DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

RECEIVED
APR 26 2005
 DEPARTMENT OF
 WATER RESOURCES

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s)	Adjudication Claim No(s)	Split	Water Right No(s)	Adjudication Claim No(s)	Split
	<u>463-21924</u>				

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, **THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

10 ☐ **I object because:**

☒ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Wilder Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Wilder Irrigation District. Proposed wastewater remark does not sufficiently protect original appropriator.

NARRATIVE/REMARKS/COMMENTS

Supplemental Water: Have access to Wilder Irrigation District water, but not used unless there's a drought. They have sufficient water supply from the ditch to fill the reservoir to pump water on to their acreage via their pivot, + overflow continued down Lundy Drain + used for livestock.

In 1987, there was a 25hp pump at the POD with a collection box, 6" discharge, pumped up to the north end of the property (dirt ditches w/ gravity flow north to south) then would make its way down to other dirt ditches crossing the property + following the slope of the hill (siphon tubes + gravity flow). With this system, there was kind of a "dry area" down in the southeast corner.

RE: Snake River Basin Adjudication (SRBA)
Notice of Claim to a Water Right No. 63-21924

Dear Claimants:

We have processed the change in ownership for the above referenced Notice of Claim. Enclosed is a copy of the Claim for your files. Please note that we are required to conduct a field examination of the water developed and used under this Claim. A contractor, working for the Department, will be contacting you to schedule a time that she can conduct the examination.

We also found License No. 63-10616 appears to be appurtenant to the land you own. Enclosed is a copy of this license for your information. If you believe that you are the owner of this right you should submit the enclosed Notice of Change in Ownership form to our Department. This right is not included in the SRBA so a \$25.00 filing fee will need to be submitted with the change in ownership form.

If your mailing address changes in any form, please contact us in writing so we can update our records to assure you receive important notices concerning your water rights. If you have any questions concerning this letter, please do not hesitate to contact me at (208) 287-4953.

PLACE OF USE: STOCKWATER, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

RE: NOTICE OF CLAIM NO: A63-21924

Dear Claimants:

We are currently preparing the above referenced Notice of Claim for the Director's Report in the Snake River Basin Adjudication. Enclosed is a copy for your convenience. Our research indicates there may have been a change in the ownership for the this claim. IDWR records currently show the following name and address as the owner of the claim listed above:

**TOM OR NORMA GROSSEN
BOX 72
INDIAN VALLEY ID 83632**

If our current records, as listed above, are not correct please complete the enclosed Change in Ownership form, as appropriate, to correct our records. We need to conduct a field examination of the system under this claim in the next couple of months and need to be able to contact the current owners.

If no response is received from you by May 15, 2006, all further legal notices concerning the claim will be sent to the name and address shown above. If you have claims other than those referenced here, please contact the Department so we may assist you in updating the information for all your claims. Should you have any questions, or feel that you need assistance, please feel free to contact me at 287-4953.

I attended Huston grade school and Caldwell high school. Ifarmed land for
several years within 3 miles of this 80 acres known to me as the Hammer farm

Description:

Township 3 north range 4 west

The north $\frac{1}{2}$ of southwest $\frac{1}{4}$ of section 22.

The farm south of this property was the Lundy farm. wendell Bates
married Helen Lundy. He farmed this farm from 1946 till 1963. He
will verify that the Lundy farm and the Hammer farm have always shared the
water from the Lundy drain for irrigation and stock water purposes.

Also George R. Johnson and his family lived on the Hammer farm from 1938
till 1945. He will verify that these two farms have shared the water out
of the lundy drain at that time. Wendell is my wifes brother. I have
traded work on the Lundy farm and am familiar with the water system.

ADJUDICATION MEMORANDUM**CLAIM NO.:** A63-21924**SUBJECT:** Evidence of Priority**EMPLOYEE:** T777WICVCC1**DATE:** 09/12/1995

I returned Mrs. Grossen's telephone call. She wanted to know if the evidence submitted (Rec'd 08/31/1995) was sufficient. ~~Surge~~ Jaw Shute and I had reviewed the documents yesterday and determined that they appear to represent the water rights associated with the house project and not water from the draw. Mrs. Grossen said that they do pay for & receive Wilder IRR District water; that water is delivered through another ditch system. IRR District water goes into a pivot - draw water is ditched to corners and to area around the house.

They are in the process of haying. Depending on the weather they may or may not irrigate this year, but she will call when they are finished haying to schedule a field exam. Since I will be out of the office next week she will call either at the end of this week, or the week after next.

RE: Notice of Claim to a Water Right No(s): A63-21924

Dear Mrs. and Mr. Grossen:

The above-referenced claim was previously submitted in the Snake River Basin Adjudication (SRBA). Enclosed is a computer generated copy of the claim for your reference; please do not return the copy to this office.

Your claim was based on "beneficial use" of the water right. Water rights of this type are established by the historical use of water, but the rights have not been confirmed by IDWR. Item 2. on the claim, the priority date, is the date you have indicated that water was first used on your property for irrigation. Since your water right has not been previously confirmed by IDWR, the Department is under a legal requirement to gather evidence from claimants which supports the historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority". This pamphlet describes types of evidence that can be submitted to fulfill this requirement.

Please submit the required evidence supporting the priority date by September 25, 1995. If no evidence is submitted to this office, your water right will not be recommended to the court for decree; this could jeopardize your water use under this right in the future.

If you have any questions or need additional information, please do not hesitate to contact this office.

Sincerely,

Maria Minicucci

Re: Claim No(s). A63-21924

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

Identify water right(s) for which extension is requested

State why an extension of time is requested explaining how a diligent effort has been made to meet the deadline:

I am buying farm from Vernon Haumann who has been ill
therefore he wasn't able to let me know about filing date
since I live in Calif I didn't find out about it until
4/6/90 therefore I request \$50 Refund for late fee if
it is granted.

Claimant requests an extension to 4/6, 19 90
