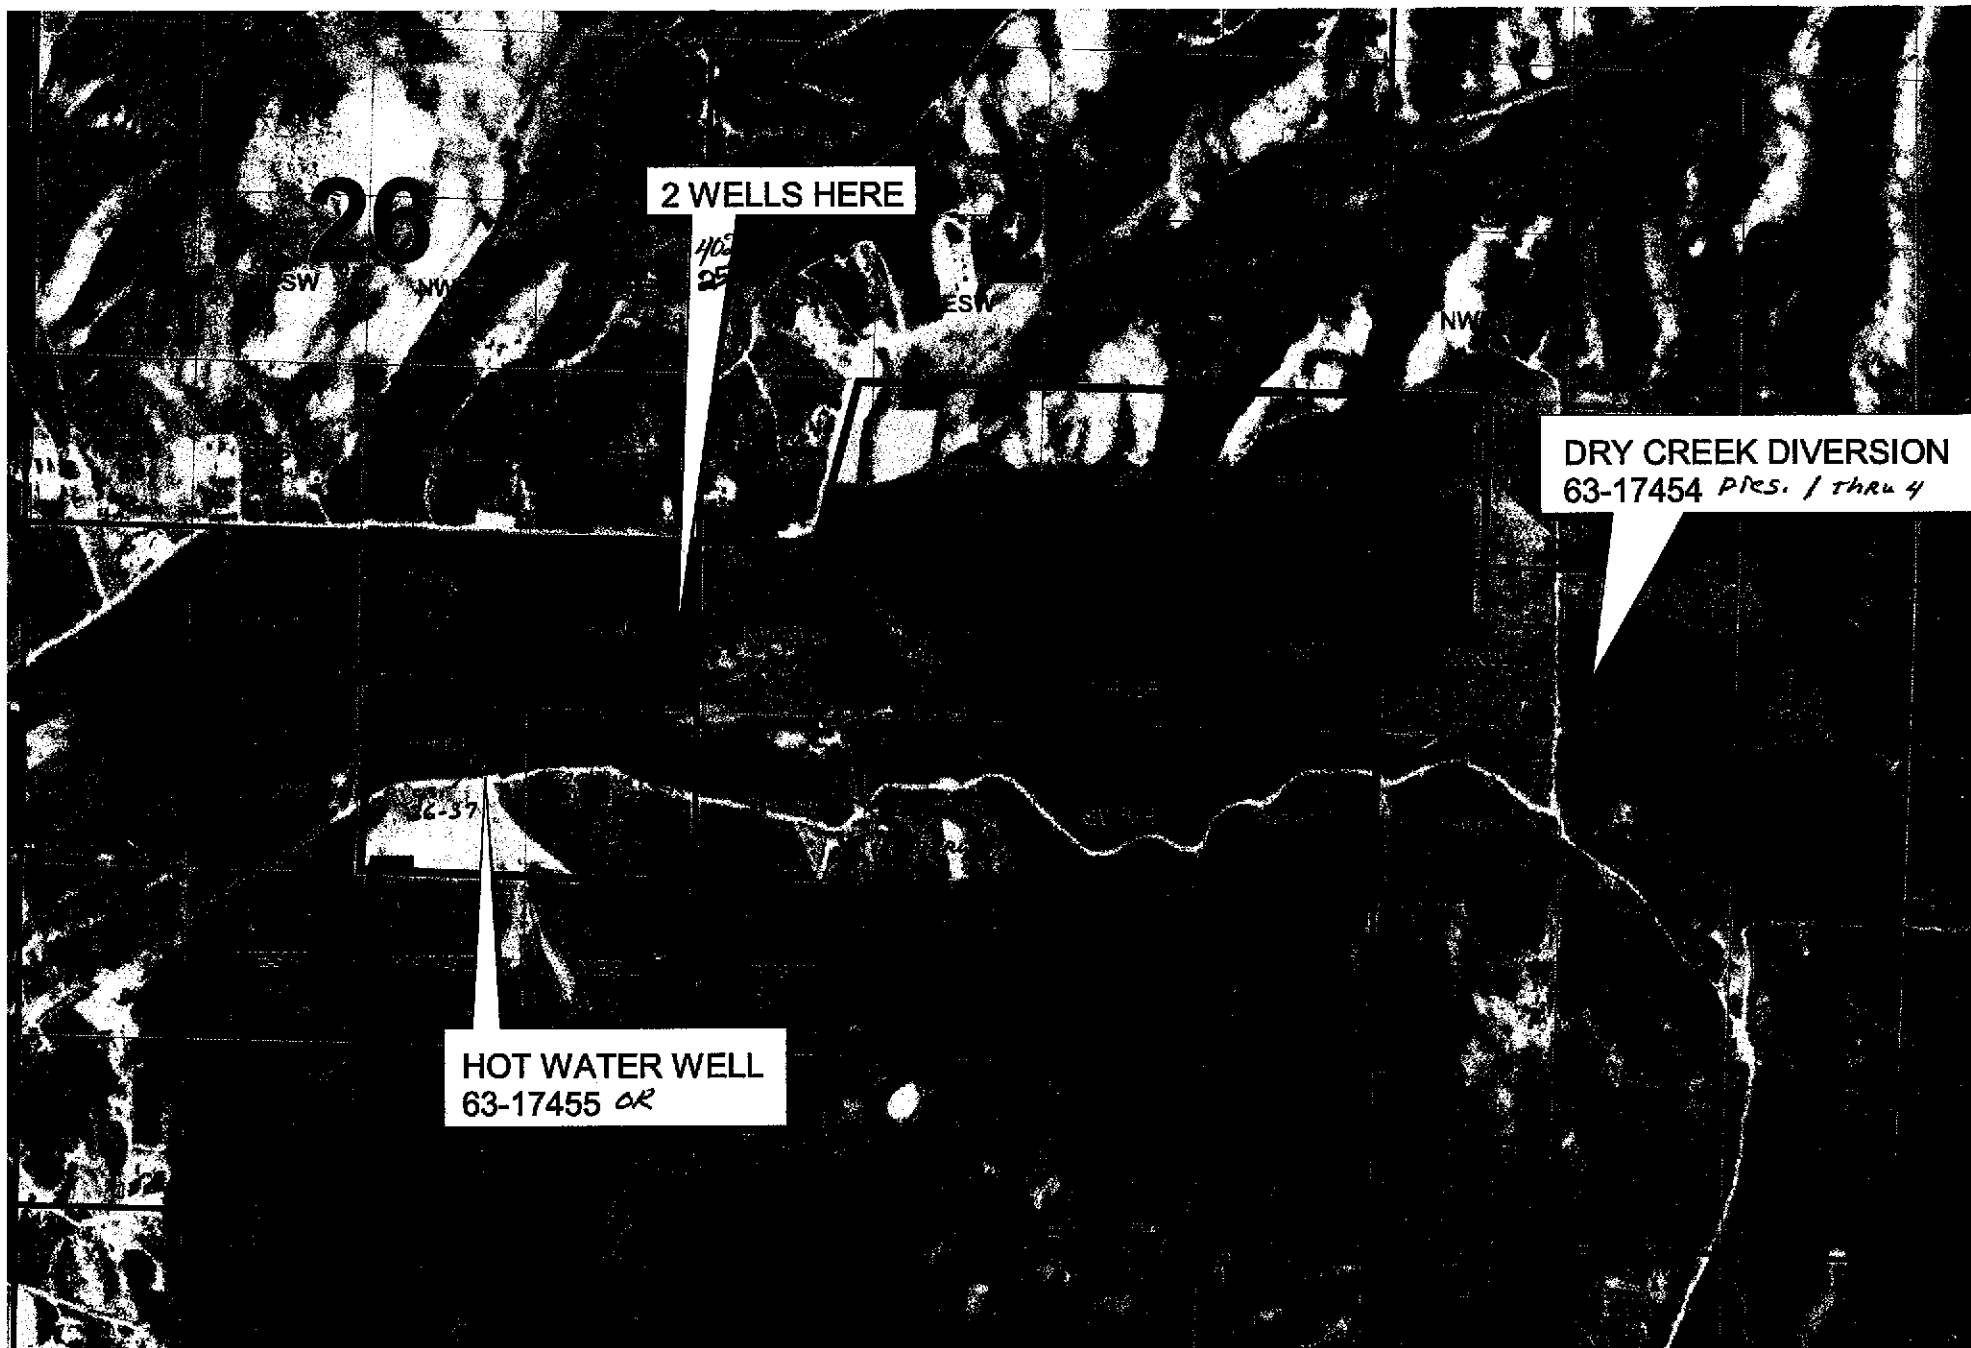

2 - describe delivery system and verify acres irrigated from this well only if it appears that the well in the claimed location is being used for irrigation.

MISC - there are several wells on the property [see map]. please GPS all of the well that you can find. Thanks.

gather well/pump info

Thanks.

IN RE: Proof of Water Right by
Helen Weisshaupt and
Margaret Brusher to the
Waters of Dry Creek and
Spring Creek, Ada County,
Idaho

This affidavit is made in connection with a claim of water right by Helen Weisshaupt and Margaret Brusher to the waters of Dry Creek and Spring Creek in Ada County, Idaho, beneficially used for the purpose of irrigation of approximately 122 acres of land which they own located in the West Half of Section Thirty-five (35) in Township Five (5) North of Range One (1) East of the Boise Meridian, in Ada County, Idaho.

The diversion point in Spring Creek is located in the Southwest Quarter (SW $\frac{1}{4}$) of the Southeast Quarter (SE $\frac{1}{4}$) of Section Twenty-six (26), approximately Six Hundred (600) feet east of the Quarter Section line, and approximately One Hundred (100) feet North of the South Section line.

The diversion point for Dry Creek is in the Northwest Quarter (NW $\frac{1}{4}$) of the Northeast Quarter (NE $\frac{1}{4}$) of Section Thirty-five (35), approximately Eight Hundred and Fifty (850) feet East of the Quarter Section line, and approximately Twelve Hundred (1200) feet South of the North Section line.

BEN DOBSON, being first duly sworn on oath, deposes
and says:

As a small boy and young man I lived with my father, Len Dobson, on the real property now owned by Helen Weisshaupt and Margaret Brusher, and during the years 1920 through 1925 I saw my father, Len Dobson, divert water from Spring Creek at the diversion point above described and water from Dry Creek also at the diversion point above described for the purpose of irrigating crops growing on the described real property. The water from Spring Creek was used in the spring and early summer until the flow of water ceased in the summertime, and the water from Dry Creek was used in the spring and early summer and until the flow was so low that the water could no longer be diverted for irrigation purposes. I further know of my own knowledge that from 1926 until 1937 a farmer by the name of Walter Odermott continued to irrigate the described land from both Spring Creek and Dry Creek using the same points of diversion, and thereafter, beginning in 1937 that Julius Jeker continued the irrigation and beneficial use of the water from the described points of diversion.

MICROFILMED

I make this affidavit from my own personal knowledge for the purpose of establishing that water was diverted from both Spring Creek and Dry Creek for the purpose of irrigating the lands now owned by Helen Weisshaupt and her sister, Margaret Brusher.

DATED this 2nd day of March, 1983.

Subject: Ownership Change and Notices of Error for JMM Dry Creek, LLC

On behalf of our client, enclosed is a Notice of Change in Water Right Ownership from Julius Jeker to JMM Dry Creek, LLC. A \$75 check is included for the three rights not pending SRBA recommendations.

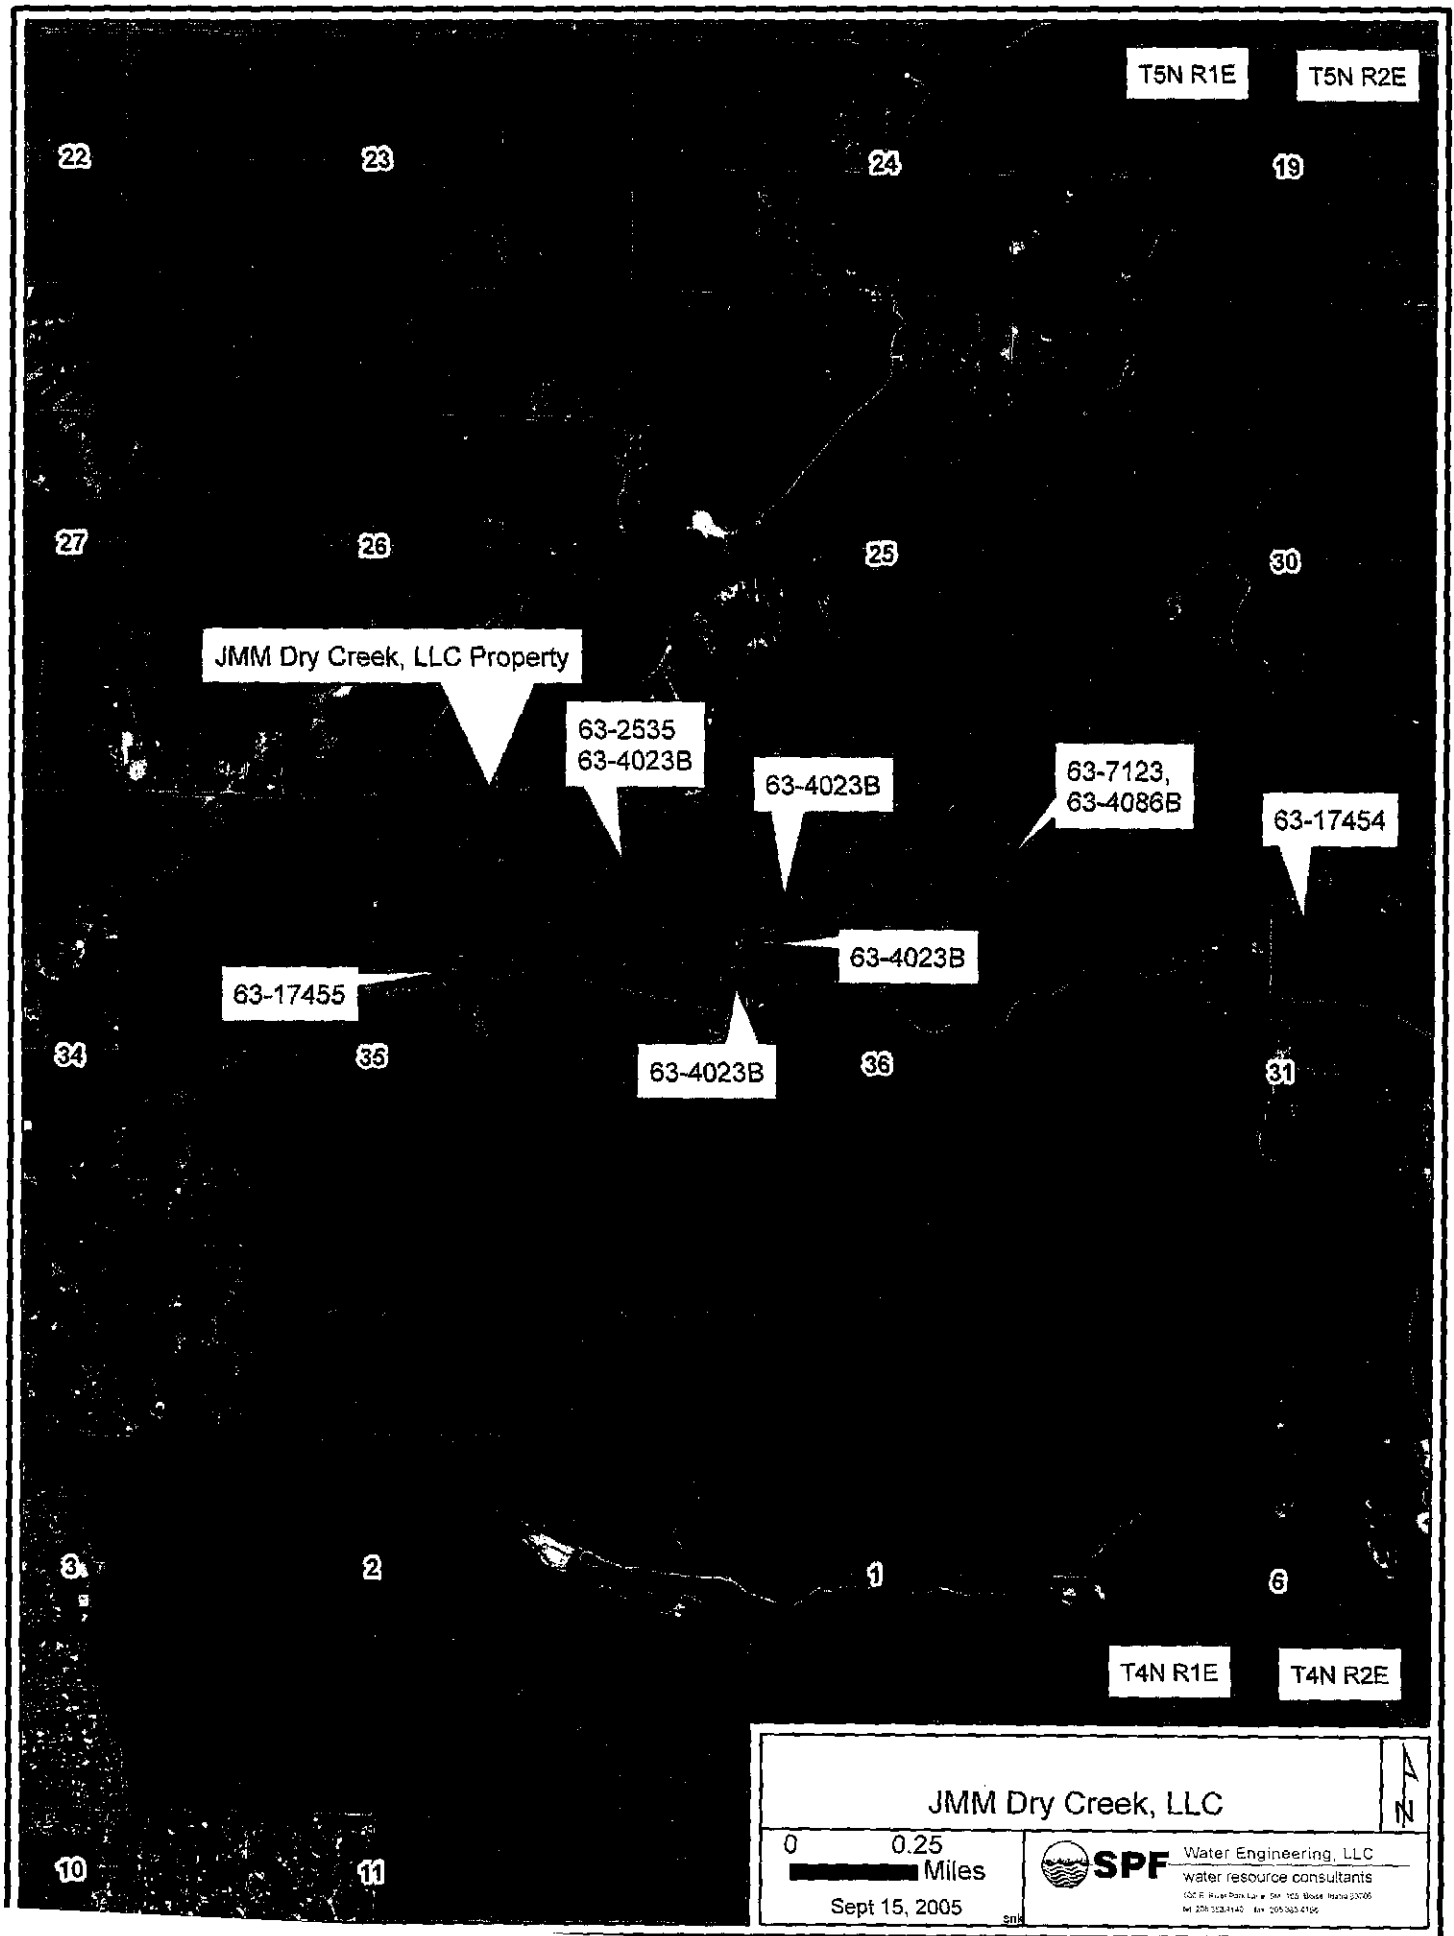

Also enclosed are two notices of error for claims 63-4023B and 63-7123. The recommendation for 63-7123 has a minor typographical error. Claim 63-4023B was recommended for 1.11 cfs. A sworn affidavit by Keith Anderson in 1968 supports the claimed quantity of 3.0 cfs.

KEN – I think that this property has been sold. Contact consultant Scott King, SPF Water Engineering, (208) 383-4140 ext. 209 to find out whom to call to access the site.

63-17454 – there are several wells used to irrigate the site so you won't be able to verify acres irrigated from Dry Creek diversion.

1 – please GPS the Dry Creek points of diversion – there is only one claimed but if you see more, gathers info. Get field measurements of ditch, pump info, delivery system description and calculate flows.

2 – locate PODs, other features, on map.

63-17455 – this is an old hot water well that was claimed for irrigation. There is a discrepancy between the claimed POD and the well found by Intrepid. Per the well info in our database, the well with the tag 170883 is really located in the NWNE S 35, not the SWNE S35 as claimed. Please verify whether there is a well near the house where the well was claimed. See map for locations and notes.

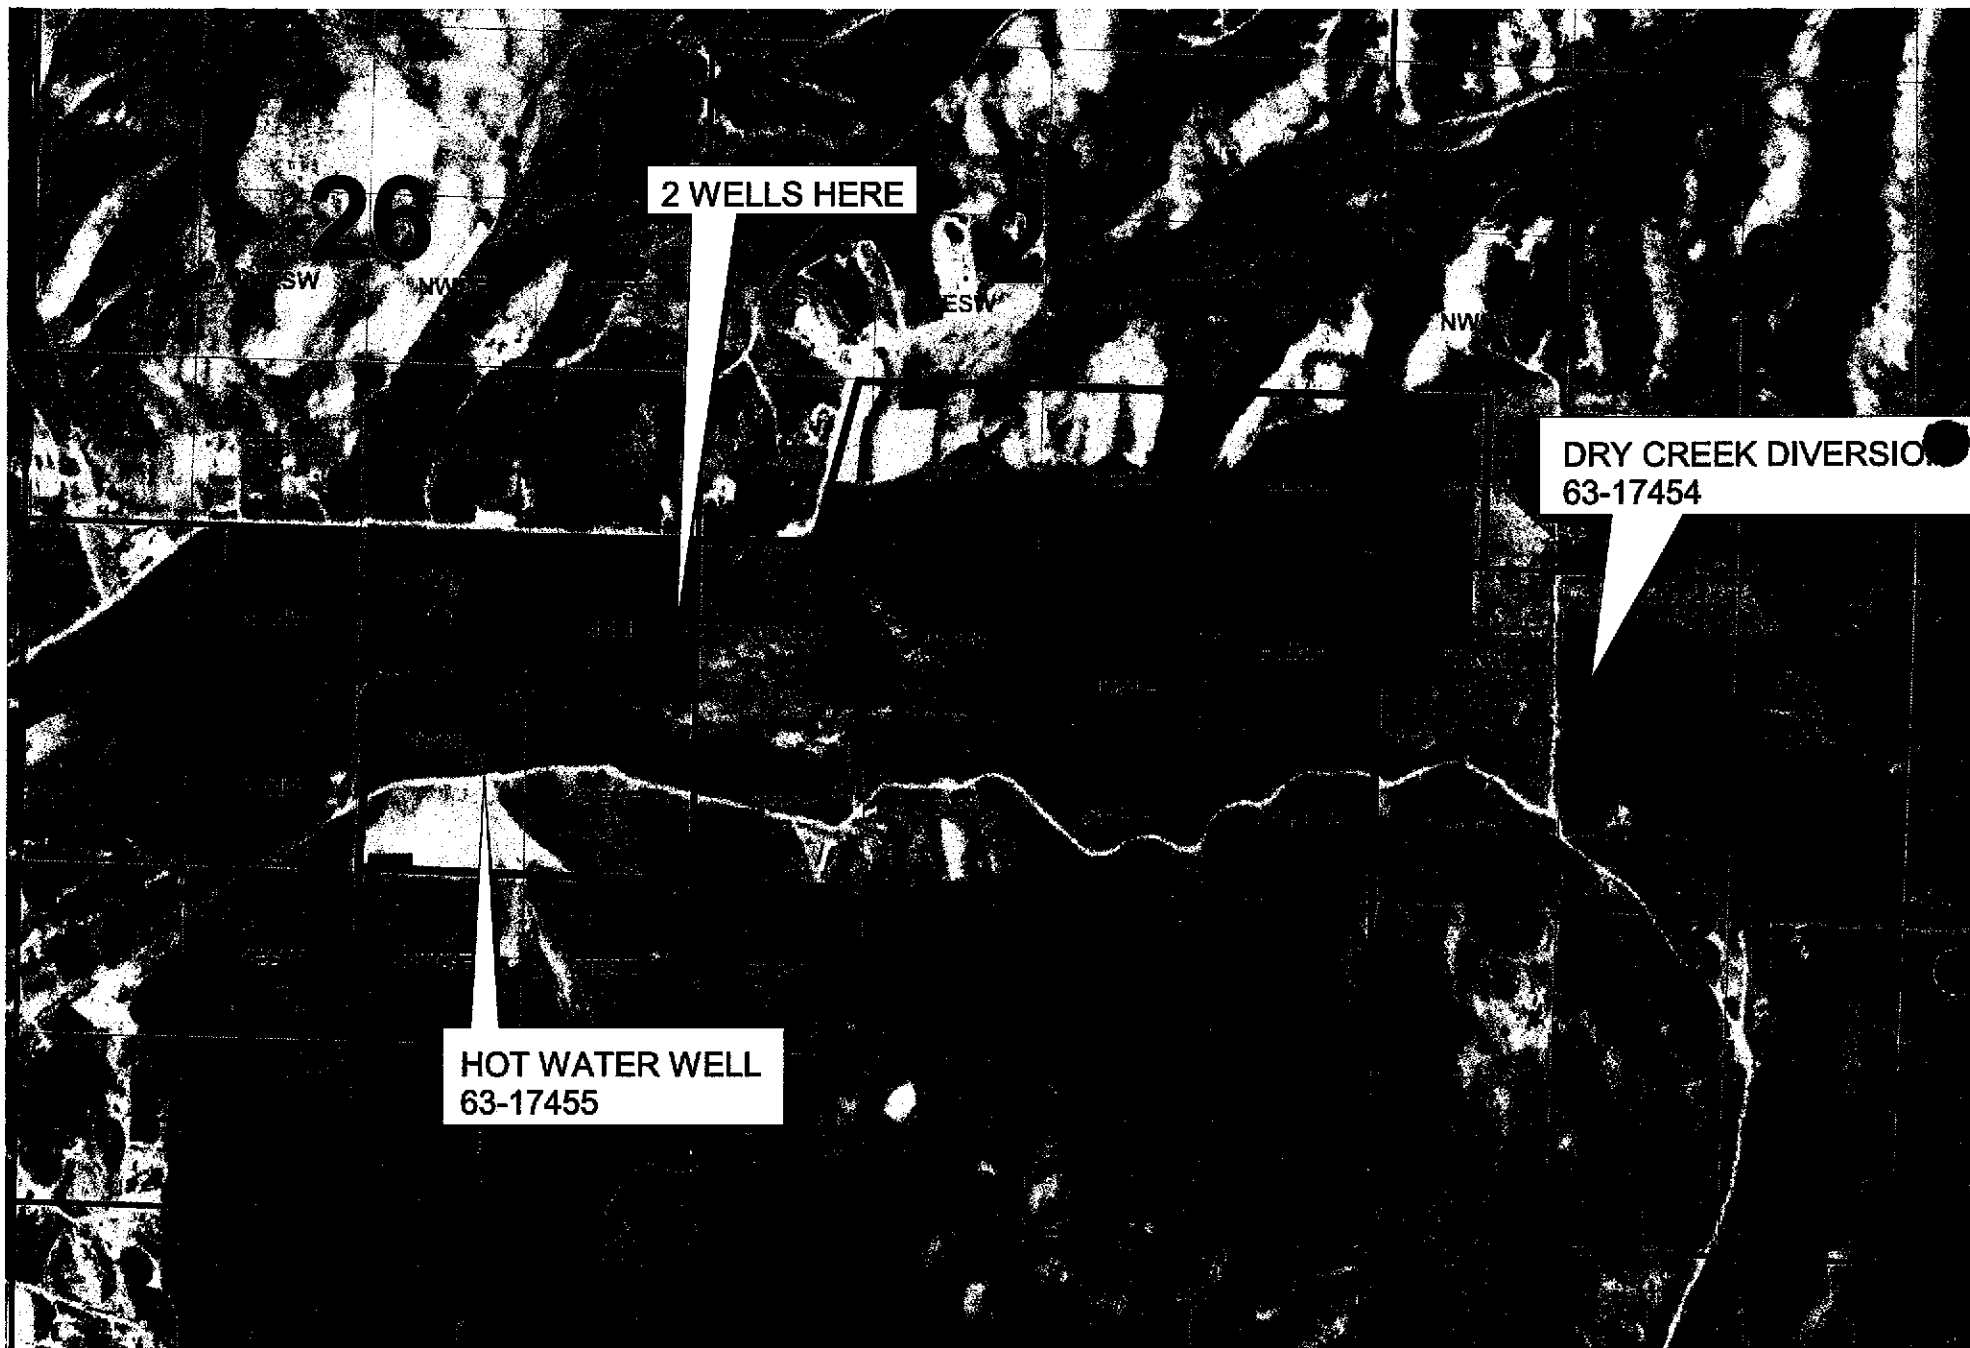

1 – gather well/pump information and calculate flow capacity

2 – describe delivery system and verify acres irrigated from this well only if it appears that the well in the claimed location is being used for irrigation.

MISC – there are several wells on the property [see map]. please GPS all of the well that you can find. Thanks.

Thanks.

THE AREA IS BLACK IS ALL JEKER PROPERTY. THERE ARE ABOUT 8 WELLS AND 1 DRY CREEK DIVERSION. PLEASE GPS WELLS AND DRY CREEK DIVERSION AND GET WELL INFO.

AFFIDAVIT

BEN DOBSON, being first duly sworn on oath, deposes and says:

As a small boy and young man I lived with my father, Len Dobson, on the real property now owned by Helen Weisshaupt and Margaret Brusher, and during the years 1920 through 1925 I saw my father, Len Dobson, divert water from Spring Creek at the diversion point above described and water from Dry Creek also at the diversion point above described for the purpose of irrigating crops growing on the described real property. The water from Spring Creek was used in the spring and early summer until the flow of water ceased in the summertime, and the water from Dry Creek was used in the spring and early summer and until the flow was so low that the water could no longer be diverted for irrigation purposes. I further know of my own knowledge that from 1926 until 1937 a farmer by the name of Walter Odermott continued to irrigate the described land from both Spring Creek and Dry Creek using the same points of diversion, and thereafter, beginning in 1937 that Julius Jeker continued the irrigation and beneficial use of the water from the described points of diversion.

MICROFILMED

I make this affidavit from my own personal knowledge for the purpose of establishing that water was diverted from both Spring Creek and Dry Creek for the purpose of irrigating the lands now owned by Helen Weisshaupt and her sister, Margaret Brusher.
