For type of query, select all rights & water rights then click the where tab and enter township, range, section (and maybe 1/4 or 1/4 of section). Dear Mr. Symms:

We received the Evidence of Priority affidavits that you submitted in regard to the above referenced claims on November 3rd, 2006. If you will recall these claims were recommended for disallow because we had not received any Evidence documenting the claimed priority dates. The evidence of priority was submitted so closely to the time our recommendations were to be submitted to the SRBA Court that we did not change our preliminary recommendations and the claims remained as disallowed in our Director's report. Please be advised that if you wish to pursue obtaining decreed rights for these claims, you should file a Standard Form 1 – Objection – with the SRBA Court that will allow us time to conduct a field examination of the water uses and revise our recommendations before the court decrees the claims as disallowed. I have enclosed a Standard Form 1 for your convenience. This form can also be obtained over the internet at www.srba.state.id.us if you need additional forms.

I have enclosed computer-generated reports of each of the above referenced claims for your convenience. The evidence submitted only documents evidence of use since 1961 so the additional time allowed during objection period would also allow you to obtain additional information in regard to evidence of priority if you wish to submit additional evidence.

If you have any questions in regard to this matter, please feel free to contact me at 334-2190. I have recently changed positions within the Department and am now located at our Western Regional office at 2735 Airport Way in Boise.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

No lawful appropriation shown.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

No lawful appropriation shown: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is proposed to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is proposed to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.

Re: Claims to Water Right Nos. 63-28946 and 63-29739

Dear Claimants:

In February of 1990, you submitted the above referenced claims in the Snake River Basin Adjudication. Enclosed are computer generated print-outs of the claims for your reference only; these print-outs are **NOT** to be returned or re-filed. You have indicated, when these claims were filed, that the water rights were based on a "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-outs. These claims have not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, the priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize the water use under this right, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel.

The required evidence supporting the priority dates must be submitted by **May 26, 2006**, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, or the enclosed pamphlet, please feel free to call me at 287-4953.

Sincerely,

Kay Walker

Re: Claim No(s). A63-28946

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
