ATTACHMENT I

63-7879

The source of this water right, and water right no. 63-9194, is water that is owned and delivered by Nampa & Meridian Irrigation District ("NMID"). NMID owns the wells formerly known as the "Hosack Wells" but now generally known as the "Patterson Wells." The water from said wells first passes through the Claimant's fish propagation facilities, which is a non-consumptive use, and then is discharged into NMID's Bray Lateral and/or Wilson Drain for delivery and use for irrigation purposes by NMID's landowners. In fact, NMID and Claimant's predecessor in interest entered into a License Agreement which grants Claimant a "license" to use NMID's water for fish propagation. A copy of said License Agreement is attached hereto.

The point of diversion listed in this water right includes NMID's Patterson Wells and thus the source of the water right is NMID's Patterson Wells. Accordingly, this water right should be disallowed and/or decreed in the name of NMID to the extent this water right is claiming to own water from NMID's Patterson Wells. Consistent with NMID's ownership of the Patterson Wells, the priority date should reflect NMID's priority for the Patterson Wells, the purpose and period of use should reflect irrigation use and the place of use should reflect the boundary of NMID.

In addition, to the extent this water right is claiming wells and/or points of diversion that are not owned by NMID, said wells are still subject to the above-referenced License Agreement. The Claimant's right to use said water is non-consumptive and NMID has the right to use said water for irrigation purposes and the place of use is the boundary of NMID. Any portion of this right that is not owned by NMID must reflect NMID's superior right to use this water right for irrigation purposes.

LICENSE AGREEMENT

between

NAMPA & MERIDIAN IRRIGATION DISTRICT

and

BYRON V ANDERSON AND SONYA J ANDERSON

18 December 1973

Instrument No 720649

INSTRUMENT NO 720649

LICENSE AGREEMENT

COPY

LICENSE AGREEMENT, Made and entered into this 18th day 7/7 of December, 1973, by and between NAMPA & MERIDIAN IRRIGATION DISTRICT, an irrigation district organized and existing under and by virtue of the laws of the State of Idaho, party of the first part, hereinafter referred to as the "District", and BYRON V ANDERSON and SONYA J ANDERSON, husband and wife, parties of the second part, hereinafter referred to in the singular as "Anderson";

W I T N E S S E T H:

WHEREAS, Anderson is the owner of the real property (burdened with the easement of the District hereinafter mentioned) situate in the County of Canyon, State of Idaho, particularly described as follows:

A portion of the Southwest Quarter of the Southwest Quarter of Section 2, Township 2 North, Range 2 West B.M. described as commencing at the Southwest corner of said Southwest Quarter of Section 2, Township 2 North, Range 2 West B.M., thence East along the South line of said Section to the center of the drain ditch as now located; thence Northwesterly along the center of said drain ditch a distance of 22 rods; thence East from the center of said drain ditch, as now located, a distance of 22 feet; thence Northwesterly and parallel with said drain ditch to a point 100 feet from the North boundary line of said Southwest Quarter of the Southwest Quarter of Section 2, Township 2 North, Range 2 West B.M., thence West to the West line of said Southwest Quarter of the Southwest Quarter; thence South along the West boundary line of said Southwest Quarter of the Southwest Quarter to the point of beginning, being approximately 13.75 acres.

and,

WHEREAS, the District is the owner of the ditch known as Bray Lateral, together with the easement therefor, including the easement to convey drainage and irrigation water in such ditch and the easement to operate, maintain and repair such ditch, and which ditch is an integral part of the irrigation and drainage works and system of the District and which ditch and the said easements therefor cross and intersect said described real property of Anderson as shown on Exhibit A attached hereto; and,

WHEREAS, the District owns two artesian wells (formerly known as the "Hosack Wells" but now generally known as, and hereinafter referred to as, the "Patterson Wells") which are located in the Northwest Quarter of the Northwest Quarter of Section 11, Township 2 North, Range 2 West, Boise Meridian, in Canyon County, Idaho, which the District uses for drainage purposes and to supply supplemental irrigation water, the water from said wells being discharged into said Bray Lateral to accomplish such drainage; and,

WHEREAS, the Patterson Wells were located along side the bank of the Bray Lateral, but a diversion from that point to the Wilson Drain was constructed by the District to receive the additional flow from the Patterson Wells at such time such flow could not be delivered through the Bray Lateral for irrigation use, and,

WHEREAS, all such references herein to use or development of additional discharge waters shall be consistent with and subservient to such diversion alterations between the aforementioned drain and lateral of the District, including whatever demands the

United States may make in conjunction with the use of the Wilson Drain, which is a part of its Boise Project drainage works; and,

WHEREAS, all references hereinafter appearing as the Bray Lateral shall be construed and interpreted to mean diversion under such circumstances and to either or both waterways as the District may from time to time determine to be convenient.

WHEREAS, Anderson desires to establish a fish farm on his lands hereinbefore described (which lands are hereinafter referred to as the "Anderson property") and desires to utilize the water flowing from said wells of the District to furnish a portion of the water required for such fish farm, and desires to drill five (5) artesian wells on the Anderson property to furnish the balance of the water required for such fish farm, and desires to utilize the said Bray Lateral for the purpose of draining from the Anderson property the water used in, upon and for said fish farm; and,

WHEREAS, the District is willing to give Anderson a license for the use of water from the said Patterson Wells and for the use of said Bray Lateral for drainage purposes, upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, for and in consideration of the premises and of the covenants, agreements and conditions hereinafter set forth, the parties hereto agree each with the other as follows:

Anderson shall have the right to use the water which shall from time to time flow from said Patterson Wells, for purposes of fish propagation on the Anderson property hereinbefore described

and shall have the right to construct at the said Patterson Wells and in the Bray Lateral on the said Anderson property such diversion and transmission facilities as shall be necessary to transmit the water from the Patterson Wells to the fish farm facilities.

Anderson expressly agrees that the use of water from the Patterson Wells shall not be a consumptive use and that Anderson shall discharge into the Bray Lateral at the lower end of Anderson's facilities the same quantity of water as Anderson diverts into his facilities from the Patterson Wells, diminished only by a normal evaporation loss.

Anderson agrees that the wells to be drilled by him on the fish farm shall not be operated in such manner as to interfere with, or diminish, the flow of water from the Patterson Wells. However, the District agrees that, in conjunction with the use of water from the wells to be drilled by Anderson, the flow from the Patterson Wells may be decreased at any time when the Anderson wells are producing, and discharging into the Bray Lateral, either directly or through the fish propagation facilities of Anderson, a quantity of water equivalent to the quantity by which the flow from the Patterson Wells is then decreased.

Anderson acknowledges and agrees that the District neither guarantees any flow of water from the Patterson Wells nor agrees to supply to Anderson any specific quantity of water from the Patterson Wells. Anderson's use rights under this agreement shall be limited to whatever quantity of water is being produced by the Patterson Wells at any particular time.

The right and authority to control flow of water from the Patterson Wells shall at all times be vested in the District, and it shall be Anderson's responsibility to request the water

superintendent of the District to make any changes desired by Anderson in the amount of water being discharged from the Patterson Wells.

Anderson understands and agrees that the water flowing from the Patterson Wells is delivered by the District to its water users for irrigation purposes, from time to time, and that it is essential that the quantity of water flowing from the Patterson Wells must not be diminished, except for evaporation losses, by reason of being diverted into Anderson's fish propagation facilities. Therefore, Anderson expressly agrees that if, at any time during any irrigation season, the quantity of water being discharged into the Bray Lateral from Anderson's fish propagation facilities is less than the amount of water flowing from the Patterson Wells, the District, upon one hour's notice to Anderson, given to Anderson or to his employees or agents at the said fish farm, shall have the right to adjust the control devices at Anderson's diversion facilities as may be required to increase the flow of water in the Bray Lateral to that quantity which is being discharged by the Patterson Wells. In that regard, it shall be Anderson's responsibility to have someone available at said fish farm at all times to receive such notices from the District.

Anderson agrees to pay the District the sum of \$100.00 annually to defray additional expenses incurred by provisions of this license agreement and such amount is to be paid on or before the 15th day of December each year and such amount will be subject to review or change at the request of Anderson

on the District at the first regular meeting of the Board of Directors of the District occurring within the month of payment.

Anderson shall have the right to discharge into the Bray Lateral the water used by Anderson in his fish farming operations on the Anderson property. In that regard, the parties understand and agree that the District heretofore has utilized said Bray Lateral for the transmission of as much as 1200 miners' inches of drainage water flowing from the Patterson Wells and from other sources. It is further understood and agreed that Anderson shall be required to perform any work and furnish any materials which may be required to enlarge the Bray Lateral so as to carry any additional water that Anderson discharges into the Bray Lateral, over and above the quantity of water heretofore conveyed by the District in the Bray Lateral. Any such enlargement of the Bray Lateral, and any other work done by Anderson under the license herein granted, shall be accomplished by Anderson at his own expense and without any expense whatsoever to the District.

If additional easements are required for the purpose of carrying additional water in the Bray Lateral, over and above the quantity of water that can be accommodated by the rights of way of the District, those easements shall be obtained by Anderson and any expense involved in establishing or acquiring such easements shall be paid by Anderson.

The parties understand and agree that the Bray Lateral runs northwesterly from Patterson Wells, along the northeasterly boundary line of the fish farm, and that Anderson will construct

diversion facilities below those of the fish farm to operate in the same manner as that now existing at the Patterson Wells site and provide the District its option of diversion at such location. Anderson shall construct his discharge facilities in such manner as not to cause any erosion of the banks, sides or bottom of the Bray Lateral.

No diversion, transmission or discharge facilities shall be constructed by Anderson under the rights herein granted until the plans and specifications for such diversion facilities or such transmission or discharge facilities have been examined by, and approved by, the Board of Directors of the District and the engineers for the District. Any construction by Anderson shall be in accordance with such approved plans and specifications and no water from the Patterson Wells shall be diverted by Anderson until the completed construction of the diversion, transmission, and discharge facilities has been approved by the District and by its engineers.

Anderson agrees that he shall construct his facilities and conduct his fish farming operations in such manner as to insure that no pollutants, solid waste materials or any materials detrimental to soil, vegetation or livestock shall be discharged into the Bray Lateral. In that regard, Anderson expressly understands and agrees that in the event of a controversy between the parties regarding the discharge of pollutants, solid waste materials or any materials detrimental to soil, vegetation or livestock, it shall be Anderson's burden to prove that pollutants or solid waste materials are not

being discharged into Bray Lateral, and to prove that any other material being discharged into the Bray Lateral is not detrimental to soil, vegetation or livestock.

Anderson agrees that the District shall have the right to utilize, for irrigation purposes, the water produced by the wells to be drilled on the said Anderson property by Anderson, after such water has been used by Anderson in his fish farming operations, and that such right shall be prior and superior to the rights of any other persons claiming, under Anderson, the right to use said water from the Anderson wells.

All facilities constructed or used by Anderson under the license herein granted shall be constructed, maintained and kept in repair and kept clean at all times, by Anderson, and at the cost and expense of Anderson, and the conduit between the Patterson Wells and the Bray Lateral shall be maintained and kept in repair and kept clean at all times for the full flow of water therein, by Anderson, and at the cost and expense of Anderson.

Anderson agrees to construct and maintain his diversion, transmission and discharge facilities in a safe condition, all to the end that said facilities shall not constitute a hazard to any person or persons, and to indemnify and keep indemnified the District from all claims for damages arising out of any hazard or negligence in the construction, operation, maintenance and repair of said facilities or the failure of Anderson to keep the same in safe condition.

The construction, maintenance and repair of such diversion, transmission and discharge facilities shall be accomplished by Anderson at such times and in such seasons and in such manner so as not to interrupt or interfere with the flow of drainage or irrigation water in Bray Lateral or with the delivery of irrigation water by the District to any of its landowners.

Anderson agrees to indemnify and keep indemnified the District from all claims of any of its landowners for damages from the impairment of the flow of drainage or irrigation water in Bray Lateral which may be caused by said facilities of Anderson, or any use or condition thereof at any time or from the impairment of the flow of drainage or irrigation water therein from the failure of Anderson to maintain and keep in repair the said facilities of Anderson or to maintain and keep clean the conduit in said facilities of Anderson for the full flow of irrigation water through said facilities of Anderson.

Nothing herein contained shall be construed to impair the easement and right of way of the District in the Bray Lateral and all uses of said Bray Lateral and the said facilities of Anderson to be constructed and used, and the license herein provided therefor, shall remain inferior and subservient to the rights of the District in the Patterson Wells and to the use of said Bray Lateral for the transmission of drainage and delivery of irrigation water.

The District reserves the right, at its option, to remove any impediment to the flow of water through said facilities of Anderson and any hazards to persons or property which may arise by reason of the construction or condition of said facilities of Anderson at any time, and Anderson agrees to pay to the District, on demand, the costs which shall be reasonably expended for such purposes. If Anderson shall fail in any respect to properly maintain and repair such facilities of Anderson, then the District, at its option, and without impairing or in anywise affecting its other rights and remedies hereunder, shall have the right to perform the necessary maintenance and repairs and Anderson agrees to pay to the District, on demand, the cost which shall be reasonably expended for such purposes.

The parties hereto understand and agree that the District has no right to in any respect impair the uses and purposes of the irrigation and drainage works and system of the District, by this contract, nor to grant any rights in its irrigation and drainage works and system incompatible with the uses to which such irrigation and drainage works and system are devoted and dedicated and that this contract shall be at all times construed according to such principles.

In the event of the failure, refusal or neglect of Anderson to comply with all of the terms and conditions of this contract, then the license of Anderson under the terms hereof may be terminated by the District, and all structures in or over said Patterson

Wells and said Bray Lateral, and the rights of way therefor, which may impede or restrict the maintenance and operation of such wells or such ditch by the District with its equipment for the maintenance of its system may be removed by the District.

The covenants, conditions and agreements herein contained shall constitute covenants to run with, and running with, all of the lands of Anderson hereinbefore described and shall be binding on each of the parties hereto and on all parties and all persons claiming under them or either of them, and the advantages hereof shall inure to the benefit of each of the parties hereto and their respective successors and assigns.

IN WITNESS WHEREOF, the District has hereunto caused its corporate name to be subscribed by its officers first thereunto duly authorized by resolution of its Board of Directors and Byron V Anderson and Sonya J Anderson, husband and wife, have hereunto subscribed their names, all as of the day and year herein first above written.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

04/11/2006

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

Measuring devices of a type approved by this Department shall be maintained at the point of diversion and point of effluent discharge.

The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.

Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 5G.

This right is subject to all prior water rights and may be forfeited by five years of non-use

Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.

The facility volume is 101,356 cubic feet

The issuance of this right does not grant any right-of-way or easement across the land of another.

The facility volume is 101,356 cubic feet.

This water right is appurtenant to the described place of use.

Right 63-9194 is also diverted through the points of diversion described above.

Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

WATER RIGHT LICENSE

WATER RIGHT NO. 63-07879

Priority: October 19, 1973

Maximum Diversion Rate: 25.00 CFS

Maximum Diversion Volume: 18099.0 AF

This is to certify, that STATE OF IDAHO

DEPT OF FISH & GAME

PO BOX 25

BOISE ID 83707

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 4, 1973; and has submitted Proof of Beneficial Use on November 16, 1978. An examination indicates that the works have a diversion capacity of 36.190 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
FISH PROPAGATION	01/01 to 12/31	25.00 CFS	18099.0 AF

LOCATION OF POINT(S) OF DIVERSION:

SWSW , Sec. 2, Township 02N, Range 02W
NWNW , Sec. 11, Township 02N, Range 02W
CANYON County

PLACE OF USE: FISH PROPAGATION

TWN RGE SEC

02N 02W 2 SWSW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Measuring devices of a type approved by this Department shall be maintained at the point of diversion and point of effluent discharge.
6. Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.
7. The issuance of this right in no way grants any right-of-way or easement across the land of another.
8. Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 5G.

JUN 13 1994

State of Idaho
Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 63-07879

CONDITIONS/REMARKS:

9. Six points of diversion are located within SWSW, S02, T02N, R02W.
10. Two points of diversion are located within NWNW, S11, T02N, R02W.
11. Right 63-09194 is also diverted through the points of diversion described above.
12. The facility volume is 101,356 cubic feet.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 63-07879 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Measuring devices of a type approved by this Department shall be maintained at the point of diversion and point of effluent discharge.
6. Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.
7. The issuance of this right in no way grants any right-of-way or easement across the land of another.
8. Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 5G.
9. Six points of diversion are located within SWSW, S02, T02N, R02W.
10. Two points of diversion are located within NWNW, S11, T02N, R02W.
11. Right 63-09194 is also diverted through the points of diversion described above.
12. The facility volume is 101,356 cubic feet.

Witness my hand this 9TH day of MAY, 1994.

Acting for R. Keith Higginson, Director

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
current meter	AA	Scientific Instruments		090125		
current meter	AA	Scientific Instruments		090137		

2. Measurements:

Open channel measurements were taken simultaneously at two locations in concrete channels containing the inflow from 7 wells - 3 in one and 4 in the other. At the same time IFEG personnel measured the outflow over dam boards at the tail end of the raceways receiving the inflow for comparison and calibration of IFEG measurement methods.

E. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

1. Measured Method:

$$\begin{aligned} \text{IPWR measurements} &= 16.2 + 15.68 = 31.88 \text{ cfs} \\ \text{IFEG} &= 35.41 \text{ cfs} \end{aligned}$$

2. Alternate Method for Checking Purposes:

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3); Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$ _____

2. Volume Calculations for Other Uses:

$$V_{DIR} = 25 \text{ cfs} \times 365 \times 1.9835 = 18,099.4 \text{ afa.} - \text{Smaller}$$

$$V_{REQ} = 2.3 \text{ AFX } 3 \text{ changes/hr} \times \frac{24 \text{ hrs}}{\text{day}} \times \frac{365 \text{ days}}{\text{yr}} = 60,444 \text{ AFA}$$

Total Raceway Vol. (max) REQ'd

RECEIVED
JUN 13 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

This permit and 63-9194 use the same sources and same places of use. Other rights in same QQ do not affect this permit.

See attached narrative for additional remarks.

Remarks:

6 points of diversion in SWSW Sec 2, T02N R02W

2 points of diversion in NWNW Sec 11, T02N R02W

Note:

Total volume required by ~~system~~ ^{hatchery} based on 3 ^{water} changes/hour.

Total volume supplied by system equivalent to one change/hour when all raceways are in use.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
<u>Fish propagation</u>	<u>1-1</u>	<u>12-31</u>	<u>25 cfs</u>	<u>18,099.4 cfs</u>
Totals:			<u>25 cfs</u>	<u>18,099.4 cfs</u>

2. Recommended Amendments

☐ Change P.D. as reflected above

☒ Add P.D. as reflected above

☐ None

☐ Change P.U. as reflected above

☐ Add P.U. as reflected above

☐ Other

STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION

APPLICATION FOR PERMIT APPROVED

To Appropriate the Public Waters of the State of Idaho
(TYPE OR PRINT IN INK)

1. Name of applicant BYRON V. ANDERSON
post office address Route 3, Meridian, Idaho Phone: 888-1303
2. Source of water supply Groundwater which is a tributary of _____
(5)
3. a. Location of point of diversion is SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 2 Township 2 N
Range 2 W B.M. Canyon County; additional points of diversion if any: _____

b. If water is not consumed, it will be discharged into _____ at a point in _____ $\frac{1}{4}$
of _____ $\frac{1}{4}$ of Section _____ Township _____ Range _____ B.M. _____
4. Water will be used for the following purposes:
Amount 25.0 for Fish propagation purpose from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 25.0 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. Artesian wells with flow
through fish ponds

b. Height of storage dam _____ feet, active reservoir capacity _____ acre feet; total reservoir
capacity _____ acre feet, materials used in storage dam: _____
Period of year during which storage will occur _____ to _____ inclusive.
(Mo. Day) (Mo. Day)
c. Proposed well diameter is 16 inches; proposed depth of well is 212 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 5 years.
b. Estimated construction cost is \$ 90,000.00.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 2 Township 2 N
Range 2 W B.M. _____
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.
(5) If water is to be used for other purposes describe: Fish propagation

63 7879

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total number of acres to be irrigated _____

c. Describe any other water rights used for the same purposes as described above. Flow from two Patterson drainage wells

9. a. Who owns the property at the point of diversion Applicant
 b. Who owns the land to be irrigated or place of use Applicant
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks Agreement with Nampa-Meridian Irrigation District over use of drainage well water is to be drawn up and copy will be supplied to us when completed.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER ADMINISTRATION

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-7879, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 19 78.
- c. Other: Measuring devices of a type approved by this Department shall be permanently installed and maintained at the points of diversion and the point of effluent discharge.

2. Denial of said application is for the following reasons: _____

Witness my hand this 9th day of November 19 73.

Director
