Comment: Irrigation is within Parcel No. R3927400000.

2. Igraves 8/29/2006 Source

Comment: The original license described the p/d located 50 feet above the confluence of Roswell and Main Drains. Based on the topo map, Roswell Drain is an unnamed drain and Main Drain is East Alkali Drain. The licensing exam indicates the p/d located on the unnamed drain tributary to East Alkali Drain. The source and tributary have been clarified.

3. Igraves 8/29/2006 P/U

Comment: 15 acres were originally licensed in the NENE S25. Claimants parcel encompasses 9 of the original 15 licensed acres. An SRBA field exam was conducted in 1995. The examiner found 6 acres irrigated at that time, however, all 9 acres appear irrigated based on the 1987 photo. The remaining 6 acres licensed in the NENE have not been claimed.

RE: Claim(s) to a Water Right filed in the Snake River Basin Adjudication

Claim Nos. A63-02351B

Dear Claimants:

The Department of Water Resources will be conducting claim verification field exams in your area beginning in March. An examination is needed to verify your water use in order to complete our report for the court's decree.

The field exams are conducted to gather information about your water right. This information may include the source of water, type of usage, amount of water used, number of acres irrigated, and the legal description of the point of diversion and/or place of use.

Please contact this office by March 10, 1995, in order to make an appointment at a time which is convenient for you. Although it is not mandatory that you accompany IDWR's examiner, it is helpful if someone familiar with the water delivery system is present during the exam. This will help insure that your water right is described accurately for the report to the court.

To make an appointment, or if you have any questions or concerns about the field exam, please contact me at your earliest convenience.

Sincerely,

Maria Minicucci
Water Agent, Adjudication Bureau

NOTES: 05/19/1995: License file shows location of "Main Drain" inaccurately. Drain runs through the NENE along from the west and along in a north northeast direction in the NWNENE. The drain does not go through the south half of the NENE as shown in the licensing field exam. This misrepresentation of the location of the "main drain", now East Alkali Ditch, made the irrigated acres appear greater than they actually were, or are currently. As per the Mr. Staley, the land to the west of the Robwell spillway is not irrigated. ~~Proof~~ ASCS does not indicate any acres to the west of the spillway (and part of road).
