Data Entered By: Sandy Hemenway
 Project: Flow Computation for A63-21602 Pearson
 Given: See Data Table

Compute head losses with the Williams and Hazen Formula:
 $f = 0.2083 \cdot (100/\text{roughness})^{1.85} \cdot (\text{cfs} \cdot 448.8)^{1.852} / (\text{ID}^4 \cdot \text{Length} / 100)$

To Find: Compute Rate of Flow for a Pumpback System

10 ☐ **I object because:**

☒ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Wilder Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Wilder Irrigation District. Proposed wastewater remark does not sufficiently protect original appropriator.

RE: Notice of Claim to a Water Right No. 63-21602

Dear Mr. and Mrs. Pearson:

Upon receipt of the field examination from our contractor, I noticed that she has recommended we change your mailing address on this claim to the address shown above. Pursuant to Department policy, we must have a signed request in order to make a change to an address. Enclosed you will find a form that, once completed and submitted, will allow me to change our computer records. I have completed the form with information from our contractor for your convenience. Please review the form, and if all the information is correct, sign the form and return it to me in the enclosed envelope.

I also noticed that our contractor has recommended we add stockwater as a use on your claim. We cannot add any uses without an amended claim form. If you want to add stockwater to this claim, please advise me and I will prepare a form for your convenience.

If you have any questions in regard to this matter, please do not hesitate to contact me at (208)287-4953.

Sincerely,

KAY WALKER

Delivery System Narrative:

1 1/2" ABS pipe w/ 30' lift, 168' path to generic sprinklers attached to hoses in the yard (4 sprinklers run at one time). To irrigate garden, hoses & dirt ditch are used on east side of house. Run-off of water through 1 1/2" ABS goes to dirt ditches running west-east with gravity flow north to south. Parts of the dirt ditch are knuckled out to allow the water to flood irrigate. Gravity flow in garden is from west to east.

NARRATIVE/REMARKS/COMMENTS

Recommend priority date of 01/01/1964. Spoke with Paul & Brenda Pearson about this matter, & this is all the confirmed information they could come up with.
Supplemental water: some waste water from field to the north of them sometimes comes down their ditch since the farmer to the north does not know where else to send ~~st~~ the water. They do not get this water regularly.
Total property owned is 4.25 acres with a 1369 sq ft home & 800 sq ft shop. Property irrigated is 4.0 acres.

The 4 acres is bordered with trees & consists of grass pasture.

Directions: 184, Hwy 19 through Greenleaf toward Wilder, south on Hwy 95, Lt. on Garnet (at curve in Hwy 95 before the bridge crossing the Snake River). Garnet turns into Graphic Ln. Physical address is 25947 Graphic Ln. POD located directly south of house 168' (pump set in Hellyer Drain). POU is yard around house, garden area to the east of house, + property south + southeast of the house that butts up to Hellyer Drain.

AFTER EXAM THE FILE SHOULD CONTAIN:

- ☒ Completed claim checklist
- ☒ Photographs of POD's and POU
- ☒ GPS readings
- ☒ Completed map and or GIS layout showing POD's and POU

FIELD EXAMINER:

Judy Hemminger

Claim No. and Name: A63-21602 Pearson

Date of Inspection: 7/10/2006

Field Inspector: Sandy Hemenway

Measurements/Calculations:

Maximum Capacity Pipe Flow:

1.5" = 0.061 = 0.06 cfs

$Q = 5 \times 3.1416 \times \text{radius squared} = 5 \times 3.1416 \times 0.625 = 0.061 = \mathbf{0.06 \text{ cfs}}$

Bucket Measurement:

***Four generic sprinklers run at the same time. Measurement was taken through one of the hoses while the system was running. All four hoses were running at the same time, since there was too much pressure going through the lines to take a measurement with the total flow coming through only one hose (per owners request).

5 gallon x 60 seconds / 40 second = 7.5 gpm x 0.00223cfs = 0.016725 X 4 lines = **0.0669 = 0.07 cfs**

Irrigation:

Confirmed acres irrigated: 4.0 acres x 0.03cfs = 0.120 = 0.12 cfs

Season 3/15 - 11/15 = 246 days

Required V.i.r = allowable acres under permit x requirement IDWR chart (figure 2)=

4 acres x 4.5 = **18.0 afa**

Potential V.d.r = max. allowable cfs x permit season x 1.9835 =

0.06 x 246 x 1.9835 = 29.27646 = **29.3 afa**

***Pumpback calculation (0.058 cfs), pipe capacity for 1 1/2" pipe (0.06 cfs), and bucket measurement (0.0669 cfs) were averaged to obtain 0.061 = 0.06 cfs, since they all were so similar. This was used for the maximum allowable cfs in the Potential Vdr formula.

Stockwater:

Table 1 Recommended Diversion Rates for Stockwater 0 - 25 horses = 0.02 cfs

Stock: 2 head cattle

Season: 1/1 - 12/31 = 365 days

Required V.i.r = (#head x gallons/day/head x days of use per year) / 325,850 =

NOW and in 1987: (2 x 12 x 365 / 325,850 = 0.02688 = **0.03 afa**

Potential V.d.r = Max. allowable cfs x permit season number of days x 1.9835 =

Both Now, and in 1987: 0.02 x 365 x 1.9835 = 14.479 = **14.5 afa**

***Cattle drink out of the ditch while acreage is being flood irrigated.

RE:Water Right No. 63-21602

Dear Kay Walker

Enclosed is a copy of the State Deed and Memorandum of Contract of Sale for Assessment of Irrigation charges.

The 1930 date was chosen by the clerk that helped us establish our water rights in 1990.

The first paper work I have on this property, is the 1925 sale of property to C.L. and Opal Barnard, and the first recorded paper work was recorded in 1964. All who would know about the water rights established for this property are either deceased or cannot be located at this time.

As Hellyer Drain runs through this property, it would be reasonable Hellyer Drain would serve this piece of property and its stock, from the beginning of C.L. and Opal Barnard's ownership.

The copies enclosed, show the original property was purchased from the State, and shows all water, ditch, etc. rights sold to the Stone brothers, we have the papers showing the land was purchased from the Stone's by Barnards in 1925, McMullen bought from Barnard, and I (Paul Pearson) bought from McMullen. The Memorandum of Contract of Sale for Assessment of Irrigation Charges states in the 17th paragraph states water ditch rights and etc. This document is dated 1982. I placed my pump in Hellyer Drain on the same metal rack that had been in use before I bought this property in January of 1982.

In 1964-65, my family lived about one & one-half miles from Hellyer Drain, Mr. Barnard allowed my brothers, friends and myself to fish for trout in Hellyer Drain. I saw the water was used for Barnards animals and I believe the water was used for the landscaping. I would have been 11-12 years old.

Sincerely,

Paul Pearson

MEMORANDUM OF CONTRACT OF SALE FOR
ASSESSMENT OF IRRIGATION CHARGES

THE PARTIES hereto are J. W. MCMULLEN and BONNIE J. MCMULLEN, husband and wife, (herein called seller), and PAUL D. PEARSON and BRENDA J. PEARSON, husband and wife, (herein called buyer).

AGREEMENT: It is mutually agreed by and between the parties hereto as follows:

Premises. The seller shall sell and the buyer shall buy that real property (herein called premises), which term includes all buildings, improvements and fixtures now on or hereafter placed on such real property, situated in Canyon County, Idaho, and described as follows:

A part of Government Lot 1 (NW.¼ of SW.¼) Section 11, Township 3 North, Range 5 West of the Boise Meridian in Canyon County, Idaho, more particularly described to wit:

Commencing at the Northwest corner of the said Government Lot 1;

thence South 89° 36' 30" East 234.10 feet, along the North line of said Government Lot 1, to the INITIAL POINT of this description;

thence continue South 89° 36' 30" East 206.22 feet, to a point on an existing fence line;

thence meandering along said fence line South 0° 45' 05" West 306.11 feet;

thence South 55° 42' 58" East 995.18 feet;

thence South 81° 04' 48" East 36.98 feet, to a point on the East line of the said Government Lot 1;

thence leaving said fence line South 0° 02' 36" East 167.71 feet, along the said East line, to a point on the centerline of Hellyer Drain;

thence North 54° 02' 36" West 1337.90 feet, along said centerline;

thence North 0° 17' 00" West 118.54 feet, to a point on the Easterly right of way line of a road;

thence meandering along said right of way line North 26° 52' 30" East 18.76 feet;

thence North 6° 35' 30" East 121.46 feet, to the INITIAL POINT of this description.

This tract contains 4.266 acres, more or less, and is subject to a 25 foot road right of way along the said North line of Government Lot 1, and to all other existing rights of way and easements.

Together with all water rights, ditch rights, rights of way, tenements, hereditaments and appurtenances thereto belonging or used in connection therewith.

Irrigation charges - irrigation season - calendar year.
Irrigation charges mean all general and special taxes and assessments levied against the premises by any irrigation or drainage unit for any purpose and includes but is not limited

to bonds, construction charges, special improvements, irrigation and drainage. For the purposes of prorating irrigation charges, the irrigation season shall be deemed to be the calendar year. The seller shall pay before delinquency all irrigation charges levied for the irrigation season of 1981 and all irrigation seasons prior thereto, excepting therefrom that the buyer shall pay any excess water irrigation charges for the year 1982. The buyer shall pay before delinquency all irrigation charges levied for the irrigation season of 1982 and all irrigation seasons subsequent thereto. Any payments due from one party to the other party shall be paid forthwith.

Other provisions. This memorandum of contract of sale is subject to all of the terms and provisions of the contract of sale of even date herewith between the parties hereto pertaining to the premises, which contract of sale is by this reference incorporated herein and made a part hereof.

Binding effect. The agreements herein shall apply to and bind the heirs, executors, administrators, successors and assigns of the respective parties.

Re: Claim to a Water Right No. 63-21602

Dear Claimants:

In March of 1990, you submitted the above referenced claim in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated, when this claim was filed, that the water right was based on a "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. This claim has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize the water use under this right, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel.

The required evidence supporting the priority date must be submitted by **May 26, 2006**, referencing all documents with the corresponding claim number. If you have any questions not covered by this letter, or the enclosed pamphlet, please feel free to call me at 287-4953.

Sincerely,

Kay Walker

Re: Claim No(s). A63-21602

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
