) CONCLUSIONS OF LAW
)
) FOR WATER RIGHT 63-31556

I. FINDINGS OF FACT

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On April 21, 2006, the Edwards Family LLC, by and through its attorney Dana Hofstetter, filed an objection to the *Director's Report*, asserting that the water right does not allow the diversion of geothermal water from the Stewart Gulch Geothermal Aquifer. On March 9, 2007, the parties to the subcase filed a *Standard Form 5 - Stipulated Elements of a Water Right*, which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-31556 be decreed with the elements as set forth in the attached *Recommendations for Partial Decree Pursuant to I.R.C.P. 54(b)*.

RE: Subcase No. 63-31556

Dear Dr. Hoppe:

The Standard Form 5 (SF 5), which was executed, by you and others on December 6, 2006 contains a clerical error, which requires correction. Please note that the property address in Explanatory Material was incorrectly identified as "4241 W Hill Road". The correct address is 4301 W Hill Road. Vicky Music, Senior Water Resource Agent for IDWR, revised the recommendation page of the SF 5.

Enclosed is the original recommendation page with the corrections as noted above. Please initial this page and return it to me. Upon receipt of the original recommendation page, I will then request that your attorney, Charlie Honsinger, and the attorney for the Edwards' Family, Dana Hofstetter, initial and return to me for filing with the SRBA District Court. The signature page does not require any modification. I have enclosed copies of all of the documents for your records.

If you have any questions, please feel free to call me at 287-4814 or call Vicky Music at IDWR's Western Region at 334-2190. I apologize for any inconvenience this may cause you.

Very Truly Yours,

RE: Snake River Basin Adjudication

Dear Joanne Gay Hoppe:

Recently, I was advised to file certain Objections in the Snake River Basin Adjudication ("SRBA") to protect the geothermal water right on which Edwards Greenhouses depends. I understand that you have been sent one of these Objections. I wish to apologize for not contacting you prior to the Objections being mailed. I now realize that some who have received these Objections have questions and concerns about what they mean. I would like you to know that you can contact me or the attorney listed on the Objection if you have any questions that you would like to have answered. To the extent that your well is a cold water well, we simply wish to have that noted on the water right document. Unfortunately, we could not tell from the water right descriptions, as they currently are drafted, whether a well tapped geothermal or a cold water source. We anticipate that this matter can be addressed quickly as the SRBA proceeds. Again, if you have any questions or concerns, please do not hesitate to contact us. Thank you.

Sincerely,

To: Peppersack, Jeff
Subject: 61-4002A ownership question

Jeff:

Peterson c/o Dana Hofstetter filed an Appl. for Extension of Time to Avoid Forfeiture of 61-4002A. You might recall conversations with Susan Hamlin in June about a quitclaim deed from Sunrise Park Inc. to Peterson. The quitclaim deed was dated June 2000. But the irrigation P/U was developed into a subdivision in 1994-1998 prior to the quitclaim. The right was claimed by and decreed to Sunrise Park Inc. in the SRBA.

The issue was whether or not Sunrise still owned the right after the subdivision was developed and sold to individual lot owners prior to the 2000 quitclaim deed. This was a case where we needed more information to support the quitclaim deed to overcome the presumption that the right was proportionally owned by individual homeowners. Susan sent me an email in late June that Dana was going to provide more information in that regard.

Dana sent me the attached July 13 document discussing CC&Rs for the subdivision. Those were recorded in 1980. Item 1G in that document discusses water systems. Dana's argument is that the CC&Rs are binding and clearly imply that individual lots would not be served by a separate irrigation system under any water right. That makes some sense: one would assume the irrigation system would not comply with public health requirements.

Apparently the deeds for subdivision property do not specifically reference water rights, according to Dana's information.

I'm inclined to go along with Dana's argument in the July 13 document but don't want to contradict the department's viewpoint in similar cases, if any, that might have come up.

What is your take on this? Do you want to discuss it with Susan? Do you need any other information? If so, I'd be glad to meet with you & Susan at the SO sometime soon.

Incidentally, I misspoke in talking to Susan earlier this year about this. I said something about transfer standards not recognizing quitclaim deeds as proof of ownership. I was confusing that with the guidance that we should no longer rely solely on tax notices for ownership - we should look for something more substantial. Sorry about misquoting you on that.

Thanks for the help.

Steve
