CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-18310
Evidence of Priority**

October 6, 2003

Ralph Wilder called in response to the evidence of priority letter he recently received.

Mr. Wilder began the conversation by referring to this request for evidence by stating, "I thought we were all squared away! This is beyond us! These ranches have been here for 100 years!" I informed Mr. Wilder about the need for evidence and gave him several examples of how to supply this information; especially the example of an affidavit since Barbara Wilder filled out the *Notice of Claim* and came up with the 1920 priority date.

February 18, 2004

Ralph Wilder called again, after receiving the second letter requesting evidence of priority. Mr. Wilder said that one of the houses this claim pertains to has been sold, has been remodeled into an ice cream shop, and uses only city water now. According to Mr. Wilder the other house was torn down and no longer exists. Mr. Wilder said that the clinic is still there, but is on city water.

June 7, 2005

I called John McLaughlin (#938-6108), the owner of the ice cream shop located at 257 E. State St. Mr. McLaughlin verified that the ice cream shop is on city water. Mr.

McLaughlin stated that the veterinary clinic closed up about 9 months ago and that both the clinic and the ice cream shop have been on city water since about 2003. He further elaborated that he bought the shop in 2003 and connecting with city water was part of his buy/sell agreement; as was the same case with the veterinary clinic.

Despite being on city water, Mr. McLaughlin said that he wants to use the well in the future, possibly, for irrigation of the lawn and all of the associated outdoor plants and trees.

MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-18310

February 18, 2004

After speaking with Ralph Wilder regarding evidence of priority, I researched the 3 buildings associated with this claim. The State Street Ice Cream Shoppe (Parcel No. R0238250035) is located at 257 E. State St., the 2nd home is located at 281 E. State St. (Parcel No. R0238250040), and the veterinary office is located at 293 E. State St. (Parcel No. S0509336540). According to Intrepid Engineering's information, the well is associated with the home that Mr. Wilder said has been torn down and no longer exists. Therefore, I personally visited the site on 6/5/04 and verified that the house located at 281 E. State St. has, indeed, been demolished and that the well has been capped. In addition, as of 6/5/05, the veterinary clinic building located at 293 E. State St. is still in existence, but is no longer in operation.

Re: SRBA Claim A63-18310

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

A handwritten signature in black ink that reads "Nick Spencer".

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-18310

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by October 7, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
