1. Name of Claimant(s) The Amalgamated Sugar Company Phone (208) 383-6500
Mailing Address 3184 Elder Street, Boise, Idaho Zip 83705
2. Date of Priority (only one (1) per claim) 11/12/1953
3. Source of water supply (a) groundwater
which is tributary to (b) _____
4. a. Location of existing point of diversion is: Township 3N Range 2W Section 9,
SE 1/4 of SE 1/4 of _____ 1/4, Govt. Lot, _____ B.M., County of Canyon
Additional points of diversion if any: Seven (7) wells in this location.
b. If instream flow, beginning point of claimed instream flow is:
Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,
Govt. Lot _____ B.M., County of _____
ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____
1/4, Govt. Lot _____ B.M., County of _____
5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
Including the dates of any changes or enlargement in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. _____

6. Water is claimed for the following purposes

(both dates are inclusive) (cfs) (acre feet)

For Industrial purposes from 1/1 to 12/31 amount 2.78 or _____
 For Irrigation purposes from 3/15 to 11/15 amount 2.78 or _____
 For _____ purposes from _____ to _____ amount _____ or _____
 For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 2.78 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is _____ acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number Of livestock Etc.) Industrial:

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

(insert water right number)

STANDARD FORM 1
OBJECTION

Please print or type the following information:

B. NAME AND ADDRESS OF PERSON OBJECTING

Name: The Amalgamated Sugar Company

Address: 3184 Elder Street

Boise, Idaho 83705

Daytime Phone: (208) 383-6500

Name & Address of Attorney, if any:

John M. Marshall

Givens Pursley LLP

601 W. Bannock Street

P.O. Box 2720

Boise, Idaho 83701

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: The Amalgamated Sugar Company

Address: 3184 Elder Street

Boise, Idaho 83705

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☐ **Source**
Should be: _____
3. ☒ **Quantity**
Should be: No volume limit, no combined use limit.
4. ☐ **Priority Date**
Should be: _____
5. ☒ **Point(s) of Diversion**
Should be: As claimed.
6. ☐ **Instream Flow Description**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☐ **Place of Use**
Should be: _____

11. I object because:

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): Right should be decreed consistent with water right license and with additional points of diversion pursuant to Idaho Code § 42-1425.

S:\CLIENTS\3781\JMM to IDWR with error replies.DOC

**NOTICE OF ERROR
REPLY**

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: October 31, 2006

Water right number: 63-2967

THE AMALGAMATED SUGAR CO
3184 ELDER STREET
BOISE ID 83705
Telephone Number: (208) 383-6500

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity, Point of Diversion, Purpose of Use

2. Describe the changes you wish to make in the proposed recommendation:

Quantity: Volume limit should be 827 AF, combined volume limit should be 8,921 AF
Point of Diversion: 6 points of diversion in the listed quarter / quarter
Purpose of Use: Volume limit should be 827 AF; strike language purporting to describe the industrial use.

3. Give a brief explanation as to why you disagree with these portions:

See correspondence from John Marshall dated September 22, 2006.

_____ **I AGREE with this proposed recommendation; no changes need to be made.**

Date: 10/30/06

Signature:

RE: ANNUAL VOLUME DATA
Snake River Basin Claim No(s): A63-2600, A63-2855 and A63-2967

Dear John,

Regarding your correspondence dated September 22, 2006, the information you provided continues to overstate the volume of water historically used by your client, Amalgamated Sugar LLC, pursuant to the water rights referenced above. The affidavits from the license files that you cite as providing detailed documentation of the volume of water used for industrial purposes state only the water is used from September until February of each year. They do not state that the water was pumped at maximum capacity and continuously, 24 hours a day, 7 days a week during the 5 or 6 months a year that constitute the yearly beet campaign. In fact, the language used plainly states that this 5 or 6 month time period is the only time during the year that water is used for industrial purposes. There is no mention of water being used during the non-campaign season or "intercampaign". Additionally, you provide no information regarding the basis of the 4.5 afa you use to estimate the water volume during the intercampaign.

Finally, the amended claims do not provide documentation of the system changes occurring prior to 1987. Please provide information regarding the changes so that IDWR can evaluate whether the changes qualify as accomplished transfers.

In sum, unless Amalgamated Sugar LLC submits information regarding the annual volume used and the system changes, there is no reason to change the preliminary recommendations made based on minimum well design parameters. The preliminary recommendations your client were sent last week reflect the recommendations IDWR intends to make to the SRBA Court when the Basin 63, Part 3 Director's Report is filed in early December, 2006.

Sincerely,

Vicky L. Music

Subject: RE: SRBA Claims - The Amalgamated Sugar Company LLC

Vicky,

Thanks for sharing the letter from John Marshall.

While his letter does reduce the volume requested, it still appears to overstate the volume historically used. I find it unlikely that the wells were pumped at full capacity 24 hours per day throughout campaign.

I recommend that we reply to John that we find this analysis to be an overstatement of the volume. We are interested in determining a volume, but the analysis that John has provided needs to be refined for us to increase the volume beyond pumpage for 2 hours per day. We invite the submittal of additional information to assist in the determination of a more accurate volume, as we cannot assume pumpage at maximum volume for 5 months straight.

In the meantime, let's continue to recommend the two hour volume.

Dave

To: Music, Vicky
Cc: Shurte, Jan
Subject: RE: SRBA Claim Nos. 63-2600, 63-2855, and 63-2963

Thank you for sending this to me, Vicky.

The basis for my recommendation that we use a two hour pumping rate is that this is the minimum design pumping rate for a well. In the case of Amalgamated Sugar it appears that we have received no information to support a recommendation for additional volume. Their letter states that "Our industrial processes continue to run 24 hours per day, 7 days per week, and in some instances, 365 days per year." However, this does not mean that their wells pump at maximum capacity for this period of time.

If we do not receive supporting information to substantiate an element of a water right (in this case volume diverted), our practice is to recommend the amount that we can support lacking any other information. I would anticipate that their wells run for at least two hours per day, six months per year. Lacking other supportive information, please make the SRBA recommendation for this amount. We remain very willing to review other information provided by Amalgamated Sugar to support an increase in this recommendation.

Please print this email as supporting information for the file.

Hi Dave.

Jan suggested I send this response from Amalgamated Sugar to my request for annual volume info to you. Yesterday, I sent them an email telling them that I would be calculating the annual volume based on a 2 hour diversion time period per you rather than the 8 hour diversion period per Jan. This was their reply. Vicky M

Re: *Annual Volume Data*
Snake River Basin Claim No(s): A63-2600, A63-2855 and A63-2967

Dear Vicky:

This letter responds to your letter dated April 27, 2006, and follows our phone conversations from the past few days.

After further review and analysis, the Amalgamated Sugar Company LLC is respectfully declining to provide the volumetric information you requested in your letter dated April 27, 2006. There are several reasons for this decision. Since the date the water rights for the Nampa factory were issued in 1942, 1951, and 1953, the Nampa factory's operating capacity and season have both varied considerably as technology and processes have changed over time. Our industrial processes continue to run 24 hours per day, 7 days per week, and in some instances, 365 days per year. As the company explores new technologies and new products, its water demands will continue to change.

We believe adding volume limitations to our previously licensed water rights through the SRBA process would unnecessarily limit our existing rights. Amalgamated's industrial water rights currently allow the company to divert at licensed diversion rates without volume limits (other than the maximum volume that can be diverted using the licensed diversion rates). This provides Amalgamated flexibility to implement new manufacturing processes, including those that may divert greater volumes, without regard to the water demands of the prior technology.

Unlike irrigation rights, which by their nature have practical diversion volume limits defined by the irrigation season and good agricultural husbandry, industrial rights can vary widely over time in how they are used based on manufacturing processes, product demand and other factors. Additionally, Idaho Code section 42-1411 does not

include any provision that allows IDWR to add a diversion volume limitation where one does not already exist on a license.

If IDWR is going to recommend a volume limitation for Amalgamated's rights, it should be based on the maximum diversion volume available under each right. These volumes are: 1) 63-2600 - 10,241 AF; 2) 63-2855 - 3,257 AF; and 3) 63-2967 - 2,012 AF.

We are continuing to work on compiling the other information you have requested. We also may file amended claims to recognize each of our wells as alternate points of diversion under all three of the ground water rights. If we elect to file amended claims, we will make every effort to do so by the end of this month.

Please contact me if you have additional questions at this time. We remain willing to meet with you to review the other information you have requested and to discuss this matter. Thank you.

Sincerely,

John C. McCreedy
VP of Administration, General Counsel
& Secretary

Subject: Amalgamated Sugar SRBA claim nos. 63-2600, 63-2855 and 63-2963

John -

This e-mail is regarding IDWR's request to Amalgamated Sugar for historic water volume information developed under Amalgamated's licenses referenced above. The information is needed to further define and describe the quantity element of the industrial uses of these licensed groundwater rights. Specifically, this e-mail is to follow up on our conversation Friday, May 19, 2006, during which you told me a letter from Amalgamated to IDWR was forthcoming declining to provide the requested information. During that conversation, I indicated that I would calculate the annual volume based on an 8 hour workday. That guideline was pursuant to instructions from my supervisor, Jan Shurte.

Today, however, I received guidance from Dave Tuthill, former SRBA Bureau Chief and currently the head of the IDWR Water Management Division. He instructed me to use a 2 hour diversion period to calculate the annual volume of water used industrially by Amalgamated Sugar.

Lastly and in response to your inquiry [paraphrased here] as to the authority by which IDWR can, in the adjudication, add to elements of a previously licensed water right, I refer you to Idaho Code Section 42-1427. Description of water rights - Reporting and decreeing elements of a decreed or licensed water right.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-2600, 63-2855 AND 63-2967
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN
REGION
SUBJECT: CLAIM REVIEW – AMALGAMATED SUGAR LICENSES FOR
INDUSTRIAL USE
DATE: 5/19/2006
CC:

In the past couple of months, I have sent letters and exchanged phone calls and emails with Amalgamated Sugar pursuant to my request for information regarding annual volume. The claimant has 3 licenses for a groundwater use industrial use from several wells. The licenses do not have an annual volume component.

The correspondence culminated in a phone call today from John McCreedy in which he stated that Amalgamated Sugar would be sending me a friendly letter declining my request for annual volume information. He stated that he had consulted water attorneys and this was their advice. He asked for the authority IDWR relied upon to request the information and I direct him and his attorneys to Title 42.

I told him that because I had to recommend an annual volume, I would be calculating it based on an 8-hour workday, which is the guidance I received from IDWR Adjudication supervisors.

Mr. McCreedy said that the letter forthcoming from the company will contain the other information I requested regarding the well locations, wells still in use, etc.

Mr. McCreedy -

This e-mail is in response to our conversation Friday afternoon, May 5, 2006. During the conversation, you asked for an extension of time to provide information about Amalgamated Sugar's water use that I requested in my letter to Amalgamated Sugar dated April 27, 2006. We agreed on an extension to May 12, 2006.

Attached here are a couple of my working documents - a table summary and a list of questions regarding the 4 Amalgamated Sugar licenses I am reviewing in preparation to recommend to the Snake River Basin Adjudication [SRBA] Court in a few months. Also attached is a 2004 aerial with my best guess of the well locations based on information in the license files.

As I mentioned in the all correspondence with Amalgamated, the most important information needed is the annual volume of water used because this is a limiter on groundwater rights. The rest of my questions have to do with housekeeping and insuring that the information IDWR has in our database about the use, location of wells, etc. and changes made to the water use is accurate so that the recommendations IDWR makes to the

5/22/2006

Court are accurate.

Please call with questions.

FROM: VICKY L MUSIC, SR. WATER RESOURCE AGENT, IDWR /
WESTERN REGION

SUBJECT: PHONE CALL FROM MR. MCCREEDY, GENERAL COUNSEL FOR
AMALGAMATED SUGAR

DATE: 5/8/2006

CC:

Mr. McCreedy called because the letter sent to Amalgamated Sugar Nampa plant April 27, 2006, just arrived at his desk. He asked for an extension of time from the 5/5/06 date. We decided that the task would be assigned to someone, and either Mr. McCreedy or the employee assigned, would call me at 9 am Friday, 5/12/06. He called a Mike Dalton in and they mentioned the name Glen Patrick, Env Eng may be assigned and I told them that I left a voice mail message for him 4/14/06 that was not returned.

We discussed the info needed, most importantly, afa for the 3 licenses. I also have questions re the wells - some discrepancies in the license files, also what changes have been made to water use, etc, in prep for the recommendations being made to the court.

I told them I could email them my questions and an aerial if helpful. Today, I emailed a short table I made summarizing the rights and my comments, a list of questions and a 2004 aerial with my guess of where the wells are located.

<u>Bas in</u>	<u>Seque nce</u>	<u>Basis</u>	<u>Priority Date</u>	<u>Rate/ cfs)</u>	<u>Volum e(a)</u>	<u>Source</u>	<u>Water Use(s)</u>	<u>Owner(s)</u>	<u>Misc info/status</u>
63	2600	License	11/9/1942	14.15		GROUND WATER	INDUSTRIAL	AMALGAMATED SUGAR CO (Current)	claimed as licensed. Lic. PODs are well #s 2 - 6. Well #1 is a domestic well. Current PODs are Wells # 2 - 5. #6 - use transferred to irrigation when 63-10232 was licensed. Need info to calculate AFA. Q/AFA combined use condition. Lic file says estimated flow for factory is 6500 gpm.
63	2855	License	4/7/1951	4.5		GROUND WATER	INDUSTRIAL	AMALGAMATED SUGAR CO (Current)	claimed as licensed. Lic. POD is well #s 7. Need info to calculate AFA. Q/AFA combined use condition. All wells are connected in common system.
63	2967	License	11/12/1953	2.78		GROUND WATER	INDUSTRIAL	AMALGAMATED SUGAR CO (Current)	claimed as licensed. Lic. POD 9s well # 9 . Capacity = 4.4 cfs. Need info to calculate AFA. Q/AFA combined use condition. All wells are connected in common system.
63	10232	License	4/23/1984	3	675	GROUND WATER	IRRIGATION	AMALGAMATED SUGAR CO (Current)	claimed as licensed. POD is well # 6.
				24.43 3 = 21.43					
									limit Q to 21.43 cfs for industrial uses for 3 licenses because Well # 6 now used for 63-10232. IS well # 8 replacement for #2?

DRAFT OF QUESTIONS RE AMALGAMATED SUGAR NAMPA PLANT
LICENSES/ SRBA CLAIMS

1 – Need to GPS or otherwise better located wells. Use 2004 aerial

2 – need to calculate afa for each of the 3 licenses: 63-2600, 63-2855, 63-2967 [not needed for license 63 -10232 which was licensed for irrigation – will use standard afa]

3 – Well # 6 was licensed in 1942 under 63-2600 but transferred to irrigation use under 63-10232 and no longer used for industrial. Confirm.

4 – Water used in Nampa plant

A - In 1942 when 63-2600 was licensed for 14.15 cfs, an estimate by company of the water need of the water was 6500 gpm. What was the time used in the factory – 6500 x 8 hour shift? 12 shift? 6 days / week? Seasonal fluctuations in water need?

B – how did the factory's water needs change in 1951 when 63-2855 was licensed for additional 4.5 cfs?

C – how did the factory's water needs change in 1955 when 63-2967 was licensed for an additional 2.78 cfs?

D – what is the current water need?

5 – Well # 2 quit producing in 1950. another well was drilled – which one replaced #2?

6 – what well was abandoned in 1995? See well log.

CLAIMS/ LICENSES 63-2600, 63-2855 AND 63-2967 -- 2004 AERIAL OF AMALGAMATED SUGAR NAMPA PLANT.
BLOW UP OF SESE SECTION 9 T3N R2W AND MY GUESS RE WHERE THE WELLS ARE LOCATED. NO WELL #8.

RE: ANNUAL VOLUME DATA
Snake River Basin Claim No(s): A63-2600, A63-2855 and A63-2967

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only.

These claims are licenses for industrial uses. At the time the rights were licensed, no annual volume component was required. However, to recommend these in the SRBA, IDWR must have additional information regarding how the water is used and the volume used. The annual volume is an important component of a right because it is a limitation on the use of ground water sources. Please call me as soon as possible at (208) 334-2190 with a contact name and phone number of a plant engineer or another employee knowledgeable about the water use at this facility.

If I do not hear from you by May 5, 2006, the water use as claimed may not be recommended to the SRBA court for decree.

Sincerely,

Vicky L. Music
Senior Water Resource Agent
Adjudication Bureau/Western Region

RE: ANNUAL VOLUME DATA
Snake River Basin Claim No(s): A63-2600, A63-2855 and A63-2967

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only.

These claims are licenses for industrial uses. At the time the rights were licensed, no annual volume component was required. However, to recommend these in the SRBA, IDWR must have additional information regarding how the water is used and the volume used. The annual volume is an important component of a right because it is a limitation on the use of ground water sources. Please call me as soon as possible at (208) 334-2190 with a contact name and phone number of a plant engineer or another employee knowledgeable about the water use at this facility.

If I do not hear from you by April 28, 2006, the water use as claimed may not be recommended to the SRBA court for decree.

Sincerely,

Vicky L. Music
Senior Water Resource Agent
Adjudication Bureau/Western Region
Idaho Department of Water Resources

Enclosures: Notice of claim reports

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-2600, 63-2855, 63-2967 AND 63-10232
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: CLAIM REVIEW – ANNUAL VOLUME CALCULATIONS FOR THE
AMALGAMATED SUGAR LICENSES
DATE: 5/25/2006
CC:

Here are the annual volume calculations. Because the claimant refused to provide historical information regarding the volume used, Dave Tuthill instructed me to use the minimum well pumping design diversion period of 2 hours and the assumptions that the water was diverted 5 days a week, 6 month of the year.

63-2600 – licensed in 1942 from well nos. 2,3,4,5,6. Well no. 6 also licensed in 1984 for irrigation under 63-10232. Note in license file 63-10232 that pump on well 6 was changed between the licensing exams for 63-2600 and 63-10232 so that the overlap conditions [limiting the use of water from well no. 6 to the capacity] was waived due to system changes.

$[14.15 \text{ cfs}] [450 \text{ gpm}] [60 \text{ min/hr}] [2 \text{ hrs/day}] [5 \text{ days/wk}] [26 \text{ wks/yr}] = 99,333,000 \text{ gal per yr}$
 $/325,850 \text{ gal per af} = 304.84 \text{ afa}$

63-2855 – licensed in 1951 from well no. 7.

$[4.5 \text{ cfs}] [450 \text{ gpm}] [60 \text{ min/hr}] [2 \text{ hrs/day}] [5 \text{ days/wk}] [26 \text{ wks/yr}] = 31,590,000 \text{ gal per yr}$
 $/325,850 \text{ gal per af} = 96.95 \text{ afa}$

63-2967 – licensed in 1953 from well no. 9.

$[2.78 \text{ cfs}] [450 \text{ gpm}] [60 \text{ min/hr}] [2 \text{ hr/day}] [5 \text{ days/w}] [26 \text{ wks/yr}] = 19,515,600 \text{ gal per yr}$
 $/325,850 \text{ gal per af} = 59.89 \text{ afa}$

These recommendations for these 3 licenses for industrial use and 63-10232, the license for irrigation, will have the combined use condition which limits the quantity when combined to 21.43 cfs and 1136.68 afa.

Priority November 12, 1953

THIS IS TO CERTIFY that AMALGAMATED SUGAR COMPANY
 of Ogden, Utah, made application for a permit to appropriate the
 public waters of the State of Idaho, dated November 12, 1953; that Permit No. G-24567
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.78 second feet, was issued thereunder on March 5, 1956, showing that said works
 were completed on the 15th day of November, 1955; and that on the 15th
 day of November, 1955, Amalgamated Sugar Company

of Ogden, State of Utah, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of a well,
underground (subterranean flow), for the purpose of processing sugar beets,
under Use Permit No. G-24567 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5666, on the 5th day of March, 1956;

The right hereby confirmed dates from November 12, 1953;

The Point of Diversion is located

in the SE 1/4 SE 1/4, Sec. 9, Tp. 3 N., R. 2 W., B. M. Canyon County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed 2.78 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Nampa - Well No. 9

Application No. G- 32366
 Permit No. G- 24567
 District No.

1. Name of Applicant: THE AMALGAMATED SUGAR COMPANY
 Postoffice address: Box 431, Ogden County: State: Utah
2. Quantity of water claimed: 1250 GPM
 (a) Rate of withdrawal in cubic feet per second. 2.78 or Idaho
 Miners' inches 139 or gallons per minute. 1250
 (b) Annual withdrawal in acre feet per annum 675
3. Source of water supply: Three sand aquifers artificially gravel packed from 462 feet to 524 feet below ground level.
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 9
 Twp. 3 N. , Rge. 2 W. , B.M., County of Canyon
5. Water is to be used for: Processing Sugar Beets
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 9 , Twp. 3 N.
 Rge. 2 W. , B.M.
 - (b) Waste water or sewage effluent is to be returned to Indian Creek
 at a point in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 16 , Twp. 3 N. , Rge. 2 W. , B.M.
7. Kind of works: Well and pump
8. Estimated cost of works: \$ 25,000.00
9. (a) Is reservoir to be used? No
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is ~~years~~ work now complete.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation: January 15, 1915 - Utah
 (b) Amount of capital stock: \$ 6,190,549.00 (c) Amount paid in: \$ 6,190,549.00
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$ 9/30/53 - \$6,547,716.17
 (b) Treasury stock: 139,146.75 @ \$10 par (c) Bonds to be issued: None
 (d) Other resources: Accounts and Notes Receivable, Advance and Prepaid Expenses, Land Sale Contracts, Factory Sites, Buildings, Machinery, Equipment, Farm Land, Water Rights, Etc.
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

Agent.

Returned to applicant for correction:

Corrected application received:

The number of this permit is G-24567

Recorded in Book 87 Page 24567 Approved November 17, 1953

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before _____ Completed _____ and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before November 17, 1955.

Witness my hand this 17th day of November, 1953

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, LEN JORDAN, Governor of the State of Idaho,
and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to
be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 17th
day of November 1953.

Countersigned:

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. G-24567

This proof is for Completion of works & beneficial use In Water District No. _____

1. Name of applicant THE AMALGAMATED SUGAR COMPANY, Box 431, Ogden, Utah
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the SE¹ SE¹ of Section 9
T 3 N. R 2 W. County of Canyon (Well # 9)
4. Describe works as they exist, giving dimensions and capacities of same: Well is 20" diameter by 57 1/2' deep, H=6 1/2', lift is 67' 2", column is 89' by 10" diameter. Pump is a Bingham 2 stage 18". Pump no. is 20841. Motor is a 75 hp U. S., Serial No. 960115. Pump and Motor sit on top of the casing. There is no house nor platform. Motor is covered with a sheet metal cover.
5. Water is used for: Processing sugar beets.
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):
Place of use: SE¹ SE¹ Section 9;
Twp. 3 North, Range 2 West, B. M.
See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?
- Remarks: The water is pumped into the tank, and system that is common for the whole of the plant, and used for all purposes necessary in the plant and some of the water is exhausted into Indian Creek and some into the Noble Drain.

See #19375 & 22030
