C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

- a. Amount of water to be diverted 57.56 c.f.s. &/or \_\_\_\_\_ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

3. Change in place of use no change

- a. Are there liens, mortgages, or contracts on the lands from which you propose to transfer the water right which limit your authority to make the proposed change? Yes \_\_\_\_\_ No x If yes, provide a statement agreeing to the proposed change from the holder of the lien, mortgage or contract.
- b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer

El don:

These are the acres I have taken from  
The Reynolds Creek Green Book That are also  
irrigated by Reynolds Irrigation District.

I have trouble with section 1 183W  
right # 57-0006 as there are 2 SWNE  
of 17 and 28 acres which equal more than  
40 acres. Also there are other overlapping  
descriptions for other rights in this same  
section. All These grounds are all irrigated  
by Reynolds Irrigation Dist.

The rest of the rights in the other  
sections are alright as far as I know.

When we first met in January, I  
said Reynolds Irrigation would pay the one  
dollar per acre for all irrigated grounds in its  
boundaries. But some of the individual members  
of the district with creek rights have paid  
and some haven't...

If you have any more questions please  
call, preferably before 8:00 in the mornings,  
or leave a message and I'll call you back.

Dear Sir or Madam:

The Idaho Department of Water Resources (IDWR) is in the process of reviewing the claims of water right from the Boise River in the Snake River Basin Adjudication (SRBA). Your organization currently has a claim with the source of the Boise River in the SRBA. Water rights are established and maintained by beneficial use of water for the uses designated on the claim form dating back to the priority date listed.

Recently, we have not received input from your organization regarding the company service area and acres irrigated. Without further input, IDWR will use the information provided in the claim and other sources of information to derive a service area and irrigated acres as proof of beneficial use to include in the Preliminary Director's Report. Your organization will have the opportunity to submit corrections to the Preliminary Director's Report during the Notice of Error period but IDWR would like to further extend to you the opportunity to make corrections at this time.

Your organization had the opportunity to obtain preliminary maps of the derived service area and irrigated acres on January 13, 2004 and July 20, 2005. Please call or write me at the address below if you need additional maps, if the map needs to be expanded to include areas not shown but served by your organization, or to schedule an appointment to review your maps and claims. Any additional information regarding your claims must be received as soon as possible to limit errors in the Preliminary Director's Report.

Please note that a Claim to a Water Right is not a determination of your water right. The claim(s) referred to in this letter have not been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified, and recommended to the SRBA Court for court decree sometime in the near future.

Thank you for your time.

Sincerely,

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information

a. Amount of water to be diverted 57.56 c.f.s. &/or \_\_\_\_\_ acre feet

Description of diverting works:

Headgates and ditches will still divert and carry well, drain ditch and Warm Springs Creek water, but will dump this water into the Snake River on the Canyon County side. The District will then use it's Snake River pumping plant located on the Owyhee County side to divert a like amount of water into it's irrigation system.

Describe the reasons for the proposed changes:

By dumping water and pumping, the District will eliminate a pipeline across the Snake River and thus reduce maintenance costs. The pipeline has a capacity of approximately 34 cfs; the Snake River pumping plant will also pump only the 34 cfs that could be delivered by the pipeline.

2. Change in point of diversion

Here is The revised map of Reynolds Irrigation District. The Black line indicates current Boundrys according To The District Roll Book. I believe Those lands That are outside The District were Reported To IDWR by memory + not fact.

There are no lands in sec 1 153W. Only lots 7, 11, + 8 in sec 6 152W are in District. Only SE SW Lot # ? in sec 17 is included in District. And in sec 20 152W Lot # ? (NW NE) and Lot # ? (SW NE) are still in District, but water Transferred to other lands within District. I can't find a legal for That parcel North of Highway 78 in NW NE sec 29 152W. Some of Those Parcels were excluded from District in 1940's. Then ~~They~~ <sup>Some</sup> were petitioned in again in 1970's. We have Tried to get Patrons To petition lands irrigated by RID outside District into District. Maybe a threat of loss of water will encourage Them.

**E. REASONS SUPPORTING OBJECTIONS(S):** There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Boise-Kuna Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Boise-Kuna Irrigation District. The place of use is covered by an existing Boise-Kuna Irrigation District water right, which is the primary water right for the place of use. Claimant is also unlawfully attempting to transfer waters belonging to the Boise-Kuna Irrigation District to lands outside of the District.
