Pursuant to United States of America v. Pioneer Irrigation Dist., et al, In Re SRBA Case No. 39576 (Subcase 91-63), Idaho Supreme Court Opinion No. 31790 (March 2007), the following remark should be included on the decree:

The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho constitutional and statutory law title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the boundaries of the districts listed in the place of use remark for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

11. ☐ **I object because:**
- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

Period of year could be construed to provide that these storage rights are subordinated to storage in upstream reservoirs and Lake Lowell, when this right is prior to upstream storage rights and is used for storage in Lake Lowell.

Upon appeal, United States of America v. Pioneer Irrigation Dist., et al., was remanded to the SRBA District Court to substitute the remark set forth in #10 above, for that adopted by the SRBA Court. (This remark is slightly modified from the remark used for the storage rights in the Idaho Supreme Court decision.)

8. The time required for the completion of the construction of such work is five years.

9. Time required for the complete application of the water to the proposed use is four additional years.

BE IT KNOWN, That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

United States of America,

Applicant.

By George H. Bliss...Agent.
Acting Project Engineer U.S. Rec. Service

REMARKS. Under certain contracts between the United States and the Nampa-Meridian Irrigation District, water is to be turned from the Main South Side Government Canal into Five Mile Creek and again diverted from said creek by means of the canal herein described and dropped into the canals of the Nampa-Meridian District for the irrigation of the lands in the district which are under contract with the government. In addition to the water turned in by the United States, there is some water flowing in Five Mile Creek at certain seasons from natural causes and from seepage which it is intended to appropriate under this application, and to use the same together with other water furnished by the Government in the irrigation of the irrigable lands in the Nampa-Meridian Irrigation District.

Instructions To Examiners

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own rights in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

NOTE:
Lands below Riverside Canal and north of
Irrigation Districts are outside of the Project.
