Music, Vicky

From: Music, Vicky
Sent: Tuesday, March 25, 2008 4:04 PM
To: Williams, Ray
Cc: Spencer, Nick
Subject: SF5s for Stephens

Hi Ray -

I am sending over the SF5s for 63-20900, 20901, 20902 in statehouse mail tomorrow. We got a new printer but no one knows how to operate the scanner yet. These SF5s are not in strikeout/underline format because they were recommended disallowed so all of the elements are new.

The 4th recommendation, 63-20909, remains disallowed because it was developed after 1963 and the claimant was advised by agent Dan Nelson to file an application for permit.

Later -

Vicky L. Music

Re: Evidence of Priority for Claims to Water Rights 63-20900,
63-20901, 63-20902, and 63-20909

Gentlemen:

My name is Wayne Stephens, my mailing address is 24604 Emmett Road, Caldwell, ID 83607, and I am more than 18 years of age. The following information about the water use associated with the above numbered claims to water rights is from my own personal knowledge.

The triplex associated with claim to water right 63-20900 is on the location of a residence and brick/block factory that were in place in the mid 1950s. The attached "Agreement to Terminate Water Well Agreement" was put in place to terminate a water well sharing agreement dated February 8, 1956. The location of the shared well as described in Exhibit "A" of the attached Agreement is the same property as the currently located triplex and claim to water right 63-20900 should be amended to claim a priority date of at least February 8, 1956.

I moved into and lived in the 8 plex associated with claim to water right 63-20901 in 1962. The units were new when I moved in during 1962.

The triplex and 4 plex associated with claim to water right 63-20902 were in place on the property when I moved there in 1962. Neither of the buildings was new in 1962 when I moved there.

The 12 unit apartment associated with claim to water 63-20909 was, to the best of my recollection, completed in about 1965. I request that the priority date of this claim be amended to 1965. I grew up in Middleton and from about the mid 1950s to the late 1960s I hunted geese in the general area where the 12 unit apartment and the Valley View Apartments are now located. As noted above my wife and I rented one of the Valley View apartments in 1962 and we lived there into sometime in 1963 when we purchased a residence. It is my recollection that shortly after we moved the 12 plex apartment was constructed. Our interest in the properties continued. In 1977 my wife and I purchased the Valley View Apartment complex which was located next to the then existing 12 unit apartment complex. At this time it was apparent that both units had existed for a significant period of time and both were in need of significant maintenance and repair. Later I purchased the 12 unit

Idaho Department of Water Resources
Page 2
May 31, 2007

complex. As noted, it is my best recollection that the 12 unit complex has existed since about 1965. Canyon County has advised me that they do not keep copies of building permits issued that far back and therefore I cannot pinpoint the precise date of the issuance of the building permit.

All of these water rights are interconnected to 5 wells, some of which provide water for additional water rights as well. Normally, these water rights are supplied from 3 wells but the interconnections can be turned on when needed to provide a continuous, reliable water supply. The other water rights diverted from these wells include 63-11234, 63-12000, 63-20897, 63-20898, and 63-20899.

Please contact me, David L. Whitney at 459-3659, or David Shaw at 363-7983 if you have questions or need any additional information regarding these claims to water rights.

Yours truly,

Wayne Stephens

Enc.

INSTRUMENT NO.

8602789

AGREEMENT TO TERMINATE WATER WELL AGREEMENT

THIS AGREEMENT, Made and entered into this 31
day of December, 1985, by and between WAYNE E. STEPHENS and
JULIA L. STEPHENS, husband and wife, the parties of the
first part, hereinafter referred to as "Stephens", and
WILLIAM M. HINDS and JACKIE HINDS, husband and wife, the
parties of the second part, hereinafter referred to as
"Hinds", WITNESSETH:

WHEREAS, The Stephens are the owners of real
property situate in Canyon County, State of Idaho, more
particularly described in Exhibit "A" attached hereto and by
this reference incorporated herein as if set forth fully
herein; and

WHEREAS, The Hinds are the owners of real property
situate in Canyon County, State of Idaho, more particularly
described in Exhibit "B" attached hereto and by this reference
incorporated herein as if set forth fully herein; and

WHEREAS, Prior to the execution of this agreement,
the prior owners of the real property described in Exhibit
"A" and Exhibit "B" attached hereto executed a Water Well
Agreement bearing date of the 8th day of February, 1956, and
recorded in the office of the Canyon County Recorder on the
15th day of February, 1956, as Instrument No. 430473; and

WHEREAS, Said Water Well Agreement provided that

Exhibit "B"

To whom it may concern:

April 19, 2007

In the late 1950's I hunted geese near the refuge at Lake Lowell. I hunted at 10th Ave and Karcher quite often. (now the site of a Valley View School.) Just across the Karcher Road was brick factory with a residence. This was prior to 1959, the year I graduated from high school at Middleton. The house and factory were located on the south west side of the intersection of 10th and Karcher.

5. X01 Domestic use is for 7 apartments, lawn, office, and laundry.
6. X36 Rights 63-20900 and 63-20901 are also diverted through the points of diversion described above.

Remarks:Comments:

1. dnelson 10/4/2007 Claim Review for version 2 recommendation

Comment: The claimant was able to supply evidence of priority for this file, but was not able to submit that information before the directors report had been submitted to the SRBA court. Therefore, he filed an objection to the recommendation and submitted the needed evidence.

I performed a field exam on this system, and it does appear as though these uses were in place at the time described in the affidavit supplied. The field exam showed that there is adequate water from the three original wells to satisfy each claimed diversion rate. According to the owner and the adjudication claims all three of these wells were connected in the same system on or around 1977. Therefore, the three original wells can be included on this right as an accomplished transfer. This system is also connected to fourth well that was added to the system in 1995, but I can not include this well since it was included after 1987. I am also working with the applicant to file a transfer to add the new well once the adjudication claims have been decreed.

This claim was filed for a triplex and a 4-plex with 7 apartments and ½ acre of yard irrigation at a diversion rate of 0.16 cfs. The field exam revealed that there is also an office located in this facility with a bathroom and laundry facilities attached to this system. The calculations show that the office and laundry have the same volume use as a standard domestic use, therefore, I am considering this an eighth domestic use when determining the flow rate, or 8 units. Appendix 4 of the Field Examiner's Handbook, does allow a 0.13 cfs diversion rate for 8 homes for in-house use. Historically it appears as though this right irrigated approximately 0.2 acres of lawn around the apartment complex, so the irrigation use can be added into this diversion rate. We can allow up to 0.03 cfs per acre or 0.01 cfs for 0.2 acres. Therefore, the maximum that I can allow for this use is 0.13 cfs + 0.01 cfs = 0.14 cfs. The volume will be the standard in-house use of 0.6 afa per apartment or 4.8 afa for the in-house use. The irrigation volume will be added in at 4.5 afa per acre or 0.2 X 4.5 = 0.9 afa for irrigation. The total allowable volume for this domestic use will be 5.7 afa.

I am recommending this right with a 6/1/1962 priority date for 0.14 cfs and 5.7 afa.

Comments:

1. CORR2 2/20/1997 COPIED FROM REMARKS
 Comment: WELL NO. 2 WAS REDRILLED IN 1977

2. dnelson 9/21/2006 Claim Review.

Comment: I wrote a letter requesting evidence of priority to the claimant on 5/4/2006 and the letter was not returned. I checked the Canyon County tax records available to our office, and found this person as the current owner and the address was correct. Since there was no response to the letter, I assume they are no longer interested in pursuing this claim. I have recommended this claim as disallowed due to no beneficial use found.

TO: SNAKE RIVER BASIN ADJUDICATION CLAIM FILES 63-20900,
63-20901, 63-20902, 63-20909

FROM: DANIEL A. NELSON

DATE: 9/27/07

SUBJECT: ALLOWABLE RECOMMENDATIONS AFTER OBJECTIONS

The above mentioned Snake River Basin Adjudication (SRBA) claim files were recommended as disallowed due to failure to provide evidence of priority during the initial phase of the recommendation process. The claimant was able to supply evidence of priority for these files, but was not able to submit that information before the director's report had been submitted to the SRBA court. Therefore, he filed an objection to the recommendation and submitted the needed evidence.

In review of the evidence of priority submitted, it appears as though the 12-plex described in water right 63-20909 was not constructed until 1965. The mandatory permit statute went into affect on 3/25/1963, therefore, we cannot change the recommendation on this right. I have spoken with the claimant and we are working on filing an application for permit for this use. The other 3 rights described above can be recommended with the evidence of priority provided.

I performed a field exam on this system, and it does appear as though these uses were in place at the time described in the affidavit supplied. The field exam showed that there is adequate water from the three original wells to satisfy each claimed diversion rate. This system is also connected to fourth well that was added to the system in 1995, but I can't include this well since it was included after 1987. I am also working with the applicant to file a transfer to add the new well once the adjudication claims have been decreed. Each right is a little different, so each right will have some variances in the recommendation. Please see below the reasoning behind each recommendation.

63-20900

This right was filed for 3 apartments and ½ acre of irrigation at a diversion rate of 0.08 cfs. Appendix 4 of the Field Examiner's Handbook, does allow a 0.08 cfs diversion rate for 3 homes for in-house use. Historically it appears as though this right irrigated approximately 0.1 acres of lawn around the apartment complex, so the irrigation use would be included in the 0.08 cfs of this right. The volume will be the standard in-house use of 0.6 afa per apartment or 1.8 afa for the in-house use. The irrigation volume will be added in at 4.5 afa per acre or $0.1 \times 4.5 = 0.5$ afa for irrigation. The total allowable volume for this domestic use will be 2.3 afa.

I am recommending this right with a 2/8/1956 priority date for 0.08 cfs and 2.3 afa.

63-20901

This claim was filed for an 8-plex with 8 apartments and $\frac{1}{2}$ acre of yard irrigation at a diversion rate of 0.18 cfs. Appendix 4 of the Field Examiner's Handbook, does allow a 0.13 cfs diversion rate for 8 homes for in-house use. Historically it appears as though this right irrigated approximately 0.5 acres of lawn around the apartment complex, so the irrigation use can be added into this diversion rate. We can allow up to 0.03 cfs per acre or 0.02 cfs for $\frac{1}{2}$ acre. Therefore, the maximum that I can allow for this use is $0.13 \text{ cfs} + 0.02 \text{ cfs} = 0.15 \text{ cfs}$. The volume will be the standard in-house use of 0.6 afa per apartment or 4.8 afa for the in-house use. The irrigation volume will be added in at 4.5 afa per acre or $0.5 \times 4.5 = 2.3 \text{ afa}$ for irrigation. The total allowable volume for this domestic use will be 7.1 afa.

I am recommending this right with a 6/1/1962 priority date for 0.15 cfs and 7.1 afa.

63-20902

This claim was filed for a triplex and a 4-plex with 7 apartments and $\frac{1}{2}$ acre of yard irrigation at a diversion rate of 0.16 cfs. The field exam revealed that there is also an office located in this facility with a bathroom and laundry facilities attached to this system. The calculations show that the office and laundry have the same volume use as a standard domestic use, therefore, I am considering this an eighth domestic use when determining the flow rate, or 8 units. Appendix 4 of the Field Examiner's Handbook, does allow a 0.13 cfs diversion rate for 8 homes for in-house use. Historically it appears as though this right irrigated approximately 0.2 acres of lawn around the apartment complex, so the irrigation use can be added into this diversion rate. We can allow up to 0.03 cfs per acre or 0.01 cfs for 0.2 acres. Therefore, the maximum that I can allow for this use is $0.13 \text{ cfs} + 0.01 \text{ cfs} = 0.14 \text{ cfs}$. The volume will be the standard in-house use of 0.6 afa per apartment or 4.8 afa for the in-house use. The irrigation volume will be added in at 4.5 afa per acre or $0.2 \times 4.5 = 0.9 \text{ afa}$ for irrigation. The total allowable volume for this domestic use will be 5.7 afa.

I am recommending this right with a 6/1/1962 priority date for 0.14 cfs and 5.7 afa.

63-20909

As described above, this right will remain disallowed, due to development after March 25, 1963.

Field Exam
FOR WA#
63-11234

There are 3 pumps in one well at Big View Water Corp Diversion. per 1998
Lift (distance from pump to water) See - Theoretical sheets. Field Exam for
Water Right #

How was lift determined (well log, measurement, owner)? See - Theoretical sheets. 63-12000

Pressure against pump (this is checked using the owner's psi gauge, your gauge, or
an estimate by owner) See Theoretical sheets

Was a measurement made? NO If no can a measurement be made at a latter
time? NO

What type of measurement device was used? Theoretical

Is there a pump curve available for pump? ON LATEST well ONLY

Mapping Information:

Please clearly outline area of commercial use on attached aerial photo. DONE

Please clearly mark all points of diversion on map and GPS. DONE

Please take pictures of Place of Use and Point of Diversion. DONE

Commercial Use Information (how much water per year do they use?):

Type of establishment (church, camp, hospital, laundry, ect.):

APARTMENT COMPLEX.

Type of Facilities (Kitchen/cafeteria, lavatories, showers, baths, sinks trailers flush toilets):

INDIVIDUAL APARTMENTS - 2 LAUNDRY ROOMS.
ONE OFFICE

Number of fixtures (number of flush toilets, number of bathtubs, number of bathroom/kitchen sinks, number of showers, ect.):

5 - washing machine - 1 - OFFICE BATHROOM
WITH SINK & TOILET.

How Many Employees and/or public individuals per day use the facilities for this commercial use?

2 - OFFICE employees.
5 - PEOPLE PER DAY - 10 Loads / Day

How Many Hours per day is the facility open for the above uses:

24 hrs.

How Many Days per Year is the facility open for the above uses:

365.

FIELD EXAMINERS NOTES:

These 4 wells are now connected
TOGETHER as a single system.
EVEN THOUGH ONLY THREE OF THESE
WELLS are associated with water
RIGHTS 63-20900, 63-20901, 63-20902, and
63-20909. Originally, these wells
ONLY served the specific structures
described in the individual claims. However
in the late to mid 1970's the ~~wells~~ 3 of the wells
were connected together to provide
BACK UP SOURCES. The Bigview
WATER CORPORATION well was added
TO THE SYSTEM in 1995. Taking this
INTO ACCOUNT all 3 wells should
Be placed ON these rights as an
accomplished TRANSFER.

NO EVIDENCE COULD BE PROVIDED TO SHOW THAT THE 12-plex under water right 63-20909 WAS CONSTRUCTED PRIOR TO 1965. THEREFORE I HAVE RECOMMENDED TO THE CLAIMANT THAT HE FILE A TRANSFER TO add THE Big View WATER CORP WELL TO THESE WATER RIGHTS, AND FILE AN APPLICATION FOR PERMIT FOR THE 12-plex. THE ATTACHED AERIAL PHOTO SHOWS THE CURRENT DISTRIBUTION SYSTEM, AND IS PRETTY SELF EXPLANATORY. THERE WAS A 5TH WELL, BUT WAS ABANDONED WHEN THE BIG VIEW WATER CORP WELL WAS ADDED IN 1995. THE THEORETICAL CALCULATION SHEETS SHOW A TOTAL OF 0.46 CFS CAPACITY WHEN THE BIG VIEW WATER CORP WELL IS EXCLUDED. SINCE WATER RIGHT 63-20909 WAS DEVELOPED IN 1965, AND CANNOT BE RECOMMENDED, THE CAPACITY OF THE 3 - ORIGINAL WELLS SHOULD BE ADEQUATE TO COVER THE 3 CLAIMS THAT CAN BE RECOMMENDED. $(63-20900 = 0.08 \text{ CFS}) + (63-20901 = 0.18 \text{ CFS}) + (63-20902 = 0.16 \text{ CFS}) =$ A TOTAL OF 0.42 CFS FOR ALL THREE RIGHTS.

20902 →
VOLUME

THERE IS AN OFFICE AND 2-LAUNDRY ROOMS COVERED UNDER 63-20902. PLUS 7 APARTMENTS @ 0.6 AFY FOR EACH APARTMENT AND OFFICE/LAUNDRY. THE TOTAL VOLUME WOULD BE $0.6 \times 8 = 4.8 \text{ GFY}$. THE OFFICE & LAUNDRY CALCULATION COULD ALSO BE CALCULATED AS FOLLOWS $(15 \text{ gpd} \times 2 \text{ people FOR OFFICE}) + (50 \text{ gal/day} \times 10 \text{ loads FOR LAUNDRY}) / 325850 \times 365 \text{ days/yr} \approx 0.59 \text{ GFY}$. EITHER WAY IT EQUALS OUT TO 8 UNITS @ 0.6 AFY. OR 4.8 AFY

63-20900 →
VOLUME

3 UNITS $\times 0.6 \text{ GFY} = 1.8 \text{ HFV}$

63-20901 →
VOLUME

8 UNITS $\times 0.6 \text{ GFY} = 4.8 \text{ HFV}$

WATER RIGHT LICENSE

WATER RIGHT NO. 63-11234

LAKEVIEW well.

Priority: February 28, 1990

Maximum Diversion Rate: 0.24 CFS
Maximum Diversion Volume: 34.5 AF

This is to certify, that LAKEVIEW WATER CO
C/O WAYNE STEPHENS
24604 EMMETT RD
CALDWELL ID 83605

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 13, 1990; and has submitted Proof of Beneficial Use on July 16, 1991. An examination indicates that the works have a diversion capacity of .240 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.10 CFS	22.5 AF
DOMESTIC	01/01 to 12/31	0.20 CFS	12.0 AF
	Totals	0.24 CFS	34.5 AF

LOCATION OF POINT(S) OF DIVERSION:

NENE, Sec. 16, Township 03N, Range 03W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
03N	03W	16	NENE 5			5

Total number of acres irrigated: 5

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accep standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The issuance of this right in no way grants any right-of-way or easement across the land of another.

OCT 20 1993

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 63-11234

CONDITIONS/REMARKS:

7. Two points of diversion are located within NENE, S16, T3N, R3W.
The maximum rate of diversion for domestic purposes under this right shall not exceed 0.20 cfs.
8. Place of use is located within Vanal Heights Subdivision.
9. Domestic use is for 20 homes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 24TH
day of SEPTEMBER, 1993.

Acting for  R. Keith Higginson, Director

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/D - SAME QD, DIFFERENT WELLS

P/U - SAME QD, DIFFERENT AREAS OF USE.

Two wells serve 19 apartments and 22 homes. The main well serves 7 apartments and 22 homes.

The second wells primary function is to serve 12 apartments. The system is Tied Together, so if extra water is needed, pressure can be maintained throughout the residences. Gage pressure during pumping reached 60 psi.

The permit was allocating water for 20 homes, not the 22 homes plus 19 apartments in existence, so only 20 homes can be considered. Assuming $\frac{1}{4}$ acre of lawn per home, there exists more than 5 acres of lawn area for irrigation.

Since the systems capacity is less than the requested allocation, can only allocate the systems capacity.

Recommend Licensing for 0.20 CFS Domestic and 0.04 CFS Irrigation.

$$Q(\text{Theoretical}) = \frac{(8.8)(0.7)(11.5)}{(2.31 \times 60) + 1.55} = 0.24 \text{ CFS}$$

Have conditions of permit approval been met? ☒ yes ☐ no

MINUTED

OCT 20 1993

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method:

None - Pressurized System

G. VOLUME CALCULATIONS**1. Volume Calculations for Irrigation:**

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 5 \times 4.5 = 22.5 \text{ AFA}$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.04 \times 240 \times 1.9835 = 19.5 \text{ AFA}$$

$$V = \text{Smaller of } V_{LR} \text{ and } V_{DR} = 19.5 \text{ AFA}$$

2. Volume Calculations for Other Uses:

$$\text{Domestic} - V_{\text{INTERNAL}} = 0.6 \times 20 = 12.0 \text{ AFA}$$

H. RECOMMENDATIONS**1. Recommended Amounts**

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRRIGATION	3/15	11/15	0.04	19.5
DOMESTIC	1/1	12/31	0.20	12.0
Totals:			0.24	31.5

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

VANAL HEIGHTS

A SUBDIVISION IN THE
NE 1/4 OF SECTION 16, T3N, R.3W, B.M.

STATE OF IDAHO
COUNTY OF CANYON } SS

I, Melvin Y. Davenport, a Professional Engineer in and for the State of Idaho, do hereby certify that the survey of VANAL HEIGHTS, Canyon County, Idaho, was made by me or under my direction; and I further certify that this Plat correctly represents the survey as made. IN WITNESS WHEREOF, I have hereunto set my hand and seal this 18th day of May, 1960.

Melvin Y. Davenport
Registered Engineer

STATE OF IDAHO
COUNTY OF CANYON } SS

On this 18th day of May, 1960 before me, Wayne E. Davis, a Notary Public in and for the said County and State, personally appeared Melvin Y. Davenport, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he executed the same.

IN WITNESS WHEREOF: I have hereunto set my hand and affixed my Notarial Seal the day and year written above.

Wayne E. Davis
Notary Public residing at Caldwell, Idaho
My Commission expires 6-1-61.

Instrument No. 141111
STATE OF IDAHO
COUNTY OF CANYON } SS

I hereby certify that this Instrument was filed for record at the request of Melvin Y. Davenport at 2:22 minutes past 3 o'clock P.M. this 23rd day of June, 1960, A.D.

Conditions of Approval:

1. X60 Places of use for domestic purposes are located within Lots 1-4 and 11-17, Blk. 1, and Lots 1-5, and 7-12, Blk. 3, Vanal Heights Subdivision. Places of use for irrigation purposes are the lots listed above and Lot 6, Blk. 1, Vanal Heights Subdivision.

IDAHO DEPARTMENT OF WATER RESOURCES

Water Right Report 63-12000

2. 01M After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
3. 071 The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
4. R69 This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
5. WB5 Domestic use is for 23 homes within the lots described above. Domestic use does not include lawn, garden, landscape, or other types of irrigation.

Remarks:Comments:

1. S. Keen 1/31/2003 License Review

Comment: Licensing review and data entry by S. Keen on 1/30/2003.

CHANGE IN NATURE OF USE

The permit authorized the development of 22 domestic uses. The examiner found 23 domestics, apparently due to the addition of lot 16A. The increase can be authorized, if the permit is amended, because the irrigated area is 1.5 acres less than was permitted.

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for domestic and irrigation water for the Uanal Heights Subdivision. The Subdivision has developed lots 1-4, 11-17 in Block 1, and lots 1-12 in Block 3. Lot 6 in Block 3 was cut in half by a change in the street alignment and is now a small park. There will be no house on this lot. There ~~was~~^{were} 5 homes completed, and one under construction at the time of the exam.
 2. The well has two identical pump units in it, and the well house has a 2000 Gal. Air tank, flow meter, press. gage, controls, valves, piping, etc. The well pumps water to 6" mainlines which serve each lot through a meter at the lot line. The second pump acts as a back-up.
 3. The well is located on the East side of Lot 17, Block 1. This was a change in location from the proposed site in Lot 6, Block 3 (Cond. 10). It was also proposed to have 2 wells, but only one was developed with 2 pumps in it.
 4. The land where the Subdivision was developed was once a gravel pit. It was dry land, and did not receive any surface irrigation water. There is no surface water delivery to this land (Cond. 8). Domestic use is for 23 lots. (Cond. 12 - 22 Homes).
- Have conditions of permit approval been met? ☐ yes ☐ no
5. Other wells adjacent to this subdivision serve different tracts of land, and other purposes.

Additional Computation Sheets Attached

Name, Theoretical Bl.:

Investigation:

$$Q = \frac{(8.8)(2044)(702)}{135' \left(\frac{341}{(40 \text{ psi})} \right) \left(\frac{14.7 \text{ psi}}{(14.7 \text{ psi})} \right)} = \underline{0.54 \text{ cfs}} > \underline{0.34 \text{ cfs}}$$

$$Q_{\text{allowed}} = (0.02 \frac{\text{cfs}}{\text{Ac}})(6 \text{ Ac})$$

$$= 0.12 \text{ cfs}$$

Domestic: 22 Henny

$$Q_{\text{allowed}} = 0.22 \text{ cfs}$$

$TDH = 228'$ From Pump Perf.

1. Volume Calculations for Irrigation:

Curve, $Q = 240 \text{ GPM} = 0.53 \text{ cfs}$

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (6.0 \text{ Acre}) \left(4.5 \frac{\text{AF-A}}{\text{Acr.}} \right) = 27.0$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \frac{(6.0 \text{ A.F.})(4.5 \text{ A.F.})}{27.0} = 27.0$$

$$V = \text{Smaller of } V_{L.R.} \text{ and } V_{D.R.} = \frac{(0.12)(2461)(1.9835)}{27.0 \text{ A.F.}} = 58.6$$

$$V = \text{Smaller of } V_{L.R.} \text{ and } V_{R.L.} =$$

2. Volume Calculations for Other Uses:

Domestic: Permit - 22 Homes

Druck - 23 Hornos

Actual - 23 lots (Homes)

Domestic: $AFA = (0.6 / \text{home}) (22 \text{ home})$
(Internal) $= 13.2 AFA$

13.2 A1=A

Irrigated A.C. = (0.24 A.C.)(10 Lots) + (0.29)(4) + (0.33)(1) + (0.36)(1)
 Recommendations (Lots) + (0.20)(1) + (0.31)(1) + (0.35)(1) + (0.27)(2) + (0.28)(1)
 Recommended Amounts + (0.22)(1) + 0.16 A.C. (Park) = 6.31 A.C. @ 90¢

= 5.68 Allow 6.0

Comments:

1. CORR2 2/20/1997 COPIED FROM REMARKS

Comment: WELL NO. 2 WAS REDRILLED IN 1977

2. dnelson 9/21/2006 Claim Review.

Comment: I wrote a letter requesting evidence of priority to the claimant on 5/4/2006 and the letter was not returned. I checked the Canyon County tax records available to our office, and found this person as the current owner and the address was correct. Since there was no response to the letter, I assume they are no longer interested in pursuing this claim. I have recommended this claim as disallowed due to no beneficial use found.

RE: EVIDENCE OF PRIORITY

Snake River Basin Adjudication Claim No(s): A63-20900, A63-20902, A63-20901, A63-20909,

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Page 2
Stephens

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, I will need an accurate location of the well used for each water right; the location of each complex; and any irrigation associated with each right outlined. Please carefully mark on the enclosed aerial photo the exact location of the well and places the water is being used for these rights. I have supplied 4 separate maps, please mark one map for each right.

The required evidence supporting the priority date(s) requested and the aerial photo needs to be returned to me by May 12, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

A handwritten signature in black ink that reads "Daniel A. Nelson". The signature is fluid and cursive, with the first name "Daniel" being more prominent than the last name "Nelson".

Daniel A. Nelson
