An aerial photograph of a residential neighborhood, showing houses, streets, and green spaces. Overlaid on the image is large, bold, red text that reads "2004 NAPP" and "#63-5185". The text is oriented vertically, with "2004 NAPP" on the left and "#63-5185" on the right. The background shows a mix of green lawns, grey roofs, and paved roads. A prominent road runs vertically through the center of the image, with several houses and yards on either side. The overall scene is a typical suburban residential area.

This is a high-contrast, black and white aerial photograph of a coastal area, likely a beach or dune system. The image is heavily degraded with significant noise and artifacts. A prominent, bright, irregular shape is visible in the upper right quadrant, possibly representing a large building or a natural feature. The lower half of the image shows a grid-like pattern, likely a road network or a survey grid. The overall image is very dark and grainy, with many white specks and lines.

RE: Notice of Claim Nos. A63-05185 and A63-03101

Dear Water Users:

We are in receipt of the "Notice of Change in Water Right Ownership" form that you completed and returned to this office. However, we did not receive the supporting documentation to complete the ownership change process. We must have a copy of your deed, title policy, contract of sale or other legal document indicating your ownership of the property. It would also be helpful to have a copy of a plat of the property or an aerial photo with the irrigated acres outlined and point of diversion clearly marked. Since you only purchased a portion of the lands under the above claims we need a copy of your deed that describes which portion of the property you have purchased from Mr. Batt. We cannot process the ownership change form without the above documents. Please submit the above requested information within 2 weeks so we will have time to split these water rights before making our recommendations.

If you have any questions, or feel that you need assistance, please do not hesitate to contact me at 287-4953.

Sincerely,

RE: NOTICE OF CLAIM NOS: A63-05185 AND A63-03101

Dear Water Users:

We are currently preparing the above referenced Notice of Claims for the Director's Report in the Snake River Basin Adjudication (SRBA). Enclosed are copies for your convenience. Our research and field examiner indicate there has been a change in the ownership of these claims. IDWR records currently show the following name and address as the owner of the claims listed above:

Philip E. Batt
PO Box 428
Wilder, ID 83676

We need to complete the recommendations for these water rights before the end of July and would appreciate your submittal of a Notice of Change in Water Right Ownership form to us so we can prepare the recommendation in your names, as current owners of a portion of the property. Please note that there is no fee required for the ownership change if it is submitted while these claims are still pending in the SRBA.

If no response is received from you by June 2, 2006, all further legal notices concerning the claims will be sent to the name and address shown above. If you have claims other than those referenced here, please contact the Department so we may assist you in updating the information for all your claims. Should you have any questions, or feel that you need assistance, please feel free to contact me at 287-4953.

Sincerely,

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Philip E. Batt

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) July 1960

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Drew drain ditch tributary to Boise River by other diverse drain.

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-5185

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled, **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by **February 24, 2006**. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

Respectfully Submitted,

Kimberly Brown
