CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right No. A63-17476 & #A63-16957

February 13, 2004

Jim Barnes called in response to the evidence of priority letters recently sent requesting evidence from the Dry Creek Cemetery. Regarding claim #63-16957, Mr. Barnes stated that Tim Alden is still alive and that he would contact him for an affidavit. Concerning claim #63-17476, Mr. Barnes said that Lester Hopkins is still alive and that he would contact him for an affidavit.

March 15, 2005

I met with Jim Barnes, grounds keeper of the Dry Creek Cemetery, to discuss the cemetery's five different claims that I am reviewing. Mr. Barnes verified the place of use and the current point of diversion. He informed me that the first original well was drilled in 1900, but was no longer used in 1987; since it had long since gone defunct. He also mentioned that these 3 acres are the oldest part of the cemetery. I also verified with Mr. Barnes that the domestic use is for the "old" office located at the south east corner of this portion of the original cemetery.

Re: SRBA Claims A63-16957 & A63-17476

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-16957 & A63-17476

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by October 1, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office
