REMARKS: The land described above is located within the Black Canyon Irrigation District and the construction contemplated hereunder is covered by contract between said Irrigation District and the Secretary of the Interior dated January 2, 1918.

The applicant claims that a large part of the water supply filed on under this application is water from Deer Flat Reservoir which seeps under the upper embankment of said reservoir and is recovered in the drains constructed for that purpose by the United States below said embankment and is claimed by the United States as stored water from said reservoir, and a part is water developed in the drainage system constructed by the United States. The United States does not abandon or relinquish any rights which it now has to said waters, but expressly declares its intention to retain and assert said rights and use said waters.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion, and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.
