C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: John and Irene Redmon
Address: 21988 Tucker Rd.
Caldwell, ID 83605

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be: _____

2. ☒ **Source**

Should be: The source should be described as waste waters, and waste waters belong to the Wilder Irrigation District.

3. ☐ **Quantity**

Should be: _____

4. ☐ **Priority Date**

Should be: _____

5. ☐ **Point of Diversion**

Should be: _____

6. ☐ **Instream Flow Beginning and Ending Point**

Should be: _____

7. ☐ **Purpose(s) of Use**

Should be: _____

8. ☐ **Period of Year**

Should be: _____

9. ☒ **Place of Use**

Should be: _____

10 ☐ **I object because:**

☒ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Wilder Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Wilder Irrigation District. Proposed wastewater remark does not sufficiently protect original appropriator.

F. VERIFICATION (must be completed)

"EVIDENCE OF PRIORITY"

We purchased the property of claim number 63-21520 and 63-21521 (Legal description T04N, R04W, S16) in May of 1968 .

The original owner, William Altig informed us that he had taken the place out of sage brush in 1904.

There is a natural drain from the City of Greenleaf that enters the property near the SW corner of the SWSE of section 16. There is also a natural spring about 200-300 feet to the north. This water was co-mingled with other sources and/or used for livestock water and irrigation by William Altig and another owner then by us.

For many years the spring was also used for domestic and livestock water until we stopped using it for domestic water about 1989.

The spring and run off water were also use for corral livestock water on the south side of SWNE. This is used from 1-20 days per year.

Please advise if any more information is needed.

Respectfully,

John Redmon

RE: EVIDENCE OF PRIORITY

SNAKE RIVER BASIN CLAIM NO(S): A63-21520 & -21521

Dear Claimants,

In the past, the Redmons submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. The Redmons indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 16, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you may be receiving a call from us in order to set-up an appointment for a field exam.
