INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Re: Water Right Claim No. 63-26372

Dear Sandy,

Following our discussion on the phone this morning regarding our pump and water right at 637 Warm Springs Ave., Boise, I herewith forward to you my testimony on the history of the well pertaining to Water Right Claim No. 63-26372.

We have previously attempted to find my deceased mother's records of the well and its creation but without success. I am thus unaware of specific records to support the claimed priority date of June 1, 1949. If IDWR has records this far back, then these historical records need to be located. Obviously, we do not have 56-year-old power company bills or other supporting documents mentioned in the IDWR pamphlet. If records of the well driller were furnished to my mother subsequent to drilling, which I believe was not customary that long ago, then no trace of these survives either.

My recollections are that a very old well existed, pre-1950, on some part of the property and that as Cottonwood flume water, which we used early on for irrigation of landscaping and our pasture, was increasingly diverted to up-stream users, my parents increased the capacity of that well by having it deepened. Both Cottonwood flume, which dries up in late spring anyway, and the old well were inadequate to irrigate the new landscaping that my stepfather, Charlie Davidson, was doing on the property. He and my mother were married in 1948, and a general renovation of 2.8 acres of the property was begun at that time around the house my mother built in 1941. The domestic well priority dates to 1941 and correlates with that early date.

A new well was drilled at a date unknown to me directly but the 1949 date on the water right application indicates that I was not yet in grade school. This well was deepened in the early 1960s because a lot of sand was getting into the pump and causing failures. I believe it was worked on again at a later date, but by then I was in college and not living in Idaho, and this recollection probably comes from something my mother mentioned to me during a home visit. The location of this well was just inside what was called "the pasture," i.e., it was on the south side of a barbed wire fence that demarcated the pasture. This latter area of ca. 2 acres was an undeveloped piece of ground that was part of the original deeded property at 635 Warm Springs, a ca. 6 acre piece that ran from Warm Springs to the railroad track. My mother's ca. 4.8 property was the south end of this original lot, occupied by her from 1941 until her death in 2000. After my mother's

death a part of this lot, the "pasture", passed to my brother, who sold it to a developer. Initially the "pasture" well was used to irrigate the pasture as well as the landscaping but this was later discontinued and the 1949 "pasture" well (Water Right Claim No. 63-26372) was used only for landscaping that could not be reached by the domestic system. My mother had a written agreement with the developer/owner to continue to use the well, but after we began to build a new house at 637 Warm Springs in 2001, this old arrangement became untenable.

Thus, this old 1949 "pasture" well was moved in 2004 to a new location near Lewis St. and fully within our property. This move was done by Adamson Pump and Well and was authorized and, I believe, fully in compliance with IDWR rules and regulations. The old well was capped and abandoned.

This is the best recollection I have.

Cordially,

NARRATIVE: Chris called to say there is a well there and they use it and want the water right. He said the address is wrong on the claim so I told him I will send a change of address form for him to fill out. He says he does not have any evidence of priority and all his older neighbors and his parents are no longer alive. He said he did not get the evidence of priority brochure I sent with the letter so I am sending him another brochure with the change of address letter. I told him we would probably not send out a field examiner since the cfs is small. His phone call in response to my letter was sufficient.

SNAKE RIVER BASIN ADJUDICATION Filings

**CHRISTOPHER DAVIDSON
637 WARM SPRINGS AVE
BOISE ID 83712-6328**

Dear Owner,

We are currently in the process of reviewing the above referenced claim(s), which were filed during the Snake River Basin Adjudication (SRBA) claims filing. However, due to the problem explained below we may not be able to recommend this claim to the SRBA Court in Twin Falls for decree. A claim profile report is enclosed for your review.

In our first part of our investigation for the above referenced claim(s), IDWR (IDAHO DEPARTMENT OF WATER RESOURCES) hired a contractor **"Intrepid Engineering Services, Inc."**. Their job was to locate the claimed water source, make contact with the owner if possible and measure the amount of flow for IDWR to help speed up our large amount of fieldwork for beneficial use claims. Beneficial use claims normally have never been investigated by IDWR and thus no license or decreed right exists for these beneficial use claims and we need to verify the claimed elements of the claimed beneficial uses for the court.

"Intrepid" Contractor findings:

They did not find the well for the above claim, thus, no beneficial use.

If you agree that the claimed well source no longer exists and/or has been capped off and/or no longer has any beneficial use, please sign and return the enclosed Request for Withdrawal of Claim form in the enclosed return envelope. Our investigation then will be closed for this claim after we receive your "signed" Withdrawal of Claim form.

However, if you believe our contractor may have missed finding this well source or any replacement well source and/or the claimed beneficial use, then please contact me at 334-2190 ASAP to set up an appointment for a field exam. If I do not get the withdrawal form or hear from you within 15 days of the date of this letter I will assume that our contractor was correct and your claim to beneficial use may not be recommended. It is highly important that you respond.

Also in the past, you submitted the above referenced claim. Enclosed is a computer generated printout of the claim(s) for your reference only. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has

not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled **"Evidence of Priority"** which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. The required evidence supporting the priority date(s) requested needs to be submitted by **June 28, 2005**.

Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

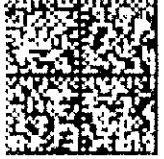

Sincerely,

Sandy Egbert

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte

Dear Roxanne,

Accompanying this letter, which I am delivering by hand today, are several forms mailed to my mother, Marjorie Davidson, by the Department of Water Resources. Because she is uncertain what your question is, I am returning the forms to you with the following commentary.

The "Notice of a Claim to a Water Right" (form 42-1409) appears to me to be correctly completed. It indicates Marjorie Davidson's correct address (637 Warm Springs) and the point of diversion. In addition to this form is are pages headed "In the District Court of the Fifth Judicial District of the State of Idaho..." in which Marjorie Davidson's address is given incorrectly as 1609 Warm Springs. We believe this is the source of confusion in the matter your letter raises. The 1609 Warm Springs address belongs to **Georgia Davidson**, who may have filed for her own water rights on a similar piece of property. These two address no doubt fall into the same quarter section.

If your verify that the confusion of addresses is the source of your question regarding a previous claim, please let us know in writing so that we may know that our water rights claim is proceeding as it should be.

Cordially,

Re: Snake River Basin Adjudication (SRBA)
Ada County - Unnumbered Claim

Dear Ms. Davidson,

We are returning your Notice of Claim to a Water Right filed for your property in Ada County. We are also enclosing Receipt No. W013366 in the amount of \$130.00 for your filing fees. Please retain the receipt for your records. We have noted a problem with your claim which requires clarification.

It appears that this claim may seek to identify a right previously claimed by you for 8.0 acres of irrigation (Claim No. A63-05175, copy enclosed). Is this correct? If so, you may choose to:

(1) Sign, have notarized and return A63-05175 (you may make changes to this claim concerning the number of acres irrigated),

or

(2) Return the original hand-written claim and we will pursue the rights as claimed.

Please return these documents to my attention by April 7, 1992, or late fees will apply. If we do not receive the documents by that date, we will assume you do not wish to continue the filing process and will begin the refund process of your filing fees. Do not hesitate to contact this office if you have any questions.

Sincerely,

Roxanne McCarthy
