- Item #7 - The total quantity claimed was not completed. The use(s) claimed have been added together and this amount added to your claim.
- Item #9 - The number of homes was not listed on your claim. It appears to be filed for one domestic home and this information has been added to your claim.
- Item #10- The place of use appears to be incorrectly described, or not described at all. Based on other information submitted we have added in the quarter-quarter, section, township and range. If you had listed the Lot, Block and Subdivision name, we have enclosed a copy of the subdivision map from which we computed the quarter-quarter legal description. Or, if you have listed a quarter-quarter legal description under Item No. 4, we have listed this same quarter-quarter, section township and range on this item.
- Item #12- The ownership of the place of use has not been marked. We have assumed you own the place of use and this information has been added to your claim.
- Item #15- Basis of Claim was not completed. No previously recorded water rights were found, therefore, we have marked beneficial use of the water as the basis for filing this claim.
- ✓ Other The claim you submitted did not list a tributary. I inserted the Dixie Drain using our record of water right 63-03200 previously on file.

If you have any problems or questions concerning these additions and/or changes, please feel free to change the copy of your claim form(s) and return it to this office. The new changes can then be made and a computer generated copy showing these changes sent to you. If we do not hear from you, we will assume these changes meet with your approval and the claim(s) will remain as shown on the enclosed copies.

Sincerely,

Linda Werner
