The primary water usage is for a gold processing mill constructed prior to 1934 by my father and grandfather. The mill is located on mining claims annually filed on by my father then later by me since before 1934. The mill is currently operable and maintained by me. It has been continuously available for use since 1934. Pictures showing the mill construction in 1932 are on file with the State Historical Society. The mill machinery pre dates 1930 and was installed in 1932. This water right and claim has been used in 1934 and continuously since that date.
