① POINT OF
DIVERSION
SWSE NW
A neighbor
indicated that
this was the
discharge point
of a stream
which had been
tiled underground
by the irrigation
district.
Discharges
directly into
ditch.

② Ditch on
the north side
of Grape Lane.
Pond area is
to the east
(right in picture)
and has a
separate &
distinct outlet.
The pond outlet
also culverts
under Grape Lane
and empties into
the Lundy/Lundy/
Urquiza Drain.
Ditch is bermed
from the pond
area.

B. NAME AND ADDRESS OF PERSON OBJECTING

Name: Wilder Irrigation District
Address: 709 Cleveland Blvd
Caldwell, ID 83605
Daytime Phone: 208-459-3421

Name & Address of Attorney, if any:

Albert P. Barker
Barker Rosholt & Simpson, LLP
1010 W. Jefferson, Ste. 102, Boise ID 83702

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Randy D. Hetrick
Address: 14168 Plum Rd.
Caldwell, ID 83605

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☒ **Source**
Should be: The source should be described as waste waters, and waste waters belong to the Wilder Irrigation District. Wilder Irrigation District Delivery. Should be Lundy Drain.
3. ☐ **Quantity**
Should be: _____
4. ☐ **Priority Date**
Should be: _____
5. ☐ **Point of Diversion**
Should be: _____
6. ☐ **Instream Flow Beginning and Ending Point**
Should be: _____
7. ☐ **Purpose(s) of Use**
Should be: _____
8. ☐ **Period of Year**
Should be: _____
9. ☒ **Place of Use**
Should be: Land Subject to Wilder Irrigation Water Right
- 10 ☐ **I object because:**
☒ This water right Should not exist.
☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Wilder Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Wilder Irrigation District. The place of use is covered by an existing Wilder Irrigation District water right, which is the primary water right for the place of use. Claimant diverts from drain as delivery point for Wilder Irrigation District deliveries.

Comments:

Date: 01/17/1996 User-ID: MMINICUC Subject: SOURCE
THE SOURCE OF THIS WATER RIGHT WAS FOUND TO BE A SPRING. A
NEIGHBOR INDICATED DURING THE FIELD EXAM THAT IT WAS HIS
UNDERSTANDING THAT THIS SPRING WAS THE OUTLET OF AN UNNAMED
STREAM WHICH HAD BEEN PIPED UNDERGROUND FROM SOMEWHERE ON THE
EAST SIDE OF S. 22 BECAUSE IT MADE THE GROUND TOO SWAMPY TO FARM.
THE SPRING IS DITCHED DIRECTLY SOUTH; THIS DITCH IS SEPARATED
FROM THE ADJACENT POND BY A BERM. THE DITCH IS CULVERTED UNDER
GRAPE RD, THEN CONTINUES ON TO THE CLAIMANT'S PUMP INTAKE AT HIS
PROPERTY LINE. THE POND APPEARS TO BE SEPARATED FROM THE SPRING
AND DITCH BY THE BERM. THE POND'S OUTLET IS ALSO CULVERTED UNDER
GRAPE RD IN A SEPARATE CULVERT, AND EMPTIES INTO LINDY DRAIN (AKA
LUNDY DRAIN & URGUIAGA DRAIN), & IS NOT THE SOURCE OF THIS RT.

09/25/1995: Field exam 09/15 found spring which flows down channel, under Grape Lane and is ditched around hillside in NWSW(S.22) to claimant's land where his pump is located. Source appears to be an unnamed stream. 777
01/16/1996: After discussion w/ J. Shulte, decided that channel from spring is probably human caused. There is a beam between this channel and the pond. 777

SYSTEM DESCRIPTION: DESCRIBED BELOW (X), SEE LICENSE FILE (), OR SEE ATTACHMENT ()

Spring arises in TOWN. R04W, S22, SWSEW, close to the line with SE5WNW. The outflow is ditched southward + is culverted under Grape Lane. The ditch picks up again in the northwest corner of the NESW - from this point on the ditch is maintained. The ditch continues in a southealy direction on the east side of the hill, then turns westward toward the Hetchek property. This ditch is a separate and distinct channel from the drain to the east (Known as the Lundy/Lindy Drain, AKA Uguilaga Drain). When the water is not being used, a headgate in the NESW can be opened to turn the water into Lundy Drain. The channel goes into a cement headbox where there is a diversion to the claimant's pump. Baldor Industrial Motor, CAT. NO. WCL150QT, spec. 37E284X77, 7.5 H.P. Berkeley Centrifugal pump, serial no. 773536, Model B2TVM, 7.5 H.P. 3 inch outlet pipe runs underground to the south, then rises + splits to sprinkler handlines which run N-S on place of use.

Re: Claim No(s). A63-26847

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

RE: Notice of Claims to Water Rights

Randy D. Hetrick
14168 Plum Rd.
Caldwell, ID 83605

Dear Mr. Hetrick:

We are in receipt of the information you provided in regard to the date of first use of the water from Lindy Drain. We already had a copy of this information in both of your claim files. We received those copies on July 24, 1992.

Is it your intention to amend Claim A63-26847 to the earlier priority date, as shown on this information? If this is the case, we can prepare an amended Notice of Claim to Water Right A63-26847 which will change the priority date you previously claimed. The amended Notice of Claim will have to be signed in the presence of a notary public. If you would like to amend the claim, you can either come into our office and sign the claim, or we can mail it to you and you can return it with your notarized signature. We have several notary publics in our office that can assist you if you want to come in here.

I am returning your copies of Notice of Claim Nos. A63-26847 (Lindy Drain) and A63-26848 (groundwater). Please contact me at 334-2190 and let me know if your intention was to amend the priority date on Claim No. A63-26847. We cannot take any action to change this claim until we hear from you.

Sincerely,

KAY WALKER

Caldwell, Id

Dear Randy.

In our recent meeting with Kenny Henley, Project Manager, Board of Control, we discussed the water right for the parcel of ground that I sold to Haines, Jan. 3-1963 and then he sold to you in recent years. At the time I purchased this ground it had an existing irrigation ditch which was shared with Hauman. I had 10 acres more or less that we irrigated out of this ditch. The ditch was in very poor condition so we hired the District cat to come and pioneer a road way, approximately 25 ft wide and then built the ditch next to the hill, giving us a nice ditch with a good road way on the Back side. I then talked to Royce

MICROFILMED

AUG 01 1994

Van Curren who was Water Master of Basin
Project Board of Control, about filing on this
water that we picked up out of Lundy Drain
to water this parcel of ground that I sold
to Haines. He informed me that if I filed
on it he would have to oppose it, because
their Policy was any water arising in
the Project, belonged to the Project. This
land had water indicated and
this ditch would be the delivery point.
So I never pursued it any further
at that time. Lundy Drain heads in
the Property just North of Grape Road and
water from Lundy Drain has been used
on this Property that you now have for
many, many years before I purchased it and
ever since. Hoping this will be of help
to you. If there is any thing else I can

To whom it may concern;

I have spoke with Tom
Dorsey 459-2987. who is on
the board of Directors of the
Wilkes Irrigation District. He
has lived in the area all of this
life. He told me he could take
the origin of the delivery ditch
back to about 1946

Dear Randy.

In our recent meeting with Kenny Henley, Project Manager, Board of Control, we discussed the water right for the parcel of ground that I sold to Haines, Jan. 3 - 1963 and then he sold to you in recent years. At the time I purchased this ground it had an existing irrigation ditch which was shared with Hauman. I had 10 acres more or less that we irrigated out of this ditch. The ditch was in very poor condition so we hired the District cat to come and pioneer a road way, approximately 25 ft wide and then built the ditch next to the hill, giving us a nice ditch with a good road way on the Back side. I then talked to Royce

Van Curren who was Water Master of Boise
Project Board of Control, about filing on this
water that we picked up out of Lundy Drain
to water this parcel of ground that I sold
to Haines. He informed me that if I filed
on it he would have to oppose it, because
their Policy was any water arising in
the Project, belonged to the Project. This
land had water adjudicated and
this ditch would be the delivery point.
So I never pursued it any further
at that time. Lundy Drain heads in
the Property just North of Grape Road and
water from Lundy Drain has been used
on this Property that you now have for
many, many years before I purchased it and
ever since. Hoping this will be of help
to you. If there is any thing else I can
do let me know and I'll be happy
to assist
