Dear Clair:

Enclosed for your records is a copy of the Affidavit your mother submitted as evidence of priority for their water right claim. You indicated you found a journal entry in your father's records showing he purchased a pump in 1961 that was used for the irrigation system. A copy of this record would be good to have in our files with the affidavit.

I intend to use the current capacity of the wheel line system you are using as the diversion rate I will recommend for your water right. Based on the 5 gpm Nelson flow control nozzles and 31 sprinklers the system was diverting 155 gpm which converts to .35 cfs or 17.5 inches.

Enclosed for your records is a copy of the claim you filed for the 24 acres of irrigation we examined on August 22nd. Note that I changed the name on our records to more accurately reflect that the claim was filed in the name of your parents trust and that you are trustee. The claim was originally entered in your father's name with you as trustee which is not correct.

Thanks for the assistance in helping me complete my field exam. If you have questions or discussions about the exam or your water right claim please call me at the number below.

Sincerely,

Mel Schulte

Re: Claim No(s). A63-05112

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
