Renumbered Notice of Claim to a Water Right No. 63-31591

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a *corrected* copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an *Application for Transfer* on your portion of this right is required. Please contact this office for further information on the *Application for Transfer* form. If you do not plan on changing any items on your claim, then no further action is required at this time. Also enclosed is a copy of the original claim for your reference.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

RE: Snake River Basin Adjudication (SRBA)
Water Right No. 63-09686 & Portion of 63-09655

Dear Gary & Barbara,

Several splits already have been filed for portions of senior irrigation license 63-09655. These splits have been assigned new numbers related to 63-09655. I have checked your claim to your licensed right 63-09686 versus 63-09655 for dates of priority as shown below:

- The date of priority of irrigation on Edward & Patricia Lewis license 63-09655 is 12/29/1980. (Your ownership change may be actually on Edward & Patricia Lewis new assigned split portion of 63-31471) *GREENWELL = 63-31591*
- The date of priority of irrigation on your license, 63-09686 is 03/06/1981

Although there isn't much difference in the dates, it may an advantage to have the older date of priority for irrigation recognized for your 4 ± acres of irrigated land in a portion of senior right 63-09655 (12/29/1980) than on the junior irrigation right of 63-09686 (03/06/1981).

Enclosed is an ownership change form to request a split portion of the senior 63-09655 to be in your name(s) and copies of both rights for your review. There is no filing fee at this time. However, if an ownership change is filed too late after the SNAKE RIVER BASIN ADJUDICATION process has been completed by decree of the court, then, there will be fees associated and other legal issues to undergo.

If you request this change, the junior irrigation right of 63-09686 probably will not be recommended for the overlapping irrigation, however, it may still be recommended for the

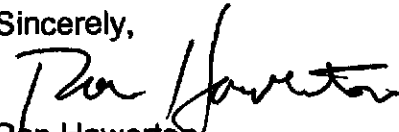

domestic licensed use and thus your 4 ± acres of irrigation could have a senior date priority, based upon your ownership portion of 63-09655 and if it is decreed in the SNAKE RIVER BASIN ADJUDICATION.

Before we can modify our records to reflect your portion of ownership for this water right, we need to have the enclosed Notice of Change of Water Right Ownership form completed. Please follow the instructions attached to the form. Sign it and return it to this office with all of the required information within 30 days of the date of this letter.

If we do not hear from you within the 30 days, we will assume you do not want to file an ownership change on the portion of senior irrigation right 63-09655 (Edward & Patricia Lewis new split portion 63-31471) split and your original claim to 63-9686 probably will be recommended as licensed and thus, your irrigation will remain having a junior date of priority to everyone else that has claimed a portion of that right.

If you have any questions regarding this letter, please feel free to contact me.

Sincerely,

Ron Howerton

Subject: RE: double license

Sue,

The right is currently limited (although incorrectly) to 0.02 cfs per acre and 4.5 afa in combination with other rights. Any attempt to use more would violate the conditions of the water right. Any attempt to transfer or utilize elsewhere (water bank) without the companion right would constitute an enlargement of the right. There are no further conditions (or corrections) necessary at this time, but documentation of this discussion may help with the upcoming claim investigation and for review if an application is received. SRBA investigation may find that one of the rights should be disallowed based on no beneficial use; or, the right holder may choose to relinquish one of the rights in favor of the other. I am hesitant to make any changes until SRBA review has been completed to verify actual use and necessary action.

I plan to add a copy of this message to the water right files, you may want to do the same for the claims.

Jeff

Subject: double license

Hi, Jeff.

By means of office day, I got involved with an odd one.

63-9655 was licensed for 47 acres at .02 per acre, G.W. with a 1980 priority date, in the name of Lewis.

63-9686 was licensed for 4 acres at .03 per acre, G.W. priority date 1981, name of Greenwell.

Greenwell is the son-in-law of Lewis. He did not realize that the 63-9655 covered his 4 acre track and thus filed for and received license 63-9686. The Lewis parcel has been subdivided and changes of ownership have been coming in. The neighbors are concerned that Mr. Greenwell will try to divert too much water from the well, try to transfer the 4 acres, or put it in the water bank,. Mr. Greenwell has been using the well covered in 63-9655, but would like to know if he can hang on to the 63-9686 right as a back up.

Does either right need to be conditioned so that if he were to try to transfer it would send up a red flag?

Any thoughts would be appreciated as the neighbors will be waiting for my reply.

Thanks, Sue Bock

Subject: RE: double license

Sue,
The right is currently limited (although incorrectly) to 0.02 cfs per acre and 4.5 afa in combination with other rights. Any attempt to use more would violate the conditions of the water right. Any attempt to transfer or utilize elsewhere (water bank) without the companion right would constitute an enlargement of the right. There are no further conditions (or corrections) necessary at this time, but documentation of this discussion may help with the upcoming claim investigation and for review if an application is received. SRBA investigation may find that one of the rights should be disallowed based on no beneficial use; or, the right holder may choose to relinquish one of the rights in favor of the other. I am hesitant to make any changes until SRBA review has been completed to verify actual use and necessary action.

I plan to add a copy of this message to the water right files, you may want to do the same for the claims.

Jeff

Subject: double license

Hi, Jeff.

By means of office day, I got involved with an odd one.

63-9655 was licensed for 47 acres at .02 per acre, G.W. with a 1980 priority date, in the name of Lewis.

63-9686 was licensed for 4 acres at .03 per acre, G.W. priority date 1981, name of Greenwell.

Greenwell is the son-in-law of Lewis. He did not realize that the 63-9655 covered his 4 acre track and thus filed for and received license 63-9686. The Lewis parcel has been subdivided and changes of ownership have been coming in. The neighbors are concerned that Mr. Greenwell will try to divert too much water from the well, try to transfer the 4 acres, or put it in the water bank. Mr. Greenwell has been using the well covered in 63-9655, but would like to know if he can hang on to the 63-9686 right as a back up.

Does either right need to be conditioned so that if he were to try to transfer it would send up a red flag?

Any thoughts would be appreciated as the neighbors will be waiting for my reply.

Thanks, Sue Bock
