RECEIVED

I, Helen Floyd object to the following concerning this case:

DEPARTMENT OF
WATER RESOURCES

* This drain ditch is nothing but water coming out of the ground 600 ft from our pump.

* There is no waste water that dumps into this ditch.

* This drain ditch goes straight to the Snake River.

* There is no way that this drainage would benefit Wilder Irrigation.

Delivery System Narrative: POD is an Unnamed drain that runs year-round from run-off + spring fed. A Bickley 15Hp pump with a 6" discharge, with a 20' lift to a Hydraulic pump TL Pivot (unknown Hp - illegible tag) that has 7 sections. This pressurized pivot irrigates 28 acres. Estimate 60psi, since no pressure gauge on system (60psi standard for irrigation)

NARRATIVE/REMARKS/COMMENTS

The remaining 2 acres are irrigated by a supplemental source from the Lake Lowell Project. At the southeast corner of the property is a headgate that diverts water to the concrete ditch that runs from the southeast corner of the property, then on the north end runs from east to west. Two inch siphon tubes are used to divert water from the concrete ditch, then gravity flow irrigate the property not irrigated by the pressurized pivot.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
