In the Matter of Notice of Claim to Water Right No. A63-18423

AFFIDAVIT

BE IT ACKNOWLEDGED, that Max Harrold of 6701 Hwy 20-26, Nampa, Idaho, 83687, the undersigned deponent, being of legal age, does hereby depose and say under oath as follows: that his parents, Galen P. and Ruby V. Harrold purchased two properties on the same ditch with waste water shared usage rights. The first forty A. property was purchased October 1943 from Welsie Schmitt. The legal description is the NE ¼ of the SE ¼ of Section 24, Township 4 North, Range 2 West of the Boise Meridian in Canyon County, State of Idaho.

The second property purchased on June 16, 1947 was an 80 A. During the same transaction the east 40 A. was sold. The legal description for the property purchased from Claude and Alma Bingham was Parcel number SO419233650 Par #3650 of SW4NW4 SEC 19 4N 1W and Parcel number SO419325550 Lot 2 EXC R/W SEC 19 4N 1W.

Both properties were purchased together with "all water rights, ditches and rights of way for ditches used in connection therewith; and together with all tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining."

Welsie Schmitt told Dad that both properties shared the available piped waste water that came under the Phyllis Canal which was co-mingled with live irrigation water coming from the Phyllis Canal.

From talking to Lester Sommers who was born next door in June of 1907, I learned that this was a natural water right that existed before the Phyllis Canal was built and that water right was maintained by piping it under the Phyllis Canal. Raymond Nau, a neighbor who farmed near the Phyllis Canal, has also confirmed these facts.

And I affirm that the foregoing is true except as to statements made upon information and belief, and as to those I believe them to be true.

Witness my hand under the penalties of perjury this 9 day of Sept, 2003,

at regular meeting held April 10, 1906 of Payette-Boise Water Users Association authorizing President and Secretary to execute for and on behalf of said Corporation the following agreement.

Walter Griffiths, Acting Secretary. (Corp. Seal)

That whereas, a large number of the owners of land lying within the boundary of said Pioneer Irrigation District have entered into stock subscription and agreement with said second party for shares of Capital stock of said second party in which subscription and agreement it was expressly understood that same should not be regarded as delivered or as having any binding force or effect until the Pioneer Irrigation District, party of the first part, should have entered into an arrangement with said Water Users' Association or with United States Government for equitable distribution among the share holders of said Pioneer Irrigation District, of the value of the existing works of said District which will become a part of the main system of the Payette-Boise project. And whereas said parties by and through their Board of Directors, have examined said works of the Pioneer Irrigation District and have considered that a fair, just and equitable distribution of the value of the works of said Irrigation District is effected by crediting said subscribers for shares of stock of said second party with sum of \$14.00 for each and every share so subscribed for.

Now Therefore, this agreement Witnesseth: That in consideration of the premises and in order to render said stock subscription valid and binding said second party hereby promises and agrees to credit ^{every} subscriber for the Capital Stock of said second party who has lands within the limits for the Pioneer Irrigation District, with sum of \$14.00 for each ^{every} share of stock subscribed for and made appurtenant to land lying within the boundaries of said Pioneer Irrigation District.

Said second party further promises and agrees that balance to be paid for each share of stock on the subscription price on which said credit of \$14.00 is made as aforesaid, shall be due and payable said second party in installments on terms fixed by the Secretary of the Interior in pursuance of provisions of act of Congress approved June 17, 1902, known as Reclamation act,

IN WITNESS WHEREOF, said parties hereto have caused these presents to be subscribed by their President and attested by their Secretaries, and their Corporate seals to be hereunto affixed the day and year first written.

AFFIDAVIT

BE IT ACKNOWLEDGED, that Max Harrold of 6701 Hwy 20-26, Nampa, Idaho, 83687, the undersigned deponent, being of legal age, does hereby depose and say under oath as follows: that his parents, Galen P. and Ruby V. Harrold purchased two properties on the same ditch with waste water shared usage rights. The first forty A. property was purchased October 1944 from Welsie Schmitt. The legal description is the NE ¼ of the SE ¼ of Section 24, Township 4 North, Range 2 West of the Boise Meridian in Canyon County, State of Idaho.

The second property purchased on June 16, 1947 was an 80 A. During the same transaction the east 40 A. was sold. The legal description for the property purchased from Claude and Alma Bingham was Parcel number SO419233650 Par #3650 of SW4NW4 SEC 19 4N 1W and Parcel number SO419325550 Lot 2 EXC R/W SEC 19 4N 1W.

Both properties were purchased together with "all water rights, ditches and rights of way for ditches used in connection therewith; and together with all tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining."

Welsie Schmitt told Dad that both properties shared the available piped waste water that came under the Phyllis Canal which was co-mingled with live irrigation water coming from the Phyllis Canal.

From talking to Lester Sommers who was born next door in June of 1907, I learned that this was a natural water right that existed before the Phyllis Canal was built and that water right was maintained by piping it under the Phyllis Canal. Raymond Nau, a neighbor who farmed near the Phyllis Canal, has also confirmed these facts.

And I affirm that the foregoing is true except as to statements made upon information and belief, and as to those I believe them to be true.

Re: SRBA Claim A63-18423

Dear Claimant(s):

I am the Deputy Attorney General assigned to represent the Idaho Department of Water Resources in Basin 63 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding information on the priority date for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

The Department plans to issue its Preliminary Recommendations on this water right later this year. If the Department does not receive all the necessary evidence for this claim, it will have no option but to recommend to the SRBA Court that this water right be disallowed, meaning that the water right will not be valid.

Please contact Kimberly Brown at the Western Regional Office for the Idaho Department of Water Resources at (208) 334-2190. If she does not hear from you by March 12, 2004, then your water right will be recommended as disallowed.

Very truly yours,

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-18423

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Since it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area.

The required evidence supporting the priority date(s) requested needs to be submitted by September 12, 2003. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above. In addition, please contact me at the Western Region office as soon as possible to set up a field exam.

Re: Original Notice of Claim to a Water Right No. 63-18423

Renumbered to Notice of Claim to a Water Right No. 63-32063

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section
Western Region Office
