9/6/06 This POD comes off the forest service ground. She received three special use permits in Oct, 1983, which is well after the 1971 mandatory permit statute of May 20, 1971. We can't have an enlargement to a B.U. claim either. So I will have to see what evidence is submitted during the mandatory permit. Notice of Error period. CB.

Collection box, sprinkler system? Was that installed when the USFS Special Use permit was issued?
