13. Other Water Rights Used:

14. Remarks:

Failure of the right holder to comply with the conditions of Transfer No. 69750 is cause for the Director to rescind approval of the transfer.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

The total instantaneous diversion of water from all points of diversion under Right 63-32101 shall not exceed 0.05 cfs, nor total combined annual volume of 13.6 af.

After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Commercial use is for a fur and hide facility.

This right is a split from former right 63-32004.

- Quantity and quality of return flows and location of discharge: The dairy facility is considered 100 percent consumptive and therefore no discharge will occur.
- Describe effects on other water uses resulting from the proposed change: The water users nearby the FROM well will benefit for having less ground water diversion in the vicinity. Negligible effects will be made to the water resource at the existing dairy, because no expansion of the dairy will result from this transfer.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.

Remarks for Vanderwoude Transfer of Water Right 63-31439

This transfer in combination with 63-31039 will meet the water demands identified in the attached dairy requirements worksheet.

For this transfer, the conversion of the Nature of Use from irrigation to stockwater and commercial use is considered to be 100% consumptive. Based on direction from IDWR, historical consumptive use needs to be demonstrated for this transfer. Transfer 69750 established the appropriate consumptive use value for 63-31439 when Pacific Hide and Fur (current owner of 63-31439) purchased the water right from Tom Bevan. In transfer 69750, historical consumptive use was demonstrated, used in the calculations, and accepted by IDWR. To avoid complications and to be consistent, the consumptive use rate determined in transfer 69750 will be applied to this transfer for the applicant Vanderwoude. The historical consumptive use was demonstrated through an affidavit by Tom Bevan about the type of crop, an affidavit by Steven Hannula regarding the sole source nature of the ground water right, and AGRIMET data established a consumptive use rate of 3.4 ac-ft/ac. This is reflected in transfer no. 69750 when Pacific Hide and Fur converted 4 acres of irrigation water to 13.6 ac-ft of commercial use ($13.6 \text{ ac-ft} / 4 \text{ ac} = 3.4 \text{ ac-ft/ac}$).

Brief

Applicants propose to transfer 15 acres of their irrigation right 63-9156 to the site of Pacific Hide and Fur Depot's (PHF) new facility. The consumptive use from 4 of the 15 acres will be used commercially for the new PHF facility and the remaining will continue to be used for irrigation at the proposed site. Although two qtr-qtrs are listed under the P/D, only one new well will be drilled within the E ½ NE.

ERO consultants prepared the transfer for the applicants.

Historical Use

Applicants provided 1987 CFSA maps showing irrigation of the licensed acres. 1994 and 2000 photos available in Arc View also show irrigation of the licensed acres. Applicants stated in Attachment 2 that the acres have been continuously planted in alfalfa crop.

Overlaps

The overlap analysis shows that water from Tenmile Creek in the name of Pleasant Valley Irrigation District overlaps the current P/U. Applicants stated in Attachment E that the well has always been the only source of water for irrigation of the licensed acres. Applicants also stated that Pleasant Valley Irrigation District's President Eric Bodily and Attorney Terry Copple were contacted by ERO and both confirmed that Pleasant Valley Irrigation District has never provided surface water to the property covered by water right 63-9156. ERO provided an affidavit for supporting documentation (see Attachment D).

Application 63-12541 overlaps the proposed P/U. PHF filed this application in 1999 for industrial use, which is currently on moratorium hold.

Consumptive Use

PHF's needs ~12,000 gpd to satisfy their commercial uses, which equates to 13.4 afa. ERO used the AGRIMET data from the Nampa station to determine that on the average, 3.4 afa is consumed annually by one acre of alfalfa. Based on this information, of the 15 acres purchased, 4 acres must be retired to satisfy the new facility's commercial needs. The remaining 11 acres can be accounted for 4.5 afa/ac for irrigation as licensed.

Ownership

The transfer was submitted by ERO in the name of the current water right owner. Sufficient documentation has been submitted to change the transfer into PHF's name once approved (Attachment H).

Recommendations

Approve the transfer as filed.

Approve the transfer in PHF's name per Attachment H.

Remarks for the Application of Transfer

for Thomas and Susan Bevan (commercial and irrigation)

Applicant wishes to transfer a portion of the water right (63-9156) to another property for commercial and irrigation uses. The acres of the old place of use will no longer be irrigated. Water will be pumped from a new point of diversion at the new place of use. The commercial use will have a peak diversion rate not to exceed 0.05 cfs and total annual volume of 13.6 acre-feet as specified on the transfer form. Some water from the facility will be disposed of on site through the use of lined evaporation ponds. The facility is designed to be zero discharge. This application for transfer does not interfere with other pending transfer applications.

Exact location of the point of diversion is unknown at time of filing application. Only one point of diversion will be constructed. The final location will be near one of the two points indicated on the map.

Attn: Ms. Lori Graves
Subject: **Water Right 63-09156**

Dear Ms. Graves,

I am writing regarding applications of Water Rights Transfer to Quail Ridge Subdivision in Nampa and Pacific Hide and Fur of Nampa and any future transfer applications regarding the above referenced Water Right. Please accept my assurances that the only source of water used on the alfalfa ground covered in the above mentioned Water Right has been provided exclusively by the ground water well covered under the Water Right and that no surface water right was ever provided or used on this property or in conjunction with this subject Water Right.

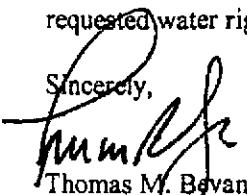

I spoke with Mr. William Stringer, Jr., an heir and personal representative for the Estate of Mr. William Stringer, Sr.; Mr. Stringer, Sr., deceased, was the previous land owner. Mr. Stringer, Jr., confirms all water used on this property was derived from the ground water well situated on the property and licensed under the above referenced Water Right 63-09156. He confirms this property never used any surface water from Pleasant Valley Irrigation District or any other Irrigation District.

Mr. Steve Hanula, of ERO Resources Corp., of 1106 N. Cole Road, Suite C of Boise, Idaho, telephone number: 373-7983, contacted Pleasant Valley Irrigation District and spoke to the president of the District, Mr. Eric Bodily, telephone number: 869-9867 and to the District's attorney and preferred contact on such matters, Mr. Terry Copple, telephone 342-3658. They both confirmed to Mr. Hanula, that Pleasant Valley Irrigation District never provided surface water to the property covered by Water Right 63-09156.

Thus, as the current land owner, please accept my assurances the exclusive source for the water used in the growing of alfalfa over the past five (5) years and also previous to the last five (5) years, on the ground covered by the Water Right 63-09156, came only from the ground water well and the noted Water Right.

Please advise if any further information or clarifications are required in your efforts to research the requested water right transfer.

Sincerely,

Thomas M. Bevan

Farm Owner and current owner of Water Right 63-09156

Steven R. Hannula, being first duly sworn deposes and states:

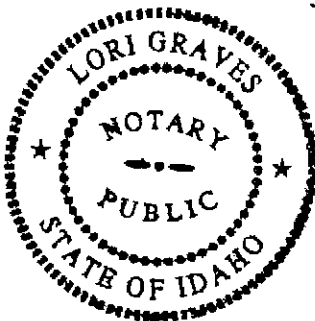

1. My name is Steven R. Hannula, and my work address is ERO Resources Corporation, 1106 N. Cole Road, Suite C, Boise, Idaho 83704-8661. My home address is 12596 W. Trafalger Ct, Boise, Idaho 83709.
2. My educational background includes Bachelor of Science in Geology from the University of Wisconsin Oshkosh in 1989 and Master of Engineering in Geological Engineering from Colorado School of Mines in 1995.
3. My work experience after graduation from Colorado School of Mines includes 5 years as a hydrogeologist at Shepherd Miller Inc. in Fort Collins, Colorado. Since August 2000, I have been employed by ERO Resources Corp. providing consulting services to clients in the areas of water rights and water quality.
4. Thomas and Susan Bevan currently own 69 acres in NW and SW of the NW Sec 8 T1N R2E in Ada County. Mr. and Mrs. Bevan have owned the property since September 2001.
5. Mr. William Stringer Sr. was the previous landowner and is now deceased. Mr. William Stringer Jr. is the heir and personal representative of the family. The Stringer family has owned the property since 1978 and sold the property to Mr. and Mrs. Bevan in September 2001.
6. Pleasant Valley Irrigation Company owns several water rights (63-2615, 63-329B, 63-330B, 63-331B, and 63-332) that include this same land (NW Sec 8 T1N R2E) in the Place of Use description.

7. On January 30, 2002, I spoke to Eric Bodily over the telephone. Eric Bodily is the current president of the Pleasant Valley Irrigation Company. Mr. Bodily indicated that there are no Pleasant Valley Irrigation Company shares on the Bevan property. One share was owned in 1995 to allow Mr. William Stringer Sr. eligibility to vote within the company. Mr. Bodily stated that he could not recall water ever being delivered to the property.
8. On March 14, 2002, I spoke to Mr. William Stringer Jr. via telephone. Mr. Stringer stated that when they owned the property, ground water was the sole source of irrigation and that Pleasant Valley Irrigation Company never delivered water to their property.
9. Mr. Bevan has supplied the Idaho Department of Water Resources with a letter stating that the ground water has been the only source of water used during his ownership.
10. Through conversations with Mr. Bevan, Mr. Stringer Jr., and Pleasant Valley Irrigation Company, water from Pleasant Valley Irrigation Company has not been delivered to the property at least since 1978 and that Water Right No. 63-9156 is the primary source of irrigation water for the property.

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- ☒ A. The appropriate **FILING FEE**. See instructions for fee amounts.
- ☒ B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
 OR
☒ If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Remarks under Purpose of use

2. Describe the changes you wish to make in the proposed recommendation:

Remove remark that refers to irrigation use.

3. Give a brief explanation as to why you disagree with these portions:

The parent water right had irrigation use listed. A series of transfers removed the irrigation use. The water right is for commercial use only

☐ I AGREE with this proposed recommendation: no changes need to be made.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

Failure of the right holder to comply with the conditions of Transfer No. 69750 is cause for the Director to rescind approval of the transfer.

This right is a split from former right 63-32004.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
