Case No. 39576

Subcase No. 37-00895

**MOTION TO FILE LATE OBJECTION AND
REQUEST FOR EXPEDITED HEARING**

COMES NOW Sinclair Oil Company, dba Sun Valley Company (hereinafter
"SVC"), by and through its undersigned counsel of record, MOFFATT, THOMAS, BARRETT, ROCK
& FIELDS, CHTD., and pursuant to Idaho Rules of Civil Procedure 7 and 55(c), and
Administrative Order 1 ("AO1") Sections 4(d)(2)(d), (k), hereby files this Motion to File Late
Objection to water right no. 37-00895. This motion is supported by the affidavit of Andrew J.
Waldera filed contemporaneously herewith. Further, SVC requests an expedited hearing on this

**MOTION TO FILE LATE OBJECTION
AND REQUEST FOR EXPEDITED HEARING - 1**

Client:906252.1

Motion pursuant to AO1 Section 6(f)(2), and has accordingly sent a copy of this motion and its supporting documents to all parties listed in the Court's current *Certificate of Mailing for Expedited Hearings*.

I. BACKGROUND

On November 14, 2007, Tom O'Gara, John F. Stevenson, Bill Molyneux, Pete Van Der Meulen, Grace Eakin, Rocky Sherbine, Gerald Bashaw, Pepin Corso-Harris, and the Big Wood Canal Company (hereinafter the "Concerned Water Users") filed objections to multiple water rights, which included several water rights held by SVC. Affidavit of Andrew J. Waldera ("Waldera Aff.") at ¶ 4. Big Wood Canal Company's objections, like those of the other Concerned Water Users, specifically included water right nos. 37-00415, 37-00416, 37-04108, and 37-12111 (hereinafter the "Water Rights") held by SVC. *Id.* However, neither SVC nor its legal counsel were served with notice of Big Wood Canal Company's objections to the Water Rights, and it was not until December 5, 2007, that SVC's legal counsel became aware of Big Wood Canal Company's objections following a conversation with Jim Speck, a Ketchum, Idaho-based attorney whose clients were also affected by Big Wood Canal Company's objections. *Id.* at ¶¶ 5-6.

Big Wood Canal Company objected to various elements of the Water Rights on the following grounds:

Combined use of this right along with other rights from the same place of use should be limited to one inch or 0.02 cfs per acre, rather than the quantities in the recommendation.

Total volume of water delivered to the property from all water rights shall not exceed 3.5 AF per acre.

Under Idaho Code 42-1501, aesthetic, wildlife and recreation are not beneficial uses authorized by the Idaho legislature or

Constitution to be held in the name of private entities. If such uses are allowed, the right cannot carry a priority date earlier than the first date that the legislature authorized that beneficial use to be held by a private party.

Id. at ¶ 7. The objection period for Basin 37 ended on November 14, 2007, the same day Big Wood Canal Company and the Concerned Water Users filed their objections. *Id.* at ¶ 8.

Concerned with potential law of the case ramifications, SVC's counsel immediately prepared and filed responses to each of the objections filed by the Big Wood Canal Company and the other Concerned Water Users. *Id.* at ¶ 9. After timely completing and filing said responses, counsel for SVC then turned its attention to the review of the water rights held by Big Wood Canal Company to determine if its water rights are subject to any of the same objections raised by it, or others. *Id.* at ¶ 10.

SVC's legal counsel has diligently conducted this process of addressing any issues involving the Water Rights and Big Wood Canal Company's water rights over the past four (4) months since becoming aware of Big Wood Canal Company's objections.¹ Understandably, this water right review process is laborious, and ongoing. Counsel for SVC is still awaiting the receipt of two water right back files that are not currently available on the Idaho Department of Water Resources' website. *Id.* at ¶ 11. However, and despite the ongoing nature of this process, SVC presently desires to object to those Big Wood Canal Company water rights for which it has received back files in order to avoid any further delay in presenting these objections. Attached hereto as Exhibit A is the proposed objection SVC wishes to file in the present subcase.

¹ As previously noted, this process has not been limited to review of only the Big Wood Canal Company's water rights, but included the review of all water rights held by the Concerned Water User group. Review of this volume of water rights has taken some time to complete.

II. ARGUMENT

A. The Legal Standard For Filing A Late Objection Is Lenient

In light of the facts and circumstances in this case, SVC seeks an order from the Court granting it leave to file this present collection of late objections (those Big Wood Canal Company's water rights for which SVC currently has back files). In his *Order on Motion to Set Aside Partial Decrees and File Late Objections*, Subcase Nos. 65-07267, *et al.* (Jan. 31, 2001) ("*A.L. Cattle*"), Presiding Judge Burdick succinctly explained the standard governing motions to file late objections as follows:

In subcases for which partial decrees have not been entered, the legal standard for filing a late objection to a water right claim in the SRBA has been historically determined pursuant to the standard set forth in *AOI* for filing late claims since *AOI* does not expressly provide a standard for reviewing late objections. A motion to file a late claim is determined pursuant to I.R.C.P. 55(c), which provides the standard for setting aside the entry of a default. *See AOI* § 4d(2)(d) (late claims reviewed under I.R.C.P. 55(c) criteria) and (k) (leave to amend a notice of claim shall be freely given when justice so requires). In determining whether to set aside the entry of a default under I.R.C.P. 55(c), Idaho Courts apply a "good cause" for untimeliness standard. I.R.C.P. 55(c). The "good cause" standard is a more lenient threshold than the Rule 60(b) standard. *McFarland v. Curtis*, 123 Idaho 931, 935, 854 P.2d, 274 (1993). The I.R.C.P. 55(c) standard takes into account the following factors:

- 1) whether the default was willful;
- 2) whether setting side the judgment would prejudice the opponent; and
- 3) as with a Rule 60(b) motion, whether a meritorious position has been presented.

A.L. Cattle at 6-7.

Importantly, this Court has significant discretion to grant a motion to file a late objection, and its decision will not be reversed on appeal unless an abuse of discretion clearly

appears. *Memorandum Decision and Order on Challenge*, Subcase Nos. 47-16433, *et al.*, at 9 (J. Melanson, Mar. 22, 2005) (“*Bedke I*”). And, in doubtful cases, relief should be granted to reach a judgment on the merits. *Bedke I* at 10. This is because default judgments are disfavored. *A.L. Cattle* at 8.

B. SVC’S Motion Satisfies The Standard For Filing A Late Objection

1. The Delay Is Not Willful

SVC’s submission of its objections after the deadline is not “willful,” as the term is defined by this Court. This Court has stated that “willful” means “intentional, knowing, or voluntary.” *Bedke I* at 12. In addition, “willful” requires a higher degree of culpability than mere negligence or carelessness. *Id.* In order to find that any delay on behalf of SVC was willful, this Court must find that SVC had prior reason to investigate and review the elements of Big Wood Canal Company’s water rights, that SVC has been aware of the grounds for objecting to Big Wood Canal Company’s water rights, and that SVC has purposefully failed to act. In this case, the Affidavit of Andrew J. Waldera clearly shows that SVC’s delay in objecting was not willful. As stated, Big Wood Canal Company filed its objections on the final day of the objection period, and neither SVC nor its counsel was served with notice of said objections. Since discovering that Big Wood Canal Company filed objections affecting its Water Rights, SVC has diligently worked, and continues to diligently work, to prepare objections to the water rights held by Big Wood Canal Company and the other Concerned Water Users that fail to withstand the grounds of the objections they themselves assert, among others. SVC has not willfully delayed setting forth its objections. To the contrary, SVC has worked quickly in presenting this current collection of objections.

2. Allowing SVC's Late Objections Would Not Prejudice The Concerned Water Users Or Any Third Parties

Allowing SVC to file its late objections would not prejudice Big Wood Canal Company or any other third parties. The current proceeding is in its early stages, and, accordingly, no initial hearings have been scheduled, no schedule for trial has been entered, and no settlements between the parties have occurred.² Waldera Aff. at ¶ 12. Moreover, by objecting to SVC's Water Rights on grounds including duty of water and the propriety of particular categories of beneficial uses, Big Wood Canal Company has subjected its water rights to similar scrutiny from SVC and others, and should have reasonably anticipated the need to defend its rights accordingly.

Given the nascent posture of these proceedings, granting SVC's proposed late objections will not amount to the prejudicial relitigation of the subject rights. *See, e.g., Order Granting Motions to File Late Objections in Subcases 51-11921, 51-11925, and 51-11936, Subcase Nos. 51-11891, et al.*, at 13 (Mar. 13, 2002). Further, this Court has held that some prejudice alone is not a sufficient basis to deny a late objection. *Bedke I* at 13-14. As such, it is unlikely that Big Wood Canal Company would suffer any material prejudice as a result of allowing SVC's late objections.

3. SVC's Objections Present Meritorious Positions

The grounds supporting SVC's objections are meritorious legal positions under Idaho water law. The "meritorious position" standard simply requires that the late objector

² However, a hearing has been set for consideration of SVC's prior motions for late objections regarding water rights held by the other Concerned Water Users on July 2, 2008. This motion will be noticed for the same hearing in order to further streamline this process, and so that all of SVC's motions for late objection implicating the water rights held by the Concerned Water Users can be addressed at one time.

allege sufficient facts that, if established, would allow that objector to prevail. *See A.L. Cattle* at

6. SVC objects to Big Wood Canal Company's water rights on various grounds including that the water rights: 1) exceed the statutory allotment of one inch per acre, 2) contain marked discrepancies between various claims and recommendations regarding points of diversion and places of use, and/or 3) that the place of use is not sufficiently described as required by law.

Each of the foregoing grounds for objection represent valid concerns that must be considered in order to properly adjudicate these water rights.

Based on the valid objections set forth by SVC, and the supporting facts outlined in its proposed objections, SVC has presented meritorious positions for objecting to this present collection of Big Wood Canal Company's water rights because such facts, if proven, would require the revision, or outright denial of certain water rights held by Big Wood Canal Company.

III.

CONCLUSION AND PRAYER FOR RELIEF

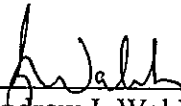

For the foregoing reasons, SVC respectfully requests that the Court grant its Motion to File Late Objections and accept the objection attached hereto as Exhibit A.

REQUEST FOR EXPEDITED CONSIDERATION

SVC respectfully requests the Court to consider this Motion on an expedited basis.
