MEMO TO FILE 63-30175

Lamar Roche called 3-21-2007 and wanted to know what he should do with his water right which has been disallowed. We received an affidavit for the evidence of priority but it was too late to get a field exam done before the Directors Report when out so it was left as disallowed. I told Mr. Roche he needed to file an objection to the water right being disallowed and explained how to fill it out and where to send it. He also wants more water than .02 cfs per acre. He was going to put on the objection that he needs twice that amount. I told him he might need to prove that he needs more water than an inch to the acre and he seemed agreeable to that.

He said his neighbor E G Johnson Farms uses the same POD as he does and wanted to know what priority date they had. I told Mr. Roche that I would look in their water right files and see if there was any information he could use to prove his priority date. I looked up E G Johnson Farms water rights (63-4036B and 63-28751) after I talked to Mr. Roche and found that they claimed a 1938 priority date so the affidavit of Mr. Roche's seems fairly accurate.

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No: A63-30175

Dear Claimant,

In the past, you submitted the above referenced claim during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right if water availability problems arise in the future.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, an accurate location of your diversion and acres irrigated needs to be identified on the attached aerial photo. Please also provide as much detail about your diversion works as possible and whether or not you also receive water from Farmers Co-op Ditch Co. If more information is needed, you will be receiving a call from us in order to set-up an appointment for a field exam.

Page 2

The above requested information needs to be submitted by May 5, 2006. Please let me know if you may not be able to submit the information or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully,

A handwritten signature in black ink, appearing to read "Lori Graves", written in a cursive style.

RE: Notice of Claim to a Water Right No. A63-30175

Dear Mr. Roche:

We have initiated the process of the above-referenced claim for 200 acres of irrigation in Twp. 05N, Rge. 04W, section 30. We are returning the claim to you for your notarized signature.

When you submitted this claim to IDWR, you did not indicate the 1/4 1/4 locations of the irrigated acres. Based on a map sent to this office by Sherri Roche we have tentatively delineated the acres. Please see Item 10 of the above-referenced claim for the legal description as interpreted by IDWR from the map.

In order to continue to process this claim, you must return the claim with your notarized signature. If you would like to change or add to the claim, please do so on the enclosed computer-generated claim, initial the changes, add your notarized signature, and return the claim to this office. If no response to this letter is received by the response date at the top of this letter, it will be assumed that you do not wish to file this claim for the irrigation of 200 acres.

Also, please note that although you indicated on Item 15 of the handwritten claim that this water right has been decreed, no record of a decreed water right on the acres in question was found in IDWR records. Consequently the basis of claim was changed to Beneficial Use. If you have additional information about a decreed water right on the claimed acres, please send it to this office when you return the claim.

Sherri Roche has indicated that your address has changed. IDWR requires a written statement from you in order to change the address on your claims; you may change your address on the computer-generated claim and initial it as with any other changes. Your notarized signature must be on the computer-generated claim in order for IDWR to accept the claim.

Again, IDWR must receive a response to this letter by the response date indicated at the top of this letter. If no response is received, the claim for irrigation of 200 acres in Twp. 05N, Rge. 04W, section 30, will not be processed by IDWR, and the water right will not be recommended to the court for decree.

If you have any questions or need assistance, please do not hesitate to contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Maria Minicucci', written over the typed name.

Dear Claimant(s):

This office is presently processing the Notice of Claim(s) to a Water Right you submitted during the Snake River Basin Adjudication claims filing in your area. However, due to the item(s) checked below, we cannot continue to process this claim(s). We are returning this claim(s) to you either because we need you to complete an item or items on your claim form, or because the claim cannot be filed at all and it is being rejected or because you may need to file a different claim form or other additional forms. **ONLY THE ITEMS CHECKMARKED IN THIS LETTER NEED COMPLETION. IF AN ITEM IS NOT CHECKMARKED, IT IS NOT PERTINANT TO THIS CLAIM(S).** Also enclosed is the receipt for the filing fee previously submitted with this claim.

_____ Fee - No fee received or inadequate fee received, fee due is _____.
(Filing fees, based on use(s) of water, were due on all claims filed)

_____ Late Notice of Claim - This claim was received on _____ which is after the deadline for filing claims in _____ County. The deadline for this County was _____, and the late fee now due is _____. The enclosed Late Fee Notice explains the late fee and how it was computed.

_____ Item No. 2 - Date of Priority - month/day/year that water was first put to a beneficial use, regardless of ownership. If the month or day is unknown the Department will recommend 12/31 of the year designated.

_____ Priority Date Additional Note - If the first date of beneficial use for your water right was after March 25, 1963 from a groundwater source, or after May 20, 1971 from a surface water source, the enclosed application for permit may need to be filed instead of this claim. See the enclosed pamphlet entitled "Idaho Water Rights A Primer" under the "How is a water right established?" section for further explanation of these dates. A surface or groundwater claim filed with a priority date after the respective dates mentioned above, for the water use(s) you have claimed, will likely be recommended for disallowal to the court since an application for permit was required to be filed at the time the water was first developed and no previously filed permit was found in our records. You may withdraw this claim by completing the Request for Withdrawal form enclosed and receive a refund of the filing fees if you decide to file the application for permit instead. The refund can also be transferred to pay the filing fee for the application if you designate this on the Withdrawal form. You may also decide to pursue this claim with the court for a priority date after the dates mentioned above. If so, return the claim form, completing the items indicated, with a note stating you still wish to file the claim.

We have attached ^{ASC} ~~maps~~ maps

✓ Item No. 4 - Point of Diversion - The point of diversion listed on this claim is not in the correct form for legal descriptions. Diversion points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 6 - Uses of Water

✓ Item No. 9 - Non-irrigation Uses *grazing*

✓ Item No. 10 - Place of Use - The place of use listed on this claim is not in the correct form for legal descriptions. Places of use points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 12 - Ownership of Place of Use.

Item No. 15 - Basis of Claim - Please designate if your water right is based on beneficial use of the water - Beneficial Use, or if it is based upon a previously filed water right - Posted Notice, License, Permit or Decree.

Item No. 16 - Signature - this claim form does require your signature be affixed and notarized by a notary public. Note, the notary public signs below the signature blocks listed on this item.

Adjudication Claim Form No. 42-1409(2)a., needs to be filed instead of Claim Form No. 42-1409(2)b., due to the following reasons: _____

Enclosed is the correct claim form with instructions for completion. The fee schedule is also in the instruction sheets to help you figure the fee needed for filing this type of claim form.

This claim was filed based on an existing permit which has lapsed for failure of the permit holder to submit proof of beneficial use. Unless this permit is reinstated, your claim cannot be accepted. In order to reinstate the permit, proof must be submitted showing that the water had been developed prior to the date proof of beneficial use was originally due for this permit which was _____. This proof can be in the form of dated power bills for a pump, dated ASCS crop reports indicating irrigation and the source of water used, or a notarized statement from a neighbor or previous owner who was aware of the date the water was developed. The enclosed proof of beneficial use form must also be submitted along with the proof mentioned above. Note that there is a filing fee required to file this proof of beneficial use form. If water was not developed prior to the above proof due date, then an application for permit form must be filed. This form and instructions are enclosed for your review and possible completion. Idaho is presently under a moratorium on approval of applications for permit for new uses. The exception to this moratorium are applications for permit filed on uses developed prior to the commencement of the adjudication, November 19, 1987. If your water use was developed prior to this date, and you

submit the same type of proof mentioned above documenting the development date, and no protests are submitted, then this application for permit could be approved. If the development took place after the 1987 date, then your application for permit will be held pending the outcome of this winter's snowpack.

_____ An adjudication claim cannot be filed when no water use or development has taken place. An application for permit is the form to file at the time you decide to begin development. Claims are required only on water uses developed prior to the commencement of the adjudication, November 19, 1987. Enclosed is an application for permit form with instructions to be completed at the time development will begin.

_____ An adjudication claim cannot be filed on an application for permit which has not been approved. Therefore, we are returning your Notice of Claim to you. An application for permit must be approved in order to establish a water right to file on.

✓ Other: Amount of water (quantity and consumptive use).

Please contact this office with any questions, or if you need additional information.

If you are returning your claim form(s), please complete the item(s) checkmarked in this letter, initial and date any changes or additions made to the claim form(s), and return the form(s), with the requested fee (if one is required), to our office within 30 days from the date of this letter. If the claim(s), or fee requested, is not received within this 30-day period, the claim(s) will be rejected and your fee (if one was paid previously) will be refunded. Please contact our office at the address listed below, within the 30 day time period, either in writing or by phone, to let us know if there is a problem returning the claim(s), or fee, in order to keep this claim(s) valid. If the claim(s) is rejected and fee refunded, due to no response within the 30-days, the claim(s) can be resubmitted up until claims in this area are prepared for court decree. However, at that time the corrected claim(s) along with the regular filing fee that was refunded, and an additional late fee will be required. Please return either your claim(s), any other form or information requested in this letter, and the fee requested, if any, to the Department of Water Resources, Western Region Office, 2735 Airport Way, Boise, ID 83705.

Feel free to contact this office if you have any questions concerning the items checked in this letter.

Sincerely,

Adjudication Staff /mm
