CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Pioneer Irrig. Dist.

A63-00224 etc

✓ has main maps with boundaries

A63-02275 Pln $\approx$ 34,000 acres but does not totally agree with maps in A63-00224 (for example - lots of Caldwell is left out of d'base in A63-02275).

Need something in d'base to let people know that land list is subject to change.

Add remarks ?

Pln list is subject to change per review. See A63-00224 for complete boundaries of irry district as shown on 3 maps.

Can S.A. do this to simplify database updating?

Thanks,

JZ

JUL 1 1983

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Department of Water Resources
Western Regional Office

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that

SUBCASE 63-05200**

The Director's Report incorrectly identifies the second point of diversion as T04N R02W S34 NESE, Canyon County. The correct second point of diversion is T04N R02W S34 SENE, Canyon County.

**ATTACHMENT 3 TO
STANDARD FORM 1 – OBJECTION
SUBCASE 63-05200**

Reasons Supporting Objection(s)

Name and Address:

The Director's Report incorrectly identifies the zip code as 83605. The correct zip code is 83606.

Quantity:

The claimed quantity of 3.8 cfs should be recommended in full, based upon historic diversion, delivery, and use by the Pioneer Irrigation District through its system of canals and laterals. Additionally, there is no legal basis for inclusion of the volumetric limitation.

Point(s) of Diversion:

As indicated in the claim, there are two (2) distinct points of diversion for this water right, both having been historically used by Pioneer since at least the 1950's.

Purpose of Use and Period of Year:

The claimed quantity of 3.8 cfs should be recommended in full, based upon historic diversion, delivery, and use by the Pioneer Irrigation District through its system of canals and laterals. Additionally, there is no legal basis for inclusion of the volumetric limitation.

Water Right Nos. 63-5200, 63-5237, 63-21713, and 63-5219
MTBR&F File No. 18946.6

Dear Dave:

Pursuant to your request at our meeting on August 4, 2006, Pioneer has consulted with ERO Resources to have certain water measurements taken relative to water right nos. 63-5200, 63-5237, 63-21713, and 63-5219. Enclosed you will find an original of the report titled "Discharge Measurement for Pioneer Irrigation District," dated October 17, 2006. This report identifies measurements for each of the respective diversions under water rights 63-5200, 63-5237, 63-21713, and 63-5219.

Thank you for your assistance in this matter. If you have any questions, please do not hesitate to contact me. In the event I am unavailable, please contact my paralegal, Tiffany Hudak, at 385-5435.

Very truly yours,

Scott L. Campbell

**DISCHARGE MEASUREMENTS
FOR
PIONEER IRRIGATION DISTRICT**

OCTOBER 17, 2006

At the request of Mr. Scott Campbell of Moffatt Thomas Barrett Rock & Fields, Chtd, representatives of ERO Resources Corp. measured the discharge of five diversions operated by Pioneer Irrigation District.

1. **Johnson Well** (Reference Water Right No. 63-5200) located in the NE1/4NE1/4SE1/4 Section 34, T4N R2W). **Discharge = 3.51 cfs.** (Note that the legal description differs from the claimed location. The GPS plotted location is very close to the boundary line between the NE and SE quarters of this section. The GPS receiver used for this measurement is not survey grade and is accurate to a few 10's of feet. However, unless a legal survey plat, deeds or easements or other information is available to indicate that the location as claimed is correct, the GPS location or both locations should be listed on the claim.)
2. **Brandt Well** (Reference Water Right No. 63-5200) located in the SW1/4NW1/4 Section 1, T3N R2W. **Discharge = 4.05 cfs.**
3. **Indian Creek Diversion** (Reference Water Right No. 63-5237 located in the NW1/4NE1/4SW1/4 Section 26, T4N R3W. **Discharge = 21.9 cfs.** (Note that the GPS reading taken at the site matches that listed on the claim, but the location is very near the corner common to four 40-acre parcels. Without a survey, the location is not certain, but the available information indicates that the description listed on the claim is correct.)
4. **Pipe Gulch Draw Diversion** (Reference Water Right No. 63-21713) located in the NW1/4NW1/4 Section 27, T4N R4W. **Discharge = 11.2 cfs.**
5. **Indian Creek Pump Diversion** (Reference Water Right No. 63-5219) located in the SE1/4SW1/4NE1/4 Section 22, T3N R2W. **Discharge = 18.4 cfs**

The discharge from the Johnson Well was measured on October 13, 2006, using an ultrasonic meter (Polysonics Model DCT 7088, serial no. 33508) attached to the pipe leading from the pump to open discharge into a concrete stilling basin. The location of the measurement and the installation of the transducers are shown in Photograph No.1 (Attachment 1). The unobstructed length of the 10-inch diameter pipe was less than

needed to fully comply with the recommendations for use of the polysonic meter. The discharge pipe flowed full when the pump was initially started, but the flow had to be impeded at the discharge to create pipe-full discharge after the pump had been operating for about 15 minutes. The meter showed a discharge of 1790 to 1850 gpm (about 4 cfs). However, the meter reading was not stable and the signal strength was less than recommended. For these reasons, the well discharge was then measured using a current meter at a point in the Miller Lateral just downstream from the stilling basin. The discharge from the well was the only flow in the lateral. This measurement indicated the pump was discharging 3.51 cfs. Because of the variability of the readings of the Polysonic meter, the current meter measurement is the more reliable estimate of the discharge. The discharge measurement notes and current meter record are included in Attachment No. 1.

The discharge into Graves Branch Lateral from the Brandt Well was measured on October 13, 2006, using a Badger Meter (No. M0646708 installed in an 8-inch diameter PVC pipe) was attached to the discharge pipe from the well using a canvas bag (See the photograph included in Attachment No. 2). The discharge was monitored until the well discharge stabilized. The meter indicated that the well was discharging 1000 gallons in 33 seconds (1818 gpm) or 4.05 cfs.

The discharge of the diversion from Indian Creek was measured on October 13, 2006, using a current meter in a section of the diversion channel leading from Indian Creek to the concrete check structure at the head end of the buried pipeline. Photographs included in Attachment No. 3 show the diversion and the current meter measurement sites. This measurement indicated the flow being diverted was 21.9 cfs. The discharge measurement notes and current meter records are included in Attachment No. 3.

The discharge of the diversion from Pipe Gulch Creek was measured on October 13, 2006, at a location in the diversion ditch about 30 feet downstream from the head gate controlling flow into the ditch. This measurement indicated the flow being diverted was 11.2 cfs. The discharge measurement notes and current meter records are included in Attachment No. 4.

The discharge of the Indian Creek Pump was measured on September 19, 2006, on the 22-inch diameter steel discharge pipe outside of the pump house. The discharge

was measured with a Polysonics Model DCT 7088 transit time sonic meter, serial no. 33508. The location of the measurement and the installation of the transducers are shown in the photograph included in Attachment No. 5. The meter showed a discharge of 8,250 gpm or 18.4 cfs.

MTBR&F File No. 18-946.6

Dear Dave:

In response to your correspondence dated February 21, 2006, wherein you request additional information regarding the priority date and historic use of several of Pioneer Irrigation District's water rights, I am enclosing documentation sufficient to establish the priority dates of water right nos. 63-5219 and 63-21714, as follows:

63-5219

Pioneer asserts a priority date of May 1, 1961 for this water right. Enclosed is an electric service agreement between Pioneer and Idaho Power, dated August 1, 1961, for Pioneer's pump in Indian Creek. The agreement identifies a "point of delivery of power . . . where the Company's wires or apparatus are connected with those of the Customer" which matches the existing point of diversion (township, range & section) as claimed.

63-21714

Pioneer asserts a priority date of October 3, 1963 for this water right. Enclosed please find a well driller's log showing a well completion date of March 29, 1963. Also enclosed is a copy of a letter from Pioneer's Secretary/Treasurer, Naida Kelleher, wherein Ms. Kelleher indicates that she has paid the power bill on an annual basis continuously since 1987.

Please note that as previously indicated, we are in the process of reviewing Pioneer's historical documentation and will respond to your request for proof establishing the priority dates of

Re: Evidence of Priority Date

Dear Claimants:

RESPONSE DEADLINE
MARCH 21, 2006

The Notices of Claim to a Water Right (claim) identified with the numbers shown above your name have been filed in the Snake River Basin Adjudication (SRBA). The claims indicate your water usage is based on "Beneficial Use." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. Since the priority date and historic use of a beneficial use right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of the irrigation district's claims and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: IDWR will recommend the SRBA Court decree the claim disallowed if no evidence of the priority date and of the historic use is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.

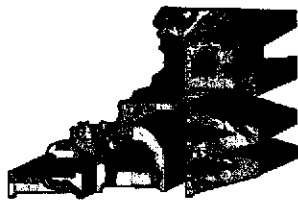

Sincerely,

David R. Tuthill, Jr.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte

RE: Snake River Basin Adjudication (SRBA)
Change in Notice of Appearance of Counsel on the Snake River
Basin Adjudication Claims for Owen Ranches, Pioneer
Irrigation District and Settlers' Irrigation District

Dear Scott:

Following your letter request to David Shaw of December 10, 1993, attached is an adjudication report denoting the claims filed by your clients referenced above that have been changed. We have also updated water right 57-00040 for Pioneer Irrigation as you requested.

Please note water rights claims showing Richard L. Owen as claimant were not changed in our database. You may wish to file another Notice to the court if you are representing Richard L. Owen as well as Owen Ranches, each of whom have filed claims as if they were unrelated parties.

Call me if you have questions.

Sincerely,

Donald V. Shaff

Dear David:

This correspondence is to notify the Department of my change of address and affiliation. I am presently a shareholder with the law firm Elam & Burke at the following address:

Scott L. Campbell
Elam & Burke
P.O. Box 1539
702 West Idaho, Floor 10
Boise, Idaho 83701

Attached please find the computer records the Department of Water Resources provided me with as confirmation of the change in firm affiliation I made prior to this move. In addition to these, Pioneer Irrigation District has filed an
