✓ Has main maps with boundaries

A63-02275 Pln $\approx$ 34,000 acres but does not totally agree with maps in A63-00224 (for example - lots of Caldwell is left out of d'base in A63-02275).

Need something in d'base to let people know that land list is subject to change.

Add remarks ?

Pln list is subject to change per review. See A63-00224 for complete boundaries of irrig district as shown on 3 maps.

Can S.O. do this to simplify database updating?

Thanks,

JL

Re: Pioneer Irrigation District / Water Right Nos. 63-5219 and 63-21714
MTBR&F File No. 18-946.6

Dear Dave:

In response to your correspondence dated February 21, 2006, wherein you request additional information regarding the priority date and historic use of several of Pioneer Irrigation District's water rights, I am enclosing documentation sufficient to establish the priority dates of water right nos. 63-5219 and 63-21714, as follows:

63-5219

Pioneer asserts a priority date of May 1, 1961 for this water right. Enclosed is an electric service agreement between Pioneer and Idaho Power, dated August 1, 1961, for Pioneer's pump in Indian Creek. The agreement identifies a "point of delivery of power . . . where the Company's wires or apparatus are connected with those of the Customer" which matches the existing point of diversion (township, range & section) as claimed.

63-21714

Pioneer asserts a priority date of October 3, 1963 for this water right. Enclosed please find a well driller's log showing a well completion date of March 29, 1963. Also enclosed is a copy of a letter from Pioneer's Secretary/Treasurer, Naida Kelleher, wherein Ms. Kelleher indicates that she has paid the power bill on an annual basis continuously since 1987.

Please note that as previously indicated, we are in the process of reviewing Pioneer's historical documentation and will respond to your request for proof establishing the priority dates of

Re: Evidence of Priority Date

Dear Claimants:

RESPONSE DEADLINE
MARCH 21, 2006

The Notices of Claim to a Water Right (claim) identified with the numbers shown above your name have been filed in the Snake River Basin Adjudication (SRBA). The claims indicate your water usage is based on "Beneficial Use." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. Since the priority date and historic use of a beneficial use right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of the irrigation district's claims and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: IDWR will recommend the SRBA Court decree the claim disallowed if no evidence of the priority date and of the historic use is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.

As stated in the general plan on page 1, the water supply is to be obtained by constructing a system of drainage canals to collect the water from the over-wet lands, and use it for increasing the supply during July and August when the supply from the Boise River is the lowest. A report on the analysis of two samples of water taken from Mason Creek and Willow Slough, the two principal sources of supply, does not show the presence of sodium carbonate or black alkali to an appreciable extent, not more than would be desired to keep the soil slightly alkali for the thrifty growth of crops.

Quantity.

From measurements of the surface flow in the different streams which traverse the district, and from reports of the underground flow in other localities similar to this, the amount of water available is shown by the following table:

High Line Canal.

Supply canal No. 1, from 10 mile T Lemp Slough,	4.5	sec. ft.

Phyllis Canal.

Supply canal from 5 mile already constructed,	4.0	" "
Indian Creek at Nampa,	12.0	" "

By rotating the water supply of the Boise River during the low stage between the High Line and Phyllis Canals, and combining it with the drainage water from the different sources, a supply can be obtained sufficient for all needs during the low water period.

RE: Snake River Basin Adjudication (SRBA)
Change in Notice of Appearance of Counsel on the Snake River
Basin Adjudication Claims for Owen Ranches, Pioneer
Irrigation District and Settlers' Irrigation District

Dear Scott:

Following your letter request to David Shaw of December 10, 1993, attached is an adjudication report denoting the claims filed by your clients referenced above that have been changed. We have also updated water right 57-00040 for Pioneer Irrigation as you requested.

Please note water rights claims showing Richard L. Owen as claimant were not changed in our database. You may wish to file another Notice to the court if you are representing Richard L. Owen as well as Owen Ranches, each of whom have filed claims as if they were unrelated parties.

Call me if you have questions.

Sincerely,

Donald V. Shaff
