PIONEER Irving. Dist.

A63-00224 etc

~ has more maps with boundaries

A63-02275 P/L $\approx$ 34,000 acres but does not totally agree with maps in A63-00224 (for example - lots of Caldwell is left out of d'base in A63-02275).

Need something in d'base to let people know that land list is subject to change.

Add remarks ?

P/L list is subject to change per review. See A63-00224 for complete boundaries of Irving district as shown on 3 maps.

Can S.A. do this to simplify database updating?

Thanks,

JL

- Describe the changes you wish to make in the proposed recommendation:

Place of Use: Increase the number of irrigated acres to 34,204.61.

Place of Use: Remove the following remark: "The right when combined with Right Nos. 63-161BU, 63-166A, 63-167A, 63-179A, 63-224, 63-225, 63-294, 63-295, 63-371, 63-2114, 63-2275, 63-2276, 63-2294, 63-2529, 63-2891, 63-5199, 63-5200, 63-5219, 63-5237, 63-5255, 63-9109, 63-21706, 63-21713, 63-21714, 63-21731 and 63-21739 can be used to irrigate up to 24,555.8 acres within the boundary of the Pioneer Irrigation District."

- Give a brief explanation as to why you disagree with these portions:

Place of Use: This water right is used within the service boundaries of the Pioneer Irrigation District, which total an amount of 34,204.61 irrigated acres, and should not be limited to the irrigation of 24,556 acres.

Place of Use: There is no legal basis for inclusion of remark.

 I AGREE with this proposed recommendation: no changes need to be made.

Re: Pioneer Irrigation District / Water Right Nos. 63-5219 and 63-21714
MTBR&F File No. 18-946.6

Dear Dave:

In response to your correspondence dated February 21, 2006, wherein you request additional information regarding the priority date and historic use of several of Pioneer Irrigation District's water rights, I am enclosing documentation sufficient to establish the priority dates of water right nos. 63-5219 and 63-21714, as follows:

63-5219

Pioneer asserts a priority date of May 1, 1961 for this water right. Enclosed is an electric service agreement between Pioneer and Idaho Power, dated August 1, 1961, for Pioneer's pump in Indian Creek. The agreement identifies a "point of delivery of power . . . where the Company's wires or apparatus are connected with those of the Customer" which matches the existing point of diversion (township, range & section) as claimed.

63-21714

Pioneer asserts a priority date of October 3, 1963 for this water right. Enclosed please find a well driller's log showing a well completion date of March 29, 1963. Also enclosed is a copy of a letter from Pioneer's Secretary/Treasurer, Naida Kelleher, wherein Ms. Kelleher indicates that she has paid the power bill on an annual basis continuously since 1987.

Please note that as previously indicated, we are in the process of reviewing Pioneer's historical documentation and will respond to your request for proof establishing the priority dates of

If you have any questions, please do not hesitate to contact me. In the event I am unavailable, please feel free to contact my paralegal, Tiffany Hudak. She can be reached at 385-5435.

Re: Evidence of Priority Date

Dear Claimants:

RESPONSE DEADLINE
MARCH 21, 2006

The Notices of Claim to a Water Right (claim) identified with the numbers shown above your name have been filed in the Snake River Basin Adjudication (SRBA). The claims indicate your water usage is based on "Beneficial Use." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. Since the priority date and historic use of a beneficial use right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of the irrigation district's claims and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: IDWR will recommend the SRBA Court decree the claim disallowed if no evidence of the priority date and of the historic use is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.

Sincerely,

After considerable discussion the Councilmen agreed to furnish as much water as possible by opening a fire hydrant into the ditch, the City and District to share equally the extra cost for power and labor made necessary by running the pumps extra time. The Councilmen also gave the Board to understand that where citizens used city water judiciously to irrigate no charge would be made for extra water so used.

The Board also agreed to patch the leaks in such cement ditches as were constructed by the District.

Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Re: Water Rights and Diversion Points

Dear Russ:

This letter is faxed as requested for your November 5 meeting and will also be mailed to you. We toured part of your irrigation system last week and discussed issues related to your diversion points. I completed some water right research after our visit and found the story is more complex than I originally thought.

Caldwell Lateral Irrigation District (CLID) obtains irrigation water from Pioneer Irrigation District (PID). I understand CLID recently converted to a pressurized distribution system, which resulted in some changes to the way in which you obtain water from PID. The following information discusses our field visit to three diversion sites.

Site #1 – Pump Station on Indian Creek at 6th and Blaine

This pump station has been used but is now idle due to changes in your system. You expressed an interest in possible resumption of use of the pump station. PID has water right no. 63-5255 to divert 2.17 cubic feet per second (cfs) from this Indian Creek diversion located in the SW ¼ of Section 22, T4N, R3W. No other water rights are found to divert water from the creek in this area.

Prior to our visit, I assumed PID held various water rights from Indian Creek and that each water right listed all the PID diversion points. Such an arrangement suggests that idling a given diversion point would not necessarily jeopardize any given water right. This is because a given water right could be fully diverted from any combination of diversion points under my previously mentioned assumption, allowing a single diversion point to remain unused without jeopardizing the water right in question. But a situation in which a diversion point is only described by one water right with a single diversion point is a different case. In such a case, non-use of the diversion implies non-use of the single water right authorized to be diverted at that point.

The water right in that case might be subject to forfeiture if non-use continues for more than five consecutive years and a defense to forfeiture does not exist. Your ability to use the Site #1 pump station might be compromised because only one water right with a single diversion point is found. However, the situation might also be interpreted in other ways under the broader umbrella of PID water rights. You might benefit from discussing this with PID and seeking written clarification from PID protecting your future use of this diversion point. For example, PID might amend its Snake River Basin Adjudication (SRBA) claims for Indian Creek water to list all diversion points on each Indian Creek water right. Alternately, PID might provide some other feasible explanation for legal protection to use this pump station after five years of non-use (commingling of water, redirection points etc.). PID retains a very experienced and highly skilled attorney who might shed more light on this than I can.

Site #2, Pump Station for Ground Water near 5th and Paynter

The second site located in the NE ¼ of Section 28, T4N, R3W hosts a shallow ground water diversion system west of Paynter. The diversion is not a drilled well. You said the pump is set at about 30 feet below land surface if I remember your comments correctly. This of course is not Indian Creek water supplied by PID.

The City of Caldwell holds three water rights to divert ground water in the NE ¼ of Section 28 for municipal and irrigation uses. Those rights include nos. 63-5053, 63-8299 and 63-11259 covering drilled wells east of Paynter.

The ground water diversion at Site #2 is not protected by a water right recognized by the Idaho Department of Water Resources (IDWR). Use of this diversion without a recorded water right would be an illegal diversion of water. The City and/or CLID should abandon this diversion point if it will not be used in the future. The City and/or CLID should obtain water right protection for this diversion if it will be used in the future. One of two ways to secure water right coverage can be used.

One, file a *SRBA Claim* if the ground water use started before March 25, 1963 (cutoff date for "grandfather rights" from ground water). This would protect the older priority (seniority) date of this diversion. Two, file an *Application for Permit* for a new water right if use started on or after March 25, 1963. The older priority date could not be protected in that case since it started after the cutoff date for "grandfather rights", but a new right with a new priority date could be established.

Once water right coverage for this diversion is recognized by IDWR, the City and/or CLID could act to protect future use of the pump station. I can discuss those options with you in more detail later.

Site #3, Diversion Ditch from Indian Creek Southeast of Chicago and 21st

CLID diverts its PID water from Indian Creek at this location in the SW ¼ of Section 26, T4N, R3W. The ditch delivers water to your pump station located near your office. PID holds water right no. 63-5237 for 16.0 cfs for this diversion. CLID does not need to address any water right issues associated with this diversion from the creek.

IDWR forms to file a SRBA Claim or an Application for Permit are available from the Internet as noted in the enclosed information. I hope this letter provides adequate information for your upcoming meeting. Please let me know if you need more information in this regard.

RE: Snake River Basin Adjudication (SRBA)
Change in Notice of Appearance of Counsel on the Snake River
Basin Adjudication Claims for Owen Ranches, Pioneer
Irrigation District and Settlers' Irrigation District

Dear Scott:

Following your letter request to David Shaw of December 10, 1993, attached is an adjudication report denoting the claims filed by your clients referenced above that have been changed. We have also updated water right 57-00040 for Pioneer Irrigation as you requested.

Please note water rights claims showing Richard L. Owen as claimant were not changed in our database. You may wish to file another Notice to the court if you are representing Richard L. Owen as well as Owen Ranches, each of whom have filed claims as if they were unrelated parties.

Call me if you have questions.

Sincerely,

Donald V. Shaff
