HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

re: Claim A63-18828

This is in response to your 25 Aug 2003 request for evidence of the priority date of our well. Our house is the former Amity School, and the well was certainly dug to service the school, which was built in the early 1920's.

We have found only one document that specifically mentions our well: the May 1959 minutes of the School Board list "well and pump" as part of the surplus school property to be sold.

Clearly the well is much older than this, but the evidence is circumstantial. We have attached the deed showing sale of the property to School District #63 dated 9 June 1919. The style of the building suggests it was built shortly thereafter (The construction and material match the ca. 1890's Pine School building on display at the School Board office in Meridian). Clearly the school would have needed a water source. Our pump man says the 250 foot depth and three-inch diameter of the casing suggest a well dug before irrigation raised the water table here; the first Treasure Valley canal irrigation began around 1912.

So, the evidence suggests this well was dug in the early 1920's, but we have not yet found written proof, or a living person with knowledge of it. Newspaper coverage then was poor; even the School Board records before the Joint District was formed in 1950 are lost.

Please advise us if the evidence we have found is sufficient. More research is possible but would probably be difficult and expensive. We would like the circumstantial evidence we have found to be considered by the court.

Also, we should correct an error of misunderstanding in our 1989 claim submission. Our ground water use for lawns and trees falls under your definition of "domestic" use. We purchase our irrigation water from the New York Irrigation District. As we now understand your work concerns only ground water, please delete the "0.02 CFS Irrigation" portion of our claim from our forms.

Thank you,

John B. Hodges
Kathleen R. Hodges

CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right No. A63-18828
Evidence of Priority**

August 28, 2003

Kathleen Hodges called in response to the evidence of priority letter recently sent. Her first statement was, "I feel like a little fish swimming in a big pond and I don't know what to do." She then continued by stating that she is a home owner, irrigates 2 acres, and has been irrigating for 25 years. After I explained the reason for the evidence of priority and gave her some examples of ways to supply the needed information, Mrs. Hodges stated that she has photo copies of the deeds and other various documents. She said that Mr. Hodges would send the deed as evidence of priority.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-18828

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by September 22, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte

RE: Snake River Basin Adjudication (SRBA)
Ada County - #A63-18828

Dear Mr. and Mrs. Hodges:

Enclosed is Receipt #W005830 for the fee on your Notice of Claim to a Water Right. We have also enclosed a copy of your Notice of Claim to a Water Right as it has been entered into our records. Please review it carefully to be sure that all the information is accurate. The address and state are highlighted because they were not entered on the original claim form that you submitted. Please be certain that this is your correct address.

If you wish to change any of the information on this form, please cross out the incorrect entries and write the correct information in the appropriate place. When you are satisfied that everything is correct, please have the form notarized and return it to this office. Your original claim form was not notarized, and this is a very important part of the filing procedure. We cannot continue to process your claim until it is notarized.

If you return the claim form within 30 days (March 13, 1991), no late fee will be assessed to you.

Please feel free to contact our office if you have any questions about your Notice of Claim or about the SRBA in general.

Yours truly,

John D. Carlson
