Re: Water Right No. 63-28379

Dear Ms Lynn:

Enclosed is a copy of the above referenced water right, which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing. Also enclosed is a copy of the Notice of Completed Administrative Proceedings, which has been sent to the Snake River Basin Court as notification of the change.

If you have any questions concerning the enclosed water right, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Lori Harris".

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. **If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

- ☐ No change – Complete evidence submitted or not necessary
- ☐ Incomplete – Claimant should be asked when water was first used and submit proof of date.
- ☐ Priority date is acceptable/within mandatory filing dates?

Priority date, per claimant, is: 1/1/1900

(If priority date, based on your exam, seems questionable, explain below.)

Terry Scanlan submitted evidence going back to 1938 for irrigation purposes, but since the claimed irrigation use is not being recommended; the claimed priority date of Jan. 1, 1900 will be recommended.

- ☐ Source found is different than claimed: _____

POINT OF DIVERSION

- ☐ No change
- ☒ POD found is different than claimed: Irrigation PODs removed
- ☐ If different, when did POD change?

Only the 2 beginning points and 2 ending points for instream flow are being recommended.

** We require some evidence of irrigation in 1987 or the
5 years prior to 1987:*

*After receiving evidence of priority,
I began reviewing this claim and
found very little/no irrigation on the claimed acres
in 1987. Therefore, I sent a letter to Mark and Joy Lynn,
requesting information substantiating irrigation use within the
5-year period preceeding 1987 (see file). As of this date, I
have received nothine from the claimants and am removing*

removing the irrigation component from this recommendation.

RE: Snake River Basin Claim No(s): A63-28379, A63-3004, & A63-8044

Dear Mrs. and Mr. Lynn,

#63-28379:

I received the evidence of priority for Claim No: A63-28349 from Terry Scanlan. Based on the information that Mr. Scanlan provided, your priority date will be changed from the claimed January 1, 1900 to March 15, 1938.

Since I received your evidence of priority, I recently began my recommendation review of your claim. During this review, it came to my attention that there appears to very little to no irrigation use on the claimed acres in 1987 (refer to **Map 1**). In order for me to recommend any aspect of this claim, it is necessary that you submit information showing use of the claimed land for irrigation purposes within the five-year period preceeding 1987.

#63-8044:

Claim No: 63-8044 is for one domestic household, stockwater use for 200 head of cattle, and the irrigation of 1 acre. Since the file does not contain a sufficient map depicting the location of the house and the 1 acre of irrigation, please use **Map 2** to draw the location of both the home and the acre of irrigation.

#63-3004:

Map 3 depicts my interpretation of the maps contained in the file. Please review this map and let me know if anything is incorrect. In addition, please indicate where the house is located on this map.

Please submit this information by January 27, 2005. If you have any questions, contact me at 334-2190.

Respectfully Submitted,

Kimberly Brown

Subject: SRBA Claim A63-28379

Dear Kimberly:

On behalf of D. Mark Lynn, this letter responds to Nicholas B. Spencer's letter of February 10, 2004 regarding the above referenced water right. Nick's letter requested that we contact you before March 12, 2004 regarding information on the priority date for the claim. Mr. Lynn is currently collecting information regarding past ownership of the land. We are hoping that the patent date or similar information might help establish priority.

In the meantime, I am enclosing a photocopy of a December 12, 1938 aerial photograph obtained from the USDA Farm Service Agency office in Meridian. Although not entirely clear, the photo suggests that lands currently owned by Mr. Lynn near the confluence of the North and South Forks of Willow Creek were farmed (and by inference also irrigated) at that time. These lands are located in the SE $\frac{1}{4}$ of Section 34 and the SE $\frac{1}{4}$ of Section 35, T6N, R1W, and perhaps also the north $\frac{1}{2}$ of Section 3, T5N, R1W. Photos on file at the Farm Service Agency office dated 1957 and 1964 also suggest irrigation in these areas. Approximately 25 acres of these lands were irrigated with groundwater after about 1954 (based on license file information for water right 63-3004).

Please contact me with any questions. I will forward additional data to your office as it becomes available.

Sincerely,

Terry M. Scanlan, P.E.

Re: SRBA Claim A63-28379

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-28379

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by November 26, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. Therefore, either Mr. Bryce Scholer or I will be contacting you within the next few weeks to schedule a field exam.

Respectfully Submitted,

Re: 00-02-PDR-NF/00-02-ZC/00-02-PR/00-06-CU
Amy Woodruff/JJ Howard Engineering

Dear Scott:

Please excuse this late reply regarding the above referenced matter. The proposal involves a planned community for numerous homes plus an 18-hole golf course in the Willow Creek drainage east of Hwy 16. The Idaho Department of Water Resources (IDWR) has several concerns about the proposed development. The application information sent by your office identifies the following points that give rise to IDWR concerns:

- individual wells for homes
- irrigation of a golf course
- water amenities and water storage associated with the golf course
- water rights developed through the Snake River Basin Adjudication (SRBA).

Specific comments regarding these points are offered for your consideration. Use of any single-family domestic well in this setting should be limited to one home with yard irrigation of one-half acre or less within the domestic exemption (from recorded water rights) defined by I. C. § 42-111. Irrigation in excess of that amount requires water right approval from IDWR. As we have previously discussed for subdivision settings, a community well(s) is preferable to individual domestic wells from the resource management point of view. A community system does require water right approval from IDWR.

The remaining items involve irrigation and other uses of water for a golf course. Some of the property in question can be irrigated by water right nos. 63-11996 and 63-12450. These rights involve irrigation *wells* approved with very specific monitoring, measurement and reporting requirements. It is not clear if the water right owners, Mark and Joy Lynn, have complied with the conditions of approval of these two water rights. IDWR will look into this matter.

These same owners filed SRBA Claim No. A63-28379, a beneficial use ("grandfather") claim for *Willow Creek* for irrigation and stockwater uses. The validity of the claim will be determined by the SRBA process. The filing lists irrigation diversion points from the creek in SWNW Sec. 3 and SESE Sec. 4 in addition to instream stock uses in some portions of the creek. The irrigated land described by the claim is *not* the land proposed for the golf course.

April 14, 2000
Page 2 of 2

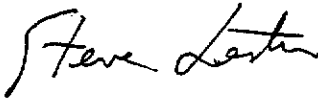

No records can be identified by IDWR that include the use of Willow Creek to irrigate the proposed site. No records can be found by IDWR to identify non-irrigation uses such as water amenities and/or storage ponds associated with the creek or with any other water source for the land in question.

IDWR and staff from other agencies recently observed significant stream channel alteration work for this portion of Willow Creek. The matter is currently under investigation to determine the proper course of action under state and/or federal law.

Construction of storage ponds to impound creek water and/or diversion of water from the creek for any purpose should only occur within the limits of water rights pursuant to Idaho law. Diversion of water from a well(s) for amenities and/or storage ponds associated with a golf course must include water right authorization for those non-irrigation uses. The property owners have not secured the necessary water right approvals to meet the demands of the proposed development.

Please contact me at your convenience if you need more information.

Sincerely,

A handwritten signature in black ink that reads "Steve Lester". The signature is written in a cursive, flowing style.
