Subject: Evidence of Priority for Simplot claims in Canyon County

Mr. Conrad,

In March 2006, I sent letters requesting evidence of priority for Claim Nos: **63-4597, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-21537, 63-21541, 63-21557, 63-21559, 63-21561, 63-21598, 63-21734, & 63-22210** (please refer to the first attached document for an example of this letter.) In addition, a Commercial/Industrial Use Volume questionnaire was also included for those claims that include commercial and/or industrial uses (example attached).

As you can see, the due date for evidence for many of these claims was **April 19, 2006**. As of this date, I have not received any completed volume questionnaires or evidence of the claimed priority dates from your company. Since our department is under a very tight schedule in the recommendation of Canyon County water right claims and all of your claims listed above will require a field investigation, I request that all of the required information associated with these claims be submitted by **Friday, June 9, 2006**.

Please contact me at #334-2190 if you have any questions.

Respectfully Submitted,

Kimberly Brown

Re: Canyon County Claims to Water Rights

Dear Vic:

I have finally had a chance to go through the claim files, previously assigned to Kimberly Brown, and find we need to have additional documentation in regard to these claims prior to conducting the field examinations.

We have not received any evidence of priority for the following claims: 63-21537 (stock water & commercial uses), 63-21541, 63-21557, 63-21559, 63-21561, 63-21598 (all stock water claims) and 63-22210 (expansion of Rt. 63-2291 from Bardsley Gulch). We need some type of documentation of the date of priority for these claims in order to change the recommendations that were previously made.

We also need to have some documentation showing when the rights utilizing the 14 wells and 14 pumps were integrated into one system. Claims 63-2731, 63-3107, 63-4968, 63-5036, 63-5037, 63-5038, 63-5039, 63-7244, 63-7678, 63-10034, 63-21537, 63-21538, 63-21539, 63-21540, 63-21541, and 63-21595 are the rights I find under the claimed combined system. Information in our files does not indicate when the wells were incorporated into one system and until we receive some documentation to show that they were integrated before November 19, 1987, we will not be able to recommend the water rights as claimed. The recommendations will reflect the rights as previously recorded unless we receive this information.

It is also noticed that our Department has previously requested completion of "Industrial Use Volume" questionnaires for the rights that include industrial and/or commercial uses. Please note that a portion of Adjudication Memo No. 34 states:

1. Ground water rights

All rights recommended with a source of ground water are to include annual diversion volume, except for ground water rights or portions of ground water rights used solely for:

- a. small D&S purposes as defined by Idaho Code §§ 42-111 or 42-1401A (5) and (12), in which a diversion volume has not been previously determined.
- b. municipal purposes,
- c. fire protection purposes.

2. Other rights

All other rights to be recommended based on a license or decree that stated an annual diversion volume limitation are to include annual diversion volume.

We would certainly appreciate any information you can supply that would assist us in determining the volumes to be attached to the rights that are being used for industrial and/or commercial uses. If you need to have the questionnaire form sent to you again, please do not hesitate to contact me. If no information is received we will base the volume amounts on what we determine is necessary for the claimed uses.

Please submit all the requested information on or before **September 28, 2007**. Once we receive the information we will need to conduct field examinations and the SRBA Court has indicated they would like the field inspections done this fall so we can submit revised recommendations on the rights that have been objected to. If you have any questions concerning this letter, or if you need additional time to submit the requested information, please do not hesitate to contact me at 334-2190.

Is it too late to add another file to the case management report to hold partial decree listing? I found that Simplots have a licensed right that overlaps the point of diversion for a b/u claim that has been objected to. The claim that is objected to is: 63-22210 and the licensed right with the same point of diversion is 63-2291. Also, the b/u claim is supposed to be an expansion of 63-2291 but we have not received any evidence to document the use under 63-22210. I hope I have not caused problems with all of this stuff!! Sorry. Kay

REASONS SUPPORTING OBJECTION(S):

Information was supplied to the IDWR in connection with their request for evidence of priority

for the claim to water use submitted in the SRBA. Said information was supplied by the claimant to IDWR after the IDWR completed its 2006 field work season. Because of the accelerated schedule for submitting its Director's Report for the geographic scope covering this reporting area, IDWR advised Simplot that it did not have time to schedule an examination to verify the water uses claimed before the Director's reporting deadline.

The IDWR has informed the claimant that, based on information submitted, an examination of the claimant's water systems will be scheduled to confirm the uses claimed. The claimant looks forward to cooperating with the IDWR in providing access to the diversion system and places of use and will also assist the IDWR in supplying any available additional information that may be necessary for the recommendation of this water right.

Re: SRBA Basin 63; Part 3.

Dear Ms. Brown:

Enclosed for filing are notices of error for the preliminary recommendations issued by the IDWR to each of the following claims:

Claim Number	Comments
63-4597	This land to which this claim is appurtenant is no longer owned by the J. R. Simplot Company ("Simplot"). Simplot is filing this notice to correct the name and address so further correspondence can be forwarded to the current owner.
63-4968	Well #2
63-5036	Well #1
63-5037	Well #6
63-5038	Hog House Well
63-5039	Well #3
63-21537	Hospital Well
63-21541	Artesian 500 Well
63-21557	Hog Pen Well
63-21559	Amustegie Well
63-21561	Moppen Well
63-21598	Martin Silo Well
63-21734	Land that receives process water from Food Processing Plant
63-22210	Additional land that was irrigated from Bardsley Gulch after the licensing exam was conducted for water right no. 63-2291.

In addition to the above claims, we will soon file additional claims for certain areas that are irrigated from sources located south of Simplot's food processing plant near Caldwell, Idaho. Evidently these irrigated areas were not claimed during the original claims taking procedure. We have numerous photographs that will assist in verifying dates when this land was irrigated. In addition we recently ordered several photos from

the USDA Aerial Photography Field Office ("APFO") in Salt Lake City, Utah taken during 1955, 1957, 1964, 1969 and 1977. If you can be available, I recommend we schedule a time when we can review the photos we have available at this time. During this meeting you can then instruct me which (if any) you would like me to copy for your records. We will then supplement these photos with the images from the APFO when they arrive.

Sincerely,

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

The water right holder disagrees with the IDWR's disallowal of the water right.

2. Describe the changes you wish to make in the proposed recommendation:

Please see the response to no. 3 below.

3. Give a brief explanation as to why you disagree with these portions:

To the best of our knowledge, we believe the use claimed under this water right is valid describing additional land that became irrigated after the license was perfected for 63-2291. We are in the midst of an investigation to confirm that the priority date claimed is the date the additional land was first irrigated.

Subject: Commercial/Industrial Use Volume for Simplot Canyon County claims

Mr. Conrad,

When I spoke with you over the telephone on June 6, 2006 regarding my request for evidence of priority and industrial and commercial use volumes for several of Simplot's Canyon County claims, you said that you believed there are no restrictions on volume or consumption, provided the diversion rate does not go beyond what is licensed. I replied that I was not aware of any such policy and that I would speak to my supervisor, Jan Shurte, regarding your assumption.

I met with my supervisor on June 12, 2006 and addressed this issue. Mrs. Shurte is not familiar with any such policy, either. Nevertheless, Mrs. Shurte and I checked several Adjudication and Administrative Memorandums and could find nothing that was applicable.

Therefore, the volume amounts for commercial and industrial uses that I requested from Simplot are required for both beneficial use and licensed claims. Mrs. Shurte suggested that you may want to refer to Idaho Codes 42-1427(2) and 42-1409(i) or speak to Dave Tuthill if you have any further questions regarding this matter.

In addition, I would like to reiterate that our department is under a very tight schedule in the recommendation of Canyon County water right claims, that several of your beneficial use claims will require a field investigation (which is initiated after we receive evidence of priority), and that all of this required information had initially been requested to be submitted by Simplot on April 19, 2006. When nothing had been received by our department on April 19th, another request was made for June 9, 2006. As of this date, nothing has been received. I ask that you provide evidence of priority and the required commercial and/or industrial use volumes as soon as possible.

Respectfully Submitted,

CONVERSATION MEMORANDUM

**RE: Evidence of Priority and Commercial/Industrial Use Volume Requests
for Simplot's Canyon County Claims**

June 6, 2006

Vic Conrad, Water Rights Attorney for the J. R. Simplot Company, called in response to my most recent request for evidence of priority and commercial/industrial use volume requests for all of their applicable claims that I have in Canyon County (see previous e-mails and letters for specific claim numbers).

Regarding the evidence of priority that I have requested several times, Mr. Conrad said that he has been "bogged-down" with evidence of priority requests for Caribou County, which are due on June 16th, 2006. I reminded Mr. Conrad that the Canyon County requested information was due on April 19th, 2006 and when nothing was received, that the due date was extended to June 9th. I also mentioned that our department is under a very tight schedule in the recommendation of Canyon County water right claims and that several of Simplot's beneficial use claims will require a field investigation; which is normally initiated only after we receive evidence of priority.

Regarding the request for industrial/commercial use volumes for licensed rights, Mr. Conrad said that he believed there are no restrictions on volume or consumption; provided the diversion rate does not go beyond what is licensed. Mr. Conrad said that he believed that this policy originated with a department memorandum or a policy memorandum written by Norm Young. I replied that I was not familiar with any such policy, but that I would speak with my supervisor, Jan Shurte, regarding this assumption and get back to him within the next few days.

Subject: Evidence of Priority for Simplot claims in Canyon County

Mr. Conrad,

In March 2006, I sent letters requesting evidence of priority for Claim Nos: **63-4597, 63-4988, 63-5036, 63-5037, 63-5038, 63-5039, 63-21537, 63-21541, 63-21557, 63-21559, 63-21561, 63-21598, 63-21734, & 63-22110** (please refer to the first attached document for an example of this letter.) In addition, a Commercial/Industrial Use Volume questionnaire was also included for those claims that include commercial and/or industrial uses (example attached).

As you can see, the due date for evidence for many of these claims was **April 19, 2006**. As of this date, I have not received any completed volume questionnaires or evidence of the claimed priority dates from your company. Since our department is under a very tight schedule in the recommendation of Canyon County water right claims and all of your claims listed above will require a field investigation, I request that all of the required information associated with these claims be submitted by **Friday, June 9, 2006**.

Please contact me at #334-2190 if you have any questions.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): 63-21541, 63-21557, 63-21559, 63-21561, 63-21598, 63-21734, and 63-22210

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time *limit below*, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 19, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents

Co-counsel for J. R. Simplot Company

Dear Ms. Pepe:

Our records were modified May 19, 1994, to reflect Terry Uhling and Gray Young as co-counsel for J. R. Simplot Company. Bruce Belzer was removed from the water right claim records on which he appeared as counsel.

Thank you for your assistance. If you have any questions, please contact me.

RE: Snake River Basin Adjudication
Case No. 39576 and Subcase Nos. 36-13320 & 57-02203A

Dear Mr. Shaff:

In response to your letter of March 24, 1994, please modify your records to reflect that Terry T. Uhling and Gray Young are co-counsel of record in the above referenced matter. Mr. Uhling and Mr. Young are in-house counsel for J. R. Simplot Company, and, therefore, would be apprised of all matters relating to the claims of Simplot and its related company subsidiaries and affiliates as a matter of course. The attached Exhibit A does represent all water rights we are aware of at this time to which the Notice applies.

For your information, I have also enclosed a copy of a letter and attached Notice of Withdrawal from Diana Delaney, Chief Deputy Clerk of the Snake River Basin Adjudication Clerk's Office, which indicates that Bruce Belzer never was recorded as being counsel for J. R. Simplot Company.

If you have any questions, feel free to call me at 389-7201.

RE: Appearance of J. R. Simplot in Subcase Nos. 36-13320 and 57-02203A

Dear Mr. Young and Mr. Uhling:

Enclosed I am returning your *Notice of Withdrawal of Counsel* which was received by the court on April 5, 1994, and which stated that Bruce L. Belzer was withdrawing as counsel for J. R. Simplot Company in the above-referenced subcases.

After a search of the files for the above subcase, I am unable to locate any appearance by Bruce L. Belzer. However, on January 28, 1994, a *Notice and Entry of Appearance* was filed on behalf of J. R. Simplot in these subcases. That notice listed Gray Young and Terry Uhling as counsel for J. R. Simplot.

Sincerely,
