Common Systems Descriptions

The following is a list of legal descriptions for wells involved in two separate common water systems. The first common system is located at Simplot Feedlot #3 near Caldwell, Idaho. The primary function of this system is to provide stockwater for the feedlot #3, water for 4 domestics, and water to the offices.

The second common system is located at Simplot's food processing plant near Caldwell, Idaho. The primary function of this system is to provide industrial water to the food processing and waste recovery system.

Any one well from either system is considered an alternative point of diversion for any other well from either system.

1 = Indicates that well is in the Feedlot #3 common water system

2 = Indicates that well is in the Food processing common water system

Re: Canyon County Claims to Water Rights

Dear Vic:

I have finally had a chance to go through the claim files, previously assigned to Kimberly Brown, and find we need to have additional documentation in regard to these claims prior to conducting the field examinations.

We have not received any evidence of priority for the following claims: 63-21537 (stock water & commercial uses), 63-21541, 63-21557, 63-21559, 63-21561, 63-21598 (all stock water claims) and 63-22210 (expansion of Rt. 63-2291 from Bardsley Gulch). We need some type of documentation of the date of priority for these claims in order to change the recommendations that were previously made.

We also need to have some documentation showing when the rights utilizing the 14 wells and 14 pumps were integrated into one system. Claims 63-2731, 63-3107, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-7244, 63-7678, 63-10034, 63-21537, 63-21538, 63-21539, 63-21540, 63-21541, and 63-21595 are the rights I find under the claimed combined system. Information in our files does not indicate when the wells were incorporated into one system and until we receive some documentation to show that they were integrated before November 19, 1987, we will not be able to recommend the water rights as claimed. The recommendations will reflect the rights as previously recorded unless we receive this information.

It is also noticed that our Department has previously requested completion of "Industrial Use Volume" questionnaires for the rights that include industrial and/or commercial uses. Please note that a portion of Adjudication Memo No. 34 states:

1. Ground water rights

All rights recommended with a source of ground water are to include annual diversion volume, except for ground water rights or portions of ground water rights used solely for:

- a. small D&S purposes as defined by Idaho Code §§ 42-111 or 42-1401A (5) and (12), in which a diversion volume has not been previously determined.
- b. municipal purposes,
- c. fire protection purposes.

2. Other rights

All other rights to be recommended based on a license or decree that stated an annual diversion volume limitation are to include annual diversion volume.

We would certainly appreciate any information you can supply that would assist us in determining the volumes to be attached to the rights that are being used for industrial and/or commercial uses. If you need to have the questionnaire form sent to you again, please do not hesitate to contact me. If no information is received we will base the volume amounts on what we determine is necessary for the claimed uses.

Please submit all the requested information on or before **September 28, 2007**. Once we receive the information we will need to conduct field examinations and the SRBA Court has indicated they would like the field inspections done this fall so we can submit revised recommendations on the rights that have been objected to. If you have any questions concerning this letter, or if you need additional time to submit the requested information, please do not hesitate to contact me at 334-2190.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Conditions of Approval:Remarks:Comments:

If the actual PD is the same as the claimed PD, but is not the same as the PD shown on the decree or license (as amended by any approved transfers), then proceed with the analysis in Part 3 below.

If the actual PD is different than both the claimed PD and the PD shown on the decree or license (as amended by any approved transfers), then proceed with the analysis in Part 3 below, but treat the actual PD as the claimed PD. An amended claim will not be required if the claim is to be recommended with the actual PD.

3. Date of change

Claimant contact

(*) info. requested 6/6/06 + due 6/21/06
(see file)

The claimant should be notified that the claimant must submit the date of the change and some evidence tending to support that date; otherwise the use of water from the new PD will not be recommended due to lack of evidence of a change without injury or a new appropriation not in violation of the mandatory permit statute. (If the change occurred after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after that date.)

If the evidence does not support any finding as to the date of the change, and the PD of the entire right was changed, then the claim should be recommended for disallowal, and should include the following remark: "CHANGE IN USE, INSUFFICIENT EVIDENCE OF DATE OF CHANGE." (P05 and condition P05)

If the evidence does not support any finding as to the date of the change, and the PD of a portion of the right was changed, then the portion of the right still used at the original PD should be verified and only that portion should be recommended. The claim should include the following condition: "CHANGE IN USE OF PORTION OF RIGHT; RIGHT LIMITED TO UNCHANGED PORTION DUE TO INSUFFICIENT EVIDENCE OF DATE OF CHANGE." (C07)

If the evidence supports a finding that the change occurred after November 19, 1987, then the PD shown on the license or decree should be recommended.

If the evidence supports a finding that the change occurred prior to November 19, 1982, then the claimed PD should be recommended, and the claim should include the following remark: "RIGHT INCLUDES ACCOMPLISHED CHANGE IN POINT OF DIVERSION PURSUANT TO IDAHO CODE 42-1416A." (C03)

NOTE: As to change in PD more than five years prior to commencement: First, if it is apparent from information already available to IDWR that the change resulted in substantial injury, then the claim should be referred for

with the result that a change in use analysis is not generally required where a new point of diversion within the same tract is substituted for the old point of diversion. However, "point of diversion" will still be defined in the director's report as the point at which water is diverted from the stream (or other source), because there could be instances in which there is in fact injury to a junior appropriator from a change in PD within the same tract. A change within a tract should be treated as a change for purposes of recommending the claim if injury is apparent from information already available to IDWR. Otherwise, further investigation of injury from a change within a tract will be made only if the issue is raised by an objection to the recommendation of the right.

As the administrator's memorandum implies, an additional PD may be considered a change in use in some circumstances, and should not automatically be considered an expansion. Generally, a partial change in PD results where the claimant established a new PD for a portion of a water right previously appropriated. In such cases, the partial change in PD should be reviewed the same as any other change in PD.

B. CLAIM BASED ON DECREE OR LICENSE

If the claimed PD is the same as shown on the decree or license (as amended by any approved transfers), then no further review of this item is required.

1. PD not stated in decree

The point of diversion is an essential element of a water right. The failure of a decree to include the PD in the listing of rights is an ambiguity in the decree. (See Intro Part J as to res judicata/ambiguity.) In other words, when the decree determined the water right, it necessarily determined the PD as of the same time as the rest of the elements of the water right; the decree just failed to describe it. The relevant question at this point is how to resolve the ambiguity. For purposes of preparing the director's report, it will be assumed that the current PD is the decreed PD, unless there is reason to believe that there has been a change in PD. The PD of a claim based on a decree that does not state the PD should therefore be analyzed the same as the PD of a claim based on beneficial use (but the basis of the claim should not be changed).

2. Verify actual PD

If the actual PD is the same as the PD shown on the decree or license (as amended by any approved transfers), then the actual PD should be recommended, and no further review of this item is required.

WATER RIGHT LICENSE

THIS IS TO CERTIFY, that SIMPLIT FEED LOTS, INC.

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Stockwater	from January 1 to December 31	at 0.40 cfs and	134 acre feet

SIMPLOT TRANSFER APPLICATION 68320
NOT VALID – DISREGARD

March 23, 2006

Database showed this application received 5/19/1995. A receipt for this application was not found (receipt for Simplot was issued 5/18/1995 for a drilling permit application, W019190, see next paragraph). The transfer application cannot be found at Western or State Office, nor can any additional hints be located in the database (Steve L. & Pam S.). Vic Conrad of Simplot confirmed that the transfer was drafted but never filed.

For undetermined reasons, the application showed up in the database as an active filing during 2006 research (dept. help for owner during crisis?). This appears to be linked to a well failure crisis at the Simplot feedlot and production plant in Caldwell in 1995 while owner sought relief for a replacement well in a tract other than one covered by an existing right. Draft transfer was to seek approval for a new P/D location. But the business unexpectedly shut down due to unforeseen economic conditions, according to Vic Conrad. The replacement well was drilled but never used and has remained unused.

Meanwhile, Simplot filed ***SRBA claims for accomplished transfers*** of existing rights in which all the wells for the site were shown to be alternate P/D for all the rights (aka “permissible p/d” filings, not uncommon to see this). The replacement well drilled in 1995 was properly excluded from this adjudication work. Simplot will file a transfer in the future if the replacement well will be used. Based on this summary obtained by 3/22/2006 research and confirmed by Vic Conrad, Transfer Application 68320 was terminated in the database today (coded as “withdrawn/returned” as best fit for actual status).

Subject: RE: Transfer application for Simplot Plant in Caldwell

Steve,

I found the project file when we drafted a transfer to replace a point of diversion (a well) that failed in this water supply system. After drafting the transfer we discovered there was adequate water to supply our needs without the new point of diversion. Consequently **the transfer application was never filed**. Please delete the electronic record indicating there is a pending transfer application involving these water rights (since there isn't one). At some point in the future we may want to file a new transfer application to add this new point of diversion to the system – and we may find some other details that we will need to rectify when Kimberly investigates this water supply system in connection with her SRBA review of our claims. Should that need arise, it will require a *new* transfer application. I do not see any reason to keep the reference to the old transfer we were contemplating in your system.

Subject: Transfer application for Simplot Plant in Caldwell

Vic:

Attached is the summary sheet for what we both thought was a "ghost transfer application" -- not really filed or needed since covered by SRBA claims for pre-November 1987 water uses. Please let me know if that conclusion matches your records.

IDWR should be able to clean up its records if we are correct in our hunch.

Thanks for your help with this.

To: Lester, Steve
Subject: Mystery Transfer 4615/68320

Hi Steve.

This transfer doesn't appear to have ever reached the state office per the bar code on these records, so I think you are probably correct that it was one that was data entered (received on 05-19-1995 per workflow) & perhaps withdrawn or returned. There was an adjusted receipt on 05-18-1995 for Simplot in the amount of \$200 DP fee that might have originally accompanied a transfer application.

Anyway.....when you resolve the mystery....if it is still an "Active" application, we will of course continue processing, but if it was withdrawn/returned could you please be sure to "Terminate" the transfer in the database with the appropriate status & an explanation comment. That way we won't have to revisit this one at a later date.

Thanks,
Pam

RE: Snake River Basin Adjudication (SRBA)
Co-counsel for J. R. Simplot Company

Dear Ms. Pepe:

Our records were modified May 19, 1994, to reflect Terry Uhling and Gray Young as co-counsel for J. R. Simplot Company. Bruce Belzer was removed from the water right claim records on which he appeared as counsel.

Thank you for your assistance. If you have any questions, please contact me.

Sincerely,

RE: Snake River Basin Adjudication
Case No. 39576 and Subcase Nos. 36-13320 & 57-02203A

Dear Mr. Shaff:

In response to your letter of March 24, 1994, please modify your records to reflect that Terry T. Uhling and Gray Young are co-counsel of record in the above referenced matter. Mr. Uhling and Mr. Young are in-house counsel for J. R. Simplot Company, and, therefore, would be apprised of all matters relating to the claims of Simplot and its related company subsidiaries and affiliates as a matter of course. The attached Exhibit A does represent all water rights we are aware of at this time to which the Notice applies.

For your information, I have also enclosed a copy of a letter and attached Notice of Withdrawal from Diana Delaney, Chief Deputy Clerk of the Snake River Basin Adjudication Clerk's Office, which indicates that Bruce Belzer never was recorded as being counsel for J. R. Simplot Company.

If you have any questions, feel free to call me at 389-7201.

Sincerely,

Holly Pepe

RE: Appearance of J. R. Simplot in Subcase Nos. 36-13320 and 57-02203A

Dear Mr. Young and Mr. Uhling:

Enclosed I am returning your *Notice of Withdrawal of Counsel* which was received by the court on April 5, 1994, and which stated that Bruce L. Belzer was withdrawing as counsel for J. R. Simplot Company in the above-referenced subcases.

After a search of the files for the above subcase, I am unable to locate any appearance by Bruce L. Belzer. However, on January 28, 1994, a *Notice and Entry of Appearance* was filed on behalf of J. R. Simplot in these subcases. That notice listed Gray Young and Terry Uhling as counsel for J. R. Simplot.

Sincerely,

A handwritten signature in cursive script, reading "Diana R. Delaney".
Diana R. Delaney
Chief Deputy Clerk
