63-2758B

63-2758B claims the license in its entirety but the claimant does not own the entire 196 acres licensed. I found 118.7 acres of the original licensed 196 that belongs to claimant. Below is a summary of licensed/claimed and what I recommended. 118.7 ac x .015 cfs per acre = 1.78 cfs from groundwater and 1 cfs from Indian Cr. for total of 2.78 cfs.

Legal	QQ	licensed/claimed	recommended
2N 1W 5	**NENW**	**35**	**35**
5	**NWNW**	**40**	**40**
2N1W 6	**NENE**	**20**	**8.1**
3N1W 31	**NWSE**	**20**	**0**
31	**SWSE**	**40**	**7.6**
31	**SESE**	**35**	**22**
3N1W 32	**SWSW**	**6**	**6**
TOTAL		196	118.7

The maps in the license file depict the wells and Indian Creek differently. I used the engineer's map which still appears to shift Indian Cr to the east. I did my best to "fit" Indian Creek and the licensed PODs to a 1939 aerial of the stream and ditches and then correct the legal descriptions. It looks like 2 of the licensed PODs are not on property owned by the Plines so I will recommend 8 wells and the Indian Cr diversion. Here is a summary of the PODs.

Well #	lic/ claimed Legal	corrected legal	Pline property
1	NESW S 5	F12 NE NWSW S 5	Pline Farms 666138

WARRANTY DEED

THIS INDENTURE, Made this 27 day of September, in the year of our Lord one thousand nine hundred and sixty-three, between HERBERT S. PLINE and ANNA L. PLINE, husband and wife, DALE S. PLINE and ELLEN R. PLINE, husband and wife, LARRY F. PLINE and PATRICIA M. PLINE, husband and wife, all of Nampa, County of Canyon, State of Idaho, the parties of the first part, and LARRYDALE FARMS, INC., an Idaho corporation with its principal place of business at Nampa, County of Canyon, State of Idaho, the party of the second part,

WITNESSETH, That the said parties of the first part, for and in consideration of the sum of TEN AND NO/100 DOLLARS ($10.00), and other good and valuable considerations, to them in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, have granted, bargained and sold, and by these presents do grant, bargain, sell, convey and confirm unto the said party of the second part, and to its successors and assigns forever, all of the following described real estate, situated in the County of Canyon, State of Idaho, to wit:

I

A portion of the $SE\frac{1}{4}$ of Section 31, Township 3 North, Range 1 West of the Boise Meridian, more particularly described, to wit: Commencing at the SE corner of Section 31, Township 3 North, Range 1 West of the Boise Meridian, the INITIAL POINT; thence North 89° 40' West, 1053.3 feet along the South line of said Section 31; thence North 47° 52' West, 946.2 feet; thence North 8° 59' West, 443.1 feet; thence North 87° 23' East, 277.3 feet; thence North 75° 09' East, 255.5 feet; thence South 88° 42' East, 466.0 feet; thence South 11° 46' East, 618.3 feet; thence South 81° 08' East, 713.0 feet to a point in the East line of said Section 31; thence South 0° 30' East, 431.1 feet along the said East line to the Initial Point.

II

A portion of the $SW\frac{1}{4}$ of the $SW\frac{1}{4}$ of Section 32, Township 3 North, Range 1 West of the Boise Meridian, more particularly described, to wit: Commencing at the SW corner of Section 32, Township 3 North, Range 1 West of the Boise Meridian, the INITIAL POINT; thence North 0° 30' West, 396.0 feet along the West line of said Section 32; thence South 72° 55' East, 1354.6 feet to the SE corner of the $SW\frac{1}{4}$ of the $SW\frac{1}{4}$ of said Section 32; thence North 89° 55' West, 1291.4 feet along the South line of the said $SW\frac{1}{4}$ of the $SW\frac{1}{4}$ to the Initial Point.

A portion of the SE¼ of the SW¼ of Section 32, Township 3 North, Range 1 West of the Boise Meridian, more particularly described, to wit: Commencing at the SW corner of Section 32, Township 3 North, Range 1 West of the Boise Meridian, and running South 89° 55' East, 1291.4 feet along the South line of said Section 32 to the INITIAL POINT; thence continuing South 89° 55' East, 645.7 feet along the said South line to SE corner of the SW¼ of the SE¼ of the SW¼ of said Section 32; thence North 0° 03' East, on East line of said subdivision, 314.2 feet to a point in the Southerly right of way of a County Road; thence North 63° 57' West, 720.7 feet along the said Southerly right of way to a point in the West line of the SE¼ of the SW¼ of said Section 32; thence South 0° 08' East, along said West line 629.8 feet to the Initial Point.

A portion of Lot 1 of Section 6, Township 2 North, Range 1 West of the Boise Meridian, more particularly described, to wit: Commencing at the NE corner of Section 6, Township 2 North, Range 1 West of the Boise Meridian, the INITIAL POINT; thence South 0° 12' East, 792.2 feet along the East line of Lot 1 of said Section 6; thence North 61° 36' West, 411.2 feet; thence North 30° 15' West, 695.4 feet; to a point in the North line of said Lot 1; thence South 89° 40' East, 709.3 feet along the said North line to the Initial Point.

A portion of Section 5, Township 2 North, Range 1 West of the Boise Meridian, more particularly described, to wit: Commencing at the NW corner of Section 5, Township 2 North, Range 1 West of the Boise Meridian, the INITIAL POINT; thence South 89° 55' East, 2582.8 feet along the North line of said Section 5 to the North 1/4 corner of said Section 5; thence South 1° 32' East, 1706.4 feet to a point in the East line of the West 1/2 of said Section 5; thence North 89° 40' East, 220.0 feet; thence South 1° 32' East, 990.0 feet to a point in the South line of the North 1/2 of said Section 5; thence South 89° 40' West 220.0 feet along the said South line to the center of said Section 5; thence South 0° 13' East, 1520.5 feet along theEast line of the West 1/2 of said Section 5 to a point in the Northerly right of way of the Oregon Short Line Railroad; thence North 55° 28' West, 3219.7 feet along the said Northerly right of way to a point in the West line of said Section 5; thence North 0° 12' West, 2394.5 feet along the said West line to the Initial Point.

Together with all water, water rights, ditches and rights of way for ditches appurtenant thereto or in anywise appertaining;

TOGETHER, With all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, the reversion and reversions, remainder and remainders,

rents, issues and profits thereof; and all estate, right, title and interest in and to the said property, as well in law as in equity, of the said parties of the first part.

TO HAVE AND TO HOLD, All and singular the above mentioned and described premises, together with the appurtenances, unto the party of the second part, and to its successors and assigns, forever, and the said parties of the first part, and their heirs, the said premises in the quiet and peaceable possession of the said party of the second part, its successors and assigns, against the said parties of the first part, and their heirs, and against all and every person and persons whomsoever, lawfully claiming or to claim the same shall and will WARRANT and by these presents forever DEFEND.

IN WITNESS WHEREOF, The said parties of the first part have hereunto set their hands and seals the day and year first above written.

RE Amended Notice of Claim for SRBA Claim No. 63-2758B

Dear Ellen and Clinton Pline:

I am embarrassed to have to send you this letter, but, unfortunately, I found errors in the points of diversion listed on the Amended Claim that you signed, Clinton, when you two were in my office on April 5, 2007. I think the amended claim form pulled the points of diversion from the prior claim in our database, though I thought I had checked them while you were in the office.

I corrected the points of diversion and have enclosed two copies of the NEW amended claim here. One of them is your copy with the points of diversion identified by the well numbers or Indian Creek on the map that I prepared for you previously. I am very sorry but I am confident that this amended claim is correct. Please feel free to compare them to you map and call me with questions.

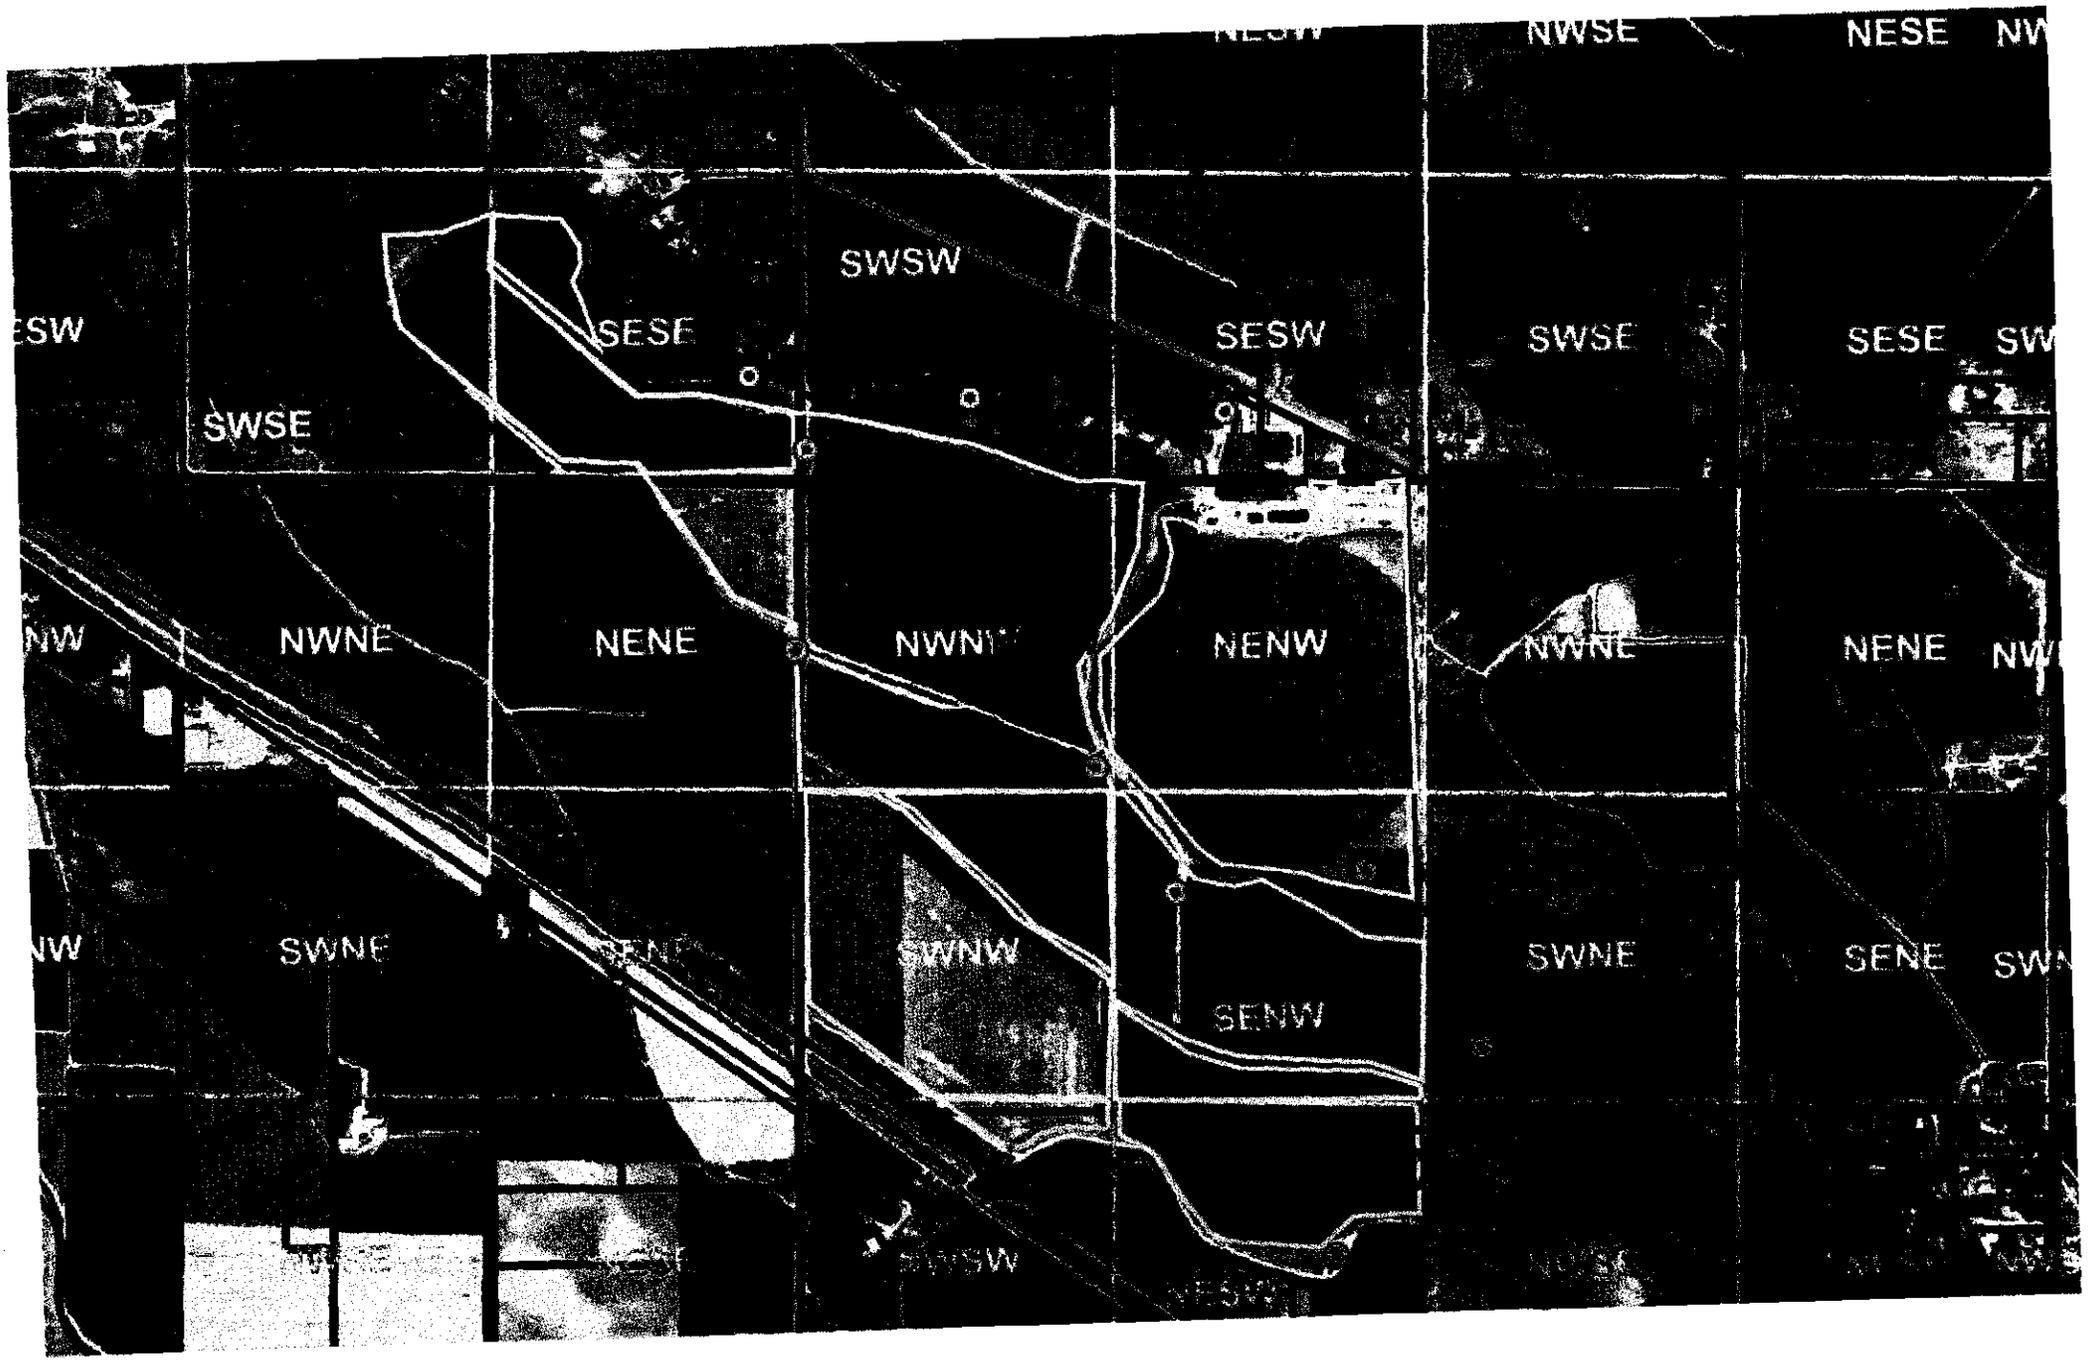

Clinton, if you would please sign and return to me as soon as is reasonably possible I would appreciate it. I have your signature on file so I will notarize here.

Please call me at (208) 334-2190 if you have questions regarding this matter.

Sincerely,

Vicky L. Music
Sr. Water Resource Agent

COPY

D. I object to the following elements as recommended in the Director's Report. (Please check the Appropriate box(es)).

1. X **Name and Address**
   Should be: Disallowed. See below.

2. X **Source**
   Should be: Disallowed. See below.

3. X **Quantity**
   Should be: Disallowed. See below.

4. X **Priority Date**
   Should be: Disallowed. See below.

5. X **Point(s) of Diversion**
   Should be: Disallowed. See below.

6. ☐ **Instream Flow Description**
   Should be: N/A

7. X **Purpose(s) of Use**
   Should be: Disallowed. See below.

8. X **Period of Year**
   Should be: Disallowed. See below.

9. X **Place of Use**
   Should be: Disallowed. See below.

10. X **I object because:**

    X This water right should not exist.

    ☐ This water right was not recommended, but should be recommended with the elements described above.

E. **REASONS SUPPORTING OBJECTION (S)**: This claimed water right is within the boundaries of Nampa & Meridian Irrigation District ("NMID") and the source of said claim is a drain which was constructed or enlarged by or for NMID. Said drain is owned, operated, maintained and controlled by NMID and the water within said drain is seepage or waste water that has been developed, captured and/or controlled by NMID. Therefore, said water is not subject to appropriation, would amount to an impermissible trespass, and this claimed water right should not exist.

F. **VERIFICATION** (must be completed)

Please print your name: Ellen R Pline

IDWR Regional Office,

I am an owner of well #A0002400 located in NE 1/4 SW 1/4 of Section 5. This well was in existence at the time the land was purchased by H. S. Pline in 1958.

The use of the well was re established in 1967 and irrigation water from the well is used on parts of all 4 quarter sections of the SW 1/4 of Section 5, totaling 51 acres. To the best of my knowledge water from this well has never been used outside of Section five.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Use of this right is combined with water from Nampa Meridian Irrigation District.

Stockwater use is for 200 head cattle.

Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.

Remarks:

Comments:

1. vmusic 2/2/2006 PODs
Comment: SOME OF THE CLAIMED LEGALS OF THE WELLS AND INDIAN CR DIVERSION ARE INCORRECT. THERE ARE ABOUT 4 DIFFERENT MAPS IN THE LICENSE FILE. THE ONE STAMPED BY THE STATE ENGINEER MATCHES THE LICENSE. SEE MEMO IN FILE AND FIELD EXAM NOTES. ALSO, ACCT TRANSFER IN PODs BY ADDING PODs.

2. vmusic 2/2/2006 CLAIM - POU
Comment: CLAIMANT CLAIMED ENTIRE LICENSE BUT DOES NOT OWN ALL OF THE 196 AC LICENSED. SEE MEMOS IN CLAIM FILE. NO RIGHT ASSOCIATED WITH THE SOUTH HALF OF SEC 5 BY WELL F12 AND INDIAN CREEK THAT WAS FOUND TO BE IRRIGATED DURING THE 2006 FIELD EXAMS. ASSUME NMID WATER.

3. vmusic 2/2/2006 QUANTITIY
Comment: QUANTITY LICENSED FOR GROUNDWATER IS 2.92 CFS FOR 196 ACRES. DUTY OF WATER IS .015 CFS PER AC X 119 AC RECOMMENDED = 1.78 CFS FROM WELLS. 1 CFS FROM INDIAN CR IS .005 CFS PER AC X 119 AC = .61 CFS FROM INDIAN CREEK FOR TOTAL OF 2.38 CFS OR .02 CFS AS LIC.

4. vmusic 2/2/2006 SOURCES
Comment: BOTH GROUNDWATER AND SURFACE WATER WERE LICENSED UNDER PARENT RIGHT.1 CFS LICENSED FROM INDIAN CREEK AND 2.92 CFS LICENSED FROM THE WELLS.

5. vmusic 10/12/2006 SURFACE RTS
Comment: NOT MENTIONED IN CLAIM OR LICENSE FILE. FIELD EXAM MENTIONS SUPPLEMENTAL WATER FROM THE RIDENBAUGH

6. Vmusic 11/21/2006 NOE
Comment: DURING THE NOE TIME PERIOD, PLINES SAID THERE WAS ONLY 1 PASTURE WELL. I DELETED THE POD WITH ID NO. 666141 WITH METAL TAG NO. A0002394. CLAIMANT ALSO WANTS TO AMEND CLAIM TO INCLUDE OTHER LANDS HISTORICALLY IRRIGATED PER AN ACC TRANSFER OF POU. ELLEN PLINE IS TO BE WORKING ON PROVIDING HISTORICAL INFORMATION AND THE LEGAL DESCRIPTIONS AND THEN I WILL AMEND CLAIM.

RESPONSE DATE: OCTOBER 7, 1996

RE: Notice of Claim to a Water Right No. A63-02758B

To Whom It May Concern:

The Idaho Department of Water Resources (IDWR) has initiated review of the above-referenced claim. During this review another claim was found which was filed on a portion of the same water right. Specifically, 12 acres and a proportionate amount of water has been claimed in Twp. 03N, Rge. 01W, section 31, NW¼SE¼, by another party.

At this time IDWR requests that you provide this office with evidence that you own the lands covered by the water right in Twp. 03N, R01W, section 31, NW¼SE¼. The deed which confirms your ownership is acceptable evidence. This same request is being made of the other party.

If no response to this letter is received by the response date noted above it will be assumed that you have no interest in the 12 acres of irrigation which has been claimed by the other party. If you have sold a portion of your property represented in the claim and withheld the water right in the sale, IDWR requires documentation of that transaction.

Please do not hesitate to contact me if you have any questions or need additional information.

Sincerely,

Maria Minicucci
Sr. Water Agent, Adjudication Bureau

Re: Identification Number Change for a Notice of Claim in the Snake River Basin Adjudication (SRBA)
Canyon County - Claim No. A63-02758B

Dear Claimant,

The identification number of your Notice of Claim to a Water Right has been changed from A63-02758 to A63-02758B. The Idaho Department of Water Resources assigns identification numbers to claims that will allow processing without duplication or confusion; this change does not affect your claim in any other way.

Enclosed is a computer-generated copy of your claim with the new identification number. Refer to this record number in any future inquiries or correspondence. Please do not hesitate to contact this office, if you have any questions.

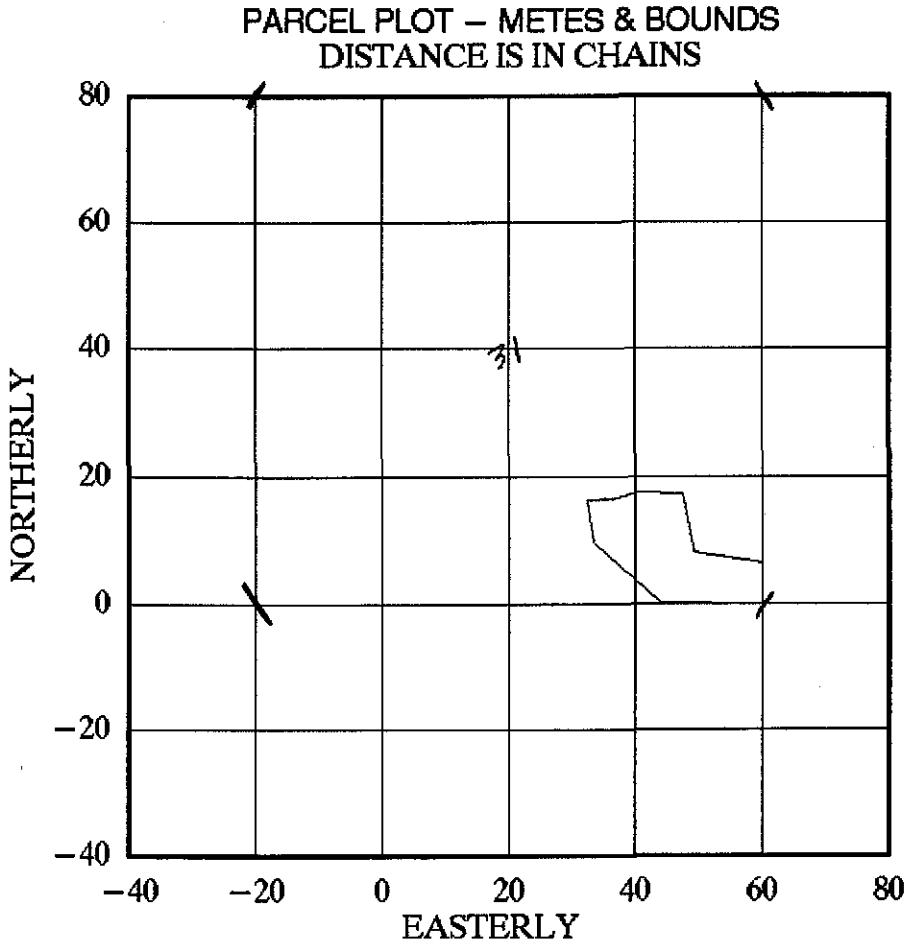

Sincerely,

Roxanne

State of Idaho
License and Certificate of Water Right

Water License No. 20916

Water District No.

Amount 3.92 second feet

Priority January 24, 1949

THIS IS TO CERTIFY that CHARLES C. TOBIAS

of Nampa, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated January 24, 1949; that Permit No. 20916 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 4 second feet, was issued thereunder on March 3, 1949, showing that said works were completed on the 2nd day of March, 1949; and that on the 10th day of June, 1949,

CHARLES C. TOBIAS

of Nampa, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of Indian Creek and a group of wells for the purpose of irrigation and stock uses, under Use Permit No. 20916 of the Department of Reclamation and that said right to the use of said waters has been perfected *in accordance* with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 8 of Licenses at page 4543, on the 6th day of April, 1950:

The right hereby confirmed dates from January 24, 1949;

The Point of Diversion from Indian Creek is located in the NW ¼ SE ¼ Sec. 5, Tp. 2 N., R. 1 W., B. M. Canyon County
See below for points of diversion from wells.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and *beneficially* used for said purposes, and shall not exceed one cubic feet per second. from Indian Creek, and 2.92 sec. ft. from wells.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
2 N.	1 W.	5	NE¼ NW¼	40	35
			NW¼ NW¼	40	40
			SW¼ NW¼	40	--
			SE¼ NW¼	40	--
		6	NE¼ NE¼	40	20
			NW¼ NW¼	40	--
3 N.	1 W.	32	SW¼ SW¼	6	6
		31	NW¼ SE¼	40	20 = cant doesn't own
			SW¼ SE¼	40	40
			SE¼ SE¼	40	35
			Number of Acres Actually Irrigated -		196

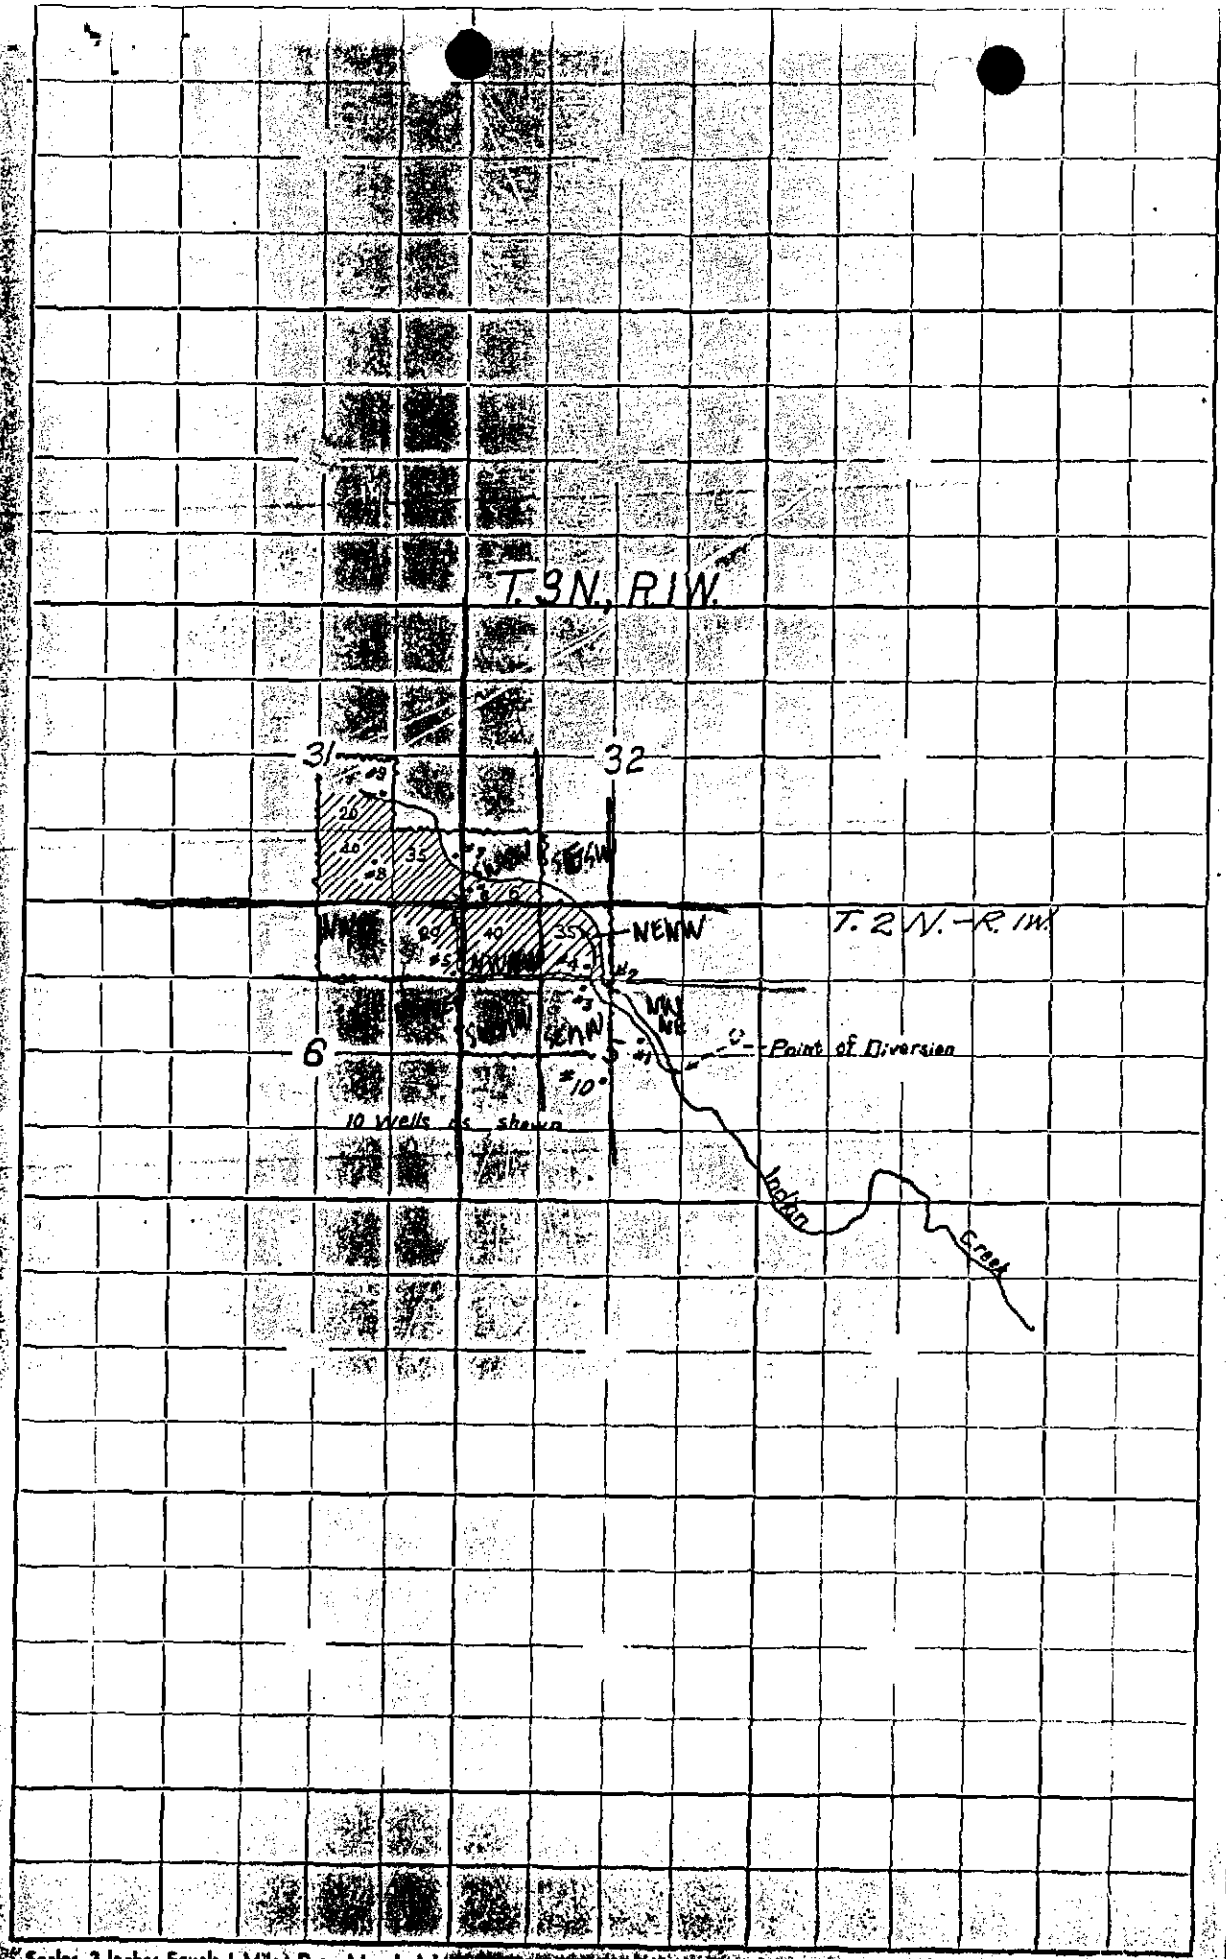

Points of diversion from wells: NE¼ SW¼, SW¼ NE¼, SE¼ NW¼ Sec. 5; SE¼ NE¼ Sec. 6, T. 2 N, R. 1 W. SW¼ SW¼ Sec. 32, SE¼ SE¼, SW¼ SE¼, NW¼ SE¼ Sec. 31, T. 3 N., R. 1 W., B.M.

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 6th day of April, 1950.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NO. 63-2758B

FROM: VICKY L MUSIC, WATER RESOURCE AGENT, IDWR / WESTERN REGION

SUBJECT: CLAIM REVIEW - RECOMMENDATION

DATE: 10/12/2006

CC:

This memo follows up my 2/6/06 memo that I wrote during my initial investigation and prior to the field exam. Some of the issues were discrepancies in the license map and licensed legal descriptions, entire licensed pou was claimed though some of the pou originally licensed is not owned by the claimant, Pline Farms, etc. PODs licensed were 9 artesian wells, 1 pumping well and Indian Creek.

The field exams, conducted in May of 2006 found 11 PODs which were GPSed, though 2 of the licensed PODs [wells 9 and 10] are on property no longer owned by the Plines. A search of IDWR well logs on file did not reveal that irrigation wells have been drilled on the Pline property in the past 30+ years.

Though it is not entirely clear when these wells were drilled, it appears that at least 1 or both of the pasture wells and the farm well have been used for irrigation for several years. I will recommend the pasture wells and the farm as PODs. They clearly qualify under the accomplished transfer statute because they were added before 1987.

Pline claimed the entire 196 acres licensed but only owns about 119 if the licensed acres so I will recommend 119 acres. The Plines are currently irrigated an additional 90 – 100 acres south of the licensed pou for which there is no water right on file with IDWR. There is no reference to surface rights in the license or claim file but in the field exam notes it states that there are these fields are irrigated from the Ridenbaugh.

VLM

MEMO TO CLAIM FILES

TO: CLAIM FILE NO. 63-2758A AND 63-2758B

FROM: VICKY L MUSIC, SR. WATER RESOURCE AGENT, IDWR / WESTERN REGION

SUBJECT: CLAIMS ANALYSIS

DATE: 2/3/2006

CC:

The parent right of these claims is a license from Indian Creek and 10 shallow wells [75' to120']. The wells were drilled to tap shallow groundwater that is associated with Indian Creek. The licensed priority date is 1/24/1949 for 1 cfs from Indian Creek and 2.9 from the wells. The irrigation season of use was not licensed. There are 2 claims for this license.

63-2758A

63-2758A claimed 12 acres of irrigation in the NWSE sec 31 of the 20 acres in the QQ licensed, from well no. 9 or 10. The well in numbered both ways in the license file. The well is north of Indian Creek in the NWSE Sec 31 T3N R1W. The claimant owns approx 30 acres in the NWSE, NWSE and NESE of sec. 31. Claimant owns 4.7 ac of the 40 acres licensed in the SWNE but did not claim it, most likely because it is south of Indian Cr. and cannot be irrigated from the well. The property is also irrigated from the NMID water.

There are notes in the claim file that claimant of the A portion was notified that the license may not be appurtenant to their property and that they may have to provide proof of priority as for a beneficial use claim. I believe the agent was being cautious because the handdrawn maps in the license file are inaccurate and it appears at first glance that the license may not have included the "A" property. However, the maps inaccurately depict Indian Creek as flowing through the center of the NWSE Sec 31. In fact, Indian Creek just nicks the SWNWSE Sec 31.

I recommended the 12 acres of irrigation claimed. The neighbor to the west could have claimed the remaining 8 acres originally licensed in this QQ. The licensed duty of water from groundwater was 2.92 / 197 = .015 cfs per acre. 12 x .015 = .18 cfs. I recommended .18 cfs.

63-2758B

63-2758B claims the license in its entirety but the claimant does not own the entire 196 acres licensed. I found 118.7 acres of the original licensed 196 that belongs to claimant. Below is a summary of licensed/claimed and what I recommended. 118.7 ac x .015 cfs per acre = 1.78 cfs from groundwater and 1 cfs from Indian Cr. for total of 2.78 cfs.

Legal	QQ	licensed/claimed	recommended
2N 1W 5	**NENW**	**35**	**35**
5	**NWNW**	**40**	**40**
2N1W 6	**NENE**	**20**	**8.1**
3N1W 31	**NWSE**	**20**	**0**
31	**SWSE**	**40**	**7.6**
31	**SESE**	**35**	**22**
3N1W 32	**SWSW**	**6**	**6**
TOTAL		196	118.7

The maps in the license file depict the wells and Indian Creek differently. I used the engineer's map which still appears to shift Indian Cr to the east. I did my best to "fit" Indian Creek and the licensed PODs to a 1939 aerial of the stream and ditches and then correct the legal descriptions. It looks like 2 of the licensed PODs are not on property owned by the Plines so I will recommend 8 wells and the Indian Cr diversion. Here is a summary of the PODs.

Well #	lic/ claimed Legal	corrected legal	Pline property

State of Idaho
License and Certificate of Water Right

Water License No. 20916 — Amount 3.92 second feet

Water District No. ____ — Priority January 24, 1949

THIS IS TO CERTIFY that CHARLES C. TOBIAS of Nampa, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated January 24, 1949; that Permit No. 20916 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 4 second feet, was issued thereunder on March 3, 1949, showing that said works were completed on the 2nd day of March 1949; and that on the 10th day of June ,1949,

CHARLES C. TOBIAS of Nampa, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of Indian Creek and a group of wells ~~tributary of~~, for the purpose of irrigation and stock uses, under Use Permit No. 20916 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 8 of Licenses at page 4543, on the 6th day of April, 1950:

The right hereby confirmed dates from January 24, 1949;

The Point of Diversion ~~located~~ from Indian Creek is located in the NW ¼ SE ¼, Sec. 5, Tp. 2 N., R. 1 W., B. M. Canyon County
See below for points of diversion from wells.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed one cubic feet per second. from Indian Creek, and 2.92 sec. ft. from wells.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

MEMORANDUM TO SUBCONTRACTOR

TO: Sandy H. (4/27/06 received)

FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION

SUBJECT: 63-2758B

DATE: 2/3/2006

CC: CLAIM FILE

Claimant is Pline Farms, Inc. Address is 6805 Lake Hazel Rd, Nampa. I think this is the site address but confirm when you make appointment. Phone # is 466-6811. Clinton Pline 989-1351

This claim is based on license 63-2758. Claimant Pline Farms claimed the entire 196 acres licensed but does not own all of the licensed place of use. This license is unusual in that both groundwater [10 wells] and surface water [Indian Cr] are licensed. Additionally, the legal description of some of the wells is incorrect so do not depend on the claimed PODs for the correct legals.

1 – have the claimant identify the Indian Creek and wells PODs as they existed in 1987. If different now, explain. Please gps all points of diversion. **do not use legal description or license maps.** Use the 2004 aerial.

2 – describe delivery system from these wells and Indian Cr. as it existed in 1987. if different from current conditions, explain. Is Nampa Meridian Irr water also used? No, Riddenbaugh

3 – Ask specifically about changes is how water is used under this license only – not irrigation co water. Identify year is which changes were made.

4 - locate PODs, other features, on 2004 aerial as they existed in 1987. If different from current conditions, explain.

5 – what is the # and type of stock claimed?

Thanks.

VLM

Date of Inspection: 5/18/06 and 5/23/06
Inspector: Sandy Hemenway

Description of Diverting Works:
Pasture #1 and #2 wells: located 0.1 mile east of the Robinson Rd. and Lake Hazel intersection, on Lake Hazel, then south 405' (south of the power pole), with the overflow an additional 138' south to the creek. Both 6" casing, 80' deep, artesian wells.

Farm Well: located east of 6805 Lake Hazel Rd., is 8" casing, 125' deep, 30psi, 20' static, unknown size discharge to barn/stockwater (125 dairy cows, 25 pr. Cows) and house (internal/external yard/garden). NOTE: 1987 and until a few years ago (Mr. Pline passed away) they had dairy cows, but currently they lease out the property and the current leaser has 60-100 cattle).

F-4 Well: Located southwest of 2111 Robinson Rd. 6" casing, 80' deep, artesian.

F-5 Well: Located 0.4 mile north of Greenhurst on the west side of the road. 8" casing, 80' deep, artesian well, 4' lift

F-6 Well: Located 0.6 miles north of Greenhurst on the east side of the road. 6" casing, 80' deep, artesian well (currently not hooked up to anything, but discharged to Indian Creek).

F-7 Well: Located directly southeast of the barn. 8" casing, 80' deep, artesian, 8" discharge to buried 8" PVC running northwest to Pivot with 3 towers and end gun. F-7 also has buried 8" PVC that runs to the collection tank at well F-8, to be pumped to the linear pivot that irrigates fields F-6, 8, and 10.

Indian Creek Weir: Located southeast of F-7 well, in somewhat of a slough area. A concrete weir directs the flow down a ditch moving diagonally running east to west.

F-8 Well: Located 0.2 miles slightly southwest from the barn, down a little dirt road. 8" casing, 80' deep, artesian well

F-9 Well: Located southeast of well F-8 (down the dirt road). 8" casing, 80' deep, 6" discharge, artesian well.

F12 Well: Located 0.5 mile east of the Robinson Rd and Greenhurst intersection, on Greenhurst, then north of 6800 Greenhurst, on the north side of the canal. 12" casing, 90' deep, 40psi, 17' static, 15Hp US Motor, 8" discharge.

NOTE: Prior to the handline, and pivots, concrete ditches and dirt ditches were used to irrigate the property. On the hand drawn map, indicated with "red" shows the previous use, and some are still used as drawn (F-1, F-2, F-3).

Delivery System Narrative:

From Pasture #1 and 2 wells. A booster pump (no tag, unknown Hp), with 6" discharge to 6" buried PVC, pumps north to buried 4" PVC running east and west on the north boarder, with hook-ups for 29 hand lines, running at an average of 45psi. 4" piped under Lake Hazel, open discharge to concrete ditches that run south to north separating F-2 and F-3, then dirt ditch running east to west on the south boarder of F-1 on the west half, and concrete ditch on the east half (all of that field gravity flows south to north). The concrete ditch from F-1 continue east then runs south to gravity flow irrigate F-3 (east to west).

Farm Well: unknown size discharge or buried line to barn (1987---125 dairy cows and 25 pr. Cows, currently 60-100 cattle), and house (internal/external yard/garden).

From F-4 Well: 6" discharge to 10" buried steel pipe that runs east then south to cross Indian Creek to a booster pump, that also takes flow coming down the concrete ditch from F-5 Well and pumps it to the wheel line that irrigate POU F-4 (One strand with 22 nozzles, another angles northwest with 26 nozzles). Prior to the wheel line being installed, F-4 and F-5 irrigated POU fields F-4 and F-5 with the concrete ditches alone (gravity flow north to south in F-4, and east to west on F-5.

From F-5 Well: 5" discharge, open discharges to concrete ditch running south to north (gravity flow east to west). The water in the ditch not used flows down to a collection tank by the booster pump for F-4, and is added to that water and pumped to the wheel line on field F-4.

From F-6 Well: prior to 1987, this well was discharged to a dirt ditch that ran north to south (gravity flow west to east).

From F-7 Well: 8" discharge to buried 8" PVC running northwest to Pivot with 3 towers and end gun. Pivot was installed in the late 1990's. Prior to the pivot, F-7 open discharged to a dirt ditch that followed the southern boarder, making its way north on the western boarder (gravity flow west to east).

From Indian Creek Weir: the dirt ditch is tiled across Indian Creek to the dirt ditch that was previously used by F-7 well, running on the south boarder then making its way north (gravity flow west to east).

From F-8, and F-9 Wells: both have 8" discharge to collection tank (F-7, F-8, F-9 all are piped to this collection tank), 8" buried PVC to the Linear Pivot . NOTE: The Linear Pivot has 7 towers, and an end gun, is wheel driven traveling north to south by a drag line on the east boarder of Robinson Rd., with valves, 118 outlets, and goes 800' before it goes on another outlet). POU fields F-6, F-8, and F-10. In the south boarder are 3" hand-line that are supplied water from F-12 Well (in the southeast corner).

From F-12 Well: 8" discharge to 8" buried PVC to "south pivot" located in field F-9. Pivot has 4 towers and an end gun. There is a buried line with hook-ups to attach the 40' sections of hand line that is located in the SE corner, and along the south boarder to cover the area missed with the Linear Pivot, and F-9 Pivot.

NOTE: Northeast of Well F-12 is a head gate for supplemental water from the Riddenbaugh. No other supplemental water is used on the property.
The F-7 Pivot and F-9 Pivot were installed in the late 1990's. The "red" lines on the hand drawn map indicates the irrigation system used for F-9, and F-7 well open discharged to a dirt ditch on the southern boarder that is still utilized by Indian Creek POD.

STOCKWATER same as IRRIGATION

Conditions of Approval:

1. N05 The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
3. X02 Stockwater use is for ____.
4. The quantity of water under this right consists of 1.0 cfs from Indian Creek and 1.78 cfs from 8 wells.
5. N08 The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

Remarks:

Comments:

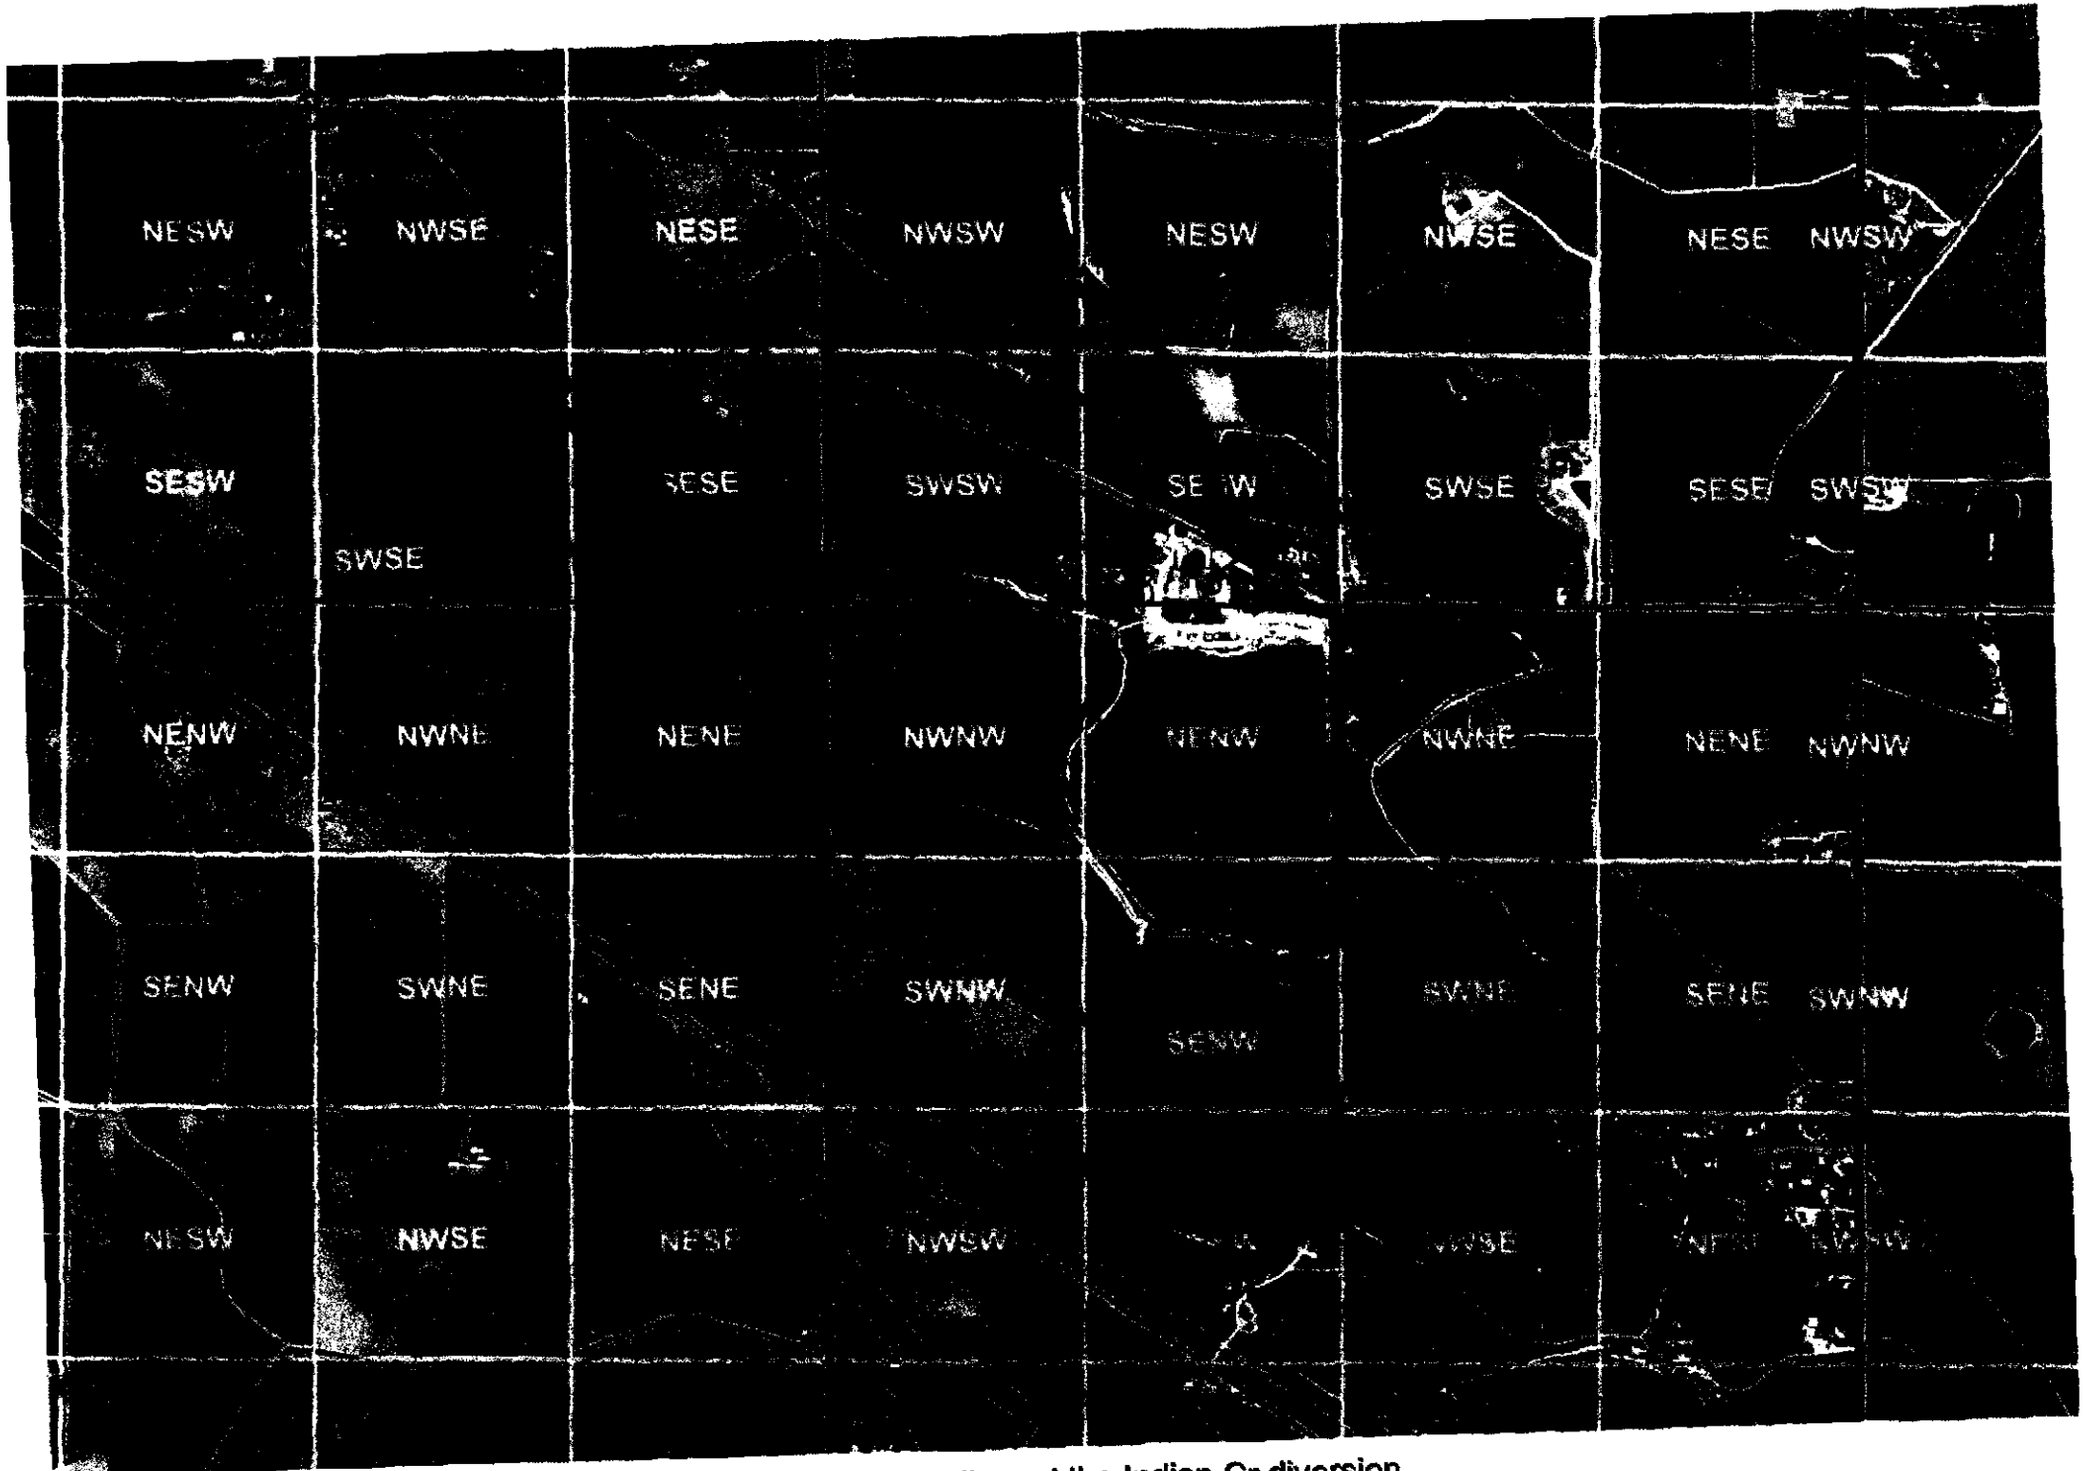

1. vmusic 2/2/2006 PODs
Comment: SOME OF THE CLAIMED LEGALS OF THE WELLS AND INDIAN CR DIVERSION ARE INCORRECT. SEE MEMO IN FILE.

2. vmusic 2/2/2006 CLAIM - POU
Comment: CLAIMANT CLAIMED ENTIRE LICENSE BUT DOES NOT OWN ALL OF THE 196 AC LICENSED. SEE MEMO IN CLAIM FILE.

3. vmusic 2/2/2006 QUANTITIY
Comment: QUANTITY LICENSED FOR GROUNDWATER IS 2.92 CFS FOR 196 ACRES. DUTY OF WATER IS .015 *CFS PER AC X 118.6 AC RECOMMENDED = 1.78 CFS FROM WELLS AND 1 CFS FROM INDIAN CR*

4. vmusic 2/2/2006 SOURCES
Comment: BOTH GROUNDWATER AND SURFACE WATER WERE LICENSED UNDER PARENT RIGHT.

Water Supply Bank:

63-2758B . 2004 aerial photo. On the map, locate all of the wells and the Indian Cr diversion claimed under the license. Also draw the delivery sytem of ditches, sprinklers, etc. If combined with Nampa Meridian Irr District water, note

— = cement ditch
- - - = dirt ditch
