Dear Keith:

In connection with my examination into the water rights on Indian Creek in the Mayfield area in Elmore County, I need also to know the water rights, as shown by your records, on Slater Creek, a tributary of Indian Creek.

I have the information which you sent to me with respect to Indian Creek, and I realize that it may be that there are no rights on Slater Creek shown by your records other than in the information which you sent to me.

However, I do know of certain water uses there, one use by Ante Koprcina and his successor in interest, Oliver Lord, and one use by Claude Slater, and one use by Harry Wiebelhaus.

Will you please let me know from your records of any outstanding water licenses or any uncancelled filings or any decress specifically with respect to Slater Creek.

Yours very truly,

ANDERSON, KAUFMAN, ANDERSON AND RINGERT

I believe that this beneficial use claim was filed by Erin Lord, not Lord Ranches. Mr. Lord and his son are available this week, whatever works best for you. Please let us know when you would like to conduct the field exam. The 1910 priority was based on the date of the irrigation license 63-2118 on the nearby property as this whole area would have been put under irrigation at about the same time. There's a 1968 letter in another license file, 63-2143, confirming that the Lord lands had been irrigated for along time. I will fax this letter to you. Also, I can get an affidavit from Erin Lord (Oliver Lord's son) confiming personal knowlege of at least some of the time period.

Thank you,
Dana

Dana --

I received the faxed letter. Thank you. However, the letter does not provide any evidence for this beneficial use claim.

The source for license 63-2145 [Slater Cr, Indian Cr, Big Draw, Dry Hollow] and the pou are located a few sections west of the current claim. The letter simply states that the Lords are known to use the water of Slater Creek which is a given because they had licensed right 63-2118 with a priority date of 1910 from Slater Creek. This brings up another problem. Clearly, the Lord family and their predecessor know of the licensing process and it seems odd that they pursued it for 2 licenses [63-2118 and 63-2655; groundwater, 1946 priority date] and not for this b/u.

Please submit additional information to support the use and priority date.

Thanks.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-32536

FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION

SUBJECT: CLAIMS REVIEW

DATE: 11/20/2006

CC:

Attorney Dana Hofstetter on behalf of Erin Lord filed this claim on 10-30-06.

This beneficial use claim 63-32536 was filed for some of the same acres licensed under 63-2118 in Section 12 plus acres in Section 1 for a total of 175 acres, and additional PODs from West Slater Creek with a 1910 priority date. No evidence of priority was provided. Dana contends that a letter in license file. A field exam was conducted on 11/16/06.

The acres found on the field exam are different from those claimed. There is not enough time for an adequate review of this claim before the B63 P3 DR is filed with the SRBA Court on 12-3-06. I am disallowing this claim because no evidence of priority was submitted. The claimant can file an objection and we can resolve the issue of the acres and priority at the same time.

Delivery System Narrative: from the POD a dirt ditch crosses the field #1 on the south end running west to east then runs south on the east boarder (gravity flow NE to SW). At midway, there is a headgate to move the water across the field through tile. Further south is a 12" culvert that goes under the road, open discharges to a dirt ditch that outflows the ridge of the hillside making its way to the pond. Along the way, the dirt can be dammed up to flood irrigate (gravity flow NE to SW). The pond is utilized for irrigation for field #3 + stockwater (gravity flow NE to S + SW. High ground water also agitates with irrigating by seeping out in different locations.

NARRATIVE/REMARKS/COMMENTS

Supplemental water: none.

Jeff Lord stated that they historically irrigated more acres, but it required additional ponds + was more work. He said with the system they currently have their yield is greater than when they were irrigating more acres.

Erin Lord's father used to own the property where the POD + POU are located. Currently his son Jeff resides at that location (at the end of N Koprcina Ln, Jeff gave the physical address as: 2611 N. T.K. Ln). Erin Lord lives at 1171 Mayfield Rd).

Directions: E. on I84 towards Mtn Home, take (Boise Stop) exit 71, turn left at stop sign at end of off ramp, + continue to stay left for 5 miles to 1171 Mayfield Rd (lt. Indian Creek, lt Slater Crk, lt Mayfield) 1st house on left

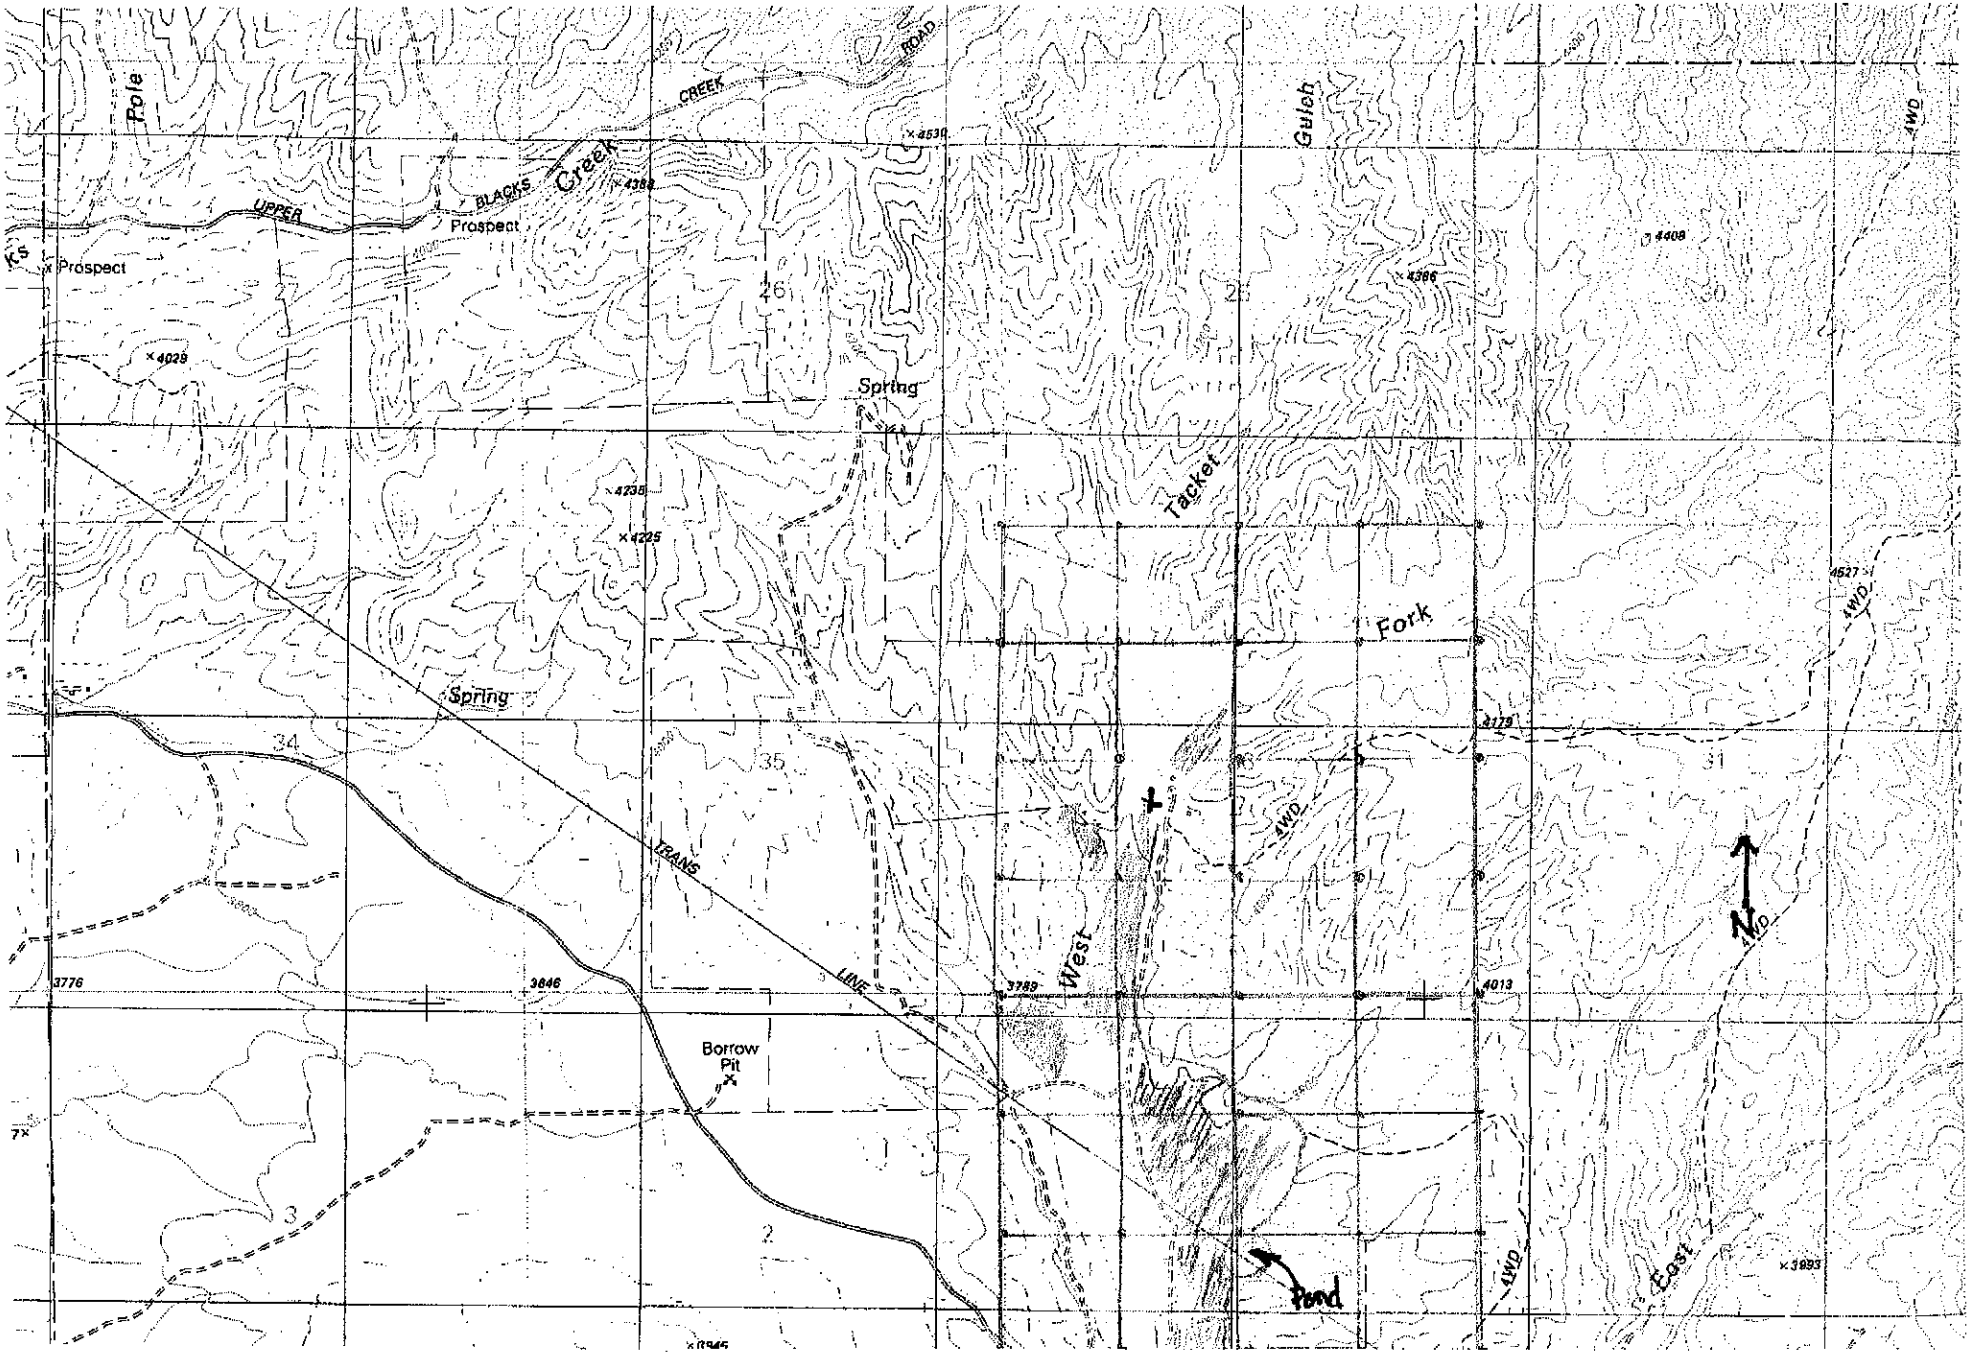

POU: continue on Mayfield Rd 0.8 miles then turn right on N. Koprcina Ln. Property south of house, east + southeast of hay barns, + south + southwest of reservior/pond. POD: Mayfield Rd, Rt. on Koprcina Ln. Go 1.6 miles, walk along the fence line going west to the creek (where the willows are located).

AFTER EXAM THE FILE SHOULD CONTAIN:

- [x] Completed claim checklist
- [x] Photographs of POD's and POU
