HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive) (cfs) (acre feet)

For stockwater purposes from Jan 1 to Dec 31 amount 0.67 or _____
 For storage for commercial purposes from Jan 1 to Dec 31 amount _____ or 2.06*
 For commercial from storage purposes from Mar 15 to Dec 15 amount _____ or 2.06*
 For diversion to storage purposes from Jan. 1 to Dec. 31 amount 0.50 ^{SLC 9-10-91} or _____
 (commercial-dust abatement)
 7. Total quantity claimed (a) 0.67 (cfs) and/or (b) 2.06* (acre feet)

8. Total consumptive use claimed is 414 (commercial) acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) *See item 5 above and item 14 below

10. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

11. In which county (ies) are lands listed above as place of use located? Ada

12. Do you own the property listed above as place of use? Yes ☒ No ☐
 If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.
 One additional adjudication claim is being filed for same purposes and or None ()
 one new application for permit is being filed for one of the wells.

14. Remarks:

Three wells located on the property are the water sources for an interconnected system which provides stockwater to approximately 16,000 head of beef cattle, commercial water for a small office and dust abatement for the 120-acre feedlot.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

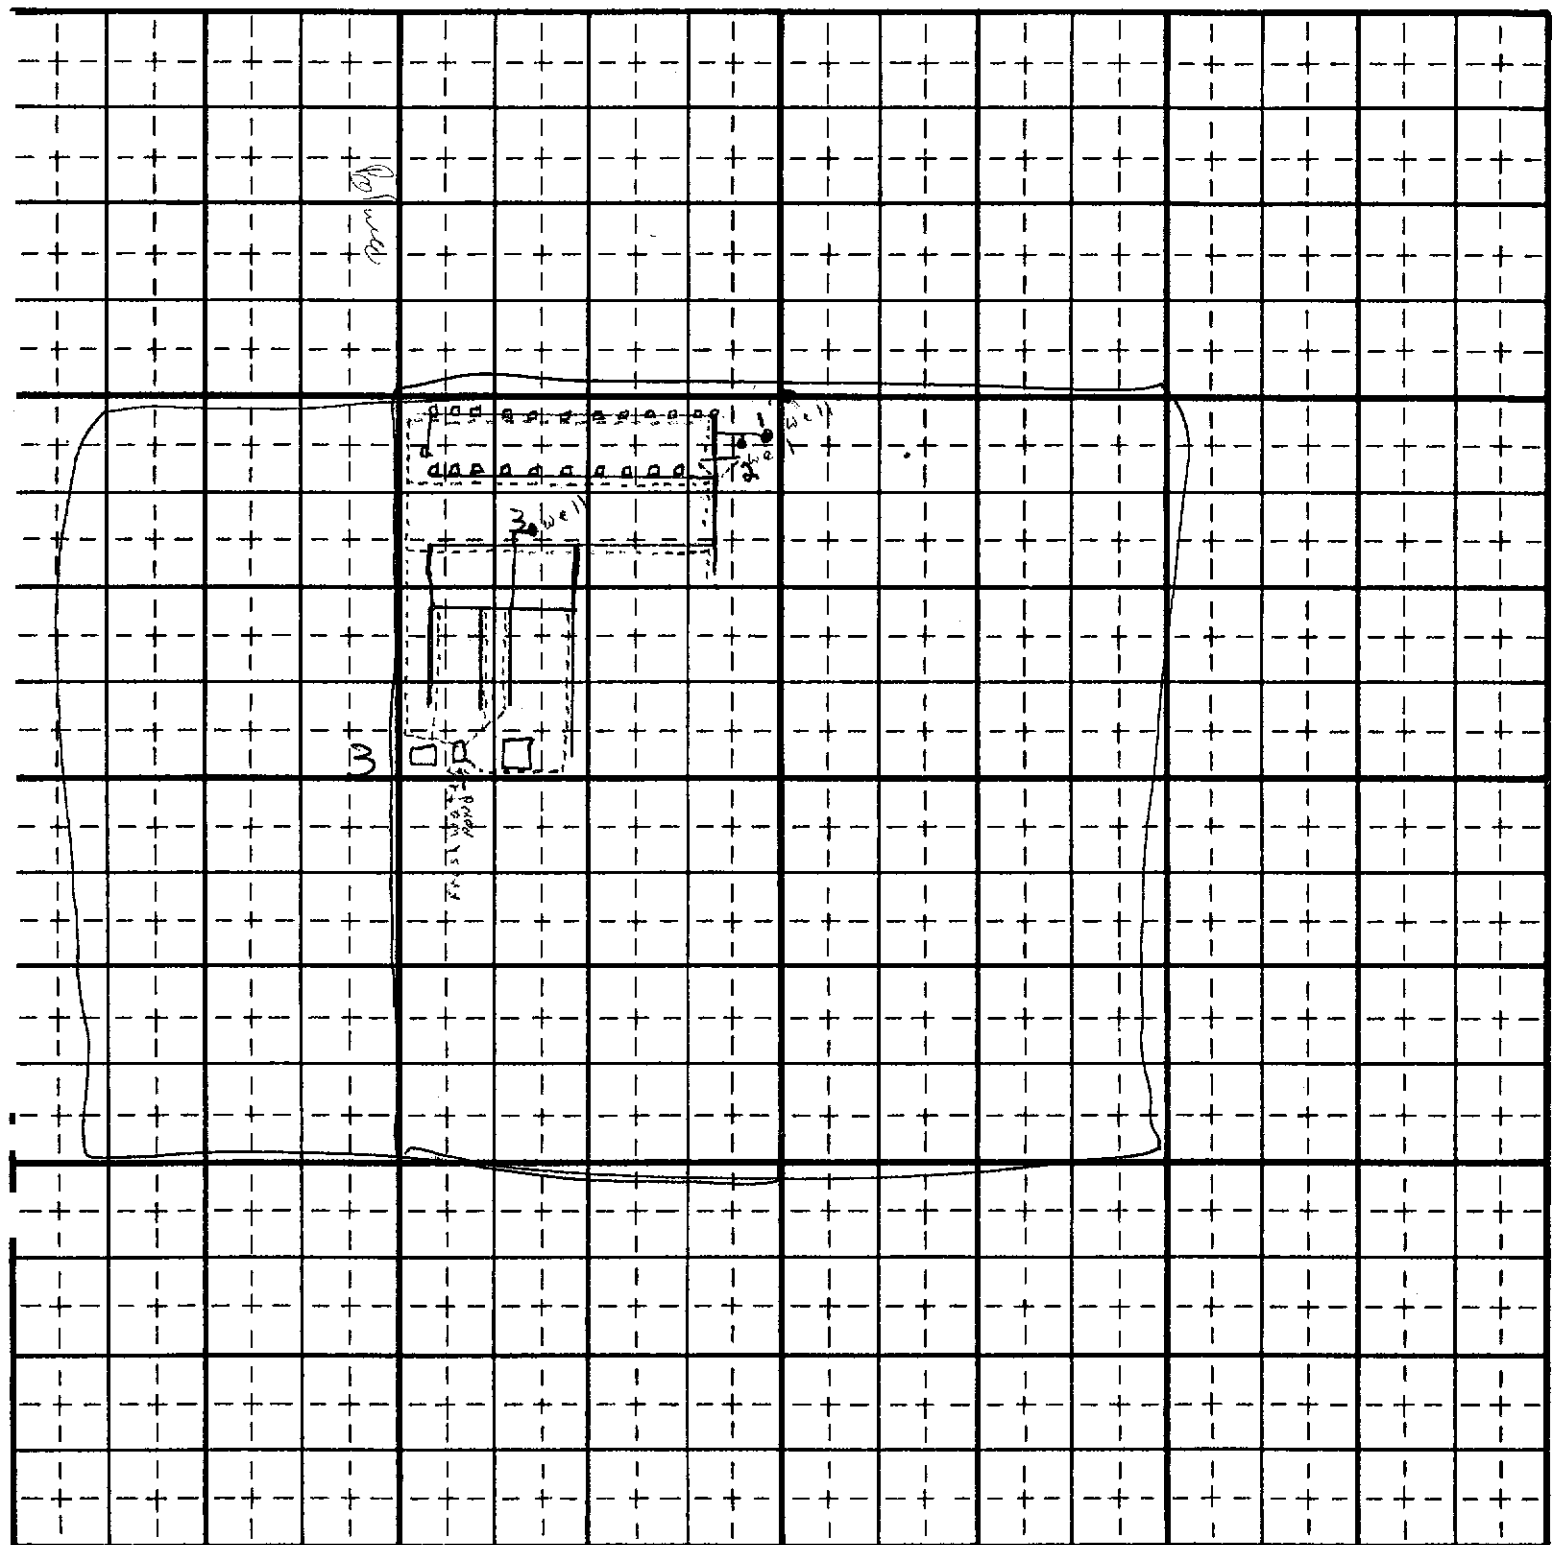

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Well is approximately 90-feet deep, 8-inch casing, 7.5 h.p. submersible pump with a 2-inch diameter discharge line. The discharge line is connected to two other lines from 2 other wells which together supply stockwater to up to 16,000 head of cattle. The water is conveyed from the wells by a buried 4-inch diameter pipeline to eighty 125-gallon watering troughs (8 ft. x 3 ft. x 2 1/2 ft.). The troughs have a 6-inch diameter overflow pipe which prevents overflow, but permits a continuous flow system. The continuous flow is necessary to help prevent disease from stagnant water and to prevent freeze-up during winter months. The overflow discharge water is carried by a 6-inch pipeline to a holding pond, approximately 2.06 acre feet in capacity. Up to 1.53 acre feet of water is withdrawn every 24 hours from March 15 to December 15 for dust abatement use on the 120-acre feedlot. A water truck with a sprinkler system is used for distributing some of the water for dust abatement; most of the water is distributed about the feedlot through pipelines to Rainbird sprinklers after being withdrawn from the pond by a 60 h.p. pump. A 25 h.p. pump is used to fill the water truck.

While the total volume capacity of the storage pond is 2.06 acre feet, the system is being refilled constantly.

RE: Notice of Change of Water Right Ownership 63-25981, 63-25982, 63-11060

Dear Claimants:

Enclosed is a copy of a Notice of Change of Water Right Ownership form that was submitted to our office. However, we cannot continue to process the ownership change without sufficient **proof of ownership**. This proof needs to be a copy of a **Deed(s), Title Policy, or other legal document** indicating your ownership of the property with an attached legal description.

Please submit a copy of the warranty deed, and we will be able to complete the ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Feel free to contact our office if you have any questions concerning this letter.

Sincerely,

A handwritten signature in cursive script that reads "Liberty Gagnon". The signature is written in dark ink and is positioned above the typed name and title.

RE: Notice of Change of Water Right Ownership *sandy sandy* 63-25981, 63-25982, 63-11060

Dear Claimants:

Enclosed is a copy of a Notice of Change of Water Right Ownership form that was submitted to our office. However, we cannot continue to process the ownership change without sufficient **proof of ownership**. This proof needs to be a copy of a **Deed(s), Title Policy, or other legal document** indicating your ownership of the property with an attached legal description.

Please submit a copy of the warranty deed, and we will be able to complete the ownership change.

Thank you for your patience and cooperation, as we have had several ownership changes to process. Feel free to contact our office if you have any questions concerning this letter.

Sincerely,

Liberty Gagnon

ON THE FEEDLOT KNOWN AS THE HORMACHEA	)	ROBERT CONNOLLY
FEEDLOT AS THE NAYLOR.	)	

COMES NOW, Robert Connolly, and provides the following comments and evidence in this matter:

1. I moved to the Meridian, Idaho area in 1967 and have been in the farming and ranching business most of my life. I am currently employed by the Idaho Feedlot Company located north and west of Eagle, Idaho, which is owned by the Hormaechea Family.
2. I am familiar with the land in the east half of Section 3 T4N R1W BM which includes the feedlot.
3. I have been employed at the Idaho Feedlot since 1971 and have been responsible for operation and maintenance of water supplies.
4. The capacity of the feed lot has been at least 16,000 animals since 1972
5. Stock water for the feedlot and house has been supplied from three (3) wells. In 1972 the following pumps were in the three wells:
 - a. Well #1 15 H.P deep well pump, water level 35 ft (well in shed)
 - b. Well #2 30 H.P submersible pump, water level 35 ft, operating pressure 35 psi
 - c. Well #3 7.5 H.P submersible pump, water level, 35 ft. operating pressure 35 psi
6. Wells #1 and #3 were being used when I went to work in 1971 and I believe, based on discussions with former employees, that these wells were in use since the inception of the feedlot in 1935.
7. In 1972, a new well was dug to replace discharge lost from the pen well and the distribution system was improved. All wells were manifolded into one system.

Memorandum

Date: October 7, 2003

From: Craig L. Saxton

To: File

Subject: Initial Review of 63-25981 and 63-25982

No priority evidence submitted for either claim. Request for evidence of priority sent as well as attaching a note asking the claimants to contact me so we can further discuss some of the following issues: ✓

Both claims claim only one well, but the notes say that there are three wells used in combination. Is this an error in the claim or is a transfer necessary? How long has all three wells been used in combination to supply the feedlot with water? ✓

Both claims state that they serve 16,000 head of cattle. 63-25981 claims a 1951 priority date and 63-25982 claims a 1935 priority date. ✓

It is my assumption that this feed lot may very well have been in place since 1935, but did not probably serve 16,000 head of cattle at that time. I assume that the number of cattle the feed lot could support as gradually increased over time. ✓

We need to know how many cattle were served in 1935 and what/how many wells provided that water. How many cattle were served in 1951, and what/how many wells provided that water? ✓

Why was only one well claimed on each claim and the notes say that they are using 3? Permit 63-11060 was filed in 1991 which is two years after the SRBA claims were filed so the third well must have been in place before 1989. ✓

Diversion volume claimed is 2.06 af based on a statement from claimant saying the storage capacity of their pond is 2.06 cfs, however, this would generally be a one time fill, but, Exhibit A states that the pond is constantly being drained and refilled during the time of March 15 to December 15 for dust abatement.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 63. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by **November 11, 2003, referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 334-2190.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte

Dear Mr. Keen:

I am in receipt of your letter dated 13 August 1991, and have made the changes on the Notices of Claim to a Water Right as set forth in that letter. You will find the corrected Notices enclosed along with a check in the amount of One Hundred Thirty-Three and No/Dollars (\$133.00) to cover the additional fee based upon diversion to storage.

I would appreciate receiving written confirmation that you have received the corrected Notices and a receipt reflecting acceptance of the monies by the Department of Water Resources.

RE: Snake River Basin Adjudication (SRBA)
Ada County - Receipt #C011309
Richard and Mary Hormaechea

Dear Counselor:

Enclosed are two Notices of Claim filed by you on behalf of Richard and Mary Hormaechea. After our telephone conversation today, I decided that sending the claim notices to you for changes would be better than making the changes ourselves without a signed, original Notice which shows the changes.

The most important change needed on each of these claims is the addition of "diversion to storage" and a corresponding diversion rate in Item #6. Based upon our current interpretation of the information in these claims, the "diversion to storage" rates should be one of the two choices listed below.

- 1) The same rate as the stockwater diversion rates.
- 2) The stockwater rates minus the amount consumed by the cattle before the water gets to the storage pond.

In either case, an additional fee of \$100 per 1.0 cfs is required for a diversion to storage.

In addition to addressing the diversion rates, we also ask that you describe the point of diversion to the 10-acre tract in Item #4 on both claims.

Please remember to initial and date all changes made on the Notices of Claim. Then, return them to me at this office. If you return the claim before September 13, 1991, no late fee will be assessed.
