SUBJECT: Woodrow Harrold Water Right
A63-03001

Dear Ms. Groot:

Enclosed are three copies of the above Notice of Claim to a Water Right. These copies show the way this has been split between the Harrolds and the Foss's.

Note that when I split these rights I also had to split the amount of water. I did this on the basis that the total amount of water licensed was 1.4 cubic foot per second (cfs) for 78 acres. By pro-rating this amount the amount of cfs per acre came out to 0.0179 cfs per acre, of which I rounded up to 0.02 cfs. I also left the non-irrigation uses as is (item 9) which allows for livestock on a year around basis. I deleted the description of diversion works (item 5) for all but Mr. W. Harrold's claim as I was not sure if all parties were using the same type of system.

Please be sure to contact me if you have any questions regarding the water right as split.

Sincerely,

Linda A. Werner

Dear Linda;

Thanks for helping me try and help these new claimants, they will have 74 acre feet for Foss and 2 acre feet for D. Harrold. Woodrow J. Harrold will keep 2 acre feet for his pasture. From what I gather Woodrow J. Harrold filed on the entire amount of land in his family, however there is no shortage. If this does not clear it up, if you could let me know and I will try some more. Dave Harrold is Woodrow J. Harrold's nephew and has only 10 acres that he can irrigate from the original 78 acre feet. I am sending the description from the Title Insurance. I will include Dave Harrold's description with his.

I understand the fee W. J. Harrold paid takes care of this, is this correct?

Thank you very much,

Wanda
