RE: Pioneer Irrigation District Claims in the Snake River Basin
Adjudication

Dear Scott:

This letter is in response to your letter of December 14, 1989, regarding the designation of acreage for the above referenced claims.

Your letter is substantially correct, however, it does not mention that the fees for the claim(s) will be based on the total number of acres within the District rather than just the irrigated acres. Since the irrigated acreage per 40 acre tract is required for fee calculation purposes and that information will not be provided under your proposal, the fee will be based upon all acres within the District's service area. As indicated in your letter, the actual number of irrigated acres within the District will also be provided as part of the claim(s).

With this addition, I believe your letter does describe our understanding.

Sincerely,

A handwritten signature in dark ink, appearing to read 'dbs', written over the typed name.

✓ Has more maps with boundaries

A63-02275 Plu $\approx$ 34,000 acres but does not totally agree with maps in A63-00224 (for example - lots of Caldwell is left out of d'base in A63-02275).

Need something in d'base to let people know that land list is subject to change.

Add remark ?

Plu list is subject to change per review. See A63-00224 for complete boundaries of irrig district as shown on 3 maps.

Can S.O. do this to simplify database updating?

Thanks,

SUBCASE 63-00224**

Pioneer Irrigation District is objecting to inclusion of the following underlined language set forth in the remark under the Purpose and Period of Use element, as reflected on the Director's Report:

Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being release for flood control by the Untied States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoir dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Luck Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.

**ATTACHMENT 2 TO

Reasons Supporting Objection(s)

Name and Address:

The Director's Report incorrectly identifies the zip code as 83605. The correct zip code is 83606.

Purpose of Use and Period of Year:

The remark, as drafted, may allow for the unilateral modification to the Memorandum of Agreement of 1953 and the Water Control Manual of 1985 based upon the passage of future state and federal laws and procedures that may threaten to undermine or abrogate the very purposes (irrigation and flood control) for which these facilities were developed, paid by, and operated for the benefit of the various irrigation entities.

Tiffany,

Greetings on our current topic -- Pioneer ID. I have just completed a follow-up review of these files, attached. In general, I changed the items that we discussed on Tuesday, with the exceptions provided in this updated memorandum. Please call me at 287-4805 if you or Scott have items that we need to discuss.

The one large item that is outstanding is a better determination of acreage. Were you able to discuss the spreadsheet computations during your meeting with the Board on Thursday?

At this point we are planning to print this Basin 63 Part 3 report on the morning of Tues Dec 12. Thus, I would like to make the determination of acreage as soon as possible on Monday. Please advise as to how you are viewing these numbers -- I can contact Dawn if appropriate.

Thanks, Dave

RE: Updated Review of Pioneer ID Recommendations

Responses to Issues identified in my memorandum dated December 5, 2006:

- Irrigated Acreage Amount – Clarify
 - Do this based on information from Pioneer ID and Scott Campbell
- Remove combined condition on all
 - Do this when updating acreage information
- 371 – 3rd POD should be in Canyon County as shown – correct other rights that show diversions from the Boise River to show that this diversion is in Canyon County
 - This has been corrected
- 5200 – need volume – use
 - Volume has been computed to be 3898.8 ($7.56 * 1.9835 * 260$), and has been added
- 21713 – increase to 11.2 cfs
 - This has been corrected
- 21731 – POD should be Sec 32, NWNE (see third amended claim)
 - This has been corrected
- 32493 – review this file to see if it really should be disallowed
 - Should be disallowed based on information provided to date

I have just re-reviewed the recommendations for Pioneer ID, and this is what I have found (all have a prefix of 63) in addition to the discussions we have already had:

2529 – I computed the volume to be 44,918.3 ($87.1 * 1.9835 * 260$).

5199 – The evidence of priority that we received pertains only to the POD in Sec. 12, and we have not received flow measurements. Thus, I am recommending 1 cfs and 50 AFA as a placeholder (it appears that the well has at least this capacity), pending the submittal of additional supporting information.

5255 -- We have not received flow measurements. Thus, I am recommending 1 cfs as a placeholder (it appears that the system has at least this capacity), pending the submittal of additional supporting information.

21706 -- We have not received flow measurements. Thus, I am recommending 0.1 cfs as a placeholder (it appears that the system has at least this capacity), pending the submittal of additional supporting information.

21731 -- We have not received flow measurements. Thus, I am recommending 10 cfs as a placeholder (it appears that the system has at least this capacity), pending the submittal of additional supporting information.

21739 -- We have not received flow measurements. Thus, I am recommending 2 cfs as a placeholder (it appears that the system has at least this capacity), pending the submittal of additional supporting information.

32514 -- The date of priority has been changed to 5/1/1935 based on the information that has been provided.

- Give a brief explanation as to why you disagree with these portions:

Point of Diversion: The Points of Diversion are incorrect in the Preliminary Recommendation.

Purpose and Period of Use: This water right is a right which was decreed in the name of the Pioneer Irrigation District by virtue of the "Stewart Decree," dated 1/18/1906 in the case of Farmers Co-Op Ditch Co. v. Riverside Irrigation District, et al. This remark was not contained in the Stewart Decree.

Place of Use: This water right is used within the service boundaries of the Pioneer Irrigation District, which total an amount of 34,204.61 irrigated acres, and should not be limited to the irrigation of 24,556 acres.

____ I AGREE with this proposed recommendation: no changes need to be made.

Re: Pioneer Irrigation District
MTBR&F File No. 18-946.6

Dear Dave:

We have received your correspondence dated February 21, 2006. In that correspondence you requested additional information regarding the priority date and historic use of certain of Pioneer's SRBA claims. Pioneer is currently in the process of gathering that information. However, given the extent of Pioneer's records and the information requested, Pioneer will be unable to meet the March 21 deadline set forth in your correspondence.

However, please rest assured that we are working to provide the requested information in as timely a manner as possible. If you have any questions, please do not hesitate to contact me.

Very truly yours,

Angela Schaer Kaufmann

**Re: Pioneer Irrigation District
Digital Boundary Map**
MTBR&F File No. 18-946.6

Dear Dave:

I wanted to follow up with you again regarding Pioneer's progress on its digital boundary map. As you may have noticed from a review of the map, there are several areas in which the lines are quite uneven and takes numerous turns. Pioneer has undertaken a detailed review of those areas in particular and has not only retained the services of its designated engineering firm to help with this matter, but is also reviewing enlarged maps of certain areas. In addition, in coordination with the engineering firm, Pioneer is staking and taking GPS measurements of the boundaries in certain areas in order that they will be as precise as possible.

Again, I want to ensure you that Pioneer continues to work on the digital boundary map and will deliver it to you as soon as it is completed.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

**Re: Pioneer Irrigation District
Digital Boundary Map**
MTBR&F File No. 18-946.6

Dear Dave:

I wanted to update you on the status of Pioneer's progress in reviewing the digital boundary map. Our review remains ongoing, because as you know, several areas of the map show "jogs" in the boundary line. Because we recognize the significance of this map, Pioneer wants to make sure that the map is accurate as it can possibly be. Therefore, there are certain areas of the map for which they are conducting a more in-depth investigation and field verification of the position of the boundary.

My client is working on finalizing the map and will get it to you as soon as they can. In the meantime, if you have any questions or concerns, please do not hesitate to contact me.

Very truly yours,

Re: Pioneer Irrigation District Water Right No. 63-00224

Dear Lori:

The purpose of this correspondence is to confirm our telephone conversation of October 26, 2000, concerning the above-referenced water right. If you recall, we discussed the discrepancies that this office discovered between the amended notice of claim that we filed on February 8, 2000, and the data entered copy that you provided in August of this year.

The discrepancies are as follows:

Description of diverting works: Our amended claim form reads, "Phyllis Canal diversion dam and headworks to Phyllis Canal and lateral ditches." The data entered copy reads, "headgate and lateral."

Total irrigated acres: Our form reads, "34,047.16." The data entered copy reads, "35,350.5."

Other water rights used at same place for same purpose: Our form reads, "63-0225 [and] 63-0371." The data entered copy reads, "[blank]."

It is my understanding that you will be correcting the above items, except for the number of irrigated acres, due to the fact that IDWR's total for the number of acres category is computer generated. If my understanding is incorrect, please notify me immediately.

RE: Snake River Basin Adjudication (SRBA)
Change in Notice of Appearance of Counsel on the Snake River
Basin Adjudication Claims for Owen Ranches, Pioneer
Irrigation District and Settlers' Irrigation District

Dear Scott:

Following your letter request to David Shaw of December 10, 1993, attached is an adjudication report denoting the claims filed by your clients referenced above that have been changed. We have also updated water right 57-00040 for Pioneer Irrigation as you requested.

Please note water rights claims showing Richard L. Owen as claimant were not changed in our database. You may wish to file another Notice to the court if you are representing Richard L. Owen as well as Owen Ranches, each of whom have filed claims as if they were unrelated parties.

Call me if you have questions.

Sincerely,

Donald V. Shaff

RE: Pioneer Irrigation District
Snake River Basin Adjudication Claims

Dear Don:

I have enclosed the adjudication claim for Water Right No. 63-0224 to be filed on behalf of the Pioneer Irrigation District in the Snake River Basin Adjudication. The claim includes four maps designated as Exhibits A, A(1), A(2), and A(3).

Additionally, I hereby tender a check in the amount of \$34,043.00 made payable to the Idaho Department of Water Resources from the Pioneer Irrigation District. This check represents the \$50.00 filing fee for the water right, together with the \$1.00 per acre charge for 33,992.41 acres of irrigated land.

Additional water right claims will be filed on behalf of the Pioneer Irrigation District before the March 15, 1990, filing deadline for Canyon County claims. I am submitting this claim at this point to take care of the \$1.00 per acre variable fee so that individual landowners within the District will not be forced to pay the \$1.00 per acre fee when they file supplemental water rights with the Department. Pursuant to a telephone conversation with Mr. David Shaw on February 12, 1990, this arrangement is acceptable to the Department.

RE: Pioneer Irrigation District Claims in the Snake River Basin
Adjudication

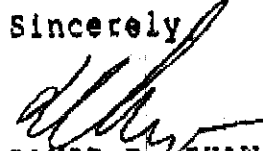

Dear Scott:

This letter is in response to your letter of December 14, 1989 regarding the designation of acreage for the above referenced claims.

Your letter is substantially correct, however, it does mention that the fee for the claim(s) will be based on the number of acres within the District rather than just the irrigated acres. Since the irrigated acreage per 40 acre tract is required for fee calculation purposes and that information will not be provided under your proposal, the fee will be based upon all acres within the District's service area. As indicated in your letter, the actual number of irrigated acres within the District will also be provided as part of the claim(s).

With this addition, I believe your letter does describe our understanding.

Sincerely,

DAVID B. SHAW
Adjudication Bureau Chief

Re: Pioneer Irrigation District Claims in the Snake River
Basin Adjudication

Dear Dave:

This will confirm our telephone conversation of December 14, 1989, regarding the above-referenced matter.

During that conversation, I inquired of you regarding necessity to identify the number of irrigated acres in each 40-acre tract lying within the Pioneer Irrigation District. After some discussion concerning the language of Rule 10,5,10 of the Adjudication rules and regulations of the Idaho Department of Water Resources, you concluded that water right adjudication claims will be accepted by the Department for filing for the Pioneer Irrigation District if the District identifies the number of acres within the District and the number of irrigated acres, but does not identify the number of irrigated acres within each 40-acre tract.

You did request that the District provide a map depicting the boundaries of the District. I agreed that would be provided with each claim.

Please notify me in writing within ten (10) days of this correspondence if the above description of my understanding is incorrect. If I do not receive a response from you within that time frame, I will proceed to prepare the Adjudication claims for the District on that basis.

Very truly yours,

ELAM, BURKE & BOYD
