Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Notice of Claim to a Water Right No. 63-4641A, 63-4641B

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

Liberty Gagnon

SUBCASE 63-04641B**

The Director's Report incorrectly identifies the place of use for irrigation of lands under this water right. The correct, historic place of use is as follows:

<u>TWP</u>	<u>RNG</u>	<u>SEC</u>	<u>1/4 of</u>	<u>1/4</u>	<u>Lot</u>	<u>Acres Claimed</u>
5N	5W	15	SW	SE		3
Total						3

**ATTACHMENT 2 TO
STANDARD FORM 1 – OBJECTION
SUBCASE 63-04641B**

Reasons Supporting Objection(s)

Source:

The tributary to Sand Hollow Creek is incorrectly listed as the Snake River. The correct tributary is the Boise River.

Quantity:

The claimed quantity of 0.11 cfs should be recommended in full, based upon historic diversion, delivery, and use of irrigation water by Tree Top Ranches, LP, and its predecessors.

Purpose of Use and Period of Year:

The claimed quantity of 0.11 cfs should be recommended in full, based upon historic diversion, delivery, and use of irrigation water by Tree Top Ranches, LP, and its predecessors.

Place of Use:

The place of use described in the Director's Report does not accurately describe the lands historically irrigated under this water right.

Other Provisions Necessary for Definition or Administration of this Water Right:

There is no legal basis for the inclusion of the following remark:

This right remains subject to the right of the original appropriator, in good faith and in compliance with the state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.

1. **Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):**

Quantity; Purpose and Period of Use; Place of Use

2. **Describe the changes you wish to make in the proposed recommendation:**

Quantity: Increase the total quantity of water to the claimed amount of 0.11 cfs.

Purpose and Period of Use: Increase the quantity to the claimed amount of 0.11 cfs.

Place of Use: Increase the number of irrigable acres to 3 in the SWSE Section 15, Township 5 North, Range 5 West, Canyon County, Idaho.

3. **Give a brief explanation as to why you disagree with these portions:**

Quantity: There is no basis for the reduction in the total quantity of water.

Purpose and Period of Use: There is no basis for the reduction in the total quantity of water.

Place of Use: The recommended place of use does not accurately describe the actual place of use under this water right.

____ I AGREE with this proposed recommendation: no changes need to be made.

Remarks:

Comments:

1. Igraves 9/26/2006 Parcel No.

Comment: Irrigation is within Parcel No. 3891501000.

2. Igraves 9/26/2006 Overlaps

Comment: Right 63-7921 is for separate acres on the west side of the creek and shares the SWSE p/d. Right 63-4641A is for separate acres and shares the same irrigation system as A63-4641B.

3. Igraves 9/26/2006 P/Ds

Comment: The original claim lists one p/d on an unnamed drain in the NWSW S14. The SRBA field exam confirmed that the diversion exists and is actually located in the SWSW S14. An amended claim was filed 7/14/2006 changing the p/d to Sand Hollow Creek Drain in the NWNE S22. The SRBA field exam confirmed that the amended diversion exists and is actually in the SWSE S15 as licensed on right 63-7921. This p/d has been recognized as an accomplished transfer because the application map for license 63-7921 submitted in 1979 indicated both p/ds. The original p/d was also recommended based on the SRBA field exam findings.

4. Igraves 9/26/2006 Source

Comment: For the SWSW S14 p/d, the original claim listed unnamed drain tributary to Sand Hollow Drain. Based on the topo map, the tributary has been clarified to Sand Hollow Creek. For the SWSE S15 p/d, the amended claim lists Sand Hollow Creek Drain tributary to the Boise River. Based on the topo map, source has been clarified to Sand Hollow Creek tributary to the Snake River.

5. Igraves 9/29/2006 Flow Rate

Comment: The SWSE S15 p/d was measured at 1.53 cfs in 1979 for license 63-7921. The SWSW S14 p/d was measured at 7.23 cfs during the SRBA field exam. Recommended acres are limited to .02 cfs/acre.

Vicky:

The purpose of this email is to confirm the date, time, and location of the site visit to Tree Top Ranches for purposes of conducting a field examination for water right nos. 63-4641A & B, 63-21530 and 63-21580. The site visit is set for Monday, September 18, 2006, at 10:00 am. Please note that you and/or Sandy will be meeting with Kelly Yore, the Ranch Manager. Scott Campbell will not attend this site visit. I've attached a map showing the location of Tree Top Ranches. Please note that the entrance to the Ranch is located right off of Hwy 95, just south of the 20/26 and 95 junction. You can enter the Ranch at the first gate, then follow the signs to the shop.

If you need further information, please let me know.

Sincerely, Tiffany

RE: FIELD EXAMS

Snake River Basin Claim Nos.: A63-4641A and B, 63-21530 and 63-21580

Dear Tiffany:

This letter is in response to your correspondence, dated September 6, 2006. The claims referenced above are the remaining Tree Top Ranches claims for which a field exam is needed, unless they have acquired additional properties with appurtenant rights or claims of which we are not aware.

Your letter suggested that Dan Nelson conduct these exams because he conducted the 63-4534 field exam. However, Dan will not be available to conduct these exams, nor is it necessary. The claims in need of field exams are for totally different places of use and points of diversion, as well as different sources and additional uses. If we find that any of the points of diversion of the surface water claims have been changed to that of 63-4534, we can dispense with measuring the ditch and use Dan's calculations, but will still need to examine the delivery system specific to the claims.

Sandy Hemenway and/or I will conduct the field exams. Please provide me with some available dates for the exams and the on-site contact person for the exams. Contact me directly at (208) 334-2190 if you have questions regarding this matter.

MEMORANDUM TO SUBCONTRACTOR

TO: SANDY HEMENWAY
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN
REGION
SUBJECT: 63-4641 A & B
DATE: 9/12/2006
CC: CLAIM FILE

These are beneficial use claims. It appears that the claim was split and 3 acres sold and claimed as the B portion. The A portion is for 54 acres. Both claims are now owned by Treetop Ranches. A change of ownership has been filed. The site address is: 26471 Sand Rd, Parma ID. It is southwest of the intersection of Hwy 95 S., and Hwy 20-26. Your contact is claimant's attorney, Scott Campbell or his paralegal, Tiffany Hudak at 345-2000.

Please:

1 – verify the acres irrigated in 1987 on the 1987 aerial.

2 –GPS the location of the pod. Take flow measurements and calculate flow if the pod is as claimed in section 14. If it is the pod in section 15 adjacent to Hwy 95 – we already have those measurements. Describe diversion and delivery system to claimed pou.

3 – the pod located on a map included with the change of ownership shows the pod actually in the NENE S 22. If this is the current location of the POD, when did it change?

4 – label pod, delivery system, etc on the attached 2004 aerial.

Thanks.

MTBR&F File No. 22567.0

Dear Vicky:

In response to your letter to Tree Top Ranches dated August 24, 2006, and your letter to me dated August 31, 2006, regarding the above-referenced water rights, we are enclosing a copy of the Affidavit of Sam Smyser, dated September 5, 2006, concerning irrigation of the subject property. In your letter, you request evidence to establish the claimed priority date for these water rights. As you will note from the Affidavit, Mr. Smyser has observed irrigation of the subject property since at least 1935.

Your August 24th correspondence also identifies that a change in water right ownership is necessary for these water rights. Please note that we submitted a change in water right ownership, together with the supporting documents, to the Department on or about August 31, 2006.

Finally, in response to your August 31st correspondence, you identify the need for a field examination of water rights 63-4641A and 63-4641B. I presume the Department will also require a field examination of water rights 63-21530 and 63-21580, which are also beneficial use water rights. Perhaps we can schedule one field examination for all of these water rights? Dan Nelson with the Department's Western Region office recently conducted a field examination concerning water right 63-4534. Because Mr. Nelson is familiar with the property and has met the Tree Top Ranches' manager, Kelly Yore, perhaps he can conduct the field examinations of these remaining water rights.

RE: EVIDENCE OF PRIORITY AND FIELD EXAM
Snake River Basin Claim No.(s): A63-4641A and B

Dear Tiffany:

This letter is in response to your correspondence, dated August 28, 2006. The claims were entered in our database with a "temporary" rather than an "active" status, and as such, were not available for viewing by the public. The status has recently been changed and you should be able to view the claims on the IDWR website.

In addition to the evidence of priority, IDWR must conduct a field exam to verify the elements of these statutory claims. We customarily do not schedule these until after we receive the evidence of priority. Hence, the letter to your client did not mention the field exam. Please provide the name and phone number of a contact person with whom the Department can schedule the exam as soon as possible.

Your letter stated that you will not be able to submit evidence of priority by September 1, 2006, for the claims referenced above. The IDWR internal deadline for recommendations is September 22, 2006. If I do not receive all of the information I have requested prior to September 22, 2006, I will recommend the claims as disallowed in the Preliminary Director's Report. Your client will still have the Notice of Error time period in which they can submit the evidence of priority and schedule a field exam. If I still do not receive the information by October 31, 2006, the expiration of the Notice of Error time period, I will recommend them as disallowed in the Basin 63 Part 3 Director's Report. Your client will then have to file objections to change the recommendation.

Please contact me directly at (208) 334-2190 if you have questions regarding this matter.

Sincerely,

Dear Vicky:

This firm represents the Tree Top Ranches, LP, with respect to its water rights matters. We are in receipt of your letter to Tree Top Ranches dated August 24, 2006, which was postmarked August 25, 2006, and received by Tree Top Ranches on August 28, 2006. Your August 24th correspondence concerns the above-referenced water right and requests evidence to establish the claimed priority date for these water rights be submitted by September 1, 2006. At the outset, please note that five (5) days is not a sufficient amount of time to properly investigate this matter and provide the Department with the requested information. Although we will endeavor to provide the Department with the requested information as soon as possible, we will most likely not meet the September 1st deadline.

In addition, we note that your correspondence concerns a split of water right 63-4641. In reviewing the Department's online database, we could not locate any water rights with the "A" and "B" split suffix. Any additional information you could provide concerning the "A" and "B" split of water right 63-4641 would be appreciated.

Thank you for your assistance to this matter. If you have any questions, please do not hesitate to contact me.

RE: EVIDENCE OF PRIORITY AND CHANGE OF OWNERSHIP -
Snake River Basin Adjudication Claim No(s): A63-4641A AND A63-4641B

Dear TREETOP RANCHES,

In the past, LESLIE HAMILTON submitted the above referenced claims during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer-generated printout of the claims for your reference. LESLIE HAMILTON indicated, when this claim was filed, that the water rights were based on a "Statutory Claim" to the use of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-outs. These claims has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you by September 1, 2006, this claim may not be recommended to the SRBA court for decree. This could jeopardize your water use under these rights if water availability problems arise in the future.

Additionally, Idaho law requires that an owner file a change of ownership for a water right or claim to a right within 120 days of a property transaction. Enclosed is a change of ownership form. Please complete and return it to me with the proof of priority.

Please call me as soon as possible to let me know if you may not be able to submit proof of priority or if you have any questions not covered by this letter and the enclosed pamphlet.

Respectfully Submitted,

Vicky L. Music

Dear Curt and Jolene,

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This change of ownership required a split of the original claim resulting in renumbering this claim by adding alpha suffixes to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time. You will be notified of any future action taken on this claim.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

MEMO TO FILE

CLAIM/WR NO: A63-04641/A63-07921
AGENT: RON HOWERTON
DATE: November 8, 1996
REF: OWNERSHIP CHANGE

1. Received the chain of title from Pioneer Title of Canyon County. It shows that the Hamilton property was sold to Donald R. Asher of Parma. Then with a portion sold to Jolene Christofferson as shown on copy attached to ownership change.
2. The parcel sold to Jolene Christofferson was plotted from their warranty deed on meets and bounds and an exception was plotted from Donald R. Asher's warranty deed. By comparing the 63-04641 & 63-07921 water right file maps versus our ortho quads the land is only appurtenant to the A63-04641 claim.
3. I attempted to call Donald R. Asher at last known phone # listed as 722-7135 and the tenant said that Mr. Asher didn't live there and may just have his old phone number. I also called the directory assistance and they didn't have any Donald R. Asher listed in Idaho anymore. Thus, with this information we don't have a phone number or address.
4. The ownership change for a portion of A63-04641 can be completed and since we have no ownership change to Asher from Hamilton nor an address for Asher the "A" portion will have to be left in Hamilton's name. The file shows returned mail and undeliverable to Hamilton, so no need to try and mail the split portion to that name or address.
5. The license isn't appurtenant to the Christofferson's deed thus shall stay in Hamilton's name until further information is available.

SUBJECT: A63-04641 & A63-07921

1. Called and requested that she send me a copy of the deed that showed the property being transferred from Hamilton to Asher.
2. I suggested that she call the title company and they could fax the warranty deed to me. She said she would try.
3. She also said that they were going to sell the property next year. She said the amount of land was 3 acres they bought.
4. This matches the Warranty deed legal for 3 acres in the SWSE, T5N, R5W, S15. This would split both claims.
5. The original claimant, Hamilton was sent notice about the directors report and we received returned mail for both claims, so it probably means that either Asher or someone else owns the other part of the split.

Re: Notices of Claim to Water Right Nos. A63-04641, A63-07921

Dear Mr. & Mrs. Christofferson:

This office has reviewed the Notice of Change of Water Right Ownership you recently submitted (copy enclosed). When we spoke in July, I informed you that we could not continue to process this ownership change due to the fact there is no record of the property being transferred from the original owner, Leslie Hamilton, to Donald Asher and that you may want to contact your title company and have them obtain a copy of the deed between these parties or if you could send us a copy of your property tax notice, which includes a description of this property by 1/41/4, Section, Township and Range, then we could go ahead and complete the ownership change.

If we do not hear from you within 30 days, the claim will remain in the original owner's name. Please feel free to contact this office if you have any questions concerning this letter.

Sincerely,

Lori Harris

NOTICE OF FILING DIRECTOR'S REPORT

DIRECTOR'S REPORT

This Director's Report Part II is a report by the Director of the Idaho Department of Water Resources (IDWR). It contains abstracts of claims by the United States and Indian Tribes to "non-consumptive" water rights (such as instream flows) throughout the Snake River Basin. The abstracts summarize the claims without substantively changing the water right as claimed. The Supplemental Director's Report Part II includes abstracts of claims not included in the Director's Report Part II. The supplemental report also includes abstracts of amended claims, which contain changes to claims previously abstracted in the Director's Report Part II.

The Director's Report Part III contains the claims filed for these water rights, and includes both the claim documents and maps. The Supplemental Director's Report Part III includes claims not included in the Director's Report Part III, as well as amended claims which contain changes to claims included in the Director's Report Part III.

Complete copies of Part II of the reports are available for inspections at all offices of IDWR and at the other locations printed on this notice. Complete copies of Part III of the reports are available for inspection at the State Office of IDWR and the SRBA District Court. Copies of all or a portion of the reports are available from the IDWR State Office subject to payments of costs of mailing and/or copying.

OBJECTIONS TO DIRECTOR'S REPORT

You may file an objection to any portion of the Director's Reports with the SRBA District Court. You must use a court approved objection form that is available from IDWR, which contains instructions for filing the objection. All objections must be received by the court on or before October 16, 1995. You must mail a copy of your objection to IDWR and the United States as shown on the objection form. If you are objecting to an abstract of a claim filed by an Indian tribe, you must also mail a copy of the objection to the tribe at the address shown in the report.

RESPONSES TO OBJECTIONS

The United States and the Indian Tribes may but are not required to file a response to an objection to abstracts of their claims with the SRBA District Court.

PARTIAL DECREE OF UNCONTESTED PORTIONS OF DIRECTOR'S REPORT

Those portions of the Director's Report to which no objections are filed will be decreed by the district court after a hearing to be held at 1:30 p.m., May 21, 1996 at the SRBA Courthouse in Twin Falls.

NOTICE OF FURTHER PROCEEDINGS

You will be mailed a notice of further proceedings on an objection to your water right, your objection, or your response. You will not be mailed notice of other objections or proceedings on other objections.

Notice of other objections and responses to other objections will be included on a monthly docket sheet distributed by the SRBA District Court. A subscription to the docket sheet may be obtained from the court for a small annual fee (\$7.50 for the calendar year 1995).

IDWR has filed or will file Director's Reports for all other claims within the Snake River Basin, one for each of the reporting areas in the Snake River Basin. Notice of the filing of these reports, and of further proceedings on these reports, will also be included in the docket sheet.

You may be affected by orders and decrees entered by the court in proceedings on other objections and proceeding on other reports. It is very important that you subscribe to the docket sheet if you wish to stay informed of these other proceedings. For further information as to documents filed with the court and hearings scheduled before the court in the SRBA, you must inquire at the SRBA District Court.

FURTHER INFORMATION

The court has adopted procedures for the post-report phase of the SRBA, which are set forth in the order of the court entitled "SRBA Administrative Order No. 1." A copy of this order can be obtained from the State Office of IDWR or the SRBA District Court.

If you have questions about the SRBA, please call any office of IDWR listed in this notice. If you have questions concerning your rights and responsibilities as a claimant in the SRBA, please consult your attorney.

WATER RIGHT LICENSE

License of Water Right No. 63-7921 Priority January 28, 1974 Amount 0.32 cfs

THIS IS TO CERTIFY, that LESLIE W. HAMILTON
of Parma, Idaho, has complied with the terms and conditions of Permit
No. 63-7921 issued pursuant to Application for Permit dated January 28, 1974,
and has submitted proof to the Department of Water Resources on March 15, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.53 cfs of water from Sand Hollow Creek,
tributary to Boise River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 1 to November 1</u>	<u>0.32 cfs</u>	<u>and 72 acre feet</u>
	<u>from</u>		<u>to</u>
	<u>from</u>		<u>to</u>

(both dates inclusive)

Subject, however, to the condition that no more than 0.32 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
72 acre feet per year, said waters to be diverted within the SW 1/4 Sec. 15

DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Leslie W. Hamilton
(Name of Claimant)
Rural Rt. #1, Parma, Idaho (Mailing Address) Telephone No. 722-5810
(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) November 1, 1880

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Unnamed Drain tributary to Sand Hollow Drain

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

	(cfs, gpd, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	(Mo., Day)	(Mo., Day)
